GENERAL SUMMARY.—During the week under review rain fell in Burdwan, Midnapore, Gaya, Balasore, Angul, Sambalpur and in all the districts of the Presidency Division except Murshidabad. The fall was moderate in parts of Burdwan and Midnapore and light elsewhere. Planting of sugarcane and harvesting of oilseeds and other *rabi* crops continue. Preparation of lands for the next *bhadoi* crops have commenced in some districts, but more rain is wanted for the purpose in Jessore. The standing *rabi* crops are doing well. The price of common rice has risen in Hooghly, Murshidabad, Saran, Darbhanga, Angul, Hazaribagh, Palamau and Manbhum and has fallen in Howrah, Jessore, Patna and Monghyr. Cattle disease prevails in Midnapore, the Sonthal Parganas, Angul, Puri, Hazaribagh, Palamau and Singhbhum. Fodder is reported to be getting scarce in parts of the Sonthal Parganas. The supply of water is sufficient throughout the Province.

No. 577M.—The 14th March 1911.—In exercise of the power conferred by sub-section *(1)* of section 567 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), the Lieutenant-Governor is pleased to make the following rules to regulate the erection and re-erection of buildings, in further amendment of Schedule XVII to that Act as amended by Notifications No. 543M., dated the 5th March 1910 (published at page 30 of Part IB of the *Calcutta Gazette* of the 9th *idem*), No. 164T.M., dated the 30th April 1910 (published at page 58 of Part IB of the *Calcutta Gazette* of the 4th May 1910) and No. 1078T.M., dated the 24th October 1910 (published at page 167 of Part IB of the *Calcutta Gazette* of the 26th *idem)* :—

After rule 29A insert the following:—

Open space for loading or unloading carts.

29B *(1)*. Every building of the warehouse class must have attached thereto, for the accommodation and passage of carts used for the loading or unloading of goods, an open space, belonging exclusively to the building, of such size as the Chairman may consider sufficient, regard being had to the dimensions of the building and the nature and extent of the business to be carried on therein:

Provided that, if the Chairman considers that any interior courtyard, or any open space provided in pursuance of rule 24, is sufficient for the accommodation and passage of such carts, no separate space need be provided under this rule.

(2) No structure which would impede the passage of such carts shall be erected within or above, or so as to project over, any open space provided under this rule.

Part VA.—Public buildings.

Application of Part IV to public buildings.

29C *(1)*. The provisions of rules 20, 20A, 20B, 20C, 22, 23, 24, 25, 25A and 26, as to domestic buildings, shall have effect in the case of public buildings.

(2) The provisions of rules 17, 18 and 21, as to dwelling-houses, shall have effect in the case of any public building which is constructed, used or adapted to be used wholly or principally for human habitation, or as a school, college or place of instruction.

Use of incombustible or fire-resisting materials.

29D. The floors of the lobbies, corridors, passages and landings of a public building must be constructed of incombustible materials, the doors must be constructed of fire-resisting materials, and the flights of stairs must be constructed either of incombustible materials or of fire-resisting materials.

Materials to be deemed incombustible.

29E. The following materials shall, for the purposes of rule 29D, be deemed to be incombustible, namely :—

(1) brick-work constructed of good bricks, well-burnt, hard and sound, properly bonded and solidly put together with—

(a) good mortar compounded of good lime and sharp clean sand, hard clean broken brick, broken flint, grit or slag well pulverized, or

(b) good cement mixed with any of the materials mentioned in clause (a), or

(2) granite and other stone which is suitable for building purposes by reason of its solidity and durability,

(3) iron, steel and copper,

(4) slate, tiles, bricks and terra-cotta, when used for coverings or corbels,

(5) flag-stones, when used for floors over arches, if not exposed on the underside and if not supported at the ends only,

(6) concrete, composed of—

(i) broken brick, stone chippings or ballast, and lime concrete or calcined gypsum—when the concrete is used for filling-in between joists of floors to a depth of less than five inches, or

(ii) properly burned coke breeze, free from dust and organic impurities, and good cement, in the following proportions, namely, five parts of coke breeze to one part of good cement mixed together with clean water—when the concrete is used for filling-in between the joists of floors to a depth of five inches or more, and

(7) any material approved in this behalf from time to time by the General Committee.

Materials to be deemed to be fire-resisting but not incombustible.

29F. The following materials shall, for the purposes of rule 29D, be deemed to be fire-resisting, but not incombustible, namely :—

(a) sâl, teak and other hard timber, when used for beams or posts or in combination with iron, the timber and the iron (if any) being protected by plastering in cement or other incombustible or non-conducting external coating,

(b) in the case of doors, sâl, teak or other hard timber not less than two inches thick, and

(c) in the case of staircases, sâl, teak or other hard timber, the treads and risers being not less than one inch and a half thick.

Walls for staircases.

29G. The walls supporting or enclosing any staircase in a public building must be of masonry and not less than ten inches thick.

Uniformity in treads and risers in staircases.

29H. The treads and risers of each flight of stairs in a public building must be of uniform width.

Width of staircases, internal corridors and passage-ways.

29J. (1) No staircase, internal corridor, or passage-way in a public building shall be less than six feet wide:

Provided that, where not more than two hundred persons are to be accommodated in any public building, any staircase, internal corridor or passage-way may be of any width not less than three feet six inches.

(2) Every staircase, internal corridor, or passage-way in a public building, which communicates with any portion of the building intended for the accommodation of more than four hundred persons, must be wider than six feet by six inches for every hundred persons over four hundred, subject to a maximum width of nine feet.

(3) Notwithstanding anything contained in sub-rules (1) and (2), instead of a single staircase, corridor or passage-way of the width prescribed by sub-rule (2), there may be two staircases, corridors or passage-ways, each being of a width equal to at least two-thirds of the width so prescribed.

Division of wide staircase by hand-rail.

29K. If the width of any staircase in a public building is eight feet or more, the staircase must be divided by a hand-rail.

Separate means of exit from floors on different levels.

29L. If some of the persons accommodated in a public building are placed on a higher floor than others, separate means of exit, of the width prescribed by sub-rule (1), sub-rule (2) or sub-rule (3), as the case may be, of rule 29J, and communicating directly with a public street or an open space, must be provided for each floor:

Provided that this rule shall not apply to a hotel, lodging-house, home, refuge or shelter.

Doors and barriers to open outwards.

29M. All doors and barriers in a public building must be made to open outwards, and no outside locks or bolts shall be affixed thereto.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Act, passed by the Legislative Council of the Lieutenant-Governor of Bengal, received the assent of His Honour on the 21st February, 1911, and, having been assented to by His Excellency the Viceroy and Governor General on the 13th March, 1911, is hereby published for general information:—

BENGAL ACT No. II OF 1911.

An Act further to amend the Bengal Vaccination Act, 1880.

CONTENTS.

SECTION.

BENGAL ACT No. II OF 1911.

An Act further to amend the Bengal Vaccination Act, 1880. Ben. Act V of 1880.

WHEREAS it is expedient further to amend the Bengal Vaccination Act, 1880, in manner hereinafter appearing; It is hereby enacted as follows:—

Short title and local extent.

1. (*1*) This Act may be called the Bengal Vaccination (Amendment) Act, 1911; and

(*2*) It applies in the first instance only to—

(*a*) Calcutta, as defined in clause (7) of section 3 of the Calcutta Municipal Act, 1899, Ben. Act III of 1899.

(*b*) the port of Calcutta, and

(*c*) the Cossipore-Chitpur, Garden Reach, Howrah, Maniktola, South Suburban and Tollygunge Municipalities.

Power to extend Act.

2. (*1*) The Local Government may, by notification published in the Calcutta Gazette, declare its intention to extend this Act or any portion thereof to any town or selected area not mentioned in section 1, sub-section (*2*).

(*2*) Any inhabitant of any such town or area who objects to such extension may, within a period of six weeks from such publication, send his objection in writing to a Secretary to the Government of Bengal; and the Local Government shall consider all objections so sent.

(*3*) After the expiration of the said period, the Local Government, if no objections have been so sent, or if it considers that the objections so sent are insufficient, may, by a like notification, effect the proposed extension.

(*4*) The substance of every notification under sub-section (*1*) or sub-section (*3*) shall be proclaimed and notified in the vernacular, within the town or area affected, by such means and in such manner as the Local Government may direct.

Power to suspend Act.

3. The Local Government may, by notification in the Calcutta Gazette, suspend the operation of this Act in any place.

Amendment of section 2 of Bengal Act V of 1880.

4. After the definition of "public vaccinator" in section 2 of the Bengal Vaccination Act, 1880, the following shall be inserted, namely:— Ben. Act V of 1880.

"'Inspector' means a person authorized by the Superintendent of Vaccination to exercise all or any of the functions of an Inspector under this Act."

Repeal of portions of section 2.

5. The following words in section 2 of the said Act are hereby repealed, namely:—

(*1*) the words "or specially licensed by the Lieutenant-Governor to practise vaccination and grant certificates under the provisions of this Act", in the definition of "medical practitioner", and

(*2*) the word "either" and the words "or by inoculation", in the definitions of "unprotected child" and "unprotected person".

Amendment of section 3.

6. In section 3 of the said Act,—

(*1*) for the words "one year", in the first place in which they occur, the words "six months" shall be substituted, and

(2) the following words shall be repealed, namely:—

"or, if the child be at the time of its arrival less than one year old, within one year and three months after its birth; and the parent or guardian of every unprotected child living in such place at the date of this Act coming into force therein, and whose age at such date exceeds one year, but does not exceed fourteen years, shall, within six months from the said date."

Amendment of section 4.

7. In section 4 of the said Act,—

(1) for the words "the same day in the following week" the following shall be substituted, namely:—

"a day not less than seven or more than ten days";

(2) for the words "by the operator or by any person deputed for that purpose by the Superintendent of Vaccination" the following shall be substituted, namely:—

"by the operator (if a medical practitioner) or by an Inspector";

(3) for the words "and it shall be the duty of any public vaccinator who has vaccinated a child elsewhere than at a public vaccine-station to visit the child at the time and for the purpose above mentioned, whether he is requested to do so or not, unless the Superintendent of Vaccination has deputed some other person to act for such public vaccinator in this behalf" the following shall be substituted, namely:—

"and, when any public vaccinator has vaccinated a child elsewhere than at a public vaccine-station, an Inspector shall visit the child at the time and for the purpose above mentioned, whether he is requested to do so or not";

(4) for the words "the public vaccinator" the words "the Inspector" shall be substituted; and

(5) for the words "a public vaccinator" the words "an Inspector" shall be substituted.

Amendment of section 5.

8. In section 5 of the said Act,—

(1) for the words "public vaccinator," in both places in which they occur, the word "Inspector" shall be substituted, and

(2) for the words "three months," in both places in which they occur, the words "one month" shall be substituted.

Amendment of section 6.

9. For section 6 of the said Act the following shall be substituted, namely:—

"6. (1) If any Inspector or medical practitioner finds—

Procedure where child is found to have had small-pox or to be insusceptible of successful vaccination.

(a) that a child brought for vaccination has already had small-pox, or

(b) that a child who has been three times unsuccessfully vaccinated is insusceptible of successful vaccination,

he shall deliver to the parent or guardian of such child a certificate under his hand, according to the form in Schedule B hereto annexed or to the like effect.

(2) If the Superintendent is satisfied that such child has already had small-pox, or is insusceptible of successful vaccination, he shall endorse such certificate.

(3) Such endorsement shall operate as an exemption from liability to vaccination,—

(i) in case (a) in sub-section (1)—absolutely, and

(ii) in case (b) in that sub-section—for a period of twelve months.

(4) Upon the expiration of the said period, the parent or guardian of such child shall forthwith cause the child to be vaccinated again;

and, if an Inspector or a medical practitioner finds after two further unsuccessful vaccinations that the child is insusceptible of successful vaccination, he shall deliver to the parent or guardian a further certificate under his hand, according to the form of Schedule B hereto annexed, or to the like effect;

and, if the Superintendent of Vaccination be again satisfied that the child is insusceptible of successful vaccination, he shall endorse such certificate, and such endorsement shall operate as an absolute exemption from liability to further vaccination."

Amendment of section 7.

10. In section 7 of the said Act, for the words "Every public vaccinator or medical practitioner who shall have performed the operation of vaccination upon any child and shall have ascertained that the same has been successful," the following shall be substituted, namely:—

"When a public vaccinator or medical practitioner has performed the operation of vaccination upon any child, and an Inspector or such practitioner has ascertained that the same has been successful, such Inspector or practitioner, as the case may be."

Amendment of section 8.

11. In section 8 of the same Act,—

(1) for the words "public vaccinator," where they first occur, the word "Inspector" shall be substituted, and

(2) after the word "nor" the words "by any public vaccinator" shall be inserted.

Amendment of section 10.

12. In section 10 of the said Act, after the word "assistants" the words "or any Inspector" shall be inserted.

Amendment of sections 13A, 29A and 29B.

13. In sections 13A, 29A and 29B of the said Act, after the words "public vaccinator" the words "or Inspector" shall be inserted.

Amendment of sections 15, 16 and 33.

14. In sections 15, 16 and 33 of the said Act, after the words "public vaccinators," wherever they occur, the words "and Inspectors" shall be inserted.

Amendment of section 19.

15. In section 19 of the said Act, for the words "public vaccinator" the word "Inspector" shall be substituted.

Amendment of section 28.

16. In clause (a) of section 28 of the said Act, before the words "after vaccination" the words "to the operator (if a medical practitioner) or to an Inspector" shall be inserted.

Amendment of Schedule A.

17. In Schedule A to the said Act,—

(1) for the words "three months" the words "one month" shall be substituted, and

(2) for the words "Public Vaccinator" the word "Inspector" shall be substituted.

Amendment of schedule B.

18. For Schedule B to the said Act the following shall be substituted, namely:—

"SCHEDULE B.

(see section 6.)

I, the undersigned, hereby certify that , the child of , residing at , has already had small-pox

(or, as the case may be) ,

that I have (*or* a public vaccinator has) three times (*or* twice, *as the case may be*) unsuccessfully vaccinated , the child of , residing at ,

and I am of opinion that the said child is insusceptible of successful vaccination.

Dated this day of 19 .

(Signature of Medical Practitioner or Inspector.)

(Endorsement by Superintendent of Vaccination.)"

Amendment of Schedule C.

19. In Schedule C to the said Act,—

(*1*) after the words "by me" the words "(*or* by a public vaccinator)" shall be inserted, and

(*2*) for the words "Public Vaccinator" the word "Inspector" shall be substituted.

Amendment of Schedule E.

20. In Schedule E to the said Act,—

SYEDPUR TRUST ESTATE.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked:—

I.—(a) Will the Government be pleased to state whether the Rs. 2,08,092, shown as total receipts of the gross income of the Syedpur Trust Estate in the statement laid on the table at the meeting of the Legislative Council held on the 18th February, 1911, represents only the gross income of the zamindari, or whether it also includes the interest of the Trust Fund, called the Muhammadan Mohsin Fund Education Endowment Fund?

(b) Will the Government be pleased to lay on the table—

(1) the last year's consolidated account of all shares of the above Trust Fund, as maintained in the office of the Accountant-General, Bengal, and

(2) the last year's estimate of the Trust Fund, framed by—

(i) the Local Agents, Hooghly, as regards the Hooghly charges,

(ii) the Director of Public Instruction, as regards the Educational charges incurred in connection with Muhammadan education in Bengal, and

(iii) the Public Works Department of Government, as regards the construction and repairs of buildings, such as Mosques, Madrassas, etc?

The Hon'ble MR. CUMMING replied:—

"(a) The amount represents only the gross income of the zamindari known as the Syedpur Trust Estate.

(b) (1) A statement is laid on the table.

(b) (2) Column 8 of the budget estimates of the Mohsin Endowment Fund for the year 1909-10, which have already been placed on the table of this Council, furnishes the information required by the Hon'ble Member."

Statement referred to in the answer to Question No. I.

Owing to the increased expenditure on account of short-fee payments by Muhammadan students in the past two years, 1908-09 and 1909-10, amounting to Rs. 17,828 and Rs 24,135, respectively, the accounts closed with a deficit balance of Rs. 3,698-9-7, and if no contribution were given from the Provincial Revenues, the accounts for the year 1910-11 would close with a deficit balance of Rs. 9,000. In order to make good this deficit a special contribution of Rs. 9,000 has been made to the fund during 1910-11 on the understanding that the amount will be recovered durin the year 1911-12.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

II.—(a) Will the Government be pleased to state whether the annual reports of the administration of the Syedpur Trust Estate and the Trust Fund are published?

(b) If so, will the Government be pleased to lay on the table the last year's annual report?

The Hon'ble MR. CUMMING replied:—

"(a) Particulars regarding the administration of the Syedpur Trust Estate are included in the report on the Wards and Attached Estates which is annually submitted to Government by the Board of Revenue, L. P., and is available to the public. It has recently been decided that an abstract of the accounts of the Mohsin Endowment Fund as maintained in the office of the Accountant-General, Bengal, will be annually published in the Calcutta Gazette.

(b) For an account of the Mohsin Endowment Fund for the year 1909-10 the Hon'ble Member is referred to the answer to his question I (b) (1) above."

PATNA COLLEGIATE SCHOOL.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

III.—(a) Does the Government intend to remove the Patna Collegiate School from the hired house in which it is located?

(b) If so, will the Government be pleased to state what site, if any, has been selected for the purpose?

The Hon'ble MR. CUMMING replied :—

(a) "It is the intention of Government, when funds permit, to remove the Patna Collegiate School from the rented premises in which it is at present housed.

(b) No site has yet been definitely selected."

EXTENSION OF BENGAL ACT I OF 1876 (THE BENGAL MUHAMMADAN MARRIAGES AND DIVORCES REGISTRATION ACT, 1876.)

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

IV.—(a) Does the Government see any objection to extending Bengal Act I of 1876 to the districts of Patna and Muzaffarpur?

(b) If so, will the Government be pleased to state the objection?

The Hon'ble MR. CUMMING replied :—

"The Government have no objection to the extension of the Act to the districts of Patna and Muzaffarpur provided that a genuine desire exists amongst the Muhammadans of these districts to avail themselves of the provisions of the Act; but the experience in the other western districts of Purnea, Bhagalpur and Monghyr tends to show that this is very doubtful."

PROTECTION OF MUZAFFARPUR FROM FLOODS.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

V.—Will the Government be pleased to state whether any scheme for the protection of Muzaffarpur from flood is under the consideration of the Government?

The Hon'ble MR. BUTLER replied :—

"There is no scheme at present under consideration for the protection of Muzaffarpur from floods. A communication has very recently been received from the Commissioner of the Division on the subject, and it is under consideration."

CONSTRUCTION OF A RESIDENCE FOR THE COMMISSIONER OF THE TIRHUT DIVISION.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

VI.—Will the Government be pleased to state whether plans and estimates have been prepared for the construction of a residence for the Commissioner of the Tirhut Division ?

The Hon'ble MR. FINNIMORE replied :—

"Final plans and estimates have not yet been prepared."

PATNA MUNICIPALITY FLUSHING SCHEME.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

VII.—Will the Government be pleased to state the time by which work on the Patna Municipality Flushing Scheme will be taken up ?

The Hon'ble MR. WHEELER replied :—

"No definite time can at present be specified. The Sanitary Engineer has drawn up a rough project for a combined water supply and flushing scheme, at an estimated cost of Rs. 2,61,000, and the local Municipality is about to be addressed on the subject of his proposals."

ADMISSION OF MUHAMMADAN STUDENTS INTO THE MEDICAL COLLEGE.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

VIII.—Is it a fact that there has been no admission of Muhammadan students into the Calcutta Medical College during the last two years ?

The Hon'ble MR. WHEELER replied :—

"Admissions to the Medical College are made in June each year. The numbers of Muhammadan students admitted during 1909-10 and 1910-11 were *nil* and one, respectively."

THE CALCUTTA IMPROVEMENT BILL, 1911.

The Hon'ble Mr. Bompas presented a further Report by the Select Committee on the Bill to provide for the Improvement and Expansion of Calcutta.

He said :—

"Sir, I beg to present a further Report prepared by the Select Committee on the Bill for the Improvement and Expansion of Calcutta. I explained at the last meeting of this Council why the Select Committee had deemed it advisable to submit an *ad interim* report covering the whole of the Bill with the exception of the provisions relating to the levy of a tax on jute. The sanction of Government was subsequently received to the modification of the proposals relating to the levy of that tax. In place of an excise duty on raw jute consumed at the mills, it is non proposed to levy an export tax on manufactured jute exported from the port of Calcutta. The Select Committee have thereupon introduced the necessary modifications in Chapter V of the Bill and have embodied a few consequential amendments, and now submit a further and final report."

THE REVISED FINANCIAL STATEMENT, BENGAL, 1911-12.

The Hon'ble MR. Duke presented the Revised Financial Statement, Bengal, for 1911-12.

REVISED FINANCIAL STATEMENT, BENGAL, 1911-12.

FINANCIAL DEPARTMENT.

FINANCE.

CALCUTTA, THE 11TH MARCH 1911.

MEMORANDUM.

IN accordance with rule 10 (4) of the rules for the discussion of the Financial Statement, published with Notification No. 4033 F., dated the 28th December 1909, the following memorandum is circulated indicating the alterations in the figures which have been made since the issue, on the 2nd instant, of the amended draft Financial Statement for 1911-12.

2. The following changes have been made under the orders of the Government of India:—

Revised Estimates, 1910-11.

RECEIPTS.

	Rs.	
V. Excise (Provincial share) ...	+1,00,000	In view of latest actuals.

CHARGES.

	Rs.	
45—Civil Works in charge of the Public Works Department ...	—1,00,000	The provision of Rs. 50,000 for the Monghyr Central Jail has been omitted since work will not be started during the current year. Rs. 50,000 has further been deducted here, in order to arrive at a nearer approximation to the probable Provincial balance of the year while avoiding a number of petty alterations proposed under several major heads.
Closing balance for 1910-11 ...	+2,00,000	

Budget Estimate, 1911-12.

RECEIPTS.

	Rs.	
V. Excise (Provincial share) ...	+75,000	In continuation of the increase in the Revised Estimate.

CHARGES.

	Rs.	
19—A. Courts of Law	+2,40,000	Enhanced expenditure on Counsels' fees is anticipated in connection with Political cases. The total provision under sub-head Legal Remembrancer and High Court Pleaders will now stand at Rs. 5,14,000.
24—Medical	+13,000	It is probable that a grant-in-aid for new buildings will be made during the year to the Lowis Jubilee Sanitarium, Darjeeling, and provision has been made accordingly.
43—Irrigation Minor Works and Navigation (Provincial share)	+11,000	This is on account of the Bagjola Drainage Scheme which is in progress. The Public Works Department surrendered Rs. 22,000 on this account during the current year, to be regranted during 1911-12.

CHARGES—*concld.*

	Rs.	
45—Civil Works in charge of Public Works Department ...	+1,70,000	The provision of Rs. 2 lakhs on account of the Monghyr Central Jail has been raised to Rs. 3,70.000 as the early completion of the work is desirable, and it is anticipated that progress can be made during the year to this extent.
Closing balance for 1911-12 ...	—1,59,000	

In other words the closing balance for 1911-12 will now stand at Rs. 85,77,000.

3. The Finance Committee of Council met on the 6th instant, and considered the proposed expenditure of Rs. 5,96,600 upon new Civil Works in charge of the Public Works Department as detailed on pages 20-22 of the notes accompanying the Revised Financial Statement, and in accordance with their recommendations the following changes have been made:—

	Rs.	
Lines for new Military Police in the neighbourhood of Calcutta ...	—25,000	It was considered that the provision of Rs. 1,75,000 might safely be reduced to this extent, as it is not probable that greater progress could be made with the work during the ensuing year.
Construction of quarters for Munsifs	+20,000	There was already a provision of Rs. 6,000 on this account in the Public Works Department Budget. This has been raised in order that more rapid progress may be made.
Contribution towards the construction of quarters for the Medical Officer at the Fraser Hospital, Burdwan...	+5,000	The total cost of the work is estimated at Rs. 15,000. Of this it is contemplated that Government will contribute Rs. 5,000.
Inspection bungalow, Danton ...	—6,700	This has been omitted as the need for it did not appear to be urgent.
Construction of quarters for a Sub-Deputy Collector, Asansol ...	+6,700	This work has been represented to be urgently required.

4. Since the circulation of the amended draft Financial Statement it has been found necessary to make a provision of Rs. 1 lakh for the construction of the new Civil Engineering College at Ranchi. It had been intended that this should be met from the special assignment of Rs. 12 lakhs from the Government of India on account of non-recurring expenditure in the Education Department, but it is understood that the conditions imposed by the Imperial Government will preclude this course. Consequently it has been necessary to substitute this project for others which it had been the intention previously to undertake from the grant to the Public Works Department for Civil Works, and it is proposed that the following should be omitted:—

	Rs.
Residence of the Commissioner, Tirhut Division ...	50,000
Grants to Commissioners and Heads of Departments for minor works	39,000
Works in progress	11,000
Total ...	1,00,000

F. W. DUKE.

CALCUTTA,
The 11th March 1911.

REVISED FINANCIAL STATEMENT, BENGAL, 1911-12.

Part I.—General Review.

(1) ACCOUNTS FOR 1909-10.

WHEN the revised estimate for 1909-10 was laid before the Council on the 26th March 1910, the receipts of the year were estimated to amount to Rs. 5,77,43,000, and the charges, to Rs. 5,48,49,000, while the anticipated closing balance was Rs. 87,37,000. The accounts of the year, which have now been finally closed, show that the actual receipts amounted to Rs. 5,81,81,969, and the charges to Rs. 5,49,07,904, while the closing balance was Rs. 91,17,653. The receipts were thus better by Rs. 4,38,969, this improvement having occurred chiefly under Interest (Rs. 82,808) owing to larger collections under loans in class I, Jails (Rs. 46,113), Scientific and other Minor Departments (Rs. 63,717) owing to the increased sales of quinine, and Miscellaneous (Rs. 3,49,099) mainly under unclaimed deposits.

(2) REVISED ESTIMATE FOR 1910-11.

2. The revised estimate for 1910-11, as now passed on the basis of the actuals of the first ten, and in some cases eleven, months of the current year is compared below with the sanctioned estimate for the year:—

	Sanctioned estimate.	Revised estimate.	Better (+) or worse (−).
	Rs.	Rs.	Rs.
Opening balance ...	87,37,000	91,18,000	+3,81,000
Revenue receipts ...	5,24,45,000	5,19,87,000	−4,58,000
Adjustments	33,64,000	68,87,000	+35,23,000
Total receipts ...	5,58,09,000	5,88,74,000	+30,65,000
Grand Total ...	6,45,46,000	6,79,92,000	+34,46,000
Total Expenditure ...	5,75,46,000	5,56,84,000	+18,62,000
Closing Balance ...	70,00,000	1,23,08,000	+53,08,000

3. The increase under adjustments is due to the following additional assignments from Imperial Revenues :—

	Rs.	Rs.
On account of the rent payable by the Survey and Settlement parties, Midnapore, for the temporary occupation of the new Collectorate buildings now under construction	30,000	
Grant in connection with Captain McCay's deputation to conduct an enquiry into the subject of Jail dietaries	2,000	
Contribution from Eastern Bengal and Assam towards the preparation of a standard book on silver work	2,000	
Grant for Archæological expenditure ...	4,000	
For capital expenditure on the Madaripur Bhil Route	34,000	
Towards the education of students from Eastern Bengal and Assam in the Serampur Weaving School	1,000	
Special contribution for expenditure on education	24,50,000	
Do. sanitation	10,00,000	
		35,23,000

4. The principal fluctuations under the Revenue heads are noticed briefly below. The improvements aggregated Rs. 8,64,000, chiefly under the following heads :—

Land Revenue—(Rs. 61,000) due to better collections of ordinary and miscellaneous revenue.

Excise—(Rs. 3,74,000) due to better settlements and the increased consumption of country spirits.

Provincial Rates—(Rs. 95,000) due to an increase in the collection of Public Works cess.

Forests—(Rs. 50,000) due to larger collections in Palamau, Singhbhum, Chaibassa, Sambalpur, Angul and Puri. In Singhbhum the Bengal Timber Trading Company is working on an extended scale, while in Angul and Puri operations are now being carried out by departmental agency.

Courts of Law—(Rs. 51,000) on account of special receipts under process-servers' fees in Midnapore, Khulna and Shahabad, and larger receipts from Magisterial fines.

Police—(Rs. 18,000) due to larger recoveries on account of punitive police in Khulna and Jessore.

Ports and Pilotage—(Rs. 65,000) chiefly under pilotage receipts.

Education—(Rs. 46,000) under fees from Government Colleges—General, and High Schools for boys.

Medical—(Rs. 47,000) partly due to a special receipt of Rs. 17,498 from the Port Commissioners on account of the Clayton Fumigating apparatus, and partly to larger receipts from paying patients and as fees in the Medical College.

Civil Works in charge of the Public Works Department—(Rs. 45,000) due to the inclusion of the Government share of the annual profits of the Darjeeling-Himalayan Railway for two years, no payment having been made in 1909-10.

Under the following heads, on the other hand, the revenue fell off appreciably, the total decrease being Rs. 13,22,000 :—

Stamps—(Rs. 4,43,000) chiefly in respect of the sale of general stamps, the new legislation having failed to yield the enhancement anticipated.

Assessed Taxes—(Rs. 2,65,000) due to smaller collections in Calcutta, Burdwan and Manbhum owing to trade depression during 1909-10.

Registration—(Rs. 2,12,000) owing to a decrease in the number of registrations effected.

Interest—(Rs. 1,16,000) chiefly under loans to cultivators owing to a reduction in the outstanding balances of the Provincial Loan Account.

Jails—(Rs. 40,000) owing to a falling off in the sale of manufactured articles.

Miscellaneous—(Rs. 52,000) under unclaimed deposits and the sale of lands and houses. In particular, a smaller amount was realized by the sale of the Jorabagan thana than was originally estimated.

Irrigation—Major Works—(Rs. 67,000) due chiefly to a fall in the receipts from water rates on the Sone canals owing to a contraction in the area irrigated during the hot weather of 1910.

Irrigation—Minor Works and Navigation—(Rs. 1,00,000) due principally to a falling off in the Navigation receipts on the Calcutta and Eastern Canals, in consequence of the closure of the Bhangore khal and Chitpur lock.

5. On the expenditure side the revised estimate shows a total decrease of Rs. 25,97,000 which is mainly accounted for under the following heads:—

Land Revenue—(Rs. 1,26,000) partly under salaries of officers, and savings in the grant for contingencies and process-serving establishments, and partly in the expenditure upon the experimental maintenance of the record-of-rights in Orissa.

Stamps—(Rs. 36,000) chiefly under the cost of stamp paper supplied from Central Stores.

Registration—(Rs. 36,000) by savings under the provision for grain allowance and in the pay of Sub-Registrars and the rent of offices of Sub-Registrars.

General Administration—(Rs. 86,000) due to the delay in the formation of the Executive Council.

Jails—(Rs. 4,13,000) due to savings in the grant for dietary charges owing to the fall in the price of food-grains, and to smaller outlay on the purchase of raw materials.

Police—(Rs. 2,49,000) owing to savings in the grant for grain allowance and contingencies.

Education—(Rs. 3,64,000) due to savings under the salaries and allowances of Inspectors, and in the Sibpur Engineering College; to smaller expenditure on the Industrial Chemistry class and the Physical and Chemical Laboratory charges, Government schools—General, and Training schools for masters.

Medical—(Rs. 1,42,000) due chiefly to savings under District Medical establishment, supplies and services of the Campbell Hospital and the expenditure on plague preventive measures.

Scientific and other Minor Departments—(Rs. 53,000) chiefly in respect of the Veterinary and Agricultural Departments, but also under Botanic Gardens and Miscellaneous. The expenditure of the Fisheries Department was also reduced.

Stationery and Printing—(Rs. 1,33,000) partly due to savings under Establishment in the Government Presses, and partly under Stationery supplied from the Central Stores.

Miscellaneous—(Rs. 1,54,000) due to the adjustment to the appropriate heads of expenditure sanctioned by His Honour out of the allotment for petty grants, and to the reappropriation of the reserve provision of Rs. 1,07,000 to meet expenditure under other heads.

Irrigation Minor Works and Navigation—(Rs. 1,72,000) chiefly on account of transfers to Major Works (working expenses).

Civil Works in charge of the Public Works Department—(Rs. 2,09,000) owing to the non-utilization of the full grant for the Press block in the new Presidency Jail and the provision for the Monghyr Central Jail.

Civil Works in charge of Civil officers—(Rs. 3,25,000) on account of transfers to other heads.

On the other hand, there was a total increase in expenditure of Rs. 7,35,000, of which the most noticeable instances were as follows:—

Courts of Law—(Rs. 5,65,000) mainly under Law charges in connection with political cases.

Irrigation Major Works—(Rs. 1,41,000) due to an adjustment of the total provision for establishment under heads 42 and 43, and to expenditure upon silt clearing, the repairs of locks on the Hijili Tidal Canal, and special repairs on the Sone and Orissa Canals.

6. The net result of these changes is that the closing balance for 1910-11, including the sum of 50 lakhs held in trust for the Calcutta Improvement Scheme, which was estimated in March last at Rs. 70,00,000, is now expected to amount to Rs. 1,23,08,000.

(3) FINANCIAL SETTLEMENT.

7. The effect of the modifications which have been approved by the Government of India in the terms of the Financial Settlement with the Province, with effect from the 1st April 1911, are shown below:—

	Rs.	Rs.
(a) Additions to growing revenues of the Province—		
V. Excise (receipts) ½	42,63,000	
Deduct—		
7. „ (charges) ½	2,21,000	
Refunds and assignments ½ ...	6,000

IX. Forests (receipts) ½	5,50,000	
Deduct—		
11 „ (charges)	3,32,000	
Refunds	1,000	
Net revenue ...		2,17,000
Transfer to divided the deduction of Income-tax from salaries in the Public Works Department, ½		29,000
(b) Net gain to the Province by the division of certain heads of revenue and expenditure previously undivided—		
Irrigation Department total receipts (including both Civil and Public Works Departments) ½	16,75,000	
To be deducted from—		
Irrigation Department total charges (including both Civil and Public Works Departments) ½	28,61,000	
Net reduction in expenditure ...		11,86,000
(c) Total gain to Provincial revenues by the transactions under (a) and (b) ...		54,68,000

	Rs.
Deduct—	
Net reduction made in the fixed assignments ...	47,22,000
(*d*) *Net gain to Province over the whole transaction to be given in the form of a special recurring grant*	7,46,000

It is to be remembered that under the terms of the Financial Statement receipts and charges under different heads (other than Land Revenue) are shared in the same proportion. Therefore the Province, when given larger shares than previously under Excise and Forests, had to accept a correspondingly larger share of the expenditure under these heads, but on the balance of the transaction it gained Rs. 42,53,000. Similarly the division of certain receipts in the Irrigation Department carried with it the corresponding division of the charges, but since the charges exceeded the receipts, the Province gained Rs. 11,86,000 under this arrangement, as well as Rs. 29,000 owing to the division of the deductions of income-tax from salaries in the Public Works Department. The aggregate Provincial gain was accordingly Rs. 54,68,000, and had the Government of India decided to have left to the Province no immediate profit over the modification of the settlement, a corresponding reduction would merely have been made from the fixed assignment. While making that deduction, however, a fixed recurring grant has been given of Rs. 7,46,000, and the net gain to the Province, therefore, is of that amount.

(4) BUDGET ESTIMATE, 1911-12.

8. The opening balance of 1911-12 is the closing balance of 1910-11, and is therefore Rs. 1,23,08,000.

9. The estimates for the year, as approved by the Government of India, show receipts aggregating Rs. 5,48,40,000, an expenditure of Rs. 5,85,71,000, and a closing balance of Rs. 85,77,000. Out of the special grant of 50 lakhs for the Calcutta Improvement Scheme, which has appeared in the accounts since 1903-04, ten lakhs will be paid to the Improvement Trust when that body is constituted during the ensuing year, and effect is given in full to the scheme of finance which has been approved by the Secretary of State.

10. The estimate of receipts includes the following assignments from Imperial Revenues, from which Rs. 54,68,000 has been deducted, as explained above, under the terms of the new financial settlement. The calculations are shown below:—

	Present settlement.	New settlement.
	Rs.	Rs.
Fixed assignment under the terms of the settlement of 1906	7,39,000	
For Police reorganization	17,67,000	
For technical education	35,000	
„ European and Eurasian education ...	65,000	
„ abolition of the patwari cess in Sambalpur ...	26,000	
„ provincialization of the Dhaka Canal charges	12,000

11. On the expenditure side, the total estimated charges for 1911-12 amount to Rs. 5,85,71,000, which is in excess of the income by Rs. 37,31,000, owing mainly to the provision of Rs. 11,50,000 for payment to the Calcutta

Improvement Trust, and the expenditure of 17 lakhs on non-recurring charges of the Education and Sanitation Departments for which a special assignment was given by the Government of India in 1910-11.

12. A schedule is attached showing the new schemes, costing individually more than Rs. 5,000 in any one year, which have been included in the Budget. The non-recurring charges on account of these schemes amount to Rs. 2,54,450, and the recurring charges to Rs. 8,30,738. The Budget includes, in addition, the following new schemes of a more or less petty nature, which are individually estimated to cost Rs. 5,000 or less :—

PART II.—Detailed remarks on the Budget for 1911-12.

RECEIPTS.

13. *Land Revenue.*—The total collections in 1909-10 amounted to Rs. 3,04,85,296, and the estimate for 1911-12, as provisionally passed by the Government of India, is Rs. 3,04,13,000, in comparison with Rs. 3,04,00,000, the revised estimate for 1910-11. The estimate includes Rs. 10,97,000 for recoveries of Survey and Settlement charges, against Rs. 11,00,000 provided on the same account in the revised estimate for 1910-11.

14. The estimated Provincial share of Land Revenue is calculated as follows:—

	Estimate, 1910-11.	Revised estimate, 1910-11.	Estimate, 1911-12.
	Rs.	Rs.	Rs.
Gross Land Revenue	3,02,92,000	3,04,00,000	3,04,13,000
Deduct estimated collections from Government Estates (wholly Provincial)	34,67,000	34,26,000	35,32,000
Deduct recoveries of Survey and Settlement charges (wholly Imperial)	11,55,000	11,00,000	10,97,000
Total Deductions ...	46,22,000	45,26,000	46,29,000
Net amount divisible between Imperial and Provincial funds	2,56,70,000	2,58,74,000	2,57,84,000
Provincial share (one-half) ...	1,28,35,000	1,29,37,000	1,28,92,000
Add collections from Government Estates (wholly Provincial) ...	34,67,000	34,26,000	35,32,000
Total Provincial ...	1,63,02,000	1,63,63,000	1,64,24,000
Add adjustments as in paragraph 10	33,64,000	68,87,000	—12,34,000
Total Provincial Receipts ...	1,96,66,000	2,32,50,000	1,51,90,000

15. *Stamps.*—The Budget estimate of the total revenue from Stamps for 1910-11 was passed by the Government of India for Rs. 1,67,86,000, including Rs. 6,86,000, being the expected proceeds of the new scheme of taxation sanctioned by the Government of India in connection with the Imperial Budget for 1910-11. The actuals in 1909-10 amounted to Rs. 1,56,17,389, while those of the first ten months of 1910-11 exceeded the figures of the corresponding

period of the preceding year by Rs. 1,91,000 only. These figures show that the increase expected by the Government of India from the new taxation has not been realized. In view of this fact, and allowing for the adjustment of receipts from the sale of unified stamps between the Postal and the Stamp Departments, the revised estimate for 1910-11 has been passed for Rs. 1,59,00,000. Allowing for a progressive increase of 3 lakhs the estimate for 1911-12 has been placed at Rs. 1,62,00,000. The Provincial share is one-half, and amounts to Rs. 79,50,000 for 1910-11 and Rs. 81,00,000 for 1911-12.

16. *Excise.*—The revenue from Excise for 1910-11 was estimated at Rs. 1,70,52,000, and included Rs. 52,000, being the expected proceeds of the new scheme of taxation by which the tariff rates on beer and spirits were raised. The actuals in 1909-10 amounted to Rs. 1,67,92,558, while the figures for the first eleven months of 1910-11 show an increase of Rs. 9,93,000 over the actuals of the corresponding period of the preceding year. The revised estimate for 1910-11 has therefore been passed for Rs. 1,78,00,000, and allowing for a progressive increase of three lakhs, the estimate for 1911-12 has been placed at Rs. 1,81,00,000. The Provincial share (one-half in 1910-11) amounts to Rs. 89,00,000 and (three-fourths in 1911-12) amounts to Rs. 1,35,75,000.

17. *Provincial Rates.*—The actual collections of the Public Works Cess in 1909-10 amounted to Rs. 38,05,619, while the estimate for 1910-11 was Rs. 37,90,000. The receipts in the first ten months of the current year, however, show an increase of Rs. 91,000 over those of the corresponding period of 1909-10. The revised estimate for 1910-11 has accordingly been placed at Rs. 39,20,000, and the estimate for 1911-12 at Rs. 38,20,000, allowing for an anticipated decrease in the receipts from the cess on mines. The cess on mines is assessed annually on the average net profits of the preceding three years of which the accounts have been made up. The assessment for 1911-12, therefore, will be made upon the basis of the average profits of the mines during the years 1908, 1909 and 1910, but since 1908 the price of coal has fallen considerably and has not yet recovered. Under "General Rates for the Management of Private Estates" the estimate of receipts is Rs. 1,80,000, in comparison with Rs. 1,50,000, the revised estimate for 1910-11. The total estimate for 1911-12 is therefore Rs. (38,20,000+1,80,000=) 40,00,000.

18. *Assessed Taxes.*—The receipts from Income-tax for 1910-11 were estimated at Rs. 59,00,000. The actual collections of 1909-10 amounted to Rs. 55,86,037, but those during the first ten months of 1910-11 show a decrease of Rs. 1,80,000 as compared with the actuals of the corresponding period of the preceding year, and the revised estimate for 1910-11 has therefore been placed at Rs. 53,70,000. To this amount Rs. 1,30,000 has been added as the normal anticipated increase of revenue, plus Rs. 57,000 being the estimated amount of deductions on account of Income-tax from salaries in the Public Works Department which are at present wholly Imperial, but which will be divided with effect from 1911-12 in equal proportions between Imperial and Provincial Revenues. The estimate for 1911-12 has accordingly been passed for Rs. 55,57,000. The Provincial share (one-half) amounts to Rs. 27,78,000.

19. *Forests.*—The total receipts under this head for 1911-12 are estimated at Rs. 12,50,000 against Rs. 12,00,000, the revised estimate for 1910-11 and Rs. 10,80,610, the actuals of 1909-10. It is expected that the Bengal Timber Trading Company will work the forests in the Singbhum Division to a greater extent than previously, and that the sale of timber and firewood in the Sunderbans Division will increase. The receipts and charges of this department will be wholly Provincial with effect from the 1st April 1911.

20. *Registration.*—The receipts under this head for 1910-11 were estimated at Rs. 14,87,000. The actuals in 1909-10 amounted to Rs. 13,52,720, while the collections in the first nine months of 1910-11 show a decrease of Rs. 90 010 as compared with those of the corresponding period of the previous year. The decrease is attributed to the falling off in the number of registrations owing to the good harvests of the preceding year. The revised estimate for 1910 11 has been placed at Rs. 12,75,000, and, allowing for an increase of Rs. 51,000 over the revised estimate, the estimate for 1911-12 has been passed for Rs. 13,26,000. The receipts of this department are wholly Provincial.

21. *Interest.*—The estimate of loans, as submitted to the Government of India, provides for a return in the way of interest during 1911 12 of Rs. 5,85,000, as shown below—

	Rs.
Interest on advances to cultivators, etc.	1,76,000
" " drainage and embankment advances	25,000
" " loans to land-holders	1,60,000
" " " to Municipalities and District Boards, etc. ...	1,85,000
Miscellaneous	39,000
Total ...	5,85,000

22. *Law and Justice—Courts of Law.*—The actuals in 1909-10 amounted to Rs. 6,00,716, while the receipts in the first nine months of 1910-11 show an increase of Rs. 58,990 over those of the corresponding period of the previous year, but these included special receipts of Rs. 18,000 on account of process servers' fees collected in cash in the districts of Midnapore, Khulna and Shahabad, and unusually large receipts from Magisterial fines. In view of these circumstances, the revised estimate for 1910-11 has been placed at Rs. 6,75,000, and the estimate for 1911-12 at Rs. 6,15,000.

23. *Jails.*—The actuals in 1909-10 amounted to Rs. 8,59,113, while the receipts in the first nine months of 1910-11 amounted to Rs. 4,78,228, as compared with Rs. 4,83,561 in the corresponding period of the previous year. An improvement in the receipts is anticipated as the result of special efforts which are being made to push the sales of manufactured goods, while the sales of quinine, of which one-fifth is credited to the Jail Department, are also expected to increase. The revised estimate for 1910-11 has been placed at Rs. 9,24,000 and the estimate for 1911-12 at Rs. 9,14,000.

24. *Police.*—The actuals in 1909-10 amounted to Rs. 1,89,910, and the receipts in the first nine months of 1910-11 show a decrease of Rs. 4,467 as compared with those of the corresponding period of the previous year. In view of these figures the revised estimate for 1910-11 has been placed at Rs. 1,85,000, against Rs. 1,67,000 originally passed. This increase as compared with the original estimate is due to recoveries on account of punitive police in Khulna and Jessore, which are not expected to continue during 1911-12, and the estimate for that year has accordingly been passed for Rs. 1,74,000.

25. *Ports and Pilotage.*—The actuals in 1909-10 amounted to Rs. 15,22,485, while the Budget estimate for 1910-11 was Rs. 15,48,000. This has been raised to Rs. 16,13,000 in the revised estimate, with reference to the actuals of the first nine months of the current year. The estimate for 1911-12 has been passed for Rs. 15,85,000. The decrease is chiefly due to the fact that the Government of Eastern Bengal and Assam is making its own arrangements for the examination of masters, serangs, etc., and for the survey of inland steam vessels at Goalundo.

26. *Education.*—The Budget estimate for 1910-11 was Rs. 6,00,000. This has been raised to Rs. 6,46,000 in the revised estimate, with reference to the actuals of the first nine months of the current year, the improvement having mainly occurred under fees from Government Colleges—General, and from High Schools for boys (including collegiate schools). The estimate for 1911-12 is Rs. 6,50,000.

27. *Medical.*—The estimate for 1910-11 was Rs. 2,98,000 against Rs. 2,90,056, the actuals of 1909-10. The receipts during the first nine months of 1910 11 show an increase of Rs. 28,148 over those of the corresponding period of the previous year, this result being partly due to larger receipts from paying patients, and partly under Miscellaneous, since Rs. 17,498 were received on account of charges for the Clayton fumigating apparatus from the Port Commissioners. The revised estimate for 1910-11 has accordingly been placed at Rs 3,45,000, and the estimate for 1911-12 at Rs. 3,29,000.

28. *Scientific and other Minor Departments.*—The estimate under this head for 1911-12 is Rs. 3,70,000, which is also the revised estimate for 1910-11, as compared with Rs. 3,46,717, the actuals of 1909-10. The increase is chiefly under the receipts from the experimental farms of the Agricultural Department.

29. *Receipts in aid of Superannuation.*—As in the revised estimate for 1910-11, the total receipts for 1911-12 are estimated at Rs. 64,000, as compared with Rs. 66,558, the actuals of 1909-10.

30. *Stationery and Printing.*—The estimate under this head for 1911-12 is Rs. 1,42,000 in comparison with Rs. 1,41,000, the revised estimate for 1910-11, and Rs. 1,38,569, the actuals of 1909-10.

31. *Miscellaneous.*—The receipts for 1910-11 were estimated to amount to Rs. 7,42,000, which included Rs. 1,40,000 being part of the sale proceeds of the Jorabagan Thana, and Rs. 40,000 being the sale proceeds of the Garden Reach Thana. The Jorabagan Thana buildings were eventually sold for Rs. 1,83,000, of which Rs. 91,501 were paid in 1909-10, and the balance, Rs. 91,499, in 1910-11. It is not expected that the Garden Reach Thana building will be sold during the current year. The buildings and machinery, etc., now in Fraserganj have been sold for Rs. 60,830, which has been included in the revised estimate for 1910-11. In view of these figures and the actuals of the first nine months of 1910-11, the revised estimate for the year has been placed at Rs. 6,90,000. The estimate for 1911-12 is passed for Rs. 6,82,000, which includes a larger provision for lapsed unclaimed deposits and for the sale proceeds of elephants captured in the Khedda operations in Angul.

32. *Irrigation—Major Works (Direct Receipts).*—The Budget estimate for 1910-11 was Rs. 25,92,000, which has been reduced to Rs. 25,25,000 in the revised estimate, as compared with Rs 27,02,520, the actuals of 1909-10, owing to a decrease in the area irrigated in the Sone Canals and a consequent decrease of Rs. 1,97,464 in the collections of the first eight months. The estimate for 1911-12 has been passed for Rs. 25,50,000, which for the first time includes receipts from the Tribeni Canal. The Provincial share (one-half in 1911-12) is Rs. 12,75,000.

33. *Irrigation—Minor Works and Navigation in charge of the Public Works Department.*—The Budget estimate for 1910-11 was Rs. 6,50,000; but in view of the collections during the first eight months of 1910-11, amounting to Rs. 3,46,021, as compared with Rs. 3,49,426 in the corresponding period of the previous year, the revised estimate has been reduced to Rs. 5,50,000, against Rs. 5,63,620, the actuals of 1909-10. The decrease is chiefly under Navigation receipts from the Calcutta and Eastern Canals in consequence of the closure of the Bhangor khal and Chitpur lock. The estimate for 1911-12 amounts to Rs. 6,00,000, since an increase is expected in the Navigation receipts from the Calcutta and Eastern Canals. The Provincial share (one-half in 1911-12) is Rs. 3,00,000.

34. *Civil Works in charge of the Public Works Department.*—The Budget estimate for 1910-11 was Rs. 3,55,000, against Rs. 2,55,110, the actuals of 1909-10. The Government share of the profits from the Darjeeling-Himalayan Railway and the second instalment of rent from the Strand Banks, realizable from the Port Commissioners, were not credited to Government in 1909-10, and it is expected that they will be received during 1910-11, the revised estimate for which has accordingly been raised to Rs. 4,00,000. The estimate for 1911-12 is Rs. 7,14,000, and includes Rs. 3,63,742 on account of the first instalment of the sale proceeds of the land and buildings of the Sibpur Engineering College, which is to be sold to the Port Commissioners for Rs. 13,63,742, payable on the 1st March 1912, *plus* two instalments of Rs. 5,00,000, each, recoverable on the 1st March 1913 and the 1st March 1914, respectively.

EXPENDITURE.

35. *Refunds and Drawbacks.*—The expenditure in 1911-12 is estimated at Rs. 1,46,000 against Rs. 1,35,000, the Budget estimate for 1910-11, and Rs. 1,43,505, the actuals of 1909-10. The estimates under this head are based, as usual, on the average actuals of the previous three years, excluding special payments. The increase in 1911-12 is due to the increase in the Provincial share under the head of Excise from ½ to ¾, and that under the head of Forests from ½ to one. The revised estimate for 1910-11 has been raised from Rs. 1,35,000 to Rs. 1,50,000 with reference to the actuals of the 12 months ending the 31st December 1910.

36. *Assignments and Compensations.*—The estimate for 1910-11 was Rs. 70,000. The revised estimate has, however, been placed at Rs. 69,000

against Rs. 65,362, the actuals of 1909-10; the estimate for 1911-12 is Rs. 67,000.

37. *Land Revenue.*—The total Provincial expenditure for 1911-12 is estimated at Rs. 40,70,000, against Rs. 38,60,000, the revised, and Rs. 39,86,000, the budget estimate, for 1910-11, as shown below:—

	1910-11. Budget. Rs.	1910-11. Revised. Rs.	1911-12. Budget. Rs.
(1) Charges of District Administration	29,77,000	28,00,000	30,10,000
(2) Charges on account of Land Revenue collections ...	4,000	3,000	4,000
(3) Management of Government estates	4,29,000	4,27,000	4,50,000
(4) Survey and Settlement ...	1,60,000	1,75,000	1,69,000
(5) Land Records	4,86,000	4,55,000	4,87,000
	40,56,000		41,20,000
Lump reduction ...	70,000		50,000
Total ...	39,86,000	38,60,000	40,70,000

The estimate under head (1) provides for the full *cadre* of establishment, and for travelling allowance, supplies and services and contingencies of Collectors' and Magistrates' offices, two-fifths of which has been transferred to 19A—Law and Justice—Criminal Courts. It includes a lump provision of Rs. 1,35,000, for the increase of the pay of ministerial officers, including arrears for 1909-10 and 1910-11, and Rs. 61,850 for additional Deputy Magistrates and Sub-Deputy Collectors, as shown below, in order to meet the demands of the Settlement Department:—

		Rs.
Deputy Collectors, including Probationers	... ...	24,850
Sub-Deputy Collectors ditto	... ...	37,000
	Total ...	61,850

Under head (3) a special provision of Rs. 40,000 has been made, as in 1910-11, in order that certain urgent works of improvement may be executed in Government estates which cannot be financed from the improvement grant as ordinarily calculated. Rupees 5,000 has also been provided on account of the payment of Public Works Cess and Road Cess in Government estates, since the primary liability rests with Government, and full recoveries from its raiyats are improbable. Provisions of Rs. 17,000 and Rs. 850 have also been made for the management and improvement of the Hiranpur and Sahibgunj markets respectively. Under head (5) Rs. 3,27,000 has been provided for the initial expenditure in bringing the survey and settlement records in Orissa up to date, and Rs. 59,000 for the experimental maintenance of the record-of-rights in Orissa.

38. *Stamps.*—The estimate for 1910-11 was Rs. 5,01,000, which has been reduced in the revised estimate to Rs. 4,32,000. The Budget for 1911-12 is Rs. 4,58,000, as against Rs. 4,31,964, the actuals in 1909-10, and allows for increased charges for the sale of stamps of different natures.

39. *Excise.*—The estimate for 1911-12 is Rs. 9,50,000, as compared with Rs. 9,00,000, the revised estimate for 1910-11. The increase is due to (*a*) a special provision of Rs. 50,000 towards the reorganization of the Excise Department with which it is contemplated to amalgamate the Salt Department, (*b*) an additional grant for rewards (secret service) which has placed at the disposal of the Excise Commissioner, and (*c*) an additional grant under travelling allowance, as the result of the increase in establishment. The Provincial share (three-fourths in 1911-12) is Rs. 7,13,000.

40. *Provincial Rates.*—The estimate for 1911-12 is Rs. 79,000 against Rs. 64,000, the Budget estimate for 1910-11, and Rs. 42,379, the actuals of 1909-10. The increase is mainly due to the valuation and revaluation charges

in the districts of Midnapore, 24-Parganas, Nadia, Jessore, South Monghyr, Purnea, Ranchi and Hazaribagh.

41. *Assessed Taxes.*—The Budget grant for 1911-12 is Rs. 1,63,000 against Rs. 1,56,000, the revised estimate for 1910-11, and Rs. 1,55,715, the actuals of 1909-10. The Budget for 1911-12 includes a lump provision of Rs. 5,302 on account of the reorganization of the office establishment of the Collector of Income-tax, Calcutta. The Provincial share (one-half) is Rs. 81,000.

42. *Forests.*—The total expenditure for 1911-12 is estimated at Rs. 7,34,000, against Rs. 6,65,000, the sanctioned grant for 1910-11, and Rs. 5,91,099, the actuals of 1909-10. The Budget includes the following items:—

	Rs.
Construction of two new cutters and ranger boats for the Sundarbans Forest Division	34,500
Establishment, etc., for ditto ditto ...	2,720
Departmental working of timber operations in Angul ...	6,000
Reorganization of the establishment in Forest offices ...	5,128
Initial cost of the Agency Forest Officer in the Orissa Feudatory States—Buildings	9,000
Salary, establishment and travelling allowances of ditto ...	9,960
Introduction of the time-scale of pay for the Provincial Forest Service	19,908
Payment to the Raja of Porahat of the net profits from the Porahat forests which are under the management of the Forest Department	25,000
Reorganization of the Subordinate Forest Service	5,000

The charges of this Department will be wholly Provincial with effect from 1911-12.

43. *Registration.*—The estimate for 1911-12 is Rs. 7,94,000, against Rs. 7,77,000, the revised estimate for 1910-11, and Rs. 7,78,634, the actuals of 1909-10. The Budget includes (*a*) Rs. 6,000 for the revision of the office of the Inspector-General, (*b*) Rs. 1,050 for the revision of the office of the Joint Sub-Registrar at Calcutta, and (*c*) larger provision for the allotments made to Sub-Registrars for contingencies, etc.

44. *General Administration.*—The estimate for 1911-12 amounts to Rs. 24,24,000 and includes the following items:—

	Rs.
Delhi Coronation Durbar	3,00,000
Additional grant on account of the travelling allowance of non-official Members of Council	19,000
Additional establishment in the Secretariat record-room ...	3,200
Temporary establishment in the Secretariat record-room ...	23,000
Salary of the Personal Assistant to the Judicial Secretary to Government	7,800
Salaries, establishment, allowances and contingencies of the Members of the Executive Council	2,00,000
Salary of the Lady Adviser to the Court of Wards, together with her establishment, contingencies, etc. (shown under Courts of Law in 1910-11)	16,000

The estimate for 1910-11 was Rs. 21,02,000, but the revised estimate was reduced to Rs. 20,16,000 owing to the delay in the formation of the Executive Council, which was not constituted until the 19th November 1910.

45. *Law and Justice—Courts of Law.*—The Budget estimate for 1910-11 was Rs. 82,43,000, but the revised estimate has been raised to Rs. 88,08,000 with reference to the actual charges of the first ten months of the year, which were enhanced by the expenditure on law charges and fees to Counsel in connection with the trial of political cases. The estimate for 1911-12 is Rs. 87,34,000. It includes provision for (*a*) the reorganization of the ministerial establishment on the Original Side of the High Court, Rs. 23,797; (*b*) payment of fees to the Clerk of the Crown for attendance at the Special Tribunal, Rs. 3,000; (*c*) increase in the retaining fees of Government Pleaders and Public Prosecutors, Rs. 50,000; (*d*) larger grant for fees to pleaders and Counsel in criminal cases; (*e*) the permanent appointment of the Fifth Presidency Magistrate, Calcutta, Rs. 7,200; and (*f*) an additional grant under the charges for *mufassal* witnesses attending the High Court, Rs. 4,000.

46. *Jails.*—The estimate for 1910-11 is Rs. 28,71,000. The actuals in 1909-10 amounted to Rs. 25,29,720, while the actuals of the first nine months of 1910-11 show a decrease of Rs. 70,293 as compared with the figures of the corresponding period of the previous year, chiefly on account of the fall in the price of food-grains, smaller purchases of clothing and bedding and the non-payment of grain compensation allowance. The estimate for 1911-12 is Rs. 27,09,000, which includes provision for additional warder establishments; for the revision of the office of the Inspector General of Prisons; for the establishment and other charges of the new Central Jail at Kalighat; for new lights in the new Presidency Jail at Kalighat, and Rs. 9,000 for a new mill engine at Buxar.

47. *Police.*—The following table compares the figures under this head:—

In view of the actuals of the first nine months of 1910-11 under the head "District Executive Force," the revised estimate has been placed at Rs. 82,26,000. The estimate for 1911-12 has been passed for Rs. 85,97,000, which includes the following items:—

		Rs.
Creation of two appointments of Deputy Commissioners in the Calcutta Police		16,650
Reorganization of the Special Branch—	Rs.	
Pay of Deputy Commissioner	10,125	
House allowance	2,400

Additional police force for the new Alipore Central Jail, for the new Dhulian, Madhupur and Muzaffarpur Municipalities, the Jalapahar and Lebong Cantonments, the Victoria and Dow Hill Girls' School, Kurseong, etc.	12,678

48. *Ports and Pilotage.*—The estimate for 1910-11 was Rs. 12,93,000, but in the revised estimate this has been reduced to Rs. 12,65,000 chiefly owing to the discontinuance of the subsidies to steam boat companies. The estimate for 1911-12 amounts to Rs. 11,89,000, and includes smaller provision for the purchase of marine stores, and for coal, repairs and outfit of ships; also under Marine establishment, since it is expected that the working of the office of the Agent for Government Consignments will yield a larger net profit.

49. *Education.*—The total Provincial expenditure in 1910-11 was originally estimated at Rs. 59,17,000, but in the revised estimate this has been reduced to Rs. 55,53,000 with reference to the actual charges in the first nine months of the current year. The decrease is distributed (*a*) under Inspection, due to savings under the salaries and allowances of inspectors and sub-inspectors, etc.; (*b*) under Government Colleges—Professional, on account of savings under salaries in connection with the classes in Industrial Chemistry and the Physical and Chemical Laboratories of the Sibpur Civil Engineering College; (*c*) under Government schools—General, due to savings under salaries in high schools and the non-utilization of the full provision for subsidies to model primary schools for girls; (*d*) under Government schools—Special, due to savings under Training schools for masters and for females at Calcutta, construction of guru training school buildings, allowances for school-masters' wives, female teachers' house-to-house visitation, miscellaneous schools, agricultural classes and gardens, technical, industrial and commercial schools; and (*f*) under Scholarships by reason of savings in scholarships in Arts Colleges and secondary schools. The following table shows the Educational charges since 1906-07:—

* Includes contributions to District Funds in order to establish equilibrium, previously shown under the head (since abolished) "Contributions from Provincial to Local."

The Budget for 1911-12 includes the following items:—

	Rs.
For regrading the pay of sub-inspectors	68,960
Strengthening the staff of Professors in Government Colleges ...	60,000
Improvement of the teaching staff at the Presidency College ...	5,400
Improvement of the staff of the Ravenshaw College, Cuttack ...	6,300
Ditto ditto the Sanskrit College	7,800
Cost of maintenance of the new hostel for Muhammadan students in Calcutta	6,656
Mining instruction in the colliery districts	8,736
Improvement of the Hooghly Madrasa...	6,300
New scale of allowances for the Superintendents and Assistant Superintendents of hostels and messes attached to Government Colleges	17,800
Preparation of the artisan edition of the pattern book ...	4,000
Establishment of a modelling studio in connection with the School of Art	4,402
Purchase of copies of Sir. Herbert Risley's work on Castes and Tribes of Eastern India	2,600

The lump provision of twelve lakhs for non recurring expenditure will be distributed on receipt of detailed orders from the Government of India.

50. *Medical.*—The estimate for 1910-11 was Rs. 25,16,000, but this has been reduced to Rs. 23,74,000 in the revised estimate with reference to the actuals of the first nine months of the year. The saving occurred chiefly under the salaries of medical establishment, by reason of the non-utilization of the lump provision for the improvement of the pay and prospects of Assistant Surgeons and changes in the personnel, while economies were also effected under Reserve medical officers and in the grant for Supplies and Services of the Campbell Hospital, Medical College and medical schools, and under salaries in the Medical College. The estimate for 1911-12 has been passed for Rs. 25,13,000, which includes (*i*) the full sanctioned scale of pay of medical officers, (*ii*) a lump provision of Rs. 41,000 for the improvement of the pay and position of Assistant Surgeons, (*iii*) Rs. 5,000 for commission to clerks in the offices of Civil Surgeons for the sale of quinine packets, (*iv*) increased provision for the maintenance of the electric plant in the Medical College Hospital, (*v*) a larger grant for the diet of patients in the General Hospital, (*vi*) a lump provision of Rs. 14,400 for officers employed in connection with malarial work, (*vii*) larger grants for the travelling allowances of the Vaccination inspecting staff and for anti-malarial measures and for chemicals, (*viii*) contingencies for the laboratory which has been opened for the examination of samples of water in Bengal (*ix*) the special allowances to Assistant Chemical Examiners and to the Assistant teacher of Chemistry at the Medical College and (*x*) Rs. 12,500 as a grant to the Lowis Jubilee Sanitarium in Darjeeling.

The grants for the Presidency Hospitals are shown below:—

	Salaries.	Establishment.	Allowances.	Clothing and bedding.	Diet.	Other supplies.	Contingencies.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Albert Victor Asylum for Lepers.	4,980	5,448	...	1,500	16,000	900	6,172	35,000

51. *Political.*—The estimate for 1910-11 was Rs. 59,000, but in the revised this has been raised to Rs. 63,000 owing to larger expenditure under Durbar presents. The Budget grant for 1911-12 is Rs. 64,000, which includes a provision of Rs. 3,000 for the purchase of an elephant for the Political Agent, Orissa Feudatory States, and for the repair of elephants' sheds, and also a larger provision for Durbar presents in view of the Coronation.

52 *Scientific and other Minor Departments.*—The estimate for 1911-12 is Rs. 14,69,000 in comparison with Rs. 14,32,000, the Budget grant for 1910-11. Provision has been made in the Budget for the following charges:—

	Rs.
Reorganization of the Veterinary Service	20,370
Employment of additional professors, etc., in the Agricultural College, Sabour	16,860
Buildings and fittings at the Agricultural College ...	20,000
Temporary establishment at the cinchona plantation, for replanting operations at Mungpoo and for the extension of the new divisions of Kashyan and Burmiak in Munsong	14,000
Purchase of a new launch for the Inspector of Factories and its maintenance	10,256

53. *Superannuation.*—The estimate for 1911-12 is Rs. 28,53,000 as compared with Rs. 27,86,000, the revised estimate for 1910-11, and Rs. 27,12,983, the actuals of 1909-10.

54. *Stationery and Printing.*—The estimate for 1911-12 is Rs. 13,39,000 against Rs. 14,16,000 and Rs. 12,83,000, the Budget and revised estimates for 1910-11, respectively, and Rs. 13,17,476, the actuals of 1909-10. The following table compares the figures:—

HEADS.	Actuals, 1909-10.	Budget estimate, 1910-11.	Revised estimate, 1910-11.	Budget estimate, 1911-12.

The details of the expenditure in Government Presses are as follows:—

	1910-11.		1911-12.
	Sanctioned estimate.	Revised estimate.	Budget estimate.
	Rs.	Rs.	Rs.
Bengal Secretariat Press ...	4,81,624	3,88,500	4,36,000
Darjeeling Branch Press ...	23,000	22,500	25,000
Private Secretary's Press ...	8,376	8,000	8,000
Presidency Jail Press ...	1,12,000	1,07,500	1,26,500
Government publications ...	22,500	23,000	22,500
Total ...	6,47,500	5,49,500	6,18,000

The decrease in the revised estimate for 1910-11 is chiefly due to savings under Establishment in the Secretariat Press. The estimate of the Presidency Jail Press for 1911-12 includes Rs. 9,664 for the reorganization of the establishment on the lines adopted in the Secretariat Press.

55. *Miscellaneous.*—The Budget estimate for 1910-11 was Rs. 4,98,000, but in the revised estimate this has been reduced to Rs. 3,44,000 owing to the adjustment under appropriate heads of the expenditure sanctioned by His Honour from the provision for petty grants, and to the reappropriation of the reserve provision of Rs. 1,07,000 in order to meet expenditure under other heads. The Budget for 1911-12 amounts to Rs. 6,03,000 and, as in

1910-11, includes a special provision of one lakh to be placed at the disposal of His Honour for petty grants and one lakh as a general reserve for unforeseen requirements. Provisions of Rs. 62,500 have been made on account of the subscription payable to a new vernacular paper, of Rs. 75,000, in place of Rs. 53,600, on account of the annual grant to the Calcutta Hospital Nurses' Institution, and of Rs. 5,500 as a grant to the Bengal branch of the Lady Minto Indian Nursing Association.

56. *Irrigation—Major Works (Working Expenses).*—The actual charges in 1909-10 were Rs. 14,62,472. The Budget for 1910-11 was Rs. 13,50,000, but in the revised estimate this has been raised to Rs. 14,91,000. The increase is due to an adjustment of establishment charges, and to expenditure on silt-clearing and repairs to locks on the Hijili Tidal Canal and special repairs on the Sone and Orissa Canals. The estimate for 1911-12 is Rs. 14,50,000. It includes a new charge of Rs. 13,000 for the Tribeni Canal, which will be entered under this head for the first time with effect from the 1st April 1911. The Provincial share, which is one-half with effect from the 1st April 1911, is Rs. 7,25,000.

57. *Irrigation—Minor Works and Navigation.*—The Budget estimate for 1910-11 was Rs. 22,72,000, but in the revised this has been reduced to Rs. 21,00,000, chiefly on account of transfers from this head to 42—Irrigation—Major Works. The estimate for 1911-12 is Rs. 21,62,000, and includes the following items:—

	Rs.
Construction of sluices and escapes in embankments in Orissa ...	33,000
Construction of bungalows at Diamond Harbour, etc., in the Northern Drainage and Embankment Division ...	20,000
Madaripur Bhil scheme	3,25,000
Extension and construction of distributaries on the Orissa canals	50,000
Dispensaries and quarters for the revenue establishment on the Sone canals	40,000
Completion of the lock at Utterbagh in connection with the Magra Hât drainage scheme	50,000
Training works in the river Ganges	40,000
Completion of special repairs to the embankments in Midnapore	75,000
Improvement of the Ballighya drain	24,500
Clearance of the outfall channels of the Khas Tahsil khals in Midnapore	25,000
Ditto ditto for maintenance	21,000
Government share of the contribution for the improvement of the Kausiki channel	16,500
Bagjola drainage scheme	22,000

The Provincial share, which is one-half with effect from the 1st April 1911, is Rs. 10,81,000.

58. *Civil Works.*—The estimate of expenditure for 1911-12 has been placed at Rs. 50,93,000 against Rs. 50,50,000, the revised estimate for 1910-11, and Rs. 49,51,061, the actuals of 1909-10. The following figures show the distribution of the allotment as compared with the two preceding years:—

He said :—

Sir—" I beg to present the revised Financial Statement for 1911-12.

"The amended draft Financial Statement was circulated to members on the 2nd instant, which is three days earlier than was found possible last year, and to that extent we have been able to meet the request for more time for consideration of figures in framing resolutions. Attention has been drawn to the more important points of the estimates in the detailed notes which accompanied the statement and in my covering memorandum. It is only necessary to read with them the subsequent memorandum issued on the 11th March.

" The most important feature in the estimates of the year is the change which has been made by the Government of India in connection with the provincial settlement. The effect of this has been explained in paragraph 6 of my memorandum. Upon the figures taken as the basis of the arrangement the province stands to gain Rs. 7,46,000. Should the revenue heads of which we now receive a larger share continue to grow in the future we shall of course gain more largely, and this fact constitutes the advantage to the province from the substitution of a larger share of progressive revenues for a portion of the fixed assignment. On the other hand, we have to reckon with the fact that the Government of India declare that this is a final settlement and it is essential that all future proposals for increasing the expenditure of the province, more especially the recurring part of it, should be framed in view of this fact.

"Our closing balance for 1911-12 is shown to be lakhs 85·77. So large a figure may arouse some criticisms considering how severely necessary and even urgent expenditure has had to be restricted, and I will therefore give some explanation of it.

"Forty lakhs is the balance of the Imperial grant-in-aid to the Calcutta Improvement Trust.

" Seventeen-and-a-half lakhs is the unexpended balance of the special grant from the opium surplus of 34½ lakhs made to us in the revised estimate for non-recurring expenditure on education and sanitation. It is anticipated that the total grant will be expended in the course of two years.

"Twenty lakhs is our prescribed minimum closing balance. In other words, the balance in hand over what is considered the minimum of safety will be 8·27 lakhs. Even as regards this I may remind the Council that we are embarking on one great project, the Monghyr Jail, for which 22 lakhs more will have to be found in the course of the next three years."

The Hon'ble Mr. Slacke introduced the following heads :—

Revenue—

I—Land-revenue.

Expenditure—

3. Land-revenue.
8. Provincial Rates.
18. General Administration.

He said :—

"I beg leave to introduce, Sir, the consideration of the following heads:—'I—Revenue—Land-revenue—Expenditure'; '3, Land-revenue'; '9, Provincial Rates'; '18, General Administration.'

"In the revised estimate of the Budget it will be seen that there was an improvement in the receipts of Rs. 61,000. This is due to better collections of ordinary miscellaneous revenue owing to good crops. As compared with the original estimate of Rs. 1,26,000, there has been a decrease partly in the Orissa maintenance operations, partly in the grant for contingencies and process-serving establishments, and partly under salaries of officers. This last saving was due partly to the sanction of the Secretary of State not having been received to the proposal for increasing the cadres of Deputy Magistrates and Sub-Deputy Collectors to meet requirements of the Settlement Department, partly to the deputation of officers on special duty to other departments from

whose funds their salaries were met, and partly to smaller leave allowances received by officers who have taken leave.

"In the Budget for 1911-12, we shall receive an assignment of Rs. 26,000 from Imperial Revenues in return for the abolition of the Patwari Cess in Sambalpur, and another assignment of Rs. 1,47,000 for the continuous maintenance of the record-of-rights in Orissa. We anticipate a small increase of Rs. 13,000 in receipts on account of gross land-revenue in addition to a revised estimate of Rs. 3,04,000 for the present year. The collections from Government estates, which, according to the revised estimate for the current year, will be 34¼ lakhs, are expected to reach 35½ lakhs in the next year. After all the adjustments the gross provincial share of land-revenue is expected to be Rs. 1,51,90,000, as against the revised estimate of Rs. 2,32,50,000 for the current year. This decrease is due to the special adjustment described in paragraph 14 of the Amended Financial Statement.

"On the expenditure side the charges for District Administration show a small increase. The estimate for the next year is Rs. 30,10,000, which includes a lump provision of Rs. 1,35,000 for the increase of the pay of ministerial officers. Under the head of Management of Government Estates, a small provision of Rs. 40,000 has been continued since last year to meet certain urgent works of improvement which cannot be financed from the ordinary grant.

"A sum of three lakhs of rupees has been provided for the Delhi Coronation Durbar and a sum of Rs. 19,000 for the travelling allowances of non-official Members of the Legislative Council. The balance of the increase is almost entirely due to the fact that the cost of the Executive Council will have to be met for the whole of the coming year."

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution :—

This Council recommends to the Lieutenant-Governor in Council—

(a) that a sum of Rs. 30,000, or such other sum as the Government think fit, be provided for improving the Provincial Executive Service;

(b) that the grant at the disposal of Divisional Commissioners for petty local works of improvement (page 22 of the Financial Statement, paragraph 59) be reduced by Rs. 20,000; and

(c) that the charge for purchase of a new launch for the Inspector of Factories and its maintenance (Rs. 10,256, at page 18 of the Financial Statement, paragraph 52) be omitted from the Budget.

The PRESIDENT said:—"The Hon'ble Member has circulated his speech to all Members of Council, and I think, therefore, with his permission, that it will be convenient to take it as read. Does the Hon'ble Member wish that this should be so?"

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"I shall move the Resolution as it stands on the Agenda.

"With regard to what has fallen from Your Honour, a foreword by way of explanation is necessary, and I would, with Your Honour's permission, make a few remarks, for my notes, already in the Hon'ble Member's hands, cover larger ground than the Resolution in the Agenda. In compliance with the invitation of the Secretary to the Council, Members, who can and care to, send in notes of their proposed remarks by way of assisting official Members in their replies. Not more than four or five days can possibly be at the disposal of Members, for which reasons these notes as well as the Resolutions which they support have to be rushed as fast as possible. Complicated facts and figures extending over scores of closely printed pages and taking weeks and possibly months to prepare, must require detailed and careful consideration and observations with regard to them must be deliberate in order to be apposite. As all this

preparatory care and attention is involved, non-official Members do not mind accommodating official Members, or all Members for the matter of that, with their notes, if, that is to say, they have not much of a reputation to lose for high class oratory, *impromptu* dialectical skill or off-hand ability to Saccharate dry-as-dust figures. Such accommodation may help in boiling down the issues before the Council and in saving time; but reciprocity and sufficient time are essential to ensure its continuity. The strain of such rush and procedure in the case of busy professional people, without resources and assistance open to official Members, and possibly to leisured non-official Members, is apt to tinge the resolutions and the observations in their support, and it would be a great help and kindness to them to allow them some more time. The question was pointedly raised last year in Council, and Your Honour, while admitting that there was room for improvement, could not hold out prospects of much relief, having regard to the dates of the different stages of the Budget proceedings. This year, however, owing to exceptional circumstances, the Financial Statement was presented to the Council without being considered by the Financial Committee, and not much evil would result if Members in future years had access to the statement in its still earlier and cruder stage, with due notice and warning of course that the statement is open to change, as has been the case this year.

The PRESIDENT said:—

"I am afraid I must ask the Hon'ble Member to confine himself to the Resolution which he is about to move. I understand that what the Hon'ble Member wished was to offer an explanation. I do not see that the remarks which have so far fallen from the Hon'ble Member can be described as explanatory. Do I understand that these remarks are preparatory to your speech?"

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"That is so".

The PRESIDENT said:—

"I really do not think it necessary for the Hon'ble Member to enter into any discussion of the circumstances under which his note was prepared. His note is very full and comprehensive."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"The Resolution being now confined to the improvement of the Executive Service alone, the remarks in the notes that have been circulated so far as the details of the Judicial Service itself are concerned are no longer applicable under the circumstances that I have mentioned.

The following speech by the Hon'ble Babu Deba Prasad Sarbadhikari in support of this Resolution having been circulated to all Members of the Council before the meeting, it was, by order of the President under rule 34 (2), taken as read:—

"Speaking about the prospects of the Provincial Judicial Service during the August session of this Council, the Hon'ble Mr. Gourlay, then in charge of the department, said that 'the decision as to the time when the improvement of any particular service should be taken up must be left in the hands of the Government, because the Government alone could know the relative importance of the claims of the different services and of the different new projects and schemes'. On this ground he invited the Council to vote against the resolution for the improvement of the service which I was then moving. The Hon'ble Member asked the Council to leave the matter of improvement of any particular service entirely in the hands of Government. The Hon'ble the Maharajadhiraja Bahadur of Burdwan warmly seconded these sentiments, and though he was pleased to say that I had made out a very strong case for improvement of the Provincial Judicial Service, he expressed himself opposed to the principle of fettering the hands of Government regarding any particular

service. The Hon'ble Member, however, was good enough to admit that our duty as counsellors was to bring to the notice of the Government such grievances as existed in the different services. Although the two sentiments may be capable of being reconciled to one another in some remote manner, acting up to both simultaneously in practice is apt to be difficult for those who desire to have the requirements of particular services brought to the notice of Government in public interest. In view of sentiments like these, those who feel it their duty to press their demands must also feel embarrassed, though nothing can be further from their intention than to fetter or embarrass Government. If questions of fettering the judgment of Government could arise in connection with general administrative questions, they would arise in a more pronounced emphatic, acute and possibly objectionable manner in connection with the Budget as a whole or with regard to particular items, for the Budget practically controls the year's work of the Government and lays down rules with regard to it. No Budget debate under impressions like these can or can be intended to be a reality. I cannot, however, persuade myself that when the Government in its wisdom has not only allowed general consideration of the Budget and administrative questions at large arising out of it, but has sanctioned the moving of individual resolutions in connection with the Revised Financial Statement with regard to particular administrative questions, the idea of fettering or embarrassing the Government enters into its mind at all as a possibility. I am confirmed in this belief by the partial effect that Government has been pleased to accord to the suggestions of Members made in Council from time to time, chiefly in connection with the Budget, including suggestions that were made at a time when resolutions were not permissible to be moved. I shall not at the present moment attempt the not wholly unprofitable study of the fly-on-the-wheel order and try to count up how many turns of the mighty Government wheel may be attributable to the tiny but strenuous efforts of non-official would-be Budget reformers in Council. One of the rules of the Budget discussion says in effect that if in connection with the Revised Financial Statement any resolutions be adopted and the Government does not see fit to act up to them, the Government will state the reasons for such inability and make it manifest that the refusal was due to reasons either financial or administrative. Such an occasion for the Government entering upon an explanation like this has not yet arisen and is not likely to arise soon. But the mere provision of this rule contemplates such a possibility.

"In connection with the resolution about the improvement of the Judicial Service last August, the Hon'ble Mr. Gourlay incidentally informed us that proposals had already been placed before the Government of India for the improvement of the Provincial Educational Service. In this regard he was good enough to acknowledge the very slight and inconsiderable support that he thought, in his own goodness, he had received from me. He added that these proposals had gone up to the Government of India, and that your Honour's Government were in hopes that they would be favourably received by the higher authorities. If approved, the Hon'ble Member went on to say, they would take up a large share of the sum which would be available for the new recurring expenditure in the near future, and he invited me to agree that the Government was justified in taking up the case of the Educational Service before any other. To my mind, however, it is not altogether a case of preferential treatment, so far as the different services are concerned. All require attention and care, and no one for a moment doubts the soundness of the position that, having regard to all the interests and requirements, Government is and always must be the best judge of the situation and must have uncontrolled discretion as to which service should be improved, in what way, when and on what terms. I was and am glad and thankful that the Hon'ble Mr. Gourlay, who was then in charge of the Judicial as well as the Educational Departments, was good enough to make this important pronouncement in favour of the Educational Service in which I am more especially and directly interested than any other. And there is ample indication in the Revised Financial Statement that, apart from the munificent benefaction of the Government of India, the Provincial Government, out of its own resources, would be prepared to make such improvements on the lines that have been suggested in the Council from time to time,

to a greater extent than has been attempted before. We are highly thankful for all that has been done and is promised in the near future, but we cannot shut our eyes to the fact that the improvement of the status of the Judicial and Executive Services is no less an educational question than it is administrative, for the prospects of our educated men are intimately bound up with the prospects of these services. I therefore feel impelled to bring up this question once more in connection with the Financial Statement.

"It is rarely edifying or profitable to have constantly to play the part of the importunate widow, particularly after re-assurances given to the effect that in due time all defects and requirements would be attended to, funds permitting. If, however, small instalments of reform be possible at a comparatively small cost such as it is the object of my present resolution to indicate, we may reasonably press them upon Government. During the debate in August and previously, the requirements of both the services were reiterated at such length that there is neither call nor justification for travelling over the same ground again. Nor is there occasion for so doing, because my resolution is limited to a small measure of improvement with regard to which Government may not have the same objection and difficulty as regarding the larger measures enumerated by such of my friends in this Council as specially voiced the claims of the Executive Service on the occasion, in the unjust and unfounded apprehension that I was opposed to such claims.

"The reason why I ask for this provision of Rs. 30,000 is fairly pressing.

"The maximum pay of the Sub-Deputy grades is Rs. 250, while the minimum pay of the Deputy grades is Rs. 200, which is a serious and inconvenient anomaly. When a Sub-Deputy happens to be promoted to the Deputy grade, oftener than not he would be drawing the highest salary of his grade, and unless he is allowed to supersede the juniormost man in the Deputy grade his promotion would come in a questionable shape indeed. The most obvious and the most reasonable course would be so to co-ordinate the two services as to make the highest pay of the lower service the same as the lowest pay of the higher, so that the flow of promotion and preferment would be smooth and even. This necessary measure of reform would be accomplished by an expenditure of about Rs. 30,000; and if the removal of a serious defect with regard to one of the most important services in Your Honour's Government could be ensured by this small expenditure, it would be a sound and profitable investment indeed."

The Hon'ble MR. DUKE said:—

"Sir, the portion of the resolution with which I am concerned is the first part requesting that a sum of Rs. 30,000 or such other sum as the Government think fit, be provided for improvement of the Provincial Executive Service.

"The Resolution in itself does not indicate what steps should be taken to improve the Provincial Executive Service, but in his speech or that portion of his speech which the Hon'ble Member desires should be retained, the Hon'ble Member has explained that he would propose to raise the minimum pay of the lowest grade of Deputies from Rs. 200 to Rs. 250 in order to remove the anomaly which, he considers, exists, inasmuch as the present pay is less than the pay of the highest grade of Sub-Deputies, which is Rs. 250. I may say at once that Government is in sympathy with the proposal contained in the Resolution, and had already some time ago decided to move the Government of India in the matter. I am at the same time to remind the Hon'ble Member that the rates of pay of the services are not within the competence of this Government to alter. Its function is limited to making recommendations to the Government of India who must decide upon the case. There are, however, one or two matters which I must mention to show that while we are in sympathy with the objects of the Hon'ble Member, it is not entirely for the reasons which he gives. His principal ground for increasing the pay of the lowest grade of Deputy Collectors is the anomaly as between them and the Sub-Deputy Collectors. This anomaly has not yet begun to cause inconvenience, since it is not the case, as the Hon'ble Member assumes, that promotions to the Provincial Services are ordinarily made from the highest grade of the Subordinate Executive Service. On the contrary, this grade has usually

been retained as a shelf for deserving officers who were too old or had not the attainments which rendered them suitable for promotion, while promotions have ordinarily taken place from the second, or occasionally from the third grade. Since, however, owing to the very rapid promotions which have been granted in recent years, the average age of the Sub-Deputy Collector is becoming younger, it is possible, in the near future, that there may not be sufficient officers who, though deserving, are unfit for promotion to the Provincial Service to fill up the first grade of Sub-Deputies, and that the anomaly may actually arise. Again, Government does not admit that the surbordinate service should be the only or main recruiting ground for the Provincial service. Promotions from the one service to the other are to be regarded as a reward of exceptional merit, and upon the whole it is desired that the Provincial service should be regarded as of a superior status, and be recruited from men of better position and of higher attainments than in the other case. The principal ground which has moved Government to press for the change, which the Hon'ble Member desires to see made, is that the minimum pay of Deputy Collectors in Bengal is lower than in most Provinces in India, and has been held on the high authority of the Public Services Commission to be insufficient pay for officers of that status. I may add that although the change is eminently desirable, it cannot be regarded as of extreme urgency, since there has never been any lack of candidates of the highest class for the Provincial Civil Service, nor has any exceptional difficulty, in the way of officers being able to live respectably upon their pay, been brought prominently to the notice of Government.

"The Hon'ble Mr. Slacke will have something to say as to the resolution in which the means of providing this expenditure are proposed, and I shall not discuss them."

The Hon'ble MR. SLACKE said:—

"The Hon'ble Member has proposed that the grant at the disposal of Divisional Commissioners for petty local works of improvement should be reduced by the sum of Rs. 20,000. The system in accordance with which a grant of this nature is yearly placed in the Budget commenced from 1905. It was then considered that Commissioners of Divisions should be in a position to make grants to local bodies in order that small defects and needs that may be brought to their notice at the time of inspection or otherwise could be remedied at once and thereby save much needless correspondence. The sum of Rs. 90,000 was then distributed between the different divisions of the unpartitioned province. In the succeeding year an allotment of Rs. 60,500 was made to the six divisions remaining after the partition, and the same provision was repeated in 1907 and 1908. In 1909, owing to the great use that had been made of this allotment, the total grant was raised to ¾ lakhs, and in 1910 it was further increased to 1 lakh. It will thus be seen that this grant has in recent years been gradually increased, experience having shown that by this method much good could be promptly done locally. From the experience which I have gained in my tours throughout the province during the last six years, I am convinced that a great deal of hardship will result by any diminution of this grant, and I would, therefore, strongly advise the rejection of this proposal."

The Hon'ble MR. CUMMING said:—

"I am afraid, Sir, that the sum of Rs. 10,256 which is entered in the Budget for the Scientific and other Minor Departments, for the purchase and maintenance of a steam-launch for the use of the Special Inspector of Factories, will not be available for transfer to any other head. The cost of the launch is Rs. 16,000, of which half is being paid by the Boiler Commission and half will be paid by Government. The launch will be used by the Special Inspector of Factories, the Inspectors under the Boiler Commission and the Certifying Surgeon of Factories. I may point out that no fewer than 129 out of 187 factories in the Presidency and Burdwan Divisions are situated on or near the banks of the Hooghly. The launch has already been ordered; it will shortly be delivered by the builders, and it has to be paid for."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"Sir, I am very glad that I did move the resolution, for we have a reassuring reply from the Hon'ble Mr. Duke that the Government realises the necessity of this reform, and is already in communication with the Government of India with a view of taking the necessary steps. When we bring forward resolutions by way of amending the Budget generally, we do not expect that effect will possibly be given in the same year; and if the way is thereby to a certain extent prepared for future action, the object of the resolutions, even if they be not carried, are to a certain extent met. The reasons adduced in support of the reform that I have moved for have been fully supplemented by the Hon'ble Mr. Duke. But the fact that there is no lack of candidates on the existing pay would hardly be a reason for withholding a reform if it was felt that it was a necessary and desirable one. The state of the country is such that even by reducing the pay of some of our services it would not be wholly impossible to have a semblance of the class of candidates that the Government has been accustomed to get, though in the long run the effect for the worse on the public service is bound to be more and more appreciable. The possibility of getting nearly equally good men might be urged in connection with the educational service and other services, but it is one which we have always found it difficult to accept. To try to avail of the necessities of a community is hardly the right way of improving a service with regard to which there seems to be clear need for improvement. The principle that the Provincial Service ought not wholly or even largely be recruited from the Subordinate service is one with which we all agree, but as recruitment from that service is permissible to a certain extent, it is desirable that the reform that I advocate should be introduced. The status of the Provincial Service which the Hon'ble Mr. Duke is rightly anxious to maintain would be further maintained if the initial pay of the service be raised to the level of the other provinces. That is one reason why reform should be effected as soon as funds permit. Those of my hon'ble friends who on the previous occasion found fault with me for not voicing the needs of the Executive Service have not taken part in the debate to-day. I do not know what interpretation to put on that silence. If they think that the reform that I am urging is not one that they can consistently support, of course my position would be to a certain extent weakened. If, however, having regard to the reply given by the Hon'ble Mr. Duke, they think that it is not necessary at this stage to press the matter further (as I take it to be the reading of the situation), I would myself not press the point."

The Hon'ble MR. SAIYID WASI AHMAD said:—"I wish to say a few words, Sir."

The PRESIDENT—Is it by way of personal explanation?

The Hon'ble MR. SAIYID WASI AHMAD said:—"Yes. I did not speak in support of my hon'ble friend's resolution, not because I was not in sympathy with him, but that I was waiting for a reply from the Hon'ble Mr. Duke. Having heard that reply, I do not think it at all necessary that my hon'ble friend, Babu Deba Prasad Sarbadhikari's Resolution needs any support, though I am in full accord with his Resolution, and I only wish the allotment could have been made more."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Slacke introduced the following heads:—

Revenue—

IX—Forests.

Expenditure—

11. Forests.

He said:—

"I beg leave to introduce, Sir, the consideration of the following heads:—

Revenue	... ...	IX—Forest.
Expenditure	... ...	11—Forest.

"The receipts and charges of this department will be wholly provincial from 1911-12. The receipts are estimated to be Rs. 12,50,000 as against Rs. 12,00,000 in the revised estimate for the current year, and Rs. 10,88,640, the actuals of 1909-10. Up to the present year the provincial share of expenditure has been half. From 1911-12 the whole expenditure (Rs. 7,34,000) will be provincial, and this may be compared with the total expenditure of nearly 6 lakhs in 1909-10 and 6½ lakhs in 1910-11. The chief item of new expenditure is the provision of two new cutters and ranger-boats for the Sundarbans Forest Division at a cost of Rs. 34,500."

The Hon'ble Mr. Cumming introduced the following heads:—

Revenue—

XXI—Scientific and other Minor Departments.

Expenditure—

26. Scientific and other Minor Departments.

He said:—

"Sir,—I beg to introduce the consideration of the head 'Scientific and other Minor Departments'.

"The revised estimates for 1910-11 under this head show a small decrease in receipts and savings in expenditure to the extent of Rs. 53,000, distributed over all the departments. There was a smaller expenditure under the head of Contributions to Veterinary Hospitals and Dispensaries, on the Agricultural College and Experimental Stations, the purchase of cinchona bark and under the head of Fisheries.

"In the Budget for 1911-12, the gross receipts are expected to be Rs. 3,70,000, which is the same as the revised estimate for 1910-11. It is anticipated, however, that there will be an increase of receipts under the head of Experimental Cultivation owing to the opening of new farms and to the receipts from college fees at the Bengal Agricultural College.

"On the expenditure side the subjects of Emigration, Factories and Agriculture may be considered. In the case of Emigration, the salaries of the staff of the Protector's office have been improved. Under the head of Factories the chief item is a sum of Rs. 8,000, being half the cost of a steam-launch for the Inspector of Factories, to which allusion has already been made.

"There are four departments under the control of the Director of Agriculture, viz., (1) the Veterinary Department, (2) Agricultural Department, (3) Fishery Department, and (4) the Department dealing with Co-operative Credit Societies. During the present year, in the Veterinary Department steps have been taken to bring the veterinary assistants under the reorganization scheme sanctioned some time ago; and the present budget is drawn up so as to provide for this arrangement. Formerly, the Provincial Government made grants to local bodies towards the salaries of veterinary assistants, but in future there will be a Subordinate Veterinary Service paid for by the Government, while certain recoveries will be made from those local bodies who employ the veterinary officers. This new arrangement will be introduced from the 1st of April next.

"In the Agricultural Department proper there is an estimated expenditure of Rs. 4,03,500, compared with the revised estimate of Rs. 3,52,000 for 1910-11. The total increase is about half a lakh. The Bengal Agricultural College was opened last November, and there is in consequence some increase of expenditure under that head. There is accommodation for 120 students; and as the course is a three year one, 40 students per year will be taken. In the first year, however, as the staff had much to learn, the Director thought it advisable not to fill up the full number of vacancies. There are at present 21 students in the College, 7 of whom were nominated by the Government of Eastern Bengal and Assam, which, under the agreement made some years ago, will bear one-third of the recurring cost. The students were carefully chosen by the Director and the Principal out of a large number of applicants, and both they and their teachers have settled down to solid work. The increase in the cost of the upkeep of the farms is small, and is partly due to a project

for establishing a demonstration farm in the district of Angul, and partly to a scheme for popularising the growing of *eri* or castor silk amongst the people of South Bihar. The possibilities of the cultivation of castor silk-worms have already been demonstrated in North Bihar, and it is now proposed to spread a knowledge of it in South Bihar. There is a slight increase in the expenditure on Agricultural Associations. These bodies, and the agricultural exhibitions which are organized by them, are important links between the department and the cultivators. The members are gradually becoming better acquainted with the Inspectors attached to each Association; and they are making greater demands on their services. This is a welcome development. The new division of Tirhut has recently put forward its claim to have an independent association, and provision has been made for an extra Inspector and for a grant to the Association.

"Last year a provision of Rs. 40,000 was made for fisheries, but only a very small portion of this sum was utilized. The Department of Fishery was placed under the Director in January 1910. The two students who had been sent to learn something of western methods of fish culture, were placed under him. The Director has submitted a scheme to Government asking for the assistance of a western expert, for two or four years, to act as a Deputy Director on terms similar to those on which the Deputy Director of Agriculture is employed. Provision has been made for this officer in the budget, and it is hoped that his services will be obtained at an early date. Meanwhile, the two assistants are employed, the one in carrying out some experiments in connection with carp culture, and the other in searching for the spawning grounds of *hilsa*. The estimated expenditure of this Department during the year is Rs. 37,300.

"The budget of the Registrar of Co-operative Credit Societies amounts to Rs. 43,000. This sum is only slightly higher than the estimate of last year. It is perhaps unnecessary to give any special account of the work of this Department. The excellent progress which has been made has been narrated by the Hon'ble Mr. Carlyle, in his speech in the Imperial Council on the 1st March 1911."

The Hon'ble Mr. W. C. Macpherson introduced the following heads:—

Revenue—
V—Excise—
Expenditure—
7. Excise.

He said:—

"I have the honour, Sir, to present the figures relating to the receipts and charges of the Excise Administration. The figures for receipts are to be found on pages 29-30 of the Revised Financial Statement.

"It was originally estimated that the total excise revenue for the year would be Rs. 1,70,52,000. The revenue under this head had increased steadily for 16 years until the year 1908-09 when there was a check; and the revenue was less by ⅞ths of a lakh than in the preceding year, and in the next year fell two lakhs more. This falling off was due principally to poor harvests and the high price of food-grains; it was also due to the failure of the *mohwa* crop, which is largely used for the purpose of distillation, and it was also due to the contraction of employment in the coal, mica and lac districts, which decreased wages and resulted in decreased consumption of country spirit. It was also due to the substitution of the contract distillery system in the districts of Bihar for the old system of outstills which resulted in large decreases of license fees.

"In the current year there has been a remarkable recovery of excise revenue due, as I think, principally to the better harvests and cheaper prices of food-grains. The receipts in the first 11 months of this year are 10 lakhs better than in the corresponding months of the previous year.

"I shall offer a few remarks to the Council with regard to the consumption of drink and drugs during the current year in explanation of some of the figures.

"Under the head of 'country spirits', the figures of consumption can only be compared in the case of those areas which are under the same system this year as last year. We must therefore exclude from the comparison the districts of the Patna and Tirhut Divisions in which the contract distillery system was only introduced in the current year. With regard to other divisions, there was a decrease of consumption of country spirits in the districts of Orissa and Chota Nagpur and some of the districts of the Burdwan and Presidency Divisions, but there was a considerable increase in the Bhagalpur Division and in Calcutta and in the districts adjoining Calcutta. In Calcutta the increase was expected as the result of cheaper prices of food-grains, and the large decrease in consumption, which occurred in Calcutta two years ago, has apparently not yet been made up, although it is reported that here country spirit has to some extent displaced the cheaper imported spirit, in consequence of the increase of the tariff. The whole revenue under country spirits is still two lakhs lower than it was four years ago, though duty has been very much raised in recent years.

"Under the head of *tari* there is an increase of about two lakhs, which is probably due both to better administration and to the fact that many persons in Bihar prefer *tari* to the new contract spirit.

"Under the head of *ganja* there has been a more important and somewhat disquieting increase, especially in the districts of Bihar, due, it is stated, to lower retail prices consequent on a better season and lower wholesale prices in the *ganja*-producing area. The increase in the consumption of *ganja* will receive special attention in the Excise Administration Report for the year. With regard to consumption of opium, I have to mention that the issues of excise opium during the current year are 10 per cent. lower than they were three years ago when smugglers for Burma were specially busy in this Province.

"The revised estimate of excise receipts for the current year stands at 178 lakhs. A normal increase of about three lakhs may be expected next year, and the estimate for next year is placed at 181 lakhs.

"The provincial share of the current year's revenue is one-half, or 89 lakhs. With effect from next year the provincial share of the excise revenue and expenditure is to be raised to three-fourths. So it is expected that next year the provincial finances will receive about 136 lakhs from this source. It has before been pointed out that, next to land-revenue, the excise-revenue is the most important item of the provincial resources. Next year it will be only 15 lakhs less than the net provincial receipts from land-revenue, and in the future this item may come to stand first in our resources.

"I turn to the expenditure figures which are to be found on pages 43 and 44 of the Financial Statement. The revised estimate of expenditure for the current year stands at 9 lakhs, and the expenditure for next year at 9½ lakhs. I explained last year that the recent increase of expenditure on excise is chiefly due to the further introduction of the system of supply of contract spirit, which requires larger establishments and the construction of warehouses. The further increase proposed is due to provision made for the much-needed reorganization of the Excise Department with which it is proposed to amalgamate the Salt Department. The provincial share of the expenditure is one-half in the current year and it will be three-quarters, or Rs. 7,13,000, in the next year."

The Hon'ble Mr. W. C. Macpherson also introduced the following head:—

Expenditure—

6. Stamps.

He said:—

"I also present, Sir, the figures relating to expenditure under the head 'Stamps'.

"These are to be found on pages 42-43 of the Financial Statement. It is estimated that the expenditure next year will be Rs. 4 lakhs 38 thousand, against Rs. 4 lakhs 32 thousand, the revised estimate for the current year. Half of this expenditure is provincial. The figures do not require any special attention."

The Hon'ble Mr. W. C. Macpherson also introduced the following head:—

Expenditure—

10. Assessed Taxes.

He said:—

"The figures relating to expenditure under the head 'Assessed taxes' that is to say, with regard to the establishment employed to collect the Income-tax, will be found on page 45. The charges are to be Rs. 163 thousand next year, against Rs. 156 thousand in the current year. The increase is chiefly due to the proposal to reorganize the Calcutta Income-tax office, which has been approved by the Local Government. Half of this expenditure is provincial."

The Hon'ble Mr. Duke introduced the following head:—

Expenditure—

19A. Courts of Law.

He said:—

"I beg to introduce, Sir, the figures relating to Courts of Law which appear on pages 49-50 of the Revised Financial Statement. The total figures under this head show a large increase—altogether from Rs. 82,43,000, the estimate for the current year, to Rs. 88,08,000 in the revised estimate and Rs. 87,34,000, or somewhat less than the estimate for 1911-12. The causes which have contributed to this are dealt with in the marginal notes, and to one or two of them I would merely refer briefly.

"A considerable amount of the increase is due to the revision of magisterial establishment which has been going on during the past year and is going on still, and will go on for some time, and it is a matter of time to carry it through. One item of this, which appears in this year's statement, is Rs. 23,797 for the ministerial establishment of the Original Side of the High Court. A similar increase will appear in the process serving establishments in the mufassil and again in the subdivisional establishments also in the mufassil. Again, an increase which appears in this statement, which has long been under consideration, is that of the retaining fees of Government Pleaders. There have been long-standing complaints that the fees which Government pays to Government Pleaders are no longer commensurate, or even approximately commensurate, with those earned by men of the same standing in private practice, and accordingly a provision of Rs. 50,000 has been made for raising the scale of Government Pleaders' fees. An exceedingly great increase in the Budget this year is in the expenditure upon law charges, excluding permanent establishment. The expenditure under this head in the current year, it is estimated, will amount to Rs. 9,70,000 by the 31st March; and of this sum, Rs. 6,57,000 odd will have been spent on and with cases in the High Court, and of the remaining Rs. 3,13,000 which has been spent in connection with cases before Courts other than the High Court.

"So far as the first item is concerned, it must be borne in mind that there have been several cases of unusual duration and magnitude. The Special Tribunal will have sat for 122 days for the trial of five cases, three of which ended in conviction and one is still pending. The pending case, known as the Howrah Gang case, if not disposed of by the 31st March, will have been under trial before the Special Tribunal for 71 days. Simultaneously a civil suit of great political importance has been pending on the Original Side of the High Court, and will have reached the, one hundred and fourteenth day of hearing by the end of the year. The large expenditure involved in these cases covers not only the fees for actual appearance in court but also the cost of the heavy work of preparation for the trial, and there has in addition been the normal expenditure which has to be met every year.

"The remaining item of Rs. 3,13,000 spent in connection with litigation before Courts other than the High Court includes a sum of about Rs. 1,75,000 due to normal expenditure. The remainder may be accounted for by

the cost of magisterial inquiries preparatory to commitment to the Special Tribunal. Thus the inquiry before the Magistrate into the Howrah Gang case occupied 86 days in Court. There have also been important Press prosecutions before the Presidency Magistrate and at Khulna, and a long trial at Alipore of a case arising out of the Alipore Bomb case.

"The Government have thought it their duty, having regard to the importance of the issues involved, to spare no effort in the rigorous prosecution of political offences. They have engaged the best professional aid available, and though this has been costly, the result has to some extent justified the cost, for for many months political crime has very much decreased and now appears to have almost ceased.

"The fees paid have certainly been high, but leading Counsel consider that they are entitled to ask high fees for prosecuting in such cases, for besides their difficult and intricate character, there is the fact that Counsel engaged on them are exposed to considerable annoyance, if not to actual risk. There is also the loss of practice by their protracted withdrawal from their ordinary work, and at one time there was the probability that accepting briefs for the Crown in such cases would of itself prejudice their future. This fear has, I hope, almost ceased now.

"Protracted as the trials have been, Government are assured that Counsel employed by them have never unnecessarily protracted the proceedings.

"The process might have been cheaper if resort had not been had to the Special Tribunal procedure. The advantages of resort to that procedure have been well worth the additional expenditure involved. In each case the venue has been removed from the centre of disturbance, the trial has been as speedy as possible consistently with adequate inquiry into the facts. The procedure at each trial and the decision has been above the reach of criticism. This has been worth paying for at a time when a swift and even-handed administration of justice has been of the first importance.

"The Government has not lost sight of the importance of economy. The system will be carefully revised, and if by change of system economy can be secured without loss of efficiency, the Council may rest assured that the change will be made.

The Hon'ble Rai Baikuntha Nath Sen Bahadur moved the following Resolution :—

This Council recommends to the Lieutenant-Governor in Council—

(a) that, in order to increase the pay of 23 third grade Subordinate Judges by Rs. 100 each per month, and to give an allowance of Rs. 100 each per mouth to 20 Munsifs who are authorised to take cognizance of suits valued up to Rs. 2,000, provision be made in the Budget for 1911-12 by adding Rs. 27,600 to the sub-head "Subordinate Judges" and Rs. 24,000 to the sub-head "Munsifs" under the major head "19A—Courts of Law"; and

* This includes a normal expenditure of about Rs. 40,000.

(*b*) that, in order that the total expenditure of the Province may not exceed the amount sanctioned by the Government of India by the proposed increase in expenditure, a reduction of the corresponding amount, *viz.*, Rs. 51,600, be made in the estimates of sub-heads "Legal Remembrancer and High Court Pleaders". and "Mufassal Establishment" under the major head "19A—Courts of Law."

He said:—"In moving this resolution, Sir, I beg only to draw the attention of the Government once more to the case of the Judicial members of the Provincial Service. This has been done on many occasions by my humble self as well as, in more abler ways, by my hon'ble friends, Babu Deba Prasad Sarbadhikari and Babu Bhupendra Nath Basu, but with no success. I stand here again, and, notwithstanding the failures of the post, I entertain an optimistic view for the future. I feel confident that our just Government would show liberality and generosity to a class of officers who have been rendering valuable services to Government under higher pressure. and also to the satisfaction of the public as well as of the Government. These officers have to do certain works, and making a quantitative and qualitative estimate of their work, we find that they have been rendering valuable service to the Government. From the last Civil List I find that there are 23 Subordinate Judges in the third grade and ten in second grade, and of five in the first grade, there are only four remaining in service.

"It has been repeatedly urged before your Honour that a Subordinate Judge cannot be made permanent before he reaches the age of 52, and then he has only three years to carry him through the three different grades. In the first grade, therefore, very few live for more than a couple of years. A few no doubt serves in the second grade for some years, but the majority has to retire from the third grade. The remuneration they receive, I submit, is not adequate, especially in view of the fact that as high Government officials they have to incur heavier and large expenses to maintain their social position as also the prestige of the Government. Being high Government servants, they cannot travel in the third class in railway, and in similar other ways also they have to incur heavy expenses, not to speak of marriages of daughters, which is also a very heavy item of expense indeed. So that what I propose is that Subordinates Judges, when they are made permanent, should get Rs. 700 instead of Rs. 600 a month.

"With regard to the Munsifs who are now in the first grade and who are practically doing Subordinate Judges' work by trying cases up to Rs. 2,000—there are 20 such Munsifs on the new cadre—I would submit that if these Munsifs had not been entrusted with these extra duties, six more Subordinate Judges would have to be appointed. That has not been done, and it is not in the contemplation of the Government to do so. These gentlemen, who practically perform Subordinate Judges' work, get no remuneration for their extra works. Is it not fair and just that they should be remunerated in some way or other? I understand that under the orders of the Government of India, Rs. 500 grade Munsiffships cannot be created. It would have been well if that could be done, but as that cannot be done under the orders of the Government of India, I venture to suggest that a special allowance of Rs. 100 per month may be given to them. That would require an expenditure of Rs. 51,600, and for the counterbalancing reduction, I beg to suggest that a corresponding reduction may be made in the estimates of sub-heads 'Legal Remembrancer and High Court Pleaders' and 'Mufassal Establishment' under the major head '19A—Courts of Law.'

"The Hon'ble Mr. Duke has referred to the expenditure incurred in conducting political cases. It is to be hoped that there will be no further prosecutions of political cases. But still the pending cases will have to be carried through. The question is whether or not this reduction of Rs. 51,600 can be conveniently made. Belonging to the legal profession, as I do, it will not look well for me, and, I am afraid, my professional brethren will be displeased with me, if I try to curtail the expenditure on that head. But with Government economy should be the first consideration. If a Counsel is to get three lakhs or two lakhs or one lakh of rupees for conducting a few cases, the

amount may be considerably reduced by some sort of arrangement with him, and in this way the expenditure under this head may be curtailed, showing at least a saving of Rs. 51,600. There are still some cases pending, and there may also be appeals. And in appeals it may be so arranged by paying lump sums that the whole question might be solved. I do not think I should take up the time of the Council any longer. I merely make this suggestion for the acceptance of the Council. Your Honour has shown economy in all the departments where money was being rather freely spent, and I feel every confidence that Your Honour will find your way in curtailing this amount and to provide for a class of men who certainly deserve liberality and generosity at the hands of our just Government"

The Hon'ble MAULVI SAIYID MUHAMMAD FAKR-UD-DIN said:—

"Sir,—"I give my whole-hearted support to this resolution. This matter has come before this Council more than once. In March last, at the time of the Budget discussion, the Hon'ble Babu Deba Prasad Sarbadhikari put forward a resolution on this subject, but afterwards it was thought advisable to withdraw it. At the time of the discussion of the Financial Statement last year, I had the honour of inviting the attention of Your Honour and of this Council to the same matter. I pointed out in my speech at the time that those Munsifs who are in the first grade and who do the work of Subordinate Judges in trying cases of the value of Rs. 2,000, were justly entitled to get one hundred rupees more. At the same time, having regard to the refusal of the Government of India to create a new grade of Rs. 500 for the Munsiffs, I made a suggestion that in case Your Honour's Government were unable to make an addition to the pay of those Munsifs, perhaps a personal allowance might be allowed to those who tried cases of the value of Rs. 2,000, just as members of the Provincial Executive Service received an allowance when they had to perform extra work. These Munsifs are really hard-worked, and I believe an allowance of Rs. 100 to those who perform Subordinate Judge's work will satisfy them.

"As regards the pay of the Subordinate Judges, I had also the honour to point out that some of the Subordinate Judges who were working in the third grade hardly found an opportunity of getting a lift to the second grade; and so far as the third grade Subordinate Judges were concerned, Rs. 100 more should have been added to their pay or that the service of all the Subordinate Judges were so graded that these third grade Subordinate Judges would have got a lift in the second grade in a very short time before they actually retired. This matter again came before this Council in the form of a resolution in August last, and my hon'ble friend, Babu Deba Prasad Sarbadhikari, very ably threshed out all the points concerning the improvement in the prospect and pay of the Judicial Service in his speech. I had the good fortune of supporting that resolution which was, however, withdrawn after the reply from the official Member. I do not know what would be the fate of to-day's resolution, moved by my hon'ble friend, Babu Baikuntha Nath Sen, because I am not confident that at this stage of the Budget discussion it would be possible for the Government to make any substantial change or alteration in the estimate; but even then I am sure that discussion of such matters before this Council will go at least to help us in future. We hope that Your Honour will try to extend Your Honour's liberal hands to the case of these hardworked Judicial officers.

"As regards the curtailment of expenditure, I also stand on the same footing with my hon'ble friend the Mover of the Resolution, as I also belong to the same profession, and the same remarks might also apply to me. But still I fully agree with the Hon'ble Mover that there ought to be curtailment in the expenditure under the head proposed by him, and that if by doing that an improvement is effected in the pay and prospects of the members of the Subordinate Judicial Service, I have every reason to believe that everyone will be satisfied. Surely the cost budgeted for the expenses in political cases is too large a sum and the legal practitioners could be more ecconomically engaged and retained in those cases. With these few words, Sir, I beg to support the Resolution."

The Hon'ble MR. DUKE said :—

"The proposal of the Hon'ble Member is that Subordinate Judges of the third grade should receive a salary of Rs. 700 a month, instead of Rs. 600, and that Munsifs who are selected for the exercise of special powers to try cases up to the value of Rs. 2,000 should receive Rs. 500, instead of Rs. 400. I am afraid that it is not possible to accord a very favourable reception to these proposals for a number of reasons In the first place, in most other provinces, the lowest grade of Subordinate Judges do not receive more than Rs. 500 and there is no sufficient reason to justify granting officers of the same standing in this province as much as Rs. 700. Further, if the prospects of the Provincial Judicial Service be compared with the Provincial Executive Service, it is in the higher grades that the former service has the advantage. It will be seen already that the advantage is in the higher grades, and, therefore, any further concessions made would be to create a greater disparity between it and the Executive Service and necessitate raising the standard of that service, and in fact, before any change of this kind is made, Government would have to consider whether there were not other services whose claims to improvement were entitled to preference. Now, as to the position of Munsifs who have been empowered to try suits up to the value of Rs. 2,000, I think that the arguments used are fallacious. In the first place, it has been suggested that either an increase of pay or an allowance of Rs. 100 should be given to them as a remuneration for the extra work. It is not suggested how we are to do this. This is a somewhat important matter. Then, in the next place, the matter, as the Hon'ble Mover and his supporters have admitted, was disposed of comparatively recently in March 1904 by the Government of India who definitely negatived the proposal, and the suggestion to get round it by mere grading, is a mere device which would not be admitted. We would have to push for a change, not to get round it by a device of this kind.

"As to the manner by which the proposed expense has to be financed, I referred to this only a few minutes ago, and I can only say that under the head 'Legal Remembrancer and High Court Pleaders,' Rs. 1,74,000 which has been budgeted under this head includes a normal expenditure which will have to be met quite irrespective of the cost of political cases, and that the remainder will be absorbed by the cases which are actually pending or awaiting trial for which arrangements with Counsel have already been made. The other suggestion is that money should be deducted under the head 'Mufassal establishment.' The only place from which money could be taken is from the Government Pleaders whose position it is proposed to improve; this has been long asked for, it has been well considered, and we are now in a position to do it, and we should not be disposed to curtail the improvement which it is proposed to make, in order to take up another improvement as to which we are not so convinced. Taking the other item, the largest item of the estimate, I would merely point out that this is less by Rs. 90,000 of the amount which, it is estimated, has been spent under this head during the current year, and it cannot fairly be further curtailed. I cannot admit that economy is always the first object. Economy is not the first object in a matter which conduces to the peace and good order of the country. The first object is that cases should be successfully conducted, and I do not think that we should attain that object by curtailing 25 per cent. of the remuneration of the persons whom we have engaged for the purpose, nor could we induce them to accept that curtailment."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—

"My own little one having somewhere strayed, for the time it must come under the category of the missing. I would therefore be very glad to adopt my friend's pet child, that is to say, if he would let me do so after charging me with its desertion some months ago. The facilities for adoption in the country would have enabled my doing so, if I did not realise in time that the stripling had somewhat outgrown the proportions to which I had accustomed myself. While in full sympathy with my friend's desire to raise somehow the pay of the Munsifs who have to do what the Hon'ble Mr. Duke will not admit is extra work but certainly is more responsible work, I feel a difficulty in according my

support to the proposal that the pay of Subordinate Judges in the last grade for the present be raised from six to seven hundred rupees. The result of the adoption of the first portion of my friend's suggestion would be to create a much wider gulf between the pay of the 1st grade Munsifs and the 3rd grade Subordinate Judges—no less than Rs. 300—which would be no easy and acceptable a solution of the difficulties of the situation. Promotion in the Subordinate Judge's rank has therefore to be smoothed and made easier by some other means than the one suggested by my Hon'ble friend in this resolution.

"With regard to the 100-rupee allowance for Munsifs of the 1st grade, however, I feel hesitation in accepting the dictum of the Hon'ble Mr. Duke that it would be a device to get round the opinion of the Government of India for the time being that the 500-rupee grade for Munsifs should not be introduced into this province. In answer to the Hon'ble Rai Baikuntha Nath Sen Bahadur, the Hon'ble Mr. Duke has referred to the scale of Subordinate Judge's minimum pay in other provinces where it is Rs. 500. If the case of Eastern Bengal was to be quoted and we were to urge again that because the 500-rupee grade for Munsifs obtains there, we ought to have it here for reasons previously urged. I am afraid it would not be allowed to tell in our favour. Therefore, the fact that Subordinate Judges elsewhere get Rs. 500, by itself, is no answer to my friend's proposition. But there are other practical difficulties which I realize and having regard to which I am unable to give my support to that part of his resolution.

"Sir, the Hon'ble Mr. Duke has referred to the disinclination of the Government of India to allow the 500-rupee grade, and when discussing the resolution on the subject in August the Hon'ble Mr. Gourlay claimed to have given the quietus to the question for all time. Mr. Gourlay told us on the occasion that your Honour's Government would not be prepared to move further in the matter having regard to the attitude to the Government, unless the Hon'ble Judges of the High Court moved again. We do not know what the position of the Hon'ble Judges with regard to the question at the present moment is, nor have we any means of accelerating their action in any way. But is it to be always presumed that because for the time being the Government of India is opposed to the creation of the 500-rupee, grade questions with reference thereto are never more to be raised, because having regard to the peculiarly delicate nature of the situation the High Court does not see its way to move *de novo*? If, however, no permanent addition to the pay of the 1st grade Munsifs as a body is for the present possible having regard to that opinion, what objection can there be to the adoption of the temporary proposal of allowing an allowance of Rs. 100 to Munsifs who certainly do more responsible work than the ordinary 1st grade Munsifs—work that under the terms of service they could not be strictly expected to do? The Hon'ble Mr. Duke says that they do not do extra work, because they are not shown to have worked extra hours. If a time-keeper were attached to these Munsifs' Courts to note the hours during which they work in Court, such an officer would have no sinecure, for the Munsifs' hours even in Court are notoriously long. We do not quite know what the orthodox office hours for Munsifs are considered to be, but we know as a matter of personal experience that oftener than not they are to work in Court up to or even after nightfall, and if this is not working extra hours, a Secretariat schedule will probably show what regular and what extra hours are. But this is not all, and even if all work was recorded correctly, my imaginary time-keeper would not furnish an accurate record of the Munsif's work, for he has to take home considerable work of which the time-keeper is never likely to have any information. This work at home involves much more anxious care and deliberation than in Court, for their work is admittedly more responsible than normal work. We have been raising these questions for a long time in and out of Council, and this is the first time that it has been stated on behalf of Government that what Munsifs do in trying cases above 2,000 rupees, is not considered extra work. Successive Secretaries of the Judicial Department have borne willing testimony to the arduous nature of this work, and we always thought that adequate compensation was not provided merely because of want of funds. We, therefore, submit that if the Government of India's pronouncement stands in the way of permanent addition of their pay by the creation of a 500-rupee grade, those at least who

try suits up to Rs. 2,000 should have the temporary benefit advocated in my friend's resolution.

"As to the question of ways and means, reference has been made to the law charges which have in recent years gone beyond all proportion. Two of my legal friends who have spoken before me have spoken with hesitation lest they should go against the creed and the traditions of the profession, in asking for curtailment of charges that it may be their own good fortune some day to earn. I belong, Sir, to another branch of the profession where the daily struggle is to cut down Counsel's fee as much as possible. When I joined the profession one of the leaders of the Bar told me that the first thing I should cultivate assiduously was the ability to mark the back sheet of a brief correctly. He had a view of things of his own with regard to the proper marking of fees which I and friends have never shared, for we have our own points of view in the matter as well. The struggle for curtailment of Counsel's fees is a long-standing one, and the High Court taxing rules which are fairly rigid are going to be made still more rigid. Either these rules are right or they are not, and, if they are should to some extent be applicable even to the Government. I do not know whether the bills of cost which are now being paid will ever come before the taxing officer of the High Court, for if they do these high fees will never be allowed. I am not unamare that in spite of that scale Counsel do take and get larger fees, but fees never out of proportion to the necessities of the case or the situation. No one would desire that efficiency should be sacrificed for the sake of economy, but if efficiency can be secured on more economical terms than have been insisted on heretofore, there could be no legitimate grievance if such economy be not insisted on. Crime and disorder have unquestionably to be put down at any cost, but it must also be at a reasonable cost. I do not know whether among the fees referred to here to-day are included any paid to the Advocate-General in connection with cases in which the Government have an interest in the Original side of the High Court. If I am not mistaken the pay of the Advocate-General has recently been fixed on a much more liberal scale than before in view of increase of work, and the terms of the appointment do not contemplate the payment of extra fees for appearance on behalf or in the interest of Government in the Original side of the High Court, at all events. I may be easily put right if my information and view of things is incorrect; if, however, they are substantially correct, and if the Advocate-General is paid extra fees in the Original side, it is an unwarranted expenditure which at all events ought to go out of the law charges. With regard to the other fees it is difficult to indicate the possibility of reduction without impairing efficiency in the absence of details which makes one speak with natural hesitation. But there can conceivably be no circumstances under which such large fees, as the law charges indicate, should be necessary to be paid to a large number of Counsel engaged in the same interest, whatever may be said of the leaders. Closer scrutiny and stricter insistence on common-place business rules would be sure to effect considerable economy."

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN said :—

"Your Honour, with your permission I want to make a few observations on this question. The claims of the Subordinate Judges and Munsifs who steadily work hard throughout the year deserve special consideration, and I would most earnestly appeal to Government to find money for increasing the pay and improving the status of the members of the service; but as it has been suggested by the Hon'ble Mover of the Resolution that a corresponding reduction be made under the head 'Law Courts', I am unable to support the Resolution. Sir, I am a believer in the principle 'constant preparedness for war is the surest guarantee for peace,' and as lawlessness has not quite died out in the province, I would not advise Government to curtail expenditure under the head 'Law Courts'. With these few remarks I beg to resume my seat."

The Hon'ble BABU BHUPENDRA NATH BASU said :—

"I do not wish to detain the Council with any observations of mine, because this is a subject upon which it is known to Government that we non-official members are more or less agreed. I fully realise however the difficulty

that has been raised by the Hon'ble Mr. Duke when he says that it would be impossible to induce the Government of India to create a new grade for Subordinate Judges which does not exist in other provinces. All that we shall say is that the present scale of pay of our judicial officers, having regard to the very difficult and tiresome work they have to do, is a matter which we trust will attract the attention of Government. I do not know what is the state of litigation in other provinces, but we know that in Bengal the disposal of these cases necessitates very hard and heavy amount of work. If the Government were of its own motion to institute an inquiry and compare the conditions of service between our province and other provinces, where I am told promotions are much more rapid, I believe some good will be achieved. There is onebranch of the motion about which I think I may say a few words. We, non-official members, share to the full extent the anxiety of Government that cases of a political nature, involving very large and serious issues as regards the well-being of the community, should be very fully dealt with and every weapon available to Government should be brought to bear upon the disposal of these cases in the trial so that there may not be any miscarriage of justice. We fully admit that position. But, Sir, it may be permissible to us to point out that the methods that have been adopted in some recent cases have had a deleterious effect upon the public mind, and it may probably be that they have contributed in some measure at least to keep the agitation which the Government as well as ourselves are anxious to see should die out as quickly as possible. These expensive trials with their paraphernalia of cordons of police and military escort and long newspaper reports of three High Court Judges sitting in one bench to dispose of them and the most eminent lawyers available at the bar engaged in their trial, either one side or the other, naturally tend to excite public interest in these matters."

THE PRESIDENT said :—

"The remarks of the Hon'ble Member are wandering quite outside the resolution."

The Hon'ble BABU BHUPENDRA NATH BASU said :—

"I bow to your Honour's decision. What I was intending to say was this that in the best interests of the community the expenditure on these trials might be very well kept down by entrusting to the ordinary law officers of the Crown. I believe the Government realises just as we do that their own law officers are quite able to do justice to these cases, and that there would be much less commotion if these cases were conducted in the ordinary way that the Government carries on its law business and the expenditure would be much less and therefore, as my Hon'ble friend Rai Baikuntha Nath Sen Bahadur says, we shall easily have a large surplus available for other useful purposes of administration."

The Hon'ble MR. CHAPMAN said :—

"I think it is desirable, although I am not quite sure whether it is relevant to the question under discussion, that I should say something in regard to the cost involved in the political cases which the Government has recently had to undertake. I am not quite sure whether the Members who have spoken from the other side of the House have supported the first part of the resolution or not, but in any case some explanation should be made regarding the cost of these cases. In the first place, it is perfectly clear—at least in regard to the Standing Counsel—that the Government are not entitled to his services for prosecuting cases before the Special Tribunal or for defending Government officers in the Original side of the Civil Court without paying him fees, and this is also the case with the Advocate-General. The Government did not think itself justified in putting a very strict and hard interpretation upon the terms 'Advocate-General's engagement'. The suggestion made by the Hon'ble Babu Bhupendra Nath Basu that the cost of these cases would have been less if we had engaged the law officers of the Crown to prosecute has no validity or weight. If the Standing Counsel or the Advocate-General had been engaged in the Howrah case, their fees would have been higher than those of the very able Counsel whom we have engaged to conduct it. The fees

of Counsel, as the Hon'ble Mr. Duke has explained, have been very high, but I will tell you that in negotiating with Counsel for these fees, I have approached them and asked them to take lower fees, and ultimately we have had to consent to the fees which are being generally paid. It is absolutely necessary in cases of such magnitude and difficulty that we should get the very best professional aid. The number of leading Counsel is very limited. They are in a position to put a high price on their services and Government has had to pay. I do not think that Counsel have asked higher fees from the Government than what is paid by the general public and by the leading solicitors of Calcutta. Government have only paid ordinary fees which the leading Counsel always get. Cases of such a character as the Howrah case have made it absolutely necessary for the Government to employ the very best Counsel whose services were available."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said :—

"In reply I will only make a very few observations, especially when I find that, with regard to the Hon'ble Mr. Duke's objections, my Hon'ble friends, Babu Deba Prasad Sarbadhikari and Babu Bhupendra Nath Basu, came to my help. In the first place, I should further submit that differentiation in the minimum pay of the Subordinate Judges in the different provinces ought not to stand in the way of doing justice to a body who deserve justice. It is a fallacious argument to urge that because Madras or Bombay pay so much or a Bengali Subordinate Judge began with so much, therefore their pay ought not to be increased. When was this scale fixed? Is it 5 or 10 or 20 years ago? That ought to be borne in mind. A long time has passed since the creation of the scale, and that ought to be taken into consideration. I was once told somewhere that Bengal Subordinate Judges and Munsifs furnish a good amount of revenue in the shape of court-fees, but their pay is certainly not adequate to the revenue thus realized. Now, if these Bengal officers began their service on a certain scale at a certain time, I submit, Sir, it is no argument to say that their pay ought not to be increased. Then the case of the officers of the Executive Branch has been urged as a set-off. When a non-official Member takes up the case of the members of the Executive Branch of the service, he is told there is the other branch of the service and that their case should also be taken into consideration. Improvements should be made in any branch when justice demands it, irrespective of what its effect may be on the other branch. It has also been urged with regard to the work of the Munsifs who try cases up to 2,000 that they do not do any extra work. I do not think I need repeat the arguments urged by my Hon'ble colleagues that it is not the quantity of the work but the quality of the work that has to be considered, the strain upon the brain should be taken into consideration. As regards the expenses, the Hon'ble Mr. Duke has said—at least what I understood from his speech—that economy is a negligible matter in criminal prosecutions. No private gentleman would say so."

The Hon'ble MR. DUKE:—"I did not say that."

THE PRESIDENT:—"What the Hon'ble Mr. Duke said was that economy was not always the first consideration."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said :—

"That may be, but there are some other things also which should be taken into consideration. The Government should prosecute these cases vigorously, and that with as much strength and as many lawful weapons in their power as they can. I do not object to that. What I mean to say is that economy is not inconsistent with that state of things. I have just heard from the Hon'ble Mr. Chapman that arrangements were sought to be made for the reduction of the costs. I am glad of that, but I submit that economy can be exercised with regard to these charges. With regard to arrangements already made, I will say nothing, as the Government has already pledged themselves, but I believe that nothing has been made in anticipation, and that no forward contract has been made for appeals. With these remarks I submit and appeal to all Members of

Council, official or non-official, to take into consideration the case of those officers who are working hard, but who have not been remunerated in an adequate manner. I need not say anything more. But my Hon'ble friend, Babu Bhupendra Nath Basu, has just suggested to me whether I can take the first portion of my motion, *i.e.*, the case of the Subordinate Judges, and put that for the acceptance of the Council. I should like to do it if Your Honour has no objection."

THE PRESIDENT:—"As the resolution has been drawn up, that course is not practicable."

A division was taken, with the following result:—

So the resolution was lost.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council—

(*a*) that a sum of Rs. 10,000, or such other sum as the Government think fit, be provided for improving the Court-rooms of Honorary Presidency Magistrates of Calcutta; and

(*b*) that the special provision of Rs. 50,000 towards reorganization of the Excise Department, in view of the amalgamation with it of the Salt Department (page 13, paragraph 39 of the Financial Statement), be reduced by the sum of Rs. 10,000.

He said :—

"This grant is necessary for strengthening the courts and improving the court-rooms of the Honorary Magistrates. The budget provides for the permanency of the fifth Presidency Magistrate, who was appointed some time ago as a temporary officer for the purpose of disposing of accruing arrears. Time there was, not very long ago, when two stipendiary Magistrates with the assistance of Honorary Magistrates used to dispose of the whole of the criminal work of Calcutta. There were complaints of delay and arrears which led to the appointment of a third officer who was recruited from the Subordinate Executive Service and was expected to keep down the arrears. A fourth officer came in time, first as a temporary measure and then to stay. The fifth Magistrate also came as a temporary measure, and according to the budget provision he is also to stay. And that is not all. The Registrar of the Court has been invested with magisterial powers which could have been done, I understand, only by appointing him as an Honorary Magistrate, though he is himself a Sub-Deputy Magistrate. He also does a considerable portion of the magisterial work. In the list of stipendiary Magistrates must be included the Municipal Magistrate, as he is called nowadays, who disposes of work which under the old law used to be done either by the two stipendiary Magistrates or by the Honorary Benches that used to assist them. Though we do not know under what circumstances the permanency of the fifth stipendiary officer has become necessary, as the Government has thought fit to provide for it, one must suppose there are good grounds for this increase of expenditure. We know, however, that full use has not recently been made of the machinery that used to be so useful not long ago in coping with the growing criminal work of the metropolis—I refer to the Honorary Magistrates. If it be considered undesirable to entrust such work to honorary agency, the more intelligible course would be to abolish that agency altogether. For reasons that were attempted to be fathomed in this Council last year—though not with much success—in connection with the mufassal Honorary Magistracy, that agency in the mufassal does not seem to be much in favour, and if similar reasons are believed to exist in the case of Honorary Magistrates in Calcutta as well, it would be businesslike to make short work of the system altogether, and to arrange for permanent increase of stipendiary magistracy on a sound basis. The facts, however, as far as they are known to the public, do not make out any case in favour of such abolition or substitution. Government resolutions throughout have warmly approbated the work of Honorary Magistrates, and individual Magistrates have been spoken of very highly indeed. Their work has stood the test of public opinion—of the still more-hard-to-satisfy opinion of the profession and of the High Court. Since the abolition of the system of appointing practising lawyers as Magistrates, there may have been some weakening of the system. There are, however, still on the list, quite a number of capable, hardworking, honest, diligent and painstaking Honorary Magistrates, who do their duty well, and who of late have been given steadily less and less opportunity of rendering service to the State which they and their predecessors in office have ungrudgingly rendered. Latterly, there has been a tendency to turn some of them into inquiring officers for the purpose of enabling stipendiary Magistrates to pass orders. This of course has not been quite relished for obvious reasons, and probably accounts partially for the unpopularity of the Bench in quarters where they cannot make their voice heard.

"If their work has in some instances suffered in quality, of which we have not heard, it is not wholly their fault. They are at present obliged to work against odds of a diverse nature. Benches of two or three Magistrates have not at all been called of late, and only one Court—a single-sitting Magistrate—is ordinarily called. If I am wrong in my information, I shall be glad to have a correct statement with regard to this matter, if it should please the Government to furnish it. In the next place, there is not an adequate number of officers available for their benches, even when they are called, and if this little assistance was provided, there would be no difficulty in getting four honorary Courts

every day, which would do their work well and efficiently, and would help the stipendiary magistracy as they have readily and willingly done in the past. Their next and the greatest difficulty is with regard to the court-rooms, and a dark, dirty and ill-ventilated room is all that is at their disposal for managing what work they can put through. If I am not mistaken, the Hon'ble Babu Radha Charan Pal, himself a willing martyr, drew a dark and sombre picture of the Honorary Magistrates' lot in Calcutta in this Council some time ago with a view of having it bettered. But the practical response to the call has been less and less every day. An adequate number of suitable cases are not transferred to Honorary Magistrates, though willing and capable Magistrates are at the disposal of the authorities. It can be to nobody's advantage that full service should not be got out of a deserving body of public servants, many of whom the Government has delighted to honour, and whose work, as a whole, has found commendation and approval in successive Administration Reports and Resolutions of Government, and whose field of usefulness one would have thought would have readily and willingly been extended. The success of the Calcutta Honorary Magistrates stood so high at a time that it was seriously thought of employing honorary agencies in connection with the trial of small civil causes on similar lines. Speaking of the Calcutta Police work, only last year the Government Resolution on the subject observed that your Honour was gratified to note that an increasingly large share of the criminal work was undertaken by Honorary Magistrates. In 1907 the courts of Honorary Magistrates accounted for some 1,300 cases, or 4·10 per cent. of the total, and during the year 1909 the number rose to 4,300 cases, or 8 9 per cent. of the total. Even with these figures, high as they are, I venture to say that full work is not obtained out of Honorary Magistrates, and if it were obtained, there would be no need for depriving the Provincial Executive Service of capable officers who have had to be drafted on to the Presidency Courts. There can be no question of the nature of the work done by Honorary Magistrates, for the Resolution I refer to testifies to it. On behalf of the Government and of the public your Honour placed on record in that Resolution your Honour's appreciation of the public spirit of those gentlemen and of the efficiency with which they have discharged their voluntary duties. If the services of such a body of public servants be fully utilised, it would be possible to do without one at least of the Presidency Stipendiary Magistrates, for whom useful work could be found elsewhere."

The Hon'ble MR. BHUPENDRA NATH BASU said:—

"May I inquire, if Your Honour does not think it impertinent, if there is any truth in the rumour that the present Police Court building is to be dismantled and a new building erected where adequate provision would be made for Honorary Magistrates?"

The Hon'ble MR. DUKE replied:—

"There is a scheme before this Government, but it is not in an advanced stage."

The Hon'ble MR. DUKE said:—

"Sir, the Hon'ble Mover recommends that a sum of Rs. 10,000 should be provided for improving the court-rooms for Honorary Presidency Magistrates, and he proposes to provide it by reducing the allotment made to the Excise Department. With the object which he has in view, Government is entirely in sympathy, and if Rs. 10,000 would be a sufficient provision to accomplish the object, it would somehow or other have been found. But I regret that I must take exception to some of the arguments with which the Hon'ble Mover has supported his claim. He refers to the motion which was brought in by Babu Radha Charan Pal sometime ago and says that the practical response to the call has been growing less and less. I think that the argument which he has used in this connection was that the services of the Honorary Presidency Magistrates are not appreciated by Government

or by the Chief Presidency Magistrate. Towards the end of his speech the figures which he himself quotes of the percentage of cases tried in Calcutta show that this has arisen in the course of three years from 4·10 to 8·9 per cent., and as a matter of fact in the three years to which he refers, the number of cases has risen from 1,300 to 4,000, or more than three times. It seems hardly intelligible to quote these figures and then to say that their efforts are not appreciated. As a matter of fact the work which has been done is appreciated both by the Chief Presidency Magistrate who arranges the work and by Government. Anything that can reasonably be done, will be done to take further advantage of them, but it is impossible to accept the suggestion that Honorary Magistrates could be employed to a much greater extent than at present and replace stipendiary Magistrates, and replace one, not to say two, stipendiary Magistrates as the Hon'ble Member suggests. Reference has been made to the work which has been done by the Registrar since he was vested with magisterial powers. The Mover has not alluded to the use that is being made of the Registrar. He generally disposes of what are known as the night charges, those of drunkenness, disorderly behaviour, etc., and other petty charges ready for transfer before 10 o'clock. The great object is that these cases should be speedily disposed of, so that they should not delay the Chief Presidency Magistrate in proceeding with the more important work of the day, nor is it suggested that there is any Honorary Magistrate who is willing to come regularly to Court and dispose of these cases between that hour and 11. Then the other work of the Registrar is to take dying depositions which come in at all hours of the night and day. It is true that many Honorary Magistrates are very willing to give this kind of service, but the difficulty is it is necessary to know who they are, and it is a very troublesome matter for the police to keep up a list of them, and to go round in the middle of the night to find out whether the gentleman is at home and whether he is willing to do the particular work for which he is wanted. There are limits to the way in which Honorary Magistrates can be employed. The most important point, at any rate one that we hear so much of, is the necessity for providing adequate room for Honorary Magistrates. The Hon'ble Member says that the Courts of Honorary Magistrates do not seem to be in great favour. Long experience has shown that benches of several Magistrates cannot dispose satisfactorily of complicated cases, that is to say, protracted cases, because it inevitably happens between the convenience of the special bench and the necessities of the case that such cases are adjourned and protracted out of all reasonable proportion, from one Magistrate being unable to attend on one occasion and another being absent on the next; the order-sheet of the case at length becomes a scandal and it becomes a subject for regret that it was ever made over to a bench. Therefore the cases which the Bench Magistrates deal with are limited, and the only alternative is to employ single-sitting Magistrates. That is the reason why single-sitting Magistrates are employed in Calcutta, but the number who can be employed is necessarily small, that is to say, the number of gentlemen who are able to give their time and have the capacity and learning and for whom room can be found. That is in fact the crux of the whole situation: to find adequate Court-room. The condition of the Lal Bazar Police Court is very unsatisfactory and of course available space has become much less as the number of stipendiary Magistrates has been increased, and it is a matter of great importance that the whole establishment should be revised as early as possible and more and better accommodation should be provided, but such accommodation cannot possibly be provided with the sum of Rs. 10,000. When the matter is taken up, it is probable that even with the greatest economy, very considerable expense will be required. Rupees 10,000 would barely build a single additional room which would have again to be dismantled the moment that the building as a whole were repaired or extended. That being the case, it will be understood that the matter must wait till reasonable budget provision can be made. But I can assure the Council that the scheme will be considered, and that as soon as possible, it will be brought forward. That being so, perhaps I need say very little to the second part of the resolution, that Rs. 10,000 should be provided by reduction of the Excise establishment, that is to say, should be taken from the provision to be made for the reorganization of the Excise establishment. With reference to this, it is only necessary to say that the existing preventive establishments are probably one of the more

directly profitable subjects on which Government spends its revenues. Our Excise establishments are very much below the strength which they ought to be and below what is provided in other provinces such as Madras and Bombay, and that our proposals to increase them are made directly in view of obtaining increased revenue by doing so, by preventing various illicit practices. Therefore, in my opinion, the reduction of the expenditure of any particular sum such as Rs. 10,000 on the establishment, simply means the forfeiture of a very much larger amount of revenue, and in the circumstances of this province, we cannot afford to let go any revenue that we can possible rake in, so that the particular suggestion for providing this expenditure is, I may say, singularly ill-chosen."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—

"My friend's reference to the Lall Bazar Police Court buildings is a valuable commentary on the methods of the Public Works Department, for the building was not erected very many years ago, and was supposed to have been designed according to an up-to-date plan—Italian—, as they called it, I think, at the time. However, experience has shown the defects of the building which, as I understand, Government will take steps to correct at the proper time, but in the meantime the very small expenditure that I suggest would help in taking some partition down here and effecting an opening there, and building a room there, and from what I have been able to judge during my recent visit, this would improve the condition of the Honorary Magistrates' Courts. Further assistance have to be provided in the appointment of a few clerks as they have not the establishment enough to go on with their cases if a sufficient number of courts be sitting, which sometimes explains the delay to which Mr. Duke has referred. I am sorry that the Hon'ble Mr. Duke did not notice the correction made in my speech to the effect that one at least of the stipendiary Magistrates might be dispensed with, if Honorary Magistrates were fully availed of. I do not wish to minimise the amount of work done by the Registrar or the stipendiary Magistrates, nor do I suggest that stipendiary Magistrates should be replaced by Honorary Magistrates, but what I do suggest and press for is that Honorary Magistrates should not be replaced by stipendiary Magistrates unless there is clear reason or necessity for doing so. Such a reason I have not heard in the way suggested in the reply that the Hon'ble Mr. Duke has made with reference to my proposal. I should be worse than inconsistent if, with the figures which I myself had furnished and which Mr. Duke merely repeated, I for one moment should suggest that the Government did not appreciate the good work of Honorary Magistrates. What I complained of was that, though the Government appreciates very highly that work, fuller use is not made of that agency. The large number of cases that has been referred to in that resolution and by the Hon'ble Mr. Duke are chiefly petty cases such as take up very little time or exact very little of their energies and resources such as would be required in the disposal of more difficult cases. The disposal even of a larger number of petty cases by Honorary Benches would give no real relief to the stipendiary Courts; for aught one knows the stipendiary Magistrates may be able to dispose of the petty cases quicker than the Honorary Magistrates by reason of their training and traditions. Real relief to the stipendiary Courts can come by delegation of the more difficult cases to the Honorary Courts, which used to be the feature of Police Court administration in years gone by and against which there was never any complaint or objection. Real appreciation of the work of Honorary Magistrates would be demonstrated by such delegation and not by augmentation of the number of petty cases disposed of by them, such as even the Registrar may without much difficulty be expected to put through."

THE PRESIDENT said :—

"Does the Hon'ble Member desire to press the resolution? I thought that after the remarks made by the Hon'ble Mr. Duke to the effect that we are considering a scheme for the improvement of the Court which will involve very much larger expenditure than this, and which when carried out would amply meet the requirements of the Hon'ble Mover, I thought probably the Hon'ble Member might not find it necessary to press the resolution."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"The Hon'ble Mr. Duke's assurance, I think, relates to the improvement of the building, but my complaint is not limited to that alone, and I believe that even if the permanent improvement of the building be delayed, some temporary arrangement may be possible and work would be facilitated by providing suitable extra establishment for the Honorary Magistrates' Courts. If assurance to this effect is forthcoming, I am willing to withdraw the resolution."

THE PRESIDENT said:—

"I cannot say that there is any possibility of immediate relief, because it would have to take its turn with other projects."

The Hon'ble MR. DUKE said:—

"I understand, Sir, that the suggestion here is that the Honorary Magistrates are not utilised not merely because of want of room, but because of want of clerical establishment. This is a matter which has been particularly gone into, and I think that I can give the assurance that the Hon'ble Member desires, and my own impression is that the limitation is only in respect of room, and if it is found that there is sufficient room available, the difficulty can be got over."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"On that understanding I do not wish to press the resolution."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble MR. DUKE introduced the following heads:—

REVENUE—
XVII—Police.

EXPENDITURE—
20. Police.

The Hon'ble MR. DUKE said:—

"I beg to introduce the Police head of the budget, No. XVII on the Receipt side and XX on the expenditure side.

"Referring to the receipt side, head XVII, at page 33, I have to say that the fluctuations, which are not of great importance, are principally due to the extent to which preventive police, the cost of which is levied on private parties, have to be employed. The provision made for 1911-12 is normal.

"The figures for the expenditure side will be found under head 20 at page 52. In the grand total of the department which appears on page 55, there is a net increase of Rs. 1,22,000, and regarding this I may say that it still leaves the General Administration under a heavy obligation to the Police Department on account of reforms recommended by the Police Commission and accepted by this Government and the Government of India as imperative. The Government of India have made gradually increasing subventions to Provincial revenues in order to meet these reforms. These subventions, however, have now reached the maximum amount which will be given, but the reforms hitherto carried out still fall short of the standard which we have accepted, and it is estimated that we require Rs. 7,01,493 recurring and Rs. 14,31,932 non-recurring to complete the scheme. There is, therefore, a special obligation on the Government to proceed with the completion of the reforms without undue delay. As I will show, new schemes to the extent of Rs. 1,88,283 are budgeted for in prosecution of the scheme of reforms—

	Rs.
Calcutta Police.	
Creation of two Deputy Commissioners	16,650
Clerks in the offices of Deputy Commissioners	7,560
Bengal Police.	
Appointment of three Assistant Superintendents	3,600
Grade promotion of Sub-Inspectors	69,520
Grant of Re. 1 increment to constables (37,620)	37,620
Increase to complete the cadre of ordinary police in the Burdwan and Presidency Divisions	50,000
Force required to complete the cadre of the East Indian Railway Police—Government share	3,338
Total ...	1,88,288

"The creation of two Deputy Commissioners of the Calcutta Police replaces the posts of two Superintendents which have been abolished and completes that part of the scheme.

"Regarding the items under the Bengal Police, I would observe that two Assistant Superintendents shown at page 6 of the Schedule of new schemes is a mistake for three. Three Assistant Superintendents are being added in pursuance of the scheme for gradually bringing up the cadre to the strength recommended by the Commission. The cadre is still a great deal short and it will be a considerable number of years before it is brought up to the full strength. Two of the largest items, namely, the grade promotion of Sub-Inspectors in accordance with the scheme and the grant of a rupee increment to constables, have already been too long deferred.

"The third item of Rs. 50,000, to complete the cadre for the ordinary police in the Burdwan and Presidency Divisions, is much less than I should like to see, for it is almost equally necessary to make up the cadre throughout the province, but as we could only provide a portion of the expenditure, it was judged best to proceed with the more important divisions near the metropolis.

"In explaining the position as regards the introduction of the Police Commission reforms, I have gone into details and wandered from the general finance of the department to which I will now return. I have shown that the reforms aggregate Rs. 1,88,288, and it will be found that there are other new schemes which bring up the total shown at page 7 of the schedule to Rs. 4,87,064. Out of this, however, Rs. 1,50,000 for barracks for a company of military police appears in the Public Works budget, and the actual cost of new schemes in the Police budget is only Rs. 3,37,064. The reason why it has been found possible to introduce new schemes to this extent, while the net increase in the budget is only Rs. 1,22,000, is mainly due to the fact that there has been a great saving under grain compensation allowance and in the head 'Supplies and Services,' Rs. 82,000 having been saved under the former and Rs. 76,000 under the latter head. Indeed, in the Bengal Police, as apart from the Presidency Police, there is an actual decrease in the budget, for while the total increase is Rs. 1,22,000, the increase in the Presidency Police above is Rs. 1,31,000.

"It will now be convenient to discuss the fluctuations under the several heads shown in the budget in order. As the figures concerned are large, it is only necessary to refer to fluctuations of major importance. The new schemes included in the schedule will be referred to under the several heads.

"Under the head 'Presidency Police' the only important variations occur under the first two heads, 'Police Commissioner (Superintendence)' and 'Calcutta Police.' Under both these heads there has been a considerable increase; under the former from Rs. 97,000 (Rs. 93,000 revised) to 1·41 lakhs, and under the second from 11·26 (10·91 revised) to 12·13.

"I have already referred to the increase on account of the appointment of two Deputy Commissioners in accordance with the Police Commission reforms. Another item of the same kind is the provision of Rs. 6,720 to substitute clerks for regular police officers in the offices of the Divisional Deputy Commissioners. Formerly, the clerical work was done by head-constables borne on the regular strength, and it was impossible to give proper effect to the reforms until these men were returned to their executive duties. The rest of the increase under the head "Police Commissioner (Superintendence)" is practically due to the temporary provision of an extra Deputy Commissioner in charge of the special branch of the Calcutta Police. Under the head "Calcutta Police," there is an increase of Rs. 87,000, or, as compared with the revised, of Rs. 1,23,000. The various new schemes undertaken will be found at page 5 of the schedule. The establishment for the special branch comes to Rs. 20,481. It has been found necessary to organise the machinery for special forms of crime in Calcutta and to take it out of the hands of the station police officers, and unify it under a single Deputy Commissioner as Superintendent. The expenditure does not represent the actual net increase, as most of the officers to be employed have already, for some time, been engaged in this work.

"The next large item (Rs. 22,920) for strengthening the High Court guards has been included at the instance of the High Court, who drew attention to the

insufficiency of the arrangements for guard shortly after the murder of Deputy Superintendent Shamsul Alum.

"The main item of increase under Calcutta Police, is, however, the provision for additional military police in the neighbourhood of Calcutta. Originally, Rs. 2,00,000 was entered for non-recurring and Rs. 25,000 for recurring charges. The non-recurring figure has, however, been reduced to Rs. 1,75,000, of which one and-a-half lakhs, as I have already explained, appears in the Public Works budget, and the remaining quarter of a lakh is to cover the cost of equipment. The Rs. 25,000 of recurring charges represents the cost for about four months of a company of military police, the full annual charge for which will be about Rs. 66,000. The necessity for strengthening the armed element in the Calcutta Police was strongly impressed on this Government by the the recent Bakrid disturbances. In the circumstances of the case, the calling in of the military was undoubtedly necessary, yet it led to a considerable amount of criticism of the police, on the lines that it was not much to their credit that the military should have to be called in for what was after all a local and not a specially violent disturbance, and it certainly appeared to Government that it should not be necessary to call in the military except upon really grave occasions, but to attain this result it was necessary that the police should possess a sufficient armed force. At present, the Calcutta Police possess only a single company armed, and this is continually dispersed on guard and escort duties. It has accordingly been decided to provide a company of military police of the same character as those already enrolled in the Bengal Police, which will be kept together and will at all times be available to suppress any disturbance.

"Proceeding now to the Bengal Police budget under the head "Superintendence" there is a decrease of Rs 5,000. The principal factors contributing to the decrease are the transfer of charges amounting to Rs. 24,000, to the Special Department, and now included in the second item on page 54, with which I will deal later. On the other hand, there has been an increase of Rs. 20,000 provided for the reorganization of the offices of the Inspector-General and Deputy Inspectors-General, in accordance with the recommendations of the Ministerial Officers' Salaries Committee—*see* schedule, page 6.

"Under 'Salaries', that is, the salaries of superior officers, it will be observed that there is a saving of Rs. 14,000, as compared with the sanctioned figures for 1910-11. This is due to the transfer to the head 'Criminal Investigation Department' of the pay of one Additional Assistant Superintendent employed in the Special Department, and to the deputation of two Assistant Superintendents to the Calcutta Police as Deputy Commissioners. The decrease, in other words, is a paper one.

"'Establishment' shows an increase of Rs. 32,000 over the sanctioned estimate and Rs. 10,000 over the revised. Rupees 12,000 of this is accounted for by reorganization of the petty establishments in river districts which has long been very necessary. The balance is due to the completion of the revision of the ministerial establishment in District Superintendents' offices, in accordance with the recommendations of the Ministerial Officers' Salaries Commission.

"Of the decrease in 'allowances' amounting in all to Rs. 1,46,000, Rs. 82,000 is due to the omission of grain compensation allowances. Horse and conveyance allowance has been cut down by Rs. 16,000 in view of the actuals. There is a further decrease of Rs. 40,000 for house-rent which has now been transferred to contingencies. This, of course, is merly a transfer between heads and does not represent savings. In the main item 'Supplies and Services,' there is a decrease of Rs. 76,000 which is explained in the remarks column. Of the items there noted, there are two in respect of which particularly heavy demands had to be met last year. Rupees 58,500 was required to provide the services of a steam-launch for the 24-Parganas, and Rs. 33,000 was set aside under this head out of the special grant of Rs. 3,17,000 for police reforms, to provide quarters for the 30 Sub-Inspectors added to complete the establishment. The increase in 'Contingencies' is, as explained above, principally formal and due to transfers from other heads. The lump provision for reorganization of Rs. 1,69,000 I have referred to, at any rate as regards the main items, in dealing with the Police Commission reforms.

"The method of budgeting for the Criminal Investigation Department has been revised, and that head now contains all the charges of the establishment for dealing with political crime, with the result that an increase of Rs. 49,000 is shown on the sanctioned estimate for 1910-11. A greater portion of this increase, however, is nominal, and is due to the transfer to the Special Department of charges from other heads. Thus, Rs. 17,000 is a paper transfer of clerks formerly shown under "Superintendence," while Rs. 7,000 on account of "rent, rates and taxes" have been transferred from the same head, and Rs. 6,000 from "District Police" on account of pay of an Additional Superintendent attached to the office. The real increase in connection with the Special Department is thus about Rs. 10,000 only. This is accounted for by the house allowance of the Deputy Inspector-General (Rs. 1,295) who has been admitted to the Calcutta House Allowance Scheme, Rs. 3,000 on account of the difference of pay due to the promotion of the Deputy Superintendent attached to the department, and Rs. 5,000 for temporary establishment. There are certain other minor items, some of which are paper transfers, which bring the total increase under the Special Department up to Rs. 40,000. The balance is attributable to the Criminal Investigation Department proper and is practically covered by the new schemes costing Rs. 8,000 which are explained in the Remarks column at page 54. The Criminal Intelligence Bureau is a new organization for collection and systematizing information regarding criminals which is already in the department and getting it into a form suitable for communication to districts. The local allowances amounting to Rs. 3,850 for the men in the Finger Print Bureau are merely the same allowances which are granted to all the officers of the Criminal Investigation Department, but which had not hitherto been granted to these men as they were not formally attached to it. I do not wish to minimize the drain upon the revenues of this province which is occasioned by the necessity of dealing with political crime, and I will, therefore, explain that altogether it has occasioned increases in the heads relating to it over the charges of the current year of Rs. 70,300. Of this, Rs. 33,006 is accounted for by a Deputy Commissioner and the Special Department in Calcutta, and Rs. 37,300 by increases in the Bengal Police. Out of this, however, Rs. 20,000 is due to paper transfer of establishment in Calcutta, and Rs. 30,000 to paper transfer of establishment and rent, rates and taxes in the Criminal Investigation Department, so that the actual net increase on special political work is thus about Rs. 20,000. If this were all there would be little to complain of, but unfortunately it is not only in police charges that political crime is expensive."

The Hon'ble Mr. Duke also introduced the following heads ;—

REVENUE—

XVIB—Jails,

EXPENDITURE—

19B. Jails,

He said:—

"I beg to introduce the head XVIB—Jails, XVIB on the receipt side and XIXB on the expenditure side.

"*Jail manufactures.*—It will be convenient to deal with the receipts and expenditure under this head together. The figures are closely connected, as the expenditure chiefly consists of the cost of purchasing raw material, and consequently its fluctuations correspond closely with those of the receipts, *i.e.*, the outturn. The revised estimates for 1910-11 show some recovery on the figures for 1908-09 and 1909-10, but are still below normal. The reasons for this decrease were explained by the Hon'ble Mr. Gourlay in introducing the Budget last year as follows:—

'As the Council is aware, the Jails' principal customers are the several departments of Government, and owing to financial stringencies, these departments have curtailed their orders, with the result that there are at present large stocks in hand.'

"It is hoped that there will be a further recovery during 1911-12. In the first place, there will be a rise in the demand for our staple product—tents, and moreover special measures are under consideration for improving what

may be called the commercial side of jail industries by securing a more regular demand from other departments and by reorganizing the central depôt in Calcutta. It is necessary, however, to budget cautiously. The effect of these measures will not be fully felt during 1911-12, and even if they are put into force, the profits will not immediately respond to the change. The receipts have, therefore, been estimated at 9 lakhs, practically reproducing the revised estimate for 1910-11 of Rs. 9,10,000 and showing a decrease of half a lakh on the sanctioned estimate for the current year. A corresponding decrease has been budgeted for on the expenditure side, Rs. 6·7 lakhs only having been provided for purchasing materials as against 7·18 lakhs sanctioned and 5 lakhs revised for 1910-11. In other words, we are budgeting for a surplus of receipts over cost of 2·3 lakhs, practically the same as for 1910-11—2·32. The surpluses for recent years may be referred to in this connection:—

Year.			Receipts.	Cost of raw materials.	Surplus.
			Rs.	Rs.	Rs.
1905-06	...	...	11,98,340	9,21,395	2,76,945
1906-07	...	...	11,93,515	8,72,666	3,20,849
1907-08	...	...	11,42,380	8,32,050	3,10,330
1908-09	...	...	9,08,969	6,69,842	2,39,127
1909-10	...	...	8,44,174	5,89,277	2,54,897
1910-11	...	...	9,50,000	7,18,000	2,32,000
1911-12	...	...	9,00,000	6,70,000	2,30,000

"*Expenditure.*—Expenditure under "Manufactures" has been dealt with above.

"Under Administration proper the revised estimate shows a decline of 2·38 lakhs on the sanctioned. This is to be accounted for principally by the fall in the price of food-grains, which affects not only the head "Allowances" as in other departments (under this there has been a reduction of Rs. 10,000, from Rs. 21 to 11,000), but also diet charges for prisoners, which forms the heaviest spending head of the Jail Department. Under this head there has been a saving of 1·51 lakhs. In budgeting for 1911-12 it has not been thought safe to reduce the provision for diet charges quite so far, and 6·47 lakhs has been provided. This, however, means a saving of 1·08 lakhs on the provision for 1910-11. This makes up the greater portion of the saving on administrative expenditure as a whole, viz., 1·17 lakhs.

"A glance down the column 'Budget estimate for 1911-12' will show a considerable increase, distributed over a number of heads. These are for the most purely nominal, and represent the splitting of the lump provision of 1·39 lakhs which was made for the new Presidency Jail at Kalighat in 1910-11. The remaining fluctuations are for the most part of little importance. They are sufficiently explained in the Remarks column. There are no new schemes of over Rs. 5,000, and the minor new schemes to which it is proposed to give effect are sufficiently explained in the list on page 7.

"Turning to the *civil works* with which the Jail Department is concerned the revised figures for 1910-11 show an estimated expenditure of Rs. 1,67,900. For 1911-12 there is a rise to Rs. 4,99,800, which is accounted for by the provision of Rs. 3,70,000 for the new Central Jail at Monghyr. Rupees 2,00,000 was originally provided for this work in 1910-11, and the necessity for the scheme was explained in introducing the budget for that year. I may here mention that owing to the very great increase of the jail population in the provinces it was found that the provision of the Kalighat jail was not nearly sufficient to permit of the old Presidency Jail being removed, and that it would be safe or possible to abolish the Presidency Jail until another new jail of first class size was built, and as a matter of fact the abolition of the Presidency Jail, the construction of the Monghyr Jail, and of course the Victoria Memorial which awaits the removal of the Presidency Jail, the whole thing hangs together in one chain. The scheme has unfortunately been considerably delayed owing to difficulties which arose with the Government of India as to the financing of it. After a considerable correspondence the Secretary of State has now accorded his provisional sanction to the scheme, and detailed plans and estimates have been prepared and have been submitted to the Government of India for obtaining the final approval of the Secretary of State. At the same time the Secretary of State is being moved to accord sanction to proceed with the acquisition of the land and other preliminary arrangements in advance

of final sanction to the plans. Orders on this point are expected shortly. Owing to this delay it has been found impossible to utilise any of the Rs. 2,00,000 originally provided, and the revised estimate for 1910-11 is blank. The amount originally provided for 1911-12 was Rs. 2,00,000. This was on the assumption that the Local Government would provide Rs. 2,00,000 yearly on account of the scheme until completion, and that the balance would be found from the Government of India by loan. The terms of the Provincial settlement having been revised, this method of financing the scheme has been dropped, and it has been decided that the whole cost of the building operations must be found by the Local Government, at any rate so long as the provincial balances permit. It will accordingly be necessary to provide as much as the Public Works Department can spend from year to year to bring the building to completion in as short a time as possible. The original rough estimate for the scheme was Rs. 32,57,000. Every effort has, however, been made to observe economy, and this has been reduced to Rs. 26,00,000, including Rs. 54,000 for the acquisition of the land.

"It is proposed to spread this over four years, the major portion of the work being finished in 1913-14, leaving certain subsidiary buildings to be finished in 1914-15. The Public Works Department estimate that they can spend during the year 1911-12 Rs. 3,70,000, including Rs. 54,000 for the acquisition of the land. This sum has accordingly been provided.

"The remaining civil works call for little comment, the greater portion of the expenditure being on works in progress, provision for which was made by the Council in 1910-11. It is hoped to finish the new Presidency Jail at Kalighat and the extension to the Khulna Jail. Those are the two principal works in progress. Rupees 10,000 has also been provided for the completion of the jail hospital at Krishnagar. As was pointed out by Mr. Gourlay last year, the accommodation at sub-jails in the mufassal is very inadequate. Provision has been made to complete three projects of this nature, Banki, Banka and Magura—which were started in 1910-11.

"Unfortunately owing to the pressure of other schemes, it has been found impossible to take up any new sub-jails, though several await funds.

"There remain only three new projects—

"(1) Quarters for European warders, Alipore Central Jail ... Rs. 15,000

The existing staff of six European warders is at present accommodated in temporary quarters at the Kalighat Jail, there being no accommodation whatever available at Alipore. This arrangement obviously cannot continue.

"(2) Reconstruction of barracks, Chapra Jail ... ... Rs. 47,800

The condition of the old barracks in the Chapra Jail is unsafe and their reconstruction is an urgent necessity. The scheme will cost in all nearly Rs. 1,00,000 (Rs. 96,000), and half of this has been provided for 1911-12.

"(3) Reconstruction of wall, Bankipore Jail ... ... Rs. 13,000

"The existing surrounding wall is seriously unsafe.

"This has been taken up because it was reported that the existing wall was seriously unsafe and a determined rush of the prisoners might overthrow it."

The Hon'ble Mr. Küchler introduced the following heads:—

Revenue—

XIX—Education.

Expenditure—

22. Education.

He said:—

"I have the honour to introduce the consideration of the Educational Budget for 1911-12.

"Education being chiefly a matter of expenditure, the revenue side of the budget is as a rule of little interest, and the only point to which attention need be called is the considerable increase in the estimate of fee receipts for Government colleges and schools—general, on that of last year. This increase, which amounts to Rs. 57,000 and is based on the actuals for the last nine months, indicates of course a larger number of pupils reading in these institutions.

"Before proceeding, however, to the expenditure side of the budget, I may be permitted to refer at this stage to the Imperial grant of 24½ lakhs for education which is shown at page 26 of the Financial Statement under the head of "Adjustments." Though naturally coming under the revised estimate of Bengal Provincial Receipts for 1910-11 it may practically be regarded as part of the educational income for the next two financial years, within which period it is stipulated that the amount shall be spent. The most convenient course is therefore to give a statement here of the specific purposes for which the grant has been earmarked by the Government of India and of the sums which it has allotted for these purposes, reserving further comment on the actual disposal of the grant within these limitations for the appropriate heads of educational expenditure. The statement of authorised distribution is as follows:—

	Rs.
(1) *Technical and Industrial*—	
Sibpur College equipment	50,000
(2) *Primary Education*—	
Primary school buildings and equipments ...	2,00,000
(3) *Hostels*—	
Calcutta Collegiate Hostels	6,00,000
Mufassal College Hostels	3,00,000
Do. School Hostels	3,50,000
(4) Presidency College	8,00,000
(5) European Schools	1,50,000

"Passing now to the expenditure side of the budget I propose to explain briefly the more important educational developments which are represented by the new budget provisions for the year 1911-12. It will be noticed in the first place that apart from the proposed expenditure due to the Government of India grant, the total budget allotment for 1911-12 falls short of the corresponding estimate for 1910-11 by Rs. 91,000. This deficiency is more than accounted for by the absence of the provision of 1 lakh which was made in last year's budget for the construction of Guru Training Schools, and which it has been found inexpedient to include in the budget for 1911-12. Leaving this item out of account, there has been an increase of educational expenditure on other objects of Rs. 9,000, and in the present state of provincial finances this is perhaps all that could be expected. Education must therefore be more than grateful to the Government of India for its liberal grant which renders possible the execution of many educational projects of great importance, even though they will mainly find immediate expression in bricks and mortar.

"The chief features of the present budget under the various educational heads are as follows:—

"(1) *University*.—A grant of Rs. 1,60,000 has again been made by the Imperial Government to the University of Calcutta, but the conditions attached

to its distribution have been slightly altered. In previous years Rs. 80,000 was set aside for grants-in-aid to affiliated colleges, Rs. 50,000 for administration, inspection and maintenance of the Law College, and Rs. 30,000 for the University Building Fund. With regard to the grant for 1911-12 it has been stipulated that only Rs. 50,000 shall be applied to direct University expenditure, the balance of Rs. 1,10,000 being distributed in grants-in-aid to the affiliated colleges.

"(2) *Collegiate Education.*—A further step will be made in the year 1911-12 towards the realisation of the scheme initiated in the year 1907, for the strengthening of the staff of Government Colleges. Under this scheme, seven new appointments in the Indian Educational Service in connection with professorships of Government Colleges still remained to be filled at the commencement of the present calendar year, although temporary arrangements had in the meantime been made for the teaching of the subjects for which these professorships were created. It is expected that four of these posts will be filled in the course of the present year, and corresponding provision has accordingly been made in the budget.

"A large number of new appointments in the Provincial Educational Service have under the same scheme been recently sanctioned, and although the new men appointed have, in accordance with the usual practice, been placed in the lowest grade of that service, the actual appointments had to be so distributed so as not to disturb the existing proportion of the numbers in the various grades. The cost of this part of the scheme, which has also incidentally benefited the present members of the service owing to the posts so created being filled by general promotion is given at page 8 of the schedule of the new scheme at the end of the Financial Statement. It amounts to Rs. 27,360. The other items under the same head, namely, Rs. 4,800, for two temporary lecturers and Rs. 2,400 for acting promotion of two appointments are due to the fact that three new posts in the Indian Educational Service are still unfilled. In the same place will be found the provision made for other professorships and lectureships which it has been found necessary to create over and above those contemplated in the original scheme. In all these latter cases, which include professorships and lectureships at the Presidency, Sanskrit and Ravenshaw Colleges, temporary posts were in the first place sanctioned by Government and the provision in the budget for 1911-12 indicates the necessary cost of substituting for these temporary posts permanent appointments either in the Provincial Educational Service or the Subordinate Educational Service. The latest additions were two lectureships in English at the Presidency College sanctioned in the latter half of last year for the purpose of improving the tutorial work done in that institution.

"As a matter appertaining to collegiate education may also be mentioned the grant of the Government of India towards the improvement of the Presidency College. Out of the total grant of 24½ lakhs, 8 lakhs has been assigned by the Government of India for this purpose. It is not yet certain whether any conditions will be imposed by the Government of India as to the way in which this sum is to be applied but if not Rs. 4,02,963 will be utilised for the completion of the Physical laboratory, the construction of Physiological, Botanical and Geological laboratories and the acquisition of a small portion of the land which is required to complete the necessary ground area for this building. The assignment of the balance has not yet been finally determined.

(3) *Technical and Industrial Education.*—There is little variation from last year's figures in the budget provision for 1911-12 under this head.

"The term of five years for which the peripatetic mining classes had been originally sanctioned came to an end last November, and the whole question of their continuance and possible development was brought under revision. Though certain defects had emerged in the light of the experience gained during this period, notably their conflict with the permanent classes at Sibpur in providing a much easier avenue to the managers' certificate given under the Mining Act, there is no doubt that they have done good work. Supplying as they do an immediate want in training men actually employed in mines for positions of responsibility. They are in fact more popular with mine-owners than the permanent classes at Sibpur, and it has been decided to continue them though in a slightly different form for a further experimental period. After

consultation with the chief mining authorities it has been considered preferable to have, instead of a single full-time peripatetic lecturer, four part-time lecturers at definite mining centres, and certain mine managers specially qualified on account of their scientific training have been selected for this work. The allotment for these peripatetic classes was formally included in the Sibpur College budget. It is now shown separately, and as the altered system is of the nature of a fresh project it appears this year in the schedule of new schemes on page 10. The cost, namely, Rs. 8,786, shows a considerable reduction on the annual expenditure of Rs. 12,431, formerly incurred. When the experimental period comes to an end, the question of these classes and their relation to the mining instruction given at Sibpur will have to be carefully considered, but everything points at present to the likelihood of their continuance and further development. They have this undoubted advantage in comparison with other schemes of technical instruction, that the problem of the future employment of their passed students does not enter into consideration. The pupils who attend these classes are already in employment, and not only is their employment rendered more secure by the further knowledge they thus acquire, but they also become better fitted for more responsible work. In the case of an institution such as the Serampore Weaving Institute the position is different. A reference to this institution is perhaps out of place in the present statement as it has not been found necessary to increase the budget allotment for industrial and technical schools under which head it finds its place. At the same time it is not intended that its natural development should be suspended during the coming year, and in connection with that development there arises the important question of the prospects of employment of the passed students of the institution. The Weaving School at Serampore stands in this respect entirely by itself. It does not as the Sibpur College, the Bihar School of Engineering and the various technical schools undertaking the ordinary sub-overseer courses, provide an avenue to Government employment. On the contrary, it was established by Government to meet the alleged wants of a purely private industry for technically trained men, and its justification will rest largely on the extent to which those who have gone through its courses and satisfied its tests find subsequent employment. The present is therefore a critical period of its existence, inasmuch as the first batch of students has recently passed out from the institute, and it is to be sincerely hoped that private employers and capitalists will do everything in their power to give these young men a start in life. The experience which we shall gain in the present instance will undoubtedly be of value, inasmuch as it will bring into prominence some of the important factors determining the proper rate of progress in the matter of technical education. One of these factors is obviously the prospect of the development of the industries corresponding to the courses of technical instruction which it is proposed to provide, and the consequent chances of employment of those who make use of the facilities for education thus offered. Unemployment is even a more serious evil in the case of the technically trained than of those whose education has been purely literary, and in considering any scheme of technical instruction the possibility of a danger of this nature has to be carefully borne in mind. I should add that so far as the lower class at Serampore is concerned, viz., that for the instruction of actual weavers, this question does not arise. This class, in that it deals with men already in employment, stands on the same footing as the peripatetic mining classes, and has up to the present been attended with considerable measure of success.

"Before leaving the subject of technical and industrial education I must refer to the Imperial grant of Rs. 50,000 for the Sibpur College equipment. It has not yet been found possible to determine exactly how this money is to be spent, but a considerable portion will be devoted to the improvement of the equipment of the new classes for Industrial Chemistry.

"*Hostels.*—The great interest manifested of late in the question of the provision of hostels for college students and schoolboys finds a reflection in the present budget. Last year a scheme for the appointment of well-qualified and adequately paid hostel superintendents was sanctioned by the Government of India, and the scale of remuneration contemplated in this scheme

will be introduced in the coming financial year. The intention is to secure the services of some of the best men available on the staffs of Government schools and colleges for the work of supervision of the students living in the hostels connected with these institutions. The budget provision of Rs. 17,800 shown on page 10 of the schedule of the new scheme represents the cost to Government for the necessary extra allowance. It is of the nature of a happy coincidence that simultaneously with the provision of more satisfactory superintendence it will now be possible with the help of the liberal grant of the Government of India to meet the present crying want for suitable hostel accommodation for the students not only of Government but also of private institutions as well. Of the Government grant six lakhs are earmarked for college hostels in Calcutta, three lakhs for mufassal and three and a half lakhs for zilla and aided school hostels. With regard to the Calcutta grant, nothing has of course been settled as yet as to its distribution. Possibly the most satisfactory procedure will be to appoint a small committee to determine the principles on which the grant shall be given and to invite applications from institutions which are willing to subscribe to these conditions. It may, I think, be taken as practically certain that one of these conditions will be the appointment of well qualified superintendents. In the matter of the provision of zilla school hostels we are fortunately in the state of greater preparedness. The following list shows the projects for such hostels which have already been prepared and are ready for execution and which have either been approved by or are about to be submitted to Government:—

(1) Hostel building for Hindu students of the Darjeeling High School.

Hostel building for Bhutia students of the Darjeeling High School.

One Hostel Superintendent's quarters for the two hostels.

(2) Construction of a hostel for the Northbrook School at Darbhanga.

(3) Barrackpore—Construction of hostel for the Hindu students of Barrackpore Government School.

(4) Hazaribagh—Construction of a hostel for the Hindu students of the zilla school together with Superintendent's quarters.

(5) Hostel building for Purulia Zilla School (Hostel buildings for Hindus and Muhammadans).

(6) Hostel buildings for Bhagalpur Zilla School.

(7) Improvement to hostel buildings of Birbhum Zilla School.

(8) Proposed new Muhammadan Hostel building for Barasat Government School.

(9) Hostel buildings for Monghyr Zilla School.

(10) Hostel accommodation for the Patna City School.

(11) Provision of hostel accommodation for the Gaya Zilla School.

(12) Provision for hostel buildings for 24 Hindus and 6 Muhammadans for Palamau Zilla School.

One Hostel Superintendent's quarters.

"The total cost of these projects amounts to Rs. 3,35,187.

"The question of the provision of hostels for mufassal colleges requires further consideration.

"I may refer here to a slight error which has crept into the schedule of new scheme. On page 90 Rs. 6,658 is given as excess of the cost of maintenance of the new Madrasa hostel over the fees paid by the students. The figure there given is however the total maintenance charge; the excess amounts only to Rs. 1,032.

"*Inspection.*—It will be noticed that the provision under this head on page 56 of the budget has risen from Rs. 8,33,000 to Rs. 8,60,000, but I am glad to reassure those Hon'ble Members who regard with some disfavour this item of expenditure that the enhancement is not due to any increase in the number of Inspectors, but almost entirely to the betterment of the pay of the

Sub-Inspectors who were recently transferred from the District Boards to the Department. The charge on Provincial revenues for the year 1911-12 arising from the regrading of the Subordinate Educational Service, which is necessitated by the admission of these officers, accounts for the greater part of the sum of Rs. 68,860 for which provision is made on page 7 of the schedule of new schemes, the balance, *i.e.*, Rs. 12,200, being required for the stipulated promotion after a certain number of years, of those inspecting officers who were appointed directly to the Department in 1907 in connection with the scheme for the strengthening of the inspecting agency. As has already been indicated in answer to a question put in Council, it is possible that the Sub-Inspectors may later on be placed in a separate cadre, but the cost of such a scheme will certainly not be less than that for which provision has now been made.

Finally it is necessary to make a brief reference to the subjects of primary education and European schools, as they are included in the application of the special grant from Imperial revenues. No detailed assignment of funds has as yet been made under these heads, but there are many demands under both, and there will be no difficulty in spending the money usefully within the allotted time.

The Hon'ble Babu Braja Kishor Prasad moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council that provision be made in the Budget for the following additional grants under the heading "Education":—

(1) Rs. 12,000 for assisting the Bhumihar Brahman College of Muzaffarpur towards meeting its current expenses,

(2) Rs. 14,000 for strengthening the tutorial staff of the Government and Zilla High English schools in Bihar,

(3) Rs. 24,000 for assisting the public High English schools at the head-quarters of the subdivisions in the district of Bihar,

by making, if necessary, a reduction of a sum of Rs. 50,000 under the heading "Inspection" of the major head of "Education."

He said:—

"YOUR HONOUR—

The resolution which I propose to move runs thus:—That this Council recommends to the Lieutenant-Governor in Council that provision be made in the budget for the following grants under the heading 'Education':—

(*a*) Rupees 12,000 for assisting the Bhumihar Brahman College of Muzaffarpur towards meeting its current expenses;

(*b*) Rupees 14,000 for strengthening the tutorial staff of the Government and Zilla High English schools in Bihar;

(*c*) Rupees 24,000 for assisting the public High English schools at the head-quarters of the subdivisions of the districts of Bihar by making, if necessary, a reduction of a sum of Rs. 50,000 under the heading 'Inspection' of the major head of 'Education.'

"This resolution concerns the secondary education in Bihar and the Bhumihar Brahman College of Tirhut. At the general discussion of the budget last year, I brought up these matters before this Council, and I am glad to note that the Hon'ble Mr. Küchler, on behalf of the Government, was pleased to observe in his speech that he was in full syampthy with me as to the necessity of improving secondary education, and that the matter was under the consideration of the Government. According to the rules, the final discussion

of the budget is limited only to the offering of any observations the Members may wish to make on it without being permitted to move any resolution, and as the entries in the budget cannot be altered or modified at that stage of the discussion, the Government could not possibly be expected to do anything in the matter, even if it had any mind to do. It is, therefore, Sir, that I bring forward my resolution this year at the proper time in the hope that the Government may be able to do something for us.

"It is admitted on all hands that Bihar is backward in education, and this backwardness is principally due, I may suggest, to the want of facilities of education. Educational institutions are very few in Bihar compared with those in her sister province of Bengal. The average number of High English schools in a Bengal district is 18, while that of a Bihar district is only 6. But for this the Government is not responsible. The people of Bihar have not shown the zeal and earnestness in this matter which we find in our Bengali brethren. However, it is not the number of institutions with which my resolution is concerned. It is rather with the deplorable conditions of the High English schools and of the Tirhut College of Bihar.

"I take up the schools first. There has been a gradual weakening of the teaching staff in our Zilla schools. Almost all the Zilla schools are more or less in the same predicament, and this very materially affects us, the Biharis. I shall illustrate my point by taking up the case of one of these Zilla schools, viz., the Northbrook School of Darbhanga, for time would not permit of taking up all. This school is the only school in the southern part of the town where the civil station is situate. The Darbhanga Raj School is at a distance of no less than five miles from the civil station. The Northbrook School consists of 10 classes and 15 teachers, including 2 Maulvis, 2 Pundits and 1 clerk, who also works as a teacher. The 7th B class is the lowest class to which infants are admitted. It already consists of 29 or 30 students, so that now no more students can be admitted into it. The University regulations of 1906 lay down that 'no teacher should be allowed to teach—

(a) in the Entrance class or second class or any section thereof more than 50 pupils at the same time;

(b) in any of the classes from the third to the sixth or any section thereof, more than 40 pupils at the same time;

(c) in either the 7th or the 8th class or any section thereof, not more than 30 pupils at the same time.'

"If a sufficient number of students want to take their admission, the only alternative the Headmaster has to adopt is to divide the class into two sections, so that each may accommodate the appointed number of students. But, for this, extra hands are required. You will be surprised to hear, Sir, that no less than 60 students have been refused admission in one class, viz., the 7th B class of the Northbrook School for want of room. The Headmaster is unable to divide classes into sections, for he is not given sufficient number of teachers In the beginning of the last month, he reported the matter to the Inspector of Schools, saying there was a great rush of students; but, Sir, as yet no arrangement has been made. All classes of people in the civil station are in a peculiar predicament. They cannot send their boys to any other schools, for there is none near about. There is not even a Middle English school at Darbhanga. You can judge, Sir, their feelings. There was a time in Bihar when guardians did not care to educate their children, and now a time has come when we find that when they send their boys, the school authorities do not take them for want of room. How long, Sir, is this state of affairs to continue? Similar is the case with some of the other classes, and more or less the same state of affairs prevail in most of the Zilla schools of Bihar. I have been, Sir, earnestly pressed by the people to bring these matters to your notice, and I do it with all the force I can command. The teaching staff should be strengthened without any further delay, but for this sufficient money is required.

"Formerly, there used to be no less than four graduate teachers in a Zilla school in Bihar, when the teaching was very simple. But, now when it has been made more complex by the University Regulations, we find hardly two graduates in a Zilla school in Bihar. Only the other day the Hon'ble Mr. Gourlay replying on behalf of the Government to a question of mine on the subject, said: 'It is a fact that there are fewer graduates in the Zilla schools in Bihar at the present times than there were ten years ago.' And this is explained by him, I may say rather explained away, by saying that the supply of Bihari graduate teachers has been insufficient. This is no explanation whatever. If Bihari graduates are not available, I see no reason why Bengali or other graduates should not be appointed, and why for want of Bihari graduates, if it be a fact at all, the education of the Biharis should be allowed to suffer. There are many departments of the public service in Bihar, such as the medical and the engineering departments, which are filled up by outsiders, as competent Biharis are not available. The principle, Sir, should be that in Bihar qualified and competent Biharis should be preferred to equally qualified and competent non-Biharis, and not that where Biharis are not to be had the work should be allowed to suffer. Here I think it my duty to offer the grateful thanks of the people of Bihar to the Government, for its genuine efforts in appointing as many Bihari graduates as possible in the Education Department, on an initial pay of Rs. 50 a month. This has given a great encouragement to the Biharis to take to the educational line, and if this policy is continued, Bihar would certainly make much progress.

"Before April 1909, the English syllabus required English teaching in the lower classes of a Zilla school for 4 hours a week; but, Resolution No. 109, dated the 20th April 1909, the teaching of English in those classes has been extended from 4 hours to 8 hours, in other words, it has been doubled. But, Sir, has the Government made a corresponding arrangement for a sufficient number of English teachers to cope with the work. Are not the teachers already serving in these schools sufficiently overworked? Do we not find remarks to this effect by the Inspector of Schools as regards the teachers of most of the Zilla schools of Bihar?

"Again, we find that teachers from Zilla schools are constantly deputed for training to a training college, and generally two or three months elapse before their places are filled up. This has a very baneful effect on the teaching imparted in our schools. The continuity is broken up. This also can be remedied by having a sufficient number of teachers, and for it we require money. The Zilla schools should serve as models to other schools in the district. But my resolution does not aspire to that height. It only requires provision to be made for the bare necessities.

"I purposely refrain here from saying anything about the pay and prospects of teachers, for it does not directly touch my resolution. I content myself with saying only this much, that our teachers are the most ill-paid officers of the Crown, but at the same time the most responsible officers. The Government should lose no time in taking up this matter in right earnest, and do all it can to improve the pay and prospect of our teachers.

"We urge, again, Sir, as we did last year, that the expenditure on education in Bihar should be commensurate with its contributions to the revenues raised in the Lower Provinces. We have a right to it, and we urge that right in this Council. If we add two teachers more to some of our Zilla schools in Bihar, I think we would require something like Rs. 14,000 for it, and the Government should not grudge giving this sum for such an important purpose.

"I now take up the case of the public or aided schools at the head-quarters of most of the subdivisions of the districts of Bihar. The conditions of these schools are very pitiable. They are financial wrecks. And most of them are only trying to keep their heads just above the water. Almost all of these schools are managed by committees, under the supervision of the subdivisional officers. There can be no doubt that one High English school in a subdivision of Bihar is but a bare necessity. The Government and the people should try to maintain these institutions in efficient conditions. It is very kind of the subdivisional officers to interest themselves in these institutions, and it is mainly

through their efforts that these schools are going. But unless the Government comes to their aid, I do not think they can continue to exist in any good condition. I can speak, Sir, from personal knowledge about 5 or 6 of these schools, *viz.*, those at Siwan, Gopalgunj, Hajipur, Sitamarhi, Samastipur and Barh. In the beginning of the last year, the Hajipur School would have ceased to exist, as the funds were not sufficient to keep the school going even for a month, had not the subdivisional officer, Mr. J. S. Mackay, succeeded in collecting Rs. 1,800 for it. For the Samastipur School the subdivisional officer, Mr. Luby, has been able raise Rs. 6,000, out of which about Rs. 1,300 have been realized. The poor middle classes of Biharis are doing all they can to keep up these institutions, and I hope the Government will supplement their efforts. Unless these schools are equipped with good staffs of teachers, good libraries and good buildings, we cannot expect good results from them. The needs of these schools are the most pressing, and some provision should be made by the Government to relieve these needs. We would not have had to trouble the Government if our own men, I mean the richer class, would have given the least attention towards these things. Unfortunately, in Bihar, as compared with Bengal, the distribution of wealth is very unequal. A few are rich beyond measure, while the majority have got nothing. There is, properly speaking, no middle class in Bihar, as we have a clearly defined middle class in Bengal. The Hon'ble Mr. Küchler has expressed his full sympathy with the condition of secondary education in Bihar, and we entertain every hope that that sympathy will not prove itself to be a sympathy in mere words but in action also. I would most earnestly urge on the Government the necessity of allotting of Rs. 24,000 for helping these most useful institutions.

"I now come to the last, rather the first part of my resolution, viz., that which deals with the Bhumihar College. I pointed out last year, while discussing this subject, that, in the four years from 1907 to 1910, out of a total Government grant of Rs. 3,44,644 given to the individual colleges of this province, not a farthing went to the Tirhut College. I urged last year for a grant to the Tirhut College, but it was refused. I will now examine the grounds on which the claims of Bihar colleges, especially that of Tirhut College, are badly treated. The reasons are contained in the Budget speech of the Hon'ble Mr. Küchler. He concedes that it is perfectly true that 'if we compare the population of Bihar with that of Bengal, the amount of public money spent on education in the former appears to be inadequate,' but adds further that this is not a sound basis of calculation. He ascribes the backwardness of Bihar to the fact, or the theory, that the Biharis have hitherto shown no earnestness to make use of the few educational institutions in Bihar. He then proceeds to compare the number of University students reading in the two parts of the province and the fees paid by them, which he says should be the true basis of comparison. And thus by this method of calculation he tries to show that the grant made to the Bihar colleges, though apparently insignificant, is not largely disproportionate to the corresponding student population. But, Sir, even taking all that has been said by Mr. Küchler to be true and correct, does it meet the case of the Tirhut College? Has this college received anything from the Government, either by way of maintenance, building or hostel grants, during the eleven years of its existence? If it has not, can any comparison on any basis be made? How is it, Sir, that many private colleges in this province are receiving ample support from the Government, while the claims of the Tirhut College are being ignored, even in face of the recommendations of the local officials who know the needs of the college well. The Hon'ble Mr. Küchler said that no evidence had been produced before him to show the necessity of the existence of a first grade college in Tirhut, and that, if he could be convinced of it, he would recommend to Government the application of the college authorities for a grant sufficient for the working of a first grade college. But, unfortunately for the college, it appears to me, Sir, that the figures about it, relied upon by the Director of Public Instruction in support of his position, were not sufficient and strictly accurate. I here give you the figures and the opinions of the officers on the spot which would prove that the existence of the Bhumihar Brahman College, as a fully staffed

and fully equipped first grade college, is a necessity in Tirhut. This college has been in existence as a second grade college since 1899-1900. It was affiliated up to the B. A. degree in 1901. During the short period of its existence, it has turned out 110 undergraduates and 21 graduates. It has on its rolls 33 first year, 54 second year, 7 third year and 6 fourth year students. Now, Sir, do these figures compare unfavourably with the figures of the Dublin University Mission College of Hazaribagh which has received as much as Rs. 37,000 as Government grants in the four years from 1907 to 1910? This institution was affiliated as a second grade college in 1899 and as a first grade college only in 1907. I would like the Director of Public Instruction to tell this Council if the principle enunciated by him for the making of Government grants holds good everywhere, or only with respect to the Tirhut and the Bihar National College. Will the Director of Public Instruction be pleased to lay the figures of the Hazaribagh college before this Council, so that the Hon'ble Members may be able to judge for themselves? If we compare the number of students in, and the graduates turned out by, the two colleges, we shall find that the Hazaribagh College is much worse off than the Tirhut College and yet, according to the standard of the Director of Public Instruction, the one is getting nothing while the other is receiving grants lavishly. I do not, Sir, for a moment grudge the grants to the Hazaribagh College. It may be given more, if necessary. What I want is that the Tirhut College should also have its own share.

"Last year Mr. Greer, Commissioner of Tirhut, at the time of the laying of the foundation stone of a building for the Bhumihar College by His Highness the Maharaja Bahadur of Benares, said—'The object of the Government in creating this new division (Tirhut) is to improve more effectively the condition of the people of this part of Bihar Their foremost want is education, not only higher education, but also primary and female education . . . . It is imperatively necessary for Biharis to take advantage of higher education to the fullest extent and, therefore, the maintenance of this college is indispensable . . . I hope that any appeal to people and Government for the help of the college will be duly responded to." And, Sir, the people have duly responded. The Maharaja Bahadur of Benares and the Maharaja Bahadur of Darbhanga have each contributed a handsome amount, and the trustees of the college have collected a large sum from the people. We have now to see if the Government responds to the appeal. The people have done their part of the duty and let us see if the Government is prepared to do its own. A grant of Rs. 1,000 a month to this college is not much.

"If we now examine the position taken up the Director of Public Instruction in his last budget speech, I think we shall be able to show its untenableness, and I hope the Hon'ble Mr. Küchler will pardon me, if I, as an old pupil of his, try to show the logical fallacy contained in his arguments. Mr. Küchler bases his opposition to the grant of the due shares of the Government aid to the Bihar colleges on the basis of the numerical strength of the students, particularly in the B. A. classes. He says there are very few students in the B. A. classes of the Tirhut and the Bihar National College, and so the Government would not like to make any grant to these colleges".

The Hon'ble Mr. Küchler said:—

"May I rise to a point of order, Sir? I do not think the resolution which the Hon'ble Member has brought before the Council is concerned with the Bihar colleges at all. It seems to me that the resolution deals entirely with the Bhumihar Brahman College. I doubt whether the Hon'ble Member is in order to speak about the Bihar colleges in general".

The President said:—"I do not think that the Hon'ble Member is in order in referring to other Bihar colleges, except by way of illustrating his arguments."

The Hon'ble Babu Braja Kisor Prasad said:—

"I was simply referring to the Bihar colleges in order to give illustrations. However, Sir, I have very nearly finished my speech.

"First make them efficient and then the Government help will be forthcoming. But, Sir, is not this argument a very good sample, of what the

logicians would say, an argument in circle. How can you make a college efficient without sufficient funds ? and how can you get a sufficient numbe of students in your college unless it is in an efficient condition ? I, who war a college student only ten years ago, can tell you from personal experience how students avoid inefficient institutions. Undoubtedly, the bad condition of our Bhumihar college is due to a lack of adequate funds. We cannot adequately pay our professors; we have no hostel accomodations, and we have no good buildings. Remove these wants, and our college will become as efficient as any other college in this province, and you will find in it as many students as in any other college. A practical illustration of this principle is the Hazaribagh college. If we compare the figures, we shall find that before the Government grant the condition of this college was worse than ours. The Government came to its help, and its present prosperity dates from that time.

"Education, Sir, as I have often said in this Council, is the most important concern of the people and of the State. It should form the first charge on the public revenues of a province. We are very fortunate that the Imperial Government has made, this year, a grant of about 24 lakhs for education in this province, though it has laid down its own conditions for its expenditure. However, besides this amount, our Provincial Government has to make its allotment. And if we want Rs. 50,000 for the schools and one of the colleges of Bihar, would Your Honour refuse our request. The figures I have given in my resolution are not exact. If the Government increases or decreases the amounts, I shall have no objections whatever, my simple object being to secure adequate financial aid to the High English schools and the Tirhut College of Bihar. If you approve, Sir, of the positive part of my resolution, I have every hope that you will find out this amount by accepting the negative part of it or by any other means. There is no particular reason for my selecting the heading 'Inspection' for a reduction of Rs. 50,000, except the fact that I find from the draft Financial Statement that you have been able to make a saving of a considerable sum from the amount budgetted under this head last year, and I hope you may well be able to make the same saving next year, so that we may safely reduce the amount even now by Rs. 50,000 which would not materially affect it.

"With these few words, Sir, I beg to commend the resolution to the acceptance of the Hon'ble Members."

The Hon'ble MR. KÜCHLER said:—

"Your Honour,—I think in the first place I ought to say it is a great pity that the hon'ble member did not allow me to see a copy of the notes which are the basis of his speech. As it is, I have not been able to verify the actual cases which he quotes. It is difficult to answer on the spur of the moment individual cases in which there is said to be some defect in the management of a particular school unless one has an opportunity of making an investigation into the facts. With regard to the points raised in the hon'ble member's speech I propose to take them up in the same order as he has done, viz., I will deal first of all with the question of the adequacy of the tutorial staff of Government schools in Behar.

"If we take this subject generally, it must be obvious, I think, to every dispassionate critic that we cannot possibly take any steps to raise the standard of efficiency in Behar schools without at the same time taking some measures with regard to other schools in the Province. The tutorial staff and the teaching staff generally in Behar schools is at present sufficient to teach the courses up to the ordinary, matriculation standard. I admit of course that this standard may be unduly low, especially for Government schools. But at the same time the terms of service for Bihar teachers and the equipment of schools in Behar are exactly the same as they are in other parts of the Province. It would be obviously unfair to apply to the improvement of Behar schools money which was not at the same time forthcoming to effect a general improvement in the standard of secondary education throughout the Province. I do not think that the individual instances which the hon'ble member has adduced have

in any way supported the general proposition which he has put forward. The matters which he has brought to the notice of the Council are matters of departmental administration. It may possibly be the case, though it has not yet been officially brought to my notice, that there is at the present moment a demand for admission to the Northbrook School, but it is impossible to discuss a question of this kind in the Council. In the first place we have no figures to show us whether there is sufficient accommodation to admit of the increased number of pupils who the hon'ble member says are clamouring for admission. If the accommodation is not there, then even if we supply the teachers, it is absolutely certain that the University would refuse admission to these extra pupils. But I do not think that this is a matter of much importance. An instance such as that cited by the hon'ble member with regard to the Northbrook School may at any moment arise with regard to other schools in the province. It is entirely a departmental matter, and the hon'ble member must admit that it only arose in the course of the last month. Well, perhaps the department is not particularly noted for celerity in dealing with questions which come before it, but one must allow time for the matter to be represented to the Inspector of Schools, and then to the latter to take departmental action to remedy the defect. It is extremely likely that this particular case will come before me in the course of the next two or three weeks. And if it really turns out that there is a need for the increase of teachers in the Northbrook School, I shall take every measure possible in order to remedy this defect.

"The hon'ble member in the course of his remarks has again referred to a matter which was brought up at the meeting of the Council last year in discussing the Budget, viz., the alleged want of graduate teachers in Behar. In connection with that alleged deficiency a reply was given by the Hon'ble Mr. Gourlay on one of the occasions in which this Council met, and nothing has fallen from the hon'ble member this afternoon in any way affects the position as it was then explained by the Hon'ble Mr. Gourlay. I think it is somewhat unfair to Government first of all to tax them with not appointing Behari teachers and then to turn round and say 'Well, if there are not enough Behari graduates, why don't you appoint Bengali graduates?' If there is one thing that we have been hearing for the last few years it is the necessity of putting Behari teachers to Behar schools. We should like to meet the wishes of the Behari community, but now we are told that we are wrong and that we should appoint Bengali teachers who have superior qualifications. I, however, very much doubt whether the sentiment thus expressed by the hon'ble member will find general approval among the members of the Behari community. Though we have to a certain extent reduced the number of Behari graduates in schools, we have not at the same time reduced the number so as to elicit any remonstrance from the University. We still satisfy the ordinary University standard, and I think that, that being the case, the more important consideration is that we should endeavour to meet the genuine wish of the Behari community that, so far as possible, posts in Behari institutions should be filled by qualified members of the Behari community itself.

"What I have said with regard to the zilla schools applies, I think, almost equally to the question of private schools in Behar. In Behar, as elsewhere, we know that the standard of secondary education is unduly low. In the recent Convocation speech delivered by the Vice-Chancellor attention was pointedly called to this deficiency of secondary education. But this is a deficiency which applies not only to Behar but applies to the whole province of Bengal, and if any measures are to be taken to improve the efficiency in our secondary schools, they must be measures not for one particular section of the province, but measures which will also be applicable to the whole province.

"I come lastly to the question which the hon'ble member has raised with regard to the grant-in-aid to the Bhumihar Brahman College. I have already called attention to the fact that though professedly dealing with the single instance of this College the hon'ble member has brought in the general question of Behar colleges. The general question of Behar colleges was dealt with very fully in

the remarks I made on the occasion of the last Budget meeting of the Council. And there is nothing in what has fallen from the hon'ble member—though he taxes me with a want of logic—to show that the position I then took was unreasonable. I fully acknowlcge the great liberality which has been shown by the members of the Behari community. On the occasion which the hon'ble member has referred to, I distinctly pointed to the notable example set by them to the rest of the province. But at the same time in determining whether the Government is justified in founding a new college or raising the status of a college, there are other considerations which it has to take into account. The chief point which the Government must regard in a question of this kind is whether the college is actually wanted. And with regard to the Bhumihar Brahmin College—to which I will now confine my remarks—I am still unconvinced, though always open to conviction, upon the figures which the hon'ble member has produced that there is any necessity for the establishment of B.A. classes in Muzaffarpur. The hon'ble member has pointed out that in the present year, if I quote the figures aright, there are seven students in the third-year and six in the fourth-year class. If we remember that there are three other colleges in Behar and that the B.A. class in those colleges are anything but full, I very much doubt whether sufficient justification has been shown for the creation of a new college teaching up to the B.A. standard in this part of Behar. It has been argued that Muzaffarpur students will not leave Tirhut. They refuse to go elsewhere. That is a point which requires discussion. The question of a grant-in-aid to the Bhumihar Brahmin College has been engaging the attention of the department for some time past. The negotiations, I allow, have been rather protracted, on account, I may say, of a difference of opinion, to which I have just alluded, between the members of the governing body and myself as to the justifiable status of that college and also to the amount of grant to which they would justly be entitled. What I recommended was, and I still believe that it is a sound advice, that the College authorities should, in the first place, concentrate their efforts on making it a really efficient second grade college, that is to say, teaching up to the intermediate standard only, and that when circumstances justify a change of status they should then try to raise it to the B.A. standard. I am sorry to say that this advice was not accepted. The reason why I took up this position was that the number of students who passed the intermediate examinations from Tirhut is still far too small to justify the creation of a first grade college; and the remarks which the hon'ble member has made with regard to the application of funds for increasing the efficiency of the college seem to me quite beside the point. It does not matter how much you increase the efficiency of the college if you have not got any students to enter it. No amount of application of funds will secure this result. Tirhut has long possessed a college, and it is not only open to the intermediate students, but it has been teaching up to the B.A. standard. Notwithstanding this fact there is only an infinitesimal number of students who pass the intermediate examination of the University from Tirhut, and only a few of these show any indication of continuing their studies. I do not think I should be justified as educational adviser of Government in recommending to them the application of Government funds in order to place the College to a B.A. basis. What I shall be very glad to do will be of course to recommend to Government that they should give a liberal amount for the purpose of putting the College in a sound basis as a second grade College. But my advice in this respect has been rejected by the College authorities. However that may be, the matter is now ripe for submission to Government. The submission has been long delayed, partly for the reason I have explained, and partly because of the difficulty I have had in persuading the authorities of the College to submit their application in regular form. But I am now about to submit the whole case to Government. It will be for the Government to decide whether a case has been made out for raising the College to the B.A. status and also to decide what amount of grant they will be justified in giving it. In this respect the hon'ble member has drawn comparisons with other colleges, notably with the Hazaribagh College. When the hon'ble member first referred to the

Hazaribagh College, I must say I felt a certain amount of nervousness, because I certainly understood that he was going to support, by actual figures, the position which he took with regard to that College. I felt relieved, however, when no figures were forthcoming. He has asked me to look at the figures, but I am perfectly convinced, though there are no figures before us, that the number of students who are reading in the B.A. class in the Hazaribagh College is much greater than the Bhumihar Brahman College. I am afraid there is another point which the hon'ble member has overlooked, and that is that the Hazaribagh College is the only College in Chota Nagpur, while the Bhumihar Brahman College is only one of four colleges in Behar. I think this is rather an important point in making comparisons between the Hazaribagh College and the College whose interest the hon'ble member has at heart.

"Before this question is submitted for the decision of the Council, I just wish to call attention to the proposal which the hon'ble member has made as to the means by which the necessary expenditure should be met. He has proposed in this respect that there should be a reduction under the head 'Inspection' of Rs. 50,000. Now, Sir, the amount provided under the head 'Inspection,' representing, as it does, the cost of a permanently sanctioned establishment, cannot well be spared. In fact, there is only one way in which the money could be found under this head, and that is by withdrawing the scheme, to which I already alluded in my introductory statement, for the provincialisation of Sub-Inspectors. If we are to give up that scheme, we would have Rs. 68,000 available, but I doubt whether the hon'ble member is prepared to go to that length. This class of officers is a very deserving class, and they have had to wait a long time before it has been possible to satisfy their just claims. I may bring to the notice of my hon'ble friend an important fact in this connection, and that is that I understand that the hon'ble member for the University, who, we all know, keeps a sharp eye on any increased expenditure under this head, has given his hearty support to this scheme."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"Sir, I am much obliged to the Hon'ble Mr. Küchler for the credit for vigilance that he has been good enough to give me, and I am not prepared to assent to the proposal of the Hon'ble mover of the resolution for cutting down inspection grants in the way he desires to do. I am glad that the Hon'ble the Director of Public Instruction has admitted the just claims of a deserving body of public servants who have long been kept out of their dues. If, however, other means could be found for meeting his wishes with regard to Behar educational institutions, I should be the last to stand in his way. Time was when the interests of the Behar educational institutions as well of other backward educational institutions like those of the Mahomedans had to be looked after merely by the member for the University. I, and before me my hon'ble friend Babu Bhupendra Nath Basu ungrudgingly and unhesitatingly tried to discharge our duties in this concern, and even now we do not shirk them. Now that Behar is, however, so well represented and is so able to take care of itself, we have naturally kept ourselves in the background. We do not, however, yield to any Behari in our desire to see Behar institutions strengthened. I do not agree with the Hon'ble the Director of Public Instruction's opinion that the Behar educational institutions ought not to have preferential treatment. That may or may not be relished in Bengal; but where special facilities are really wanted, whether it be in connection with Behar institutions or Mussalman education, there would be no harm in giving some slight preferential treatment. Sir, the Hon'ble the Director of Public Instruction referred to the speech of the Hon'ble the Vice-Chancellor on Saturday last, and as I happened to have a copy of it with me, I was looking up the passage. It runs thus:—

'But, though strenuous efforts have been made in the case of numerous institutions to attain what must be regarded as a moderate standard of efficiency, I am not optimistic enough to conceal from myself the unwelcome truth that immense sums will have to be spent before the schools can be deemed fully qualified to prepare students ultimately destined to receive a University education. The subject, in which the teaching is most

palpably defective, and, in many instances, conducted on what must be regarded as by no means rational lines, is English. Indeed, when we remember that our students, in the earliest years of their life, learn the first rudiments of English language from teachers who themselves never had any adequate training, it becomes a matter for astonishment that many of them learn so well as they do. This is a subject which demands immediate attention. Mere severity of examinations does not always effectively advance the standard of teaching; and the aim of all sound systems of education ought to be, not so much to keep back the unqualified as to reduce their number to an absolute minimum. The efforts of the professors in our colleges must be lamentably wasted if they are called upon to impart instruction to students imperfectly trained in the course of their career in schools, and it would be a real assistance to the colleges if a comprehensive scheme to the radical improvement of secondary education could be speedily brought into operation.'

"Here is one matter with regard to which Behar requires much more assistance than is necessary in Bengal, weak as it is. I am glad that the hon'ble mover of the resolution has stated that if enough Behari graduates are not forthcoming capable Bengali graduates may be appointed until Behar is able to train their own. This ought to illustrate the mistake of absolute provincialisation at all events with regard to educational matters, and it is not unfortunate that our Behari friends should profit by the situation. In order for Behari graduates to be plentiful, there must be facilities for their creation, and Behar must therefore have good colleges and schools. Behar has a special feature as regards school education; there is not a sufficient number of private schools such as one meets in Bengal, and therefore some preferential treatment is necessary with regard to the schools there. But there is some difficulty with regard to the college with which the Hon'ble Babu Braja Kishore Prasad's resolution is concerned. I do not agree with the Hon'ble the Director of Public Instruction that even if you have the means to have a first grade college you ought not to have it if there be no present local need. If you really make it efficient students are bound to go there, for many students were not able to find admission in the different colleges in Behar during the last two years for want of accommodation, and if a good college could be placed in Behar students would flock to it in numbers. We had a good illustration of this in the college maintained by the Hon'ble Maharaja of Cossimbazar which was long in a moribund condition; but thanks to his exertion and munificence it has now taken the forefront among the educational institutions of Bengal. There you have an illustration that you have only to add to the efficiency of the college to be able to draw any number of students you want—nay you will have to duplicate the machinery before long as the Maharaja of Cossimbazar has been obliged to do with regard to some of the subjects in the Krishnanath College having regard to the increasing demand for admission. If, however, you have not enough resources not only from the Director's point of view but from the University point of view also, I think there is danger in turning a good second grade college into a bad higher grade college. I may incidentally mention the assistance that the Bhumihar Brahman College has been receiving from the University of Calcutta during the last two years from its slender resources placed at its disposal by the Government of India. Out of the amount that the University distributed last year amongst the colleges, it gave Rs. 12,000 to the Bhumihar Brahman College, of which Rs. 8,000 was for the hostel, Rs. 2,000 for the library, and the remaining Rs. 2,000 for the Physical laboratory. This was granted on conditions that the college authorities would supplement the University grant at least by an equivalent amount, which, I believe, they did. Nearly the whole of the previous year's grant had been utilised for improvement of the laboratory, and increased grants placed at the disposed of the University this year will probably enable the University to give some more grants to the College.

As to the St. Columbas College, Hazaribagh, referred to by the hon'ble mover, I might inform the Council and the hon'ble member in particular that the University realised that the Government was giving more to the Hazaribagh College, and that therefore the University assistance was proportionately less to that College than to the Bhumihar Brahman College. The St. Columbas College asked for Rs. 34,000, and the University gave it only Rs. 3,000."

The PRESIDENT said:—

"The hon'ble member is wandering away from the terms of the resolution. The St. Columba's College, Hazaribagh, does not enter into the resolution at all."

The Hon'ble BABU DEBA PRASAD SARBADHICARI said:—

"I quite realise that, Sir, but I was only incidentally referring to it. So far as the Bhumihar Brahman College is concerned, the University gave it Rs. 12,000 out of its last year's grant, and we hope that it is possible that something more will be given this year."

The Hon'ble MR. FILGATE said:—

"Your Honour,—I beg to support No. 1 of the resolution of the Hon'ble Babu Braja Kishor Prasad, and I would be failing in my duty to those I have the honour to represent if I did not do so. I quote no figures, but I hope my arguments will appeal to the Hon'ble Mr. Küchler, who, I understand, is himself 'open to correction.' I do not suggest, nor do I approve, that funds should be taken from any schemes or projects that have been already worked out or are provided for in the Budget, but I do consider that North Bihar has a fair and just claim to some consideration and support from Your Honour's Government in the matter of the Tirhut College. We have received most fair and generous help in many ways, and not for a moment would I suggest that we should be unduly favoured at the expense or to the detriment of other divisions of the Province, every one of which could no doubt spend and will spend a great deal more than they get. But if it is possible in the coming financial year to provide the help we require I sincerely hope that Your Honour's Government will find a way. I fully recognise that they 'have to cut their coat' according to their cloth; and if even this year they can find a short coat for us, if they cannot afford a long flowing one, it will be something. 'Providence helps those who help themselves,' and, thanks to the magnificent generosity of His Highness the Maharaja of Benares, the Maharaja Bahadur of Darbhanga and a large number of our leading landholders and private gentlemen, a very handsome and considerable amount has been raised—which clearly goes to show that we are in earnest in our endeavours to further the welfare of North Bihar. Unfortunately in the past we have not had the advantage of the fine and magnificent educational institutions that Bengal proper has, and, as compared with other parts of the Province, North Bihar is very backward with regard to higher education; and if the North Bihari is to hold his own and take his proper place in the future, he must be well and soundly educated, and it is most necessary that he should have his own college. The principal arguments against this are, I believe,—

"*No. 1.*—The results in the past do not justify the Government in raising the College to the standard we require and the pupils for B. A. are few.

"*No. 2.*—There are excellent colleges in Calcutta and even just across the Ganges at Patna. Why not send your boys to them?

"To No. 1 I would reply 'establish your college on a sound basis with Government support and a good staff: your pupils will come fast enough.' Had this argument been used years ago when the magnificent and fine colleges that to-day exist in Calcutta and other parts of Bengal were first founded, I am doubtful if many of them would have reached that high state of efficiency that they have now.

"In reply to No. 2. Bihar parents have informed me they would sooner forego a higher education for their sons than send them to Calcutta, or even Patna, where there are so many temptations, let alone if sent to Calcutta the risk of their boys getting contaminated by that 'coterie' who have stained the fair fame of Bengal with their gospel of assasination and general lawlessness. Thank God we have been free from it in Bihar. On political grounds I consider the Tirhut College should be supported and helped by Government. The boys and students will not be separated from that home influence with its moral training, parental advice, and control that is essential to the making of

good citizens, noble and true men, and, furthermore, many of the temptations to be met with in all large towns and cities do not exist in Muzaffarpur in its rural simplicity and surroundings. A recent writer in the *Times* is very sound when he says: 'The evil of inferior teaching is not to be denied—it can be righted by expenditure. It is preposterous to leave the teaching of English and such subjects as Moral Philosophy and Political Economy in the hands of inferior 'half-educated men—no matter of what race. It cannot be denied that much of the sedition that taints the schools and colleges of India comes from the school-masters and professors—in many cases under-paid and discontented men.'

"I can assure Your Honour and the Hon'ble Members of this Council that North Bihar looks for and expects Government assistance in their laudable attempts to improve the status of the rising generation."

"The Hon'ble BABU BHUPENDRANATH BASU said:—

"I do not think that I should be justified in giving a silent vote on this motion. I have the pleasure of being associated with the Tirhut Division for many years and I am speaking about the resolution from personal knowledge. My Hon'ble friend the Director of Public Instruction is quite right when he says that it would be injudicious if not impossible to take away Rs. 50,000 from the Inspection grant and put it to the purpose on which the Hon'ble Mover wishes that it might be spent. It is difficult for us non-official members of Your Honour's Council to suggest ways and means. The Budget is prepared in the department which has a much better and more thorough knowledge of the sources from which money can be had than we are likely to possess on the subject. But the question is about the justice of the demand that has been put forward. My friend the Hon'ble Mr. Küchler says that amongst graduates that are turned out by the Calcutta University, Tirhut lads are very few. I admit that. He has not sufficient knowledge of the conditions which prevent Tirhut boys from coming in and taking their degrees in larger numbers than at present. As I said, I have lived in Tirhut for many years. There is a strong feeling in Tirhut including Darbhanga, Champaran and Muzaffarpur not to send their boys across the river to Patna, where the climatic conditions are not so good as in North Bihar, and where, as the Hon'ble Mr. Filgate has pointed out, social and moral conditions are not so sound as in the more rural villages of Muzaffarpur. Then, again, they do not like naturally to send their boys so far away as Calcutta. I had noticed also that boys in Tirhut would prefer to come to Calcutta than live in hostels in Patna, so that it is unanimously agreed that for want of a good college in North Bihar, Bihari boys are deterred from availing themselves of the opportunities which our University places at their disposal. Then, Sir, we have lately constituted North Bihar into a separate division. My friend the Hon'ble the Director of Public Instruction was telling us that the Hazaribagh college was entitled to some consideration as it was the only one in the division. Thus, I may remind the Council, the Bhumihar College is the only college in the Tirhut Division. We have got colleges in South Bihar—Patna and Bhagalpur Divisions. I quite agree with the Hon'ble Mr. Küchler when he says that you should make a college a second grade one before raising it to the B. A. standard. There is much to justify that expression of opinion, but as my friend knows just as well as I do that there is a strong feeling whether in Bengal or Bihar that it is better to have a first class college than a second class one. He remembers that there is a strong dissentient note by Sir Gurudas Banerji about colleges being reduced to the second grade standard. I had an opportunity of talking the matter over with Mr. Greer, the Commissioner of Tirhut, while I was at Muzaffarpur, and he expressed the strong desire of the people under his charge to have a first class college in North Bihar if the Government would only stretch out a helping hand. I have no doubt that the rich as well as the middle classes would readily come forward to supplement the funds that may be placed at their disposal. When North Bihar and Patna

were under the charge of one Commissioner the anxiety for a college in North Bihar was not so strong as it is now. As the people of North Bihar have now got a separate Commissioner, they naturally look forward to a separate college. As the Hon'ble Mr. Filgate has stated the people in Tirhut do not like to send their boys across the river to Patna or to Calcutta. Similarly, many Bengali parents in the mufussil are unwilling to send their boys to Calcutta and they would much prefer to send their boys elsewhere. That is one of the reasons why the college which is so generously financed by my Hon'ble friend the Maharaja of Cossimbazar has received much support from the student community of Bengal. The Hon'ble the Director of Public Instruction was pleased to observe that it would be difficult to mete out preferential treatment to Bihar while neglecting other divisions so far as they proceed from Government.

As my Hon'ble friend Babu Deba Prasad Sarbadhikari has pointed out, the Member for the University in this Council, amongst whom I had the honour of including myself, have always advocated the cause of Muhammadan education because of their backward state of education. I will not, however, say that at the expense of Bengal special facilities should be afforded to Bihar for the purpose of raising it to the same educational standard as of Bengal. I believe that if we take the educational test in Bihar we find that one boy in a hundred knows English while in Bengal, Burdwan and Presidency Divisions it is one in fifty. So the difference is very great, and I think that we all appreciate whether Bengalis or Biharis that some help should be given to this institution. I trust that the Hon'ble Mover will not, however, press his resolution, and I have no doubt that Your Honour's Government will give due attention to the matter when it comes up for consideration."

The Hon'ble BABU BRAJA KISHOR PRASAD said:—

"I fully sympathise with the difficulties of the Hon'ble the Director of Public Instruction in not having a copy of my speech. Sir, the reason of this is that, owing to unforeseen circumstances, I did not receive a copy of the Financial Statement till the 7th of March, and it was in a great hurry that I drafted the resolution. I had also very little time to make out a speech, and on account of this I could not send a copy in time. I think, perhaps, that it is for this reason the Hon'ble the Director of Public Instruction has not been able to meet the points that I had made out.

"First of all, I beg to point out to the Hon'ble the Director of Public Instruction that he has misunderstood altogether the point regarding the appointment of Bihari graduates in the educational department of Bihar. I never meant to say that Bihari graduates should not be appointed or that Bengali graduates should be given preference over Biharis. The point that I urged before the Council was that if Bihari graduates were not available, Bengali graduates might be appointed in their place, and education ought not to be allowed to suffer. Then, Sir, I took up the case of the Northbrook School as a typical one. If I had taken up the cases of other schools, it would have taken a lot of time, but I can convince Your Honour that the state of the zilla schools in Bihar is more or less similar. They are greatly in need of increased teaching staff. I think the Hon'ble the Director of Public Instruction knows it full well that at the annual meeting of head-masters held some time ago, they strongly urged for strengthening the number of teachers. They want more graduates, and I beg most respectfully to submit that there are now fewer graduates than there used to be before. The time has therefore come when the number of graduates should be increased.

"I am sorry to find that no reply whatever has been given by the Director of Public Instruction as regards the case I made out of the high English schools at the subdivisions of the districts of Bihar. Not a word has been said by him about these schools, and I think that the replies given by the Hon'ble the Director of Public Instruction as regards the Bhumihar Brahman College are not very convincing, because the number of the students in the B. A. classes of the Hazaribagh College are fewer than in the Tirhut College. If, as my

hon'ble friend, Babu Bhupendra Nath Basu, has pointed out, it is argued that because the Hazaribagh College is the only one in the Chota Nagpur Division it should be given Government grant, it may similarly be argued that the Tirhut College is the only one in the Tirhut Division. If one college is getting Rs. 12,000 from the Government as maintenance grant, there is no reason why a similar college should not get anything. Although I have been advised to withdraw the resolution, I am not going to do so, as I want to know how many Members are in favour of this resolution, the subject being a very important one. Unless I get an assurance from the Government that they will consider the matter, I do not think I shall be justified in withdrawing the resolution."

The Hon'ble BABU BHUPENDRA NATH BASU said:—

"Had not the Hon'ble Babu Braja Kishor Prasad proposed to reduce the inspection grant by Rs. 50,000 we would have been very glad to support his scheme. Under the circumstances, it would be a mistake to press this resolution to the vote."

The Hon'ble MR. KÜCHLER said:—

"I do not think, Sir, that I will take the time of the Council by dealing with the new arguments which have been advanced by the members who spoke in favour of the resolution. It seems to me that the Hon'ble mover is willing to withdraw his motion if a pledge is given that the matter will be taken into consideration. I think I have already indicated in my remarks that the matter will be taken into consideration; in fact it is under consideration in the present moment. I can also assure the Hon'ble Member that the arguments which have been put forward in support of the grant-in-aid will receive a very careful consideration at the hands of the Government. Beyond that I am not in a position to pledge either myself or the Government; but that the matter will receive consideration I think I may state for His Honour."

THE PRESIDENT said:—

"I think the Hon'ble Member has adopted a wise course in withdrawing his resolution, because, in the first place, it has been very fully discussed, and in the second place it would certainly have been necessary to oppose it, if it had been put to the vote on two grounds alone. The first is that the Hon'ble Member has made no attempt to meet the objection raised on behalf of Government by the Director of Public Instruction to the reduction proposed in the Inspection grant which is the only means of financing his proposal; this is the first and essential part of the resolution, and if that fails, the resolution as a whole must fail. It is quite certain that no reduction can be made under the particular item to which the Hon'ble Member has referred.

"The second ground was that he had not made any reference, although the Hon'ble Mr. Bhupendranath Basu did make a reference, to the argument used by the Director of Public Instruction, viz., that he was prepared to recommend Government to give liberal assistance to the Bhumihar Brahman College to raise it to a position of complete efficiency as a second grade college and until this has been done, the question of its being raised to the first grade cannot come up for consideration. This is an argument which is deserving of very careful consideration.

"I think, therefore, that he has acted wisely in accepting the Hon'ble Mr. Bhupendranath Basu's suggestion by withdrawing it."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Maharaja Manindra Chandra Nandi, with the leave of the President, withdrew the following Resolution of which he had given notice:—

This Council recommends to the Lieutenant-Governor in Council that an addition of Rs. 62,500 be made under "22—Education", a corresponding reduction being made under "32—Miscellaneous" the special provision made under the latter head for subscription payable to a new Vernacular newspaper being omitted, and that the additional sum under "Education" may be spent in providing hostel accommodation for students in Calcutta.

The Hon'ble Maharaja Manindra Chandra Nandi moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council that a reduction of one lakh be made in the grant for "Jail Manufactures" under head "19B—Jails", and that a corresponding increase be made under "22—Education", to provide for initial outlay on the opening of a Technical Institute.

He said:—

"May it please your Honour,—In the grant for Jail Manufactures under "19B Law and Justice—Jails," I find there has been an increase of Rs. 1,20,000 over the actuals of the year 1909-10. There should have been a corresponding increase of income shown under the head "XVIB. 32—Law and Justice—Jails" being the price of jail-made articles. Some authorities are against the principle of increasing jail manufactures on the ground of such products competing with the products of independent artisans and on that account would not have more articles manufactured in jails than would give the inmates a fair occupation while in jail. But there is, on the other hand, the question of the benefit of education in handicrafts received by the prisoner who can convert himself into a respectable artisan when let out of it, if he learns some handicraft there; there are, therefore, advocates for the extended operation of utilising the time and attention of prisoners towards the manufacture of various articles of daily use. It is however not necessary to go into the merits of these two views. In the present case, if we were to advert to the figures of previous years, we could easily reduce the expenditure of money on raw materials for jail manufactures without diminishing the amount budgeted for, as the proceeds from sale of such manufactures. Taking the expenditure on purchase of raw materials and the receipts from sale-proceeds of jail manufactures (as shown at pages 32 and 51 of the Financial Statement) we find that the profits work out as follows:—

YEAR.	Ratio of income to expenditure.	Percentage of profit.
1906-07	11,93,516 / 10,36,024	15·2
1907-08	11,42,880 / 10,33,786	10·4
1908-09	9,08,969 / 9,24,423	—1·6
1909-10	8,45,536 / 7,40,465	14·3
1910-11 (Revised) ...	9,10,000 / 7,29,500	24·7
1911-12 (Budget) ...	9,00,000 / 8,60,000	

"The figures of all the five years show an average profit of about 13 per cent., but leaving out of account the year 1908-09 in which the diminished profits from sales must have been due to abnormal causes, we find that the figures of the other years show an average profit of 16 per cent. and this may therefore fairly be taken as the probable rate of profit on the outlay on raw materials. By reducing the expenditure by Rs. 1,00,000, viz., to Rs. 7,60,000, the total income will be Rs. 8,81,600 while the budget stands at Rs. 9,00,000. It will appear from the figures given above, that reduction can be made to the extent of a lakh of rupees which can be very usefully applied to the initial outlay for opening of one or more Technical Institutes—a matter of signal benefit to the public at large. Such institutions will deter many a man from drifting into jail or finding themselves in the reformatory. We are very backward in the matter of technical education, and while our sister provinces have through the munificence of private donors made large advance in this much-desired direction, Bengal has lagged behind and will be hopelessly left far in the rear, if opportunities are not placed before her sons for equipping themselves with technical education. The technical schools started by the Government of Bengal recently for instruction in particular arts such as agriculture and weaving are not available to all classes of the people by reason of their situation and other conditions. What I am urging for is one or more institutions where students may receive practical instruction in such arts as dyeing, tanning, pottery, mouldings, match manufacture, weaving of woollen materials, type-founding, pin-making, paper-making, steel-pen and pen-holder manufacture, glass-manufacture and the like."

The Hon'ble SIR BIJAY CHAND MAHTAB MAHARAJADHIRAJA BAHADUR OF BURDWAN said:—

"I rise not exactly to support the resolution which my friend the Hon'ble Maharaja Manindra Chandra Nandi has moved but to draw the attention of Government to the absolute necessity of providing more funds for technical institutions in Bengal. As I was a Member of the Finance Committee I may say that the amount the Hon'ble Maharaja wishes to take away from the head 'Jails' will not, I am sure, be possible, but I hope Government will give due consideration to the matter of spreading technical education in Bengal."

The Hon'ble MR. KÜCHLER said:—

"As far as I could gather, the Hon'ble Maharaja Manindra Chandra Nandi's arguments were mainly directed to the question of the reduction in the grant of jail manufactures. The discussion of this side of the question, I leave to the department concerned. As far as the actual proposal to found a technical institute in Calcutta is concerned, I may at once say—and in this respect, I think, I can speak on behalf of the great majority of the Members of Council—that I am in full sympathy with the object he has at heart, that is, to improve the facilities for technical education in Bengal. But at the same time, I think, I ought to point out that in view of the expenses that are being incurred in connection with the Engineering College at Sibpur, the Government can hardly be called upon to bear the expense of establishing and maintaining another institution of a similar character on this side of the river. The Sibpur College, though called an Engineering College, is, to all intents and purposes, a technical institution, and includes in its course a very large number of branches of purely technical education. It is probable that being situated on the other side of the river, it is not altogether convenient for non-resident students. But at the same time I think it may be said that it meets the present want for technical education in a fairly satisfactory way. When the removal of the Sibpur College to some other site is actually taken in hand, the question may arise and will deserve consideration at the hands of the Government, whether it will not be desirable to found a technical institute in Calcutta itself for at least some of the branches of technical education such as those referred to by the Hon'ble mover. One great advantage of a technical institute in Calcutta would be that we should be able to open night classes in connection with it—and, I must say I am a

great believer in night classes in connection with technical institutes. The great point about these classes—and I referred to a similar consideration in my opening statement—is this, that those night classes are visited by pupils who are already in employment and are therefore free from the consideration of that very great difficult question, viz., the prospect of employment for students after they have passed through the courses of the institute. Therefore, I do think that if the Sibpur College is removed, the question may arise as to whether we should not have a technical institution—on what scale I am not prepared to say at present—for meeting the wants of the people in Calcutta itself. At the same time I think the proposal to allot a lakh is not satisfactory. I do not think we can do anything with a lakh as the Hon'ble Maharaja of Burdwan has pointed out. We must have a great deal more money before we can start a properly equipped and satisfactory institute in Calcutta."

The Hon'ble MR. DUKE said:—

"I am not sure, Sir, if I was able to follow the Hon'ble Member's arguments regarding jail manufactures, but so far as I can gather, I think his intention was that we were only budgeting for a very small profit, that profits on jail manufactures generally had been small and that apparently prisoners might be otherwise employed on other work at no very great loss. If that was the line, if I understood him rightly, I must contravert the whole position at once. In introducing the head of jails, I only said in general terms what the profit on jail manufactures had been. From 1906-07 until last year they had varied between 3·20 and 2·32 lakhs and speaking roughly during the last seven years the profits made have practically always exceeded 30 per cent. upon the cost of the raw material. It is true that in the current year only a very small profit is shown. The cost of the raw material is put in at 8·6 lakhs and the price of the manufactured at 9 lakhs, but in introducing the head I explained that the total quantity of jail manufactures had fallen considerably in recent years, and we were taking steps to rehabilitate this. The first of these steps is to reorganise manufactures.

"The profits come somewhat later when the completed articles are sold, and the consequence is that this year we have budgeted for a larger amount of raw material than we expect the sale of within the year, but the profit will necessarily follow in the following year. The main point is that first of all our jails must be supplied with labour. There can be no reasonable or satisfactory management of a jail unless suitable work is provided for the prisoners to keep them employed. The second point is that we have always succeeded in realising about 30 per cent. of profits on the materials which we have worked up and there is no reason whatever to think that we should not continue to realise it. Therefore any proposal to reduce the amount of money expended on raw materials in jails must result in a further loss of 30 per cent. If a deduction of one lakh is made on raw materials, then the total loss in sales would amount to Rs. 1,30,000. The proposal is very uneconomical and disadvantageous and it is impossible to work the jails with a smaller amount of raw materials than can suitably be worked up."

The Hon'ble BABU BHUPENDRA NATH BASU said:—

"I believe the object of the Hon'ble Mover is about the introduction of some sort of technical institution, and having regard to the observations of the Hon'ble Mr. Küchler which show that Government is fully alive to the necessity of having a good technical institute that object has to a great extent been secured. Although the Sibpur Engineering College is more or less a technical institute, the general impression is that it concerns itself more largely with the higher branches of science than the humbler department of technical instruction. Government and the public are now alive to the necessity, and this being so, I think the object which the Hon'ble the Maharaja had in view has been attained."

The Hon'ble MAHARAJA MANINDRA CHANDRA NANDI said:—

"Your Honour, my object has been explained by the Hon'ble Babu Bhupendra Nath Basu. As, however, Government is going to remove the

Sibpur Engineering College to a healthier locality, I hope that a technical branch will be provided there. I beg to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Babu Bal Krishna Sahay moved the following resolution:—

This Council recommends to the Lieutenant-Governor in Council—

(a) that under the heading "Education" provision be made in the Budget for the following grants:—

(1) Rs. 5,000 for a hostel building at Ranchi for the non-Christian *Kol* boys receiving education in the local schools;

(2) Rs. 2,000 for helping the maintenance of the Bihari *Ashram* in Calcutta, and

(3) Rs. 10,000 for improving the efficiency of the Patna College staff, viz., the employment of a professor for teaching philosophy and logic; and

(b) that the amounts noted below under the heads stated against each amount be so proportionately reduced as to save Rs. 5,000 for the hostel building for *Kol* boys at Ranchi:—

	Rs.
Contribution towards the Athletic Club	1,500
Encouragement of Athletic Clubs	4,500
Grant for Athletic Clubs	500;

(c) that out of Rs. 4,000 provided for the cost of maintaining messes attached to Government Colleges in Calcutta, Rs. 2,000 be given to the Bihari *Ashram* by reducing Rs. 4,000 to Rs. 2,000; and

(d) that the amount of Rs. 60,000 under the head for strengthening the staff of Colleges be reduced to Rs. 50,000, and that Rs. 10,000 thus saved be given to the Patna College for improving the staff of the said College.

He said:—

"I crave leave to appeal to the Members of the Council and to your Honour for three additional grants under the head Education. I quite realise the position of the Government in preparing the Budget and the difficulty in cutting down any item already put down, but I may be excused for urging that where anything important demands our interference, we are compelled by sheer necessity and sense of duty to bring the same to the notice of the Government. Representing a poor and out-of-the-way division, my wants and demands do not count by lakhs. My first item therefore consists only of Rs. 5,000, which I beg of you, gentlemen, and your Honour, in the name of the poor helpless *Kols* of the district of Ranchi.

"Your Honour knows that the zamindar boys in the district have got a boarding-house at Ranchi. The Christian boys also are helped in this direction by the several Christian Missionary Societies working in the district. But, Sir, there is no arrangement worth the name for the non-Christian original settlers of the district—the poor non-Christian *Kol* boys. Of late an attempt has been made by the non-Christian *Kols* to educate their children, and the organisers have so far succeeded as to bring into Ranchi over 40 boys from the mufassal. Arrangements are being made by some *Kols* to support these boys by collection of small quantities of paddy made in the villages, and the whole affair is managed by a few educated members of the community who are employed at, or live in the villages near Ranchi.

"These poor boys live for the present in a little hut provided temporarily for the purpose by a man of their community. This house is located in a very unhealthy part of the town and far away from the schools. They stand in need of a building close to school and in a healthier locality. The organisers are too poor to provide for a building, and their resources are too small and scanty. There is no one to help them. The local zamindars have not yet risen to understand the benefit of having educated tenants. They never seem to think that it is their duty to educate their raiyats and would-be raiyats. So these poor people have nobody to come to their rescue. The hut placed temporarily

at their disposal is not only located in an unhealthy quarter, but may be taken away at any time. I think therefore, Sir, that unless the Government help these poor people and encourage their laudable attempt, there is little chance of their making any advance. I therefore beg the Council to recommend that provision be made for Rs. 5,000 for building a house for these helpless people. I expect the support of the Director of Public Instruction in this direction.

"The next item is of Rs. 2,000. Though I was the other day described to be a domiciled Chota Nagpuri, and it may be true to some extent, yet, Sir, I am all the same a Bihari, and my sympathy for and connection with Bihar has not been lost or has not ceased. I therefore feel very much for the Bihari boys who, for want of room in the Hindu Hostel or for any other reason, have to make their own private arrangements for their lodge in the town of Calcutta. I need hardly say how difficult it is to arrange it. Attempts have now and then been made to raise funds for making a building for the purpose, but at least up till now they have been crying in the wilderness. They have, however, established a Bihari *Ashram*, where they board and lodge.

"It need hardly be said that proper care of the boys is always very necessary. Good company and good atmosphere are always wanted, and specially in the present unfortunate state of the country. The parents of the Bihari boys are very anxious to keep their children free from all anarchical touch, and to avoid contagion it is necessary that they should have a hostel of their own, but, Sir, I know the Government, embarrassed as it is with law expenses due to the fanatical deeds of the anarchists, cannot at present spare large amounts. Every lover of the country sincerely wishes that order and peace be soon restored and that people whose heads have been turned wrong may soon understand that blood will never wash away their sins, for which India is suffering from poverty and plague, etc., as we do believe. It is the purity of soul that, like pure water, would purify us and save us.

"But, Sir, I sincerely hope that the attempt of some energetic Bihari boys in establishing the Behari *Ashram* will receive such help from the Government as the Government can easily spare. I may inform the Council, and I daresay some of the Hon'ble Members may have personal knowledge of the fact, that the *Ashram* is not in a very hopeful condition, and there is a fear of its collapse if timely aid is not given. There is often deficiency, and so difficulties, in maintaining the institution, and I appeal for Rs. 2,000 to help the *Ashram* with. I do not think it is a large sum, and the amount will very much help the students who otherwise might be compelled to put up with undesirable people and be ruined. There is a Committee in charge of this *Ashram*.

"The third item is for strengthening the Patna College staff. It is really to be regretted that there is no M. A. Class, and no Professor of Philosophy and Logic. I need hardly dilate on the importance of the subject; and I leave it to the Hon'ble Director of Public Instruction who can certainly better realise the position of both the Government and the students.

"Your Honour takes keen interest in educational matters. I am therefore tempted to bring forward these matters in the Council for consideration.

"I have made certain suggestions as to where to find money for the above objects. These are mere suggestions. If my resolutions are accepted, I feel sure funds will be available for these purposes from under some head in the Budget."

The Hon'ble Mr. Küchler said :—

"I must confess, Sir, to a certain feeling of doubt as to whether the first two items of the Hon'ble Member's resolution can be suitably discussed in Council. They are in the nature of petty grants-in-aid and I should mention here that no application has as yet been made to me with regard to them through the ordinary departmental channels. If the matter had come on appeal before the Council the position would have been different, but if applications like this are put before the Council in the first place, I am afraid a very inconvenient precedent will be established. The impression is likely to gain ground that applications for grants-in-aid will receive special consideration if this forms the subject of discussion in Council, and I am afraid the Council will be

inundated with applications of like nature. I do not think that it is a state of affairs to be desired. Nor do I think that the particular grants-in-aid which the Hon'ble Member has advocated here are of sufficient importance to justify special consideration apart from the ordinary grants-in-aid allotment. I submit, Sir, that this particular grant-in-aid should be considered along with numerous other applications for assistance which are yearly made to me. If we discuss the merits of this particular grant-in-aid, I am afraid, I must confess that I am not in a position to say anything at the present moment. From the information which has been placed at our disposal by the Hon'ble mover it is perfectly clear that we have not sufficient data to come to a clear understanding that this application is reasonable. For instance, with regard to those non-Christian *Kol* boys who are alleged to be reading in Ranchi, we do not know whether they are reading in vernacular or in English. The question may also arise whether these boys could not get facilities for prosecuting their studies without coming to Ranchi. That is a point which is to be determined, and it cannot be determined on the information placed before us. It is I venture to submit not a matter on which the Council can really decide.

Then, as regards the Bihari *Ashram*, there is again room for further inquiry. As far as I have been able to ascertain, this *Ashram* is not occupied by students only, but accommodates other persons such as clerks. If that be the case, then I do not think it can be aided from the educational budget.

Passing now to the third item in the resolution, I am glad that an opportunity has presented itself for ventilating this question in Council. It enables me to state briefly the facts of the case. Originally under the scheme which was initiated by Mr. Earle for strengthening the staff of the various colleges, a Professorship of Philosophy was sanctioned for the Patna College. It was only a matter of appointing a Professor of Philosophy and not of Logic for the teaching of which provision already exists at the College. But a representation was made to me that Philosophy was an extremely unpopular subject. Now, in a matter of that kind I had to be guided by the people on the spot. Not only was that representation made to me, but it was also represented that the students were very anxious to have political economy and political philosophy included in the curriculum. Therefore, it was decided to appoint a Professor of Political Economy and Political Philosophy. I have no reasons to believe that since that date philosophy has become any more popular than it was before. I am therefore compelled to oppose the resolution, or rather this sub-head of the resolution, which has been put forward by the Hon'ble Member.

Before I close, however, I wish to say a few words upon the financial aspect of the question. In this respect, I am afraid the proposals which have been made are rather infelicitous, probably owing to the fact that the Hon'ble Member had to make his proposals in a hurry, and that he had no means of access to the information which is at the disposal of official Members. In making proposals for establishing hostels for *Kol* boys, he suggests that the contributions made by the Bengal Government to athletic clubs should be withdrawn or reduced. It is impossible to approve a suggestion of this kind. The principle on which these amounts are given is that Government contributes an equal amount to what is subscribed by the students or the boys of a particular school, and I think the Council will agree with me that it will be entirely undesirable to do anything to discourage the spread of athletic exercises in the schools of Bengal. I therefore think that as far as this source of revenue is concerned, the proposal of the Hon'ble Member is quite impracticable. It is also impracticable, as he has suggested, to reduce the cost of the messes attached to the Government colleges. After all we have heard of necessity of providing proper hostel accommodation for students. I am afraid I cannot agree to any reduction under this head. With regard to the third proposal made by the Hon'ble Member that the amount of Rs. 60,000 under the head of strengthening the staff of colleges should be reduced to Rs. 10,000, I may say that the provision for strengthening the staff is founded upon a well-reasoned estimate of our requirements in this respect, and it is really impossible to curtail that estimate. As a matter of fact out of this Rs. 60,000 allotted for strengthening

the staff of Government colleges, a very large portion will go to meet the cost of one of the new appointments of the Patna College itself. A Professor of Political Economy and Political Philosophy has just arrived in this country for the Patna College, and I do not suppose that it is the intention of the Hon'ble Member that he should go back. With these words I oppose the Resolution.

The Hon'ble Babu Bal Krishna Sahay said :—

"I only beg to add, Your Honour, that as far as my information goes, the *Kol* boys of Ranchi read in English schools. However, I do not press this Resolution, as I hope, when funds will allow, Government will see their way to make the necessary improvements."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Babu Deba Prasad Sarbadhikari, with the leave of the President, withdrew the following resolution of which he had given notice:—

This Council recommends to the Lieutenant-Governor in Council—

(*a*) that a sum of rupees two lakhs (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided out of the Imperial Educational Grant as contribution to the University of Calcutta for acquiring the Market to the south of the Senate House and the Law College;

(*b*) that a sum of one lakh (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided out of the Imperial Educational Grant as contribution to the Rameswar Library of the University of Calcutta;

(*c*) that a sum of one lakh (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided out of the Imperial Educational Grant for assisting private secondary schools for boys and girls;

(*d*) that a sum of three lakhs (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided as contribution towards the improvements of the Presidency College; and

(*e*) that the rest and residue of the Imperial Educational Grant be provided for strengthening and improving boarding accommodation for colleges and secondary schools.

He said :—

My reasons for going notice of these resolutions are set out in my note which may be taken as read :—

"The Educational Budget for the year presents some special and striking features which must be highly gladdening to all representing educational interests. There can hardly be a Member of this Council or of Your Honour's Government who is not directly or indirectly interested in this great and essential Department of State Administration, truisms regarding the vital and primal importance of which need not be recapitulated. The Educational Budge of Bengal has been steadily rising, and one would be grossly ingrate indeed if the were to fail to recognise or be thankful for this expanding factor of national amelioration. From thirty-eight and a half lakhs in 1906 to 70 lakhs and a quarter in 1911 may not be a phenomenal expansion, but ought to satisfy normal requirements. And so would expansion at this rate do if years of neglect and mistake had not preceded the later years of march along correct lines. The lump provision of 24½ lakhs, the welcome benefaction of the Government of India even after its solemn determination not to dole out its usual benefactions, because of a more natural and just Provincial Settlement, will not be the passing special

feature of the year but will be continued during the next. This ought to afford us present satisfaction, and we need not look ahead beyond the next year. Eliminating this windfall, however, the Provincial provision of 58 lakhs and a quarter falls short of the last year's budget of 59 lakhs and 17 thousand, which as first explained by the Director of Public Instruction was revised or reduced by over four lakhs chiefly in salaries and allowances to Inspectors and Sub-Inspectors that had been provided for in the last year's Budget. I felt obliged to criticise the Inspection charges, and had the satisfaction of being practically assured by the Hon'ble Mr. Küchler last year that such charges had nearly attained their ultimate height. But I would not for a moment presume to believe that the saving in the inspection charges which reduced the last year's educational expenditure could have the remotest reference to my objections. Indeed, I should be sorry if it had, for a long-suffering and worthy body of public servants with deferred expectations happened to be kept out of their dues by reason of the budget grant not being made available, and I am sincerely glad of the provisions for the regrading of Sub-Inspectors. The slight rise this year on inspection charges is due to the provision to bring about the equilibrium in this regard that was the last year's due, and I shall be glad and happy indeed if my rarely invoked questioning spirit has helped in expediting this equilibrium in the least degree. With commendable and imitable abnegation the Directorate has not added materially to its own charges, and arrangements have been bespoken for strengthening the staff of Professors in Government Colleges, including the Sanskrit College, the regrettable state of affairs in connection with which it was my duty last year to bring to Your Honour's notice. To the grateful joy of the Professoriate and the public, provision has been made for four officers in the Indian Educational Service to the extent of Rs. 24,000, which, I take it, is an earnest of the promotion of four deserving members of the subordinate service to the higher service which is awaiting the sanction of the Government of India at Your Honour's instance. Provision has also been made for improvement of the teaching staff at the Presidency College, the Ravenshaw College, and for improvement of Muhammadan Hostels and Madrassas, and for a new scale of allowances for Superintendents and Assistant Superintendents of Hostels and Messes attached to Government Colleges, all which are reasons for gratitude and gratification, that ought not to be allowed to be marred because of a small investment in 'Castes and Tribes,' that by mistake may have crawled from under crowded census headings.

"And yet if with all this roseate glow around I feel obliged to ask for more, it is not because of innate Oliver Twist instincts, but because of the sheer necessities of the situation. And my mendicancy would be facilitated, I thought, by the timely benefaction of the Imperial Government—a fitting signalisation of the creation of a separate and self-contained Educational Department under the special and exclusive care of a separate Member of the Government. According to the Hon'ble Mr. Duke's Memorandum the expenditure upon buildings in the Educational Department was to come out of the special grant of twelve lakhs of rupees. This had been bespoken in ignorance of the conditions attaching to the grant. My scheme of dividing the spoil had been also framed in similarly blissful ignorance and as I claim with no less justification. In absence of clear and inviolable conditions to the contrary about which I could not obtain any information up to Thursday last, I thought my way clear to put in indents for all that appeared to me to be educationally needful. In the absence of such cast-iron conditions, and in view of the pressing requirements of the Educational Department as a whole, I thought it might without injustice to any of its particular branches be suggested that both University, Collegiate, Secondary and Primary Education should benefit by this windfall. So far as the Colleges are concerned, appreciable if not fully adequate arrangements are suggested as stated above in the Financial Statement itself for strengthening the staff of the Government Colleges. Assistance to private Colleges has also to a certain extent been provided out of existing Imperial grants. What, however, may be called University education proper—that is within its buildings and on its premises—has not yet benefited to the extent that we have long been wanting. My resolution therefore in the first instance sought to supplement the resources of the University with

regard to two pressing matters. The first is with reference to a long-standing and crying necessity—I was almost going to say grievance. I refer to the emergent necessity of acquiring the market to the south of the Senate House and of the Law College which is a serious menace to the health of those who have to frequent these buildings and to the proper carrying out of the work that is to be done there. I have referred to this matter year after year, and last year I got the Hon'ble the Director of Public Instruction to agree with me so far as to admit the desirability of the acquisition. He is one of my fellow-sufferers in the Saturday martyrdom in this neighbourhood, and his agreement is not unnatural. Last year according to my friend's own showing the University Building Fund stood at less than two lakhs after providing for the Library site and other necessities. The Library demands are growing upon us apace, and nobody can say how far that balance will be diminished even if a dole can be saved out of the general grant of eighty thousand rupees. As regards the University reserve of six lakhs only a small sum could be available for building purposes, and this will be forthcoming at the due time. But with resources such as these, the University cannot, in my hon'ble friend's words last year, "decide whether it is desirable to acquire this particular plot or not," if by 'decide' he means 'decide to acquire.' Any other and cheaper plot would be useless, and this blot and disgrace to the educational neighbourhood would continue unless its new President were to acquire it for the University Institute. We must have this plot, and at once, and we must have assistance in getting it. The cramped accommodation of the Senate House was never brought home in a more acute and distressing manner than this year when, owing to the inability of the Presidency College, the Hare School and Hindu School authorities to lend their halls for the purpose of the University Examinations which had been allowed throughout heretofore, special and by no means convenient arrangements had to be devised for the purpose of accommodating the candidates, though under new conditions their number has diminished. The University has no suitable hall wherein to accommodate all the students that require examination accommodation in Calcutta, and it has been necessary to commandeer the buildings of the different educational institutions of the metropolis for meeting these emergent wants. The authorities of these institutions have never grudged or hesitated to accord the assistance that the University could well look forward to, but examinations have nowadays to be spread over so many days, nay, weeks, having regard to the diversified and multifarious curriculum, that school and college work proper grievously suffer if they are to be shut up for an indefinite period during the weeks or rather months during which the different examinations have to be held one after another.

"This is but one part of the wants that I have in view in pressing for enlarged building accommodation for the University. There are others of no less importance, such, for example, as a University Laboratory, where for the sake of efficiency and uniformity practical examinations in science could be held. We also want accommodation for the daily growing number of University Lecturers and University Readers and their expanding classes. There are not adequate meeting rooms for numerous Committees and Boards that have to sit almost from day to day and for the offices that are getting larger and larger every day. When the Rameswar Library was offered to the University the generous donor's wishes and ideas would have been better consulted if the palatial building now rising behind the Senate House piles under the diligent and expediting care of Messrs. Martin & Co. could have been placed alongside the Senate House and facing the public roads to its east and south. Architectural effect and administrative convenience would have equally prevailed, and a black spot in the midst of the educational buildings of Calcutta would have been removed withal. Wedged between the Medical College, the Senate House and the Medical College Hostel, flanked by the Eden Hostel, and within literally a stone's throw of the other important educational institutions of the neighbourhood, the insanitary fish market has been a drawback that we have long been persistently trying to have removed. It could have been removed at much less cost when the question was first raised, and the costs of acquisition are daily growing. The

cost will be greater than ever if there is further delay, and if the University was to accomplish this improvement out of its own unaided resources as the Director of Public Instruction suggested it should, the chances are that it will never be done. The University however does not expect the whole of the funds to come from outside. It can eke together some little funds of its own, but large Government help, and possibly outside help also has to supplement the University resources.

"The Rameswar library buildings are nearing completion and the question will be as to what the library should be that is worthy of being located in this building. The existing University library has been collected on lines more supplementary than independent, and the efforts of the management have been to bring together works of reference and rare works such as are not to be had in other libraries in Calcutta. That which may have sufficed when the University was first started does not meet the present demands. Though some of the College libraries are equipped well enough for current ordinary work, the appliances for higher work are phenomenally poor, specially of research work that must be a part of up-to-date University work. If such work is to flourish a good central library open to all colleges and educational institutions must be located in the buildings that the munificence of the Maharaja Bahadur of Darbhanga has placed at the disposal of the University. Here also the University is embarrased for want of funds and its difficulties would have been very great indeed if Your Honour had not been good enough to make a timely donation of Rs. 5,000 for immediate expenses.

"Now that the improvement of the Presidency College *in situ* has not only been finally decided on, but partially given effect to, it is of importance to push on with the scheme of improvement as fast as possible. Having regard to the existing resources of your Honour's Government, the scheme in its different departments would necessarily have to be spread over a number of years which would materially interfere with the full realization of the benefits accruing thereform. The Physical Laboratory of the College is now well in advance but the College sorely needs Physiological, Botanical and Geological Laboratories. The land that we have will not suffice for this, and if the work is to be limited for the present to no more than the Physical, Botanical and Geological Laboratories land is immediately to be acquired. I cannot help thinking and repeating that it will be cheaper and more expedient to acquire all the land that we want so that the cost of future acquisition, in which we have adverse interest in a different and personal capacity, may not be prohibitive. But if that course does not commend itself to Government, land for the Physiological, Botanical and Geological Laboratories must be immediately acquired, and the provision of 6 lakhs of rupees towards these necessary improvements which will come out of the Imperial grant will meet the immediate requirements. His Excellency the Viceroy's morning visit to the Presidency College has borne abundant fruit which must be gratifying to Presidency College men, old and young, and to that portion of the public that fought for its improvement *in situ*.

"And lasty, Sir, I come to the needs of the college and school boarding-houses about which we have heard so much of the late in quite another connection. That was one of the matters for which some of us have long pleaded. The Hon'ble the Director of Public Instruction was good enough to say, though not exactly in this connection last year, that where Government had not been able to satisfy the demands for increased expenditure the refusal had been dictated not for want of sympathy, not by merely financial reasons, but for considerations which presented themselves after a full and careful examination of the merits of each question. However much the last qualification may apply to some other questions, it certainly can have no application to the question of providing suitable accommodation for students' boarding-houses in Calcutta as well out of it. There was no more eloquent advocate and forceful exponent of these needs than the Hon'ble the Director himself in connection with the proposal that the memorial of His late Gracious Majesty should take this particular shape. For reasons that need not be referred to here, the Hon'ble Member's efforts did not succeed, and now that funds have been placed at his disposal from an unforeseen quarter efforts on lines of continuity will be possible for providing as far as possible our students

with suitable boarding accommodation which is recognized to be an inseparable essential of sound education in the case of boys obliged to live away from their homes and guardians. Your Honour has always evinced a lively interest in this matter. His Excellency the Viceroy shares in this interest, as manifest from his recent private visits to some of our boarding-houses which has not only touched popular imagination, but has evoked genuine gratitude. And we have now solid, tangible and lasting proof of such intent. We are in great hopes that good boarding secondary schools in and away from Calcutta will be a feature of our educational system ere long and private efforts towards realization of this idea will find support and encouragement at Your Honour's hands Private colleges are already receiving appreciable support, but private schools, which are no less an important part of the educational integer, cannot be longer left out in the cold."

I gave notice of this motion in ignorance of the conditions attaching to the Imperial grant. In fact we did not even know the correct amount till the Hon'ble Mr. Küchler informed us this morning. These conditions just mentioned in Council being inelastic, I am afraid my resolutions would not be in order, and I would ask Your Honour's permission to withdraw them. In doing so, we have to express the sincere gratitude of the educational community for the munificence of the Government of India.

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution :—

This Council recommends to the Lieutenant-Governor in Council—

(a) that a sum of Rs. 20,000, or such other sum as the Government may think fit, be provided for strengthening the David Hare Training College, with a view to training selected Inspecting officers and affording facilities for training teachers for private schools ; and

(b) that the charges (Rs. 20,370) for re-organization of the Veterinary Service (page 18 of the Financial Statement, paragraph 52) be omitted from the Budget.

He said :—

"My proposal is for the purpose of strengthening the David Hare Training College which is already doing excellent work in the shape of training teachers for our schools. This must not be looked upon as contribution to any particular branch of the educational service, for good teachers in all departments are a great need in the interest of sound primary and secondary as well as collegiate education, upon all which the University must ultimately depend. The Government has recognized by establishing the David Hare College, as well as the training school at Entally and training schools at other centres in the province, that the training of teachers is an important and essential factor in the educational evolution of a country. This has been neglected long and though the first step has been taken, by no means adequate provision has yet been made for meeting the large requirements of the situation. It is only selected members of staffs of Government schools that can now have accommodation in these small institutions, and though by the courtesy of the Principal and the Director of Public Instruction now and again people, like myself, interested in private schools have had opportunities of watching how the work is done, much to our gain and profit, yet in order that the whole of the educational machinery may suitably benefit, it is necessary and important that these facilities should be extended, though of course the whole of the requirements cannot be met all at once. I was no less sorry than surprised to hear the Hon'ble Babu Braja Kishor Prasad complain that some of the teachers from Bihar schools had to go for a short time to receive training in the training school, which he considered to be an unjustifiable interruption. I think that all schools that have opportunities of thus sending their teachers ought to be more grateful than otherwise for facilities like these. I mentioned the work of the new Froebel Society last year in connection with the training of teachers. That infant institution is manfully struggling against tremendous odds and is giving a good account of itself as the Hon'ble the Director of Public Instruction as well as the

Educational Secretary of the Government of India would be able to testify. I should much like it to be ensured against infant mortality, for it has a useful career before it. But the teaching of teachers is to my mind not the most important part of the work, and there is a still more important work in this direction which has not yet been attempted, and which I invite the Government to initiate as early as possible. In former years I had to direct my observations against growing inspection charges—observations which have largely been influenced by the consideration that education proper does not benefit by that inspection to the degree that would warrant the large expenditure, and that might fairly be expected under the circumstances. Not long ago the Hon'ble Rai Baikuntha Nath Sen Bahadur asked in this Council a question as to whether it was intended to take up the question of the training of inspecting officers, and the answer of the Hon'ble Mr. Cumming was that no scheme for training such officers has yet been prepared. As I read that answer, the Government may not be wholly oblivious of the necessity of having something done in this direction, so that full measure of work may be got out of the body of inspectors. As I read the answer it strikes me that though the scheme may not have been fully matured, some scheme is at hand. I see however no budget provision for the purpose, and it would be a help to all concerned if a definite provision was made and the scheme worked out according to the funds that would be at the disposal of the Director of Public Instruction. I trust that those who have unfortunately misunderstood my remarks of previous years with regard to the enhancement of inspection charges will appreciate that I am not opposed to these charges merely because they are inspection charges, but because I feel that education proper does not benefit thereby to the extent that we have a right to expect. In order that inspection may be a true help to teaching the inspecting officers themselves ought to have some grounding and training in teaching. I thought so in my own personal behalf when I took upon myself association in the management of schools and thought I was well and profitably employed in watching the interesting demonstrations in connection with the Training College, through the courtesy of the Director of Public Instruction and the Principal of the College.

"There is one item of increase under the heading of expenditure which I notice with gratification in this connection. I have incidentally mentioned this item before, and it has reference to a question that I asked in this Council in February last, viz., with regard to the re-grading of inspectors that had been taken over from the District Boards who have been long working with an indefinite place in the new service and without being told as to what their status in the service exactly was. This expenditure will be a welcome addition to the inspecting charges, for it will really strengthen the inspecting machinery and bring us nearer to the time when according to the statement of the Hon'ble the Director of Public Instruction last year, inspecting charges should cease to grow as soon as the full machinery was equipped and in working order. And these rejuvenated inspecting officers would be all the worthier for the special training which I submit they ought to have. I ask for a second grant-in-aid because the David Hare Training College, which trains teachers in the secondary schools, will not be enough for all requirements, and teachers in charge of primary education require no less looking after than the teachers in the secondary schools. Schools like those at Entally and Bankipur require strengthening, and it is because of the necessity of this special nursing that I seek to raise the budget allotment.

"I ask that this particular charge may be omitted. From enquiries I have found that the service of these Veterinary Surgeons are not so much in requisition as we are liable to think. District Boards, other public bodies or individuals that are supposed to require their services, I believe, are not quite as anxious to get them as they are represented to be. The Veterinary Surgeons have already been placed on a sound and strong footing, and they have now enough to go on with their requirements. If this particular grant was withheld, and if it was applied to a pressing need, I think our Veterinary institution will not largely and irretrievably suffer. It is for this reason that I selected this particular item for omission in order to strengthen the training colleges."

The Hon'ble Mr. CUMMING said :—

"Sir, the Hon'ble Member desires that a sum of Rs. 20,370 which has been allotted in the budget of the Scientific and other Minor Departments for the reorganization of the Veterinary Service should be omitted in order that a sum of Rs. 20,000 may be available for an educational project. I shall shortly mention the facts regarding this reorganization. The creation of the Subordinate Veterinary Service, which is ultimately to contain 229 Veterinary Assistants, two for each subdivision of the province, was sanctioned by the Secretary of State in August 1907. At present there are 76 such Assistants, and in the course of the development of this scheme Government propose to have 15 new appointments in 1911-12. The total provision under this head would then be Rs. 57,600, out of which a sum of Rs. 37,230 is expected to be recovered from the local bodies to whom the services of the Veterinary Assistants will be lent. The object of this scheme is a humane one; the scheme meets a real, existing demand for measures for the prevention and cure of the diseases of animals which form one of the chief assets of agriculturists. Moreover, it is a scheme in which Government and local bodies work in co-operation. In the interest therefore of the cultivators of this province and their cattle I would deprecate that there should be any check on the not unreasonable development of this very desirable scheme which, as I have said, has been fully sanctioned by the Secretary of State."

The PRESIDENT said :—

"Does the Hon'ble Mover wish to offer any remarks?"

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—

"I was expecting to hear some expression of opinion from the Hon'ble the Director of Public Instruction. I am met no doubt with the difficulty of the counterbalancing proposition, and, as the Hon'ble Babu Bhupendra Nath Basu pointed out, we are at a disadvantage not knowing exactly what sums may be available or not, even if a particular proposition commends itself to the Government. I quite realize that difficulty, but my disagreement with what has fallen from the Hon'ble Mr. Cumming is not likely to influence the Council much. I feel that is a difficulty. I cannot very well make it a question of cattle against inspecting officers, and if the Hon'ble Mr. Küchler, who seems to be beaming with joy because of his abundance, will be good enough to provide out of that abundance some little assistance towards the improvement that I advocate which really affects his department than outsiders, I should not press my resolution."

The Hon'ble Mr. KÜCHLER said :—

"May I be permitted, Sir, to make a few remarks. I would like to point out to the Hon'ble Member that the Government of Bengal have already submitted to the Government of India a proposal for strengthening the staff of the David Hare Training College. But I would add that it would be impossible to admit private teachers until all the teachers in Government employ will have received training. I would also like to say a few words with regard to the remarks on the subject of the working of the inspecting staff. As a matter of fact the superior inspecting staff in the Indian Educational Service receive a course of training in England before they are sent out here, and with regard to the subordinate inspecting staff, there is already a system in vogue by which Deputy Inspectors and Sub-Inspectors are sent for a six weeks' course to the vernacular training schools. Of course, this system is not altogether satisfactory, but at the same time it is worth something, and I would also mention that the question of improving it is under my consideration."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—

"I regret, Sir, that wild horses had to be employed in dragging this welcome information that the Hon'ble the Director of Public Instruction has been good enough to give me. My object was to draw attention to the prevailing state of things and the necessities of the situation which, I have no doubt, will be fully attended to."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Babu Deba Prasad Sarbadhikari before moving the following Resolution with the leave of the President withdrew sub-head (*a*) thereof—

This Council recommends to the Lieutenant-Governor in Council—

(*a*) that a sum of Rs. 10,000, or such other sum as the Government think fit, be provided for strengthening Training Schools under the Government;

(*b*) that a sum of Rs. 10,000, or such other sum as the Government think fit, be provided for the purpose of giving *bonuses* to *gurus* in aid of the cause of primary education; and

(*c*) that the superannuation charges (page 18 of the Financial Statement, paragraph 53) be reduced by Rs. 20,000.

He said:—

Sir, may I with your permission withdraw part (*a*) of this Resolution because that is covered really by the previous observation of the Director of Public Instruction."

The Hon'ble Member then moved sub-heads (*b*) and (*c*) of the Resolution, substituting the 10,000 for the figures Rs. 20,000 mentioned in clause (*c*).

He said:—

"There is a small item in connection with primary education that I ask for which requires a word of explanation. Formerly all students of primary—lower and upper—and of middle schools, used to be allowed to compete at public scholarship examinations, and *gurus* who could pass the most and the best boys used to receive rewards which were supplemented, I believe, by guardians in those good old days. Not long ago this system was discontinued, for reasons that must have appealed to the then Director of Public Instruction. The system since in vogue is that the inspecting officer visiting the schools selects one or two out of many would-be competitors from each school and the area of competition is circumscribed, the Inspector's work is needlessly added to and the whole of the *guru's* work does not find the test of check at the public examination. He gets a phenomenally small pay, and the present state of things is little incentive to good work. Only one or two out of the best of his boys— at least those that the inspecting officer selects—have thus the opportunity of competing, and the others who may be nearly as good, are left behind. Under this system the best boy of an indifferent school who may be positively bad compared to the residuum of the better school is allowed to compete and the benefits of a general competition are lost. I propose the restoration of the old system, so that the boys, their guardians and the *gurus* may all co-operate in the bettering of the primary schools. As it is, the primary schools are gradually losing strength, which will be little aid indeed to the development of primary education on more expanded basis, towards which we are supposed to be moving. As an experimental measure I therefore propose that a sum of Rs. 10,000 be provided under the heading of Bonus (p. 58 of the Educational schedule) for giving reward to *gurus*. *Gurus* are more or less superannuated. I thought that there might be some fitness of things in the bonuses coming out of the superannuation charges which, I believe, are estimated high, and if Rs. 10,000 was to come out of it superannuation charges proper would not be affected and some relief would be given to a very deserving and worthy but low paid body of teachers."

The Hon'ble MR. KÜCHLER said:—

"I presume, Sir, that it should be dealt on its own merits apart from its financial side.

"With regard to the proposal (*b*), I would inform the Hon'ble Member that since the abolition of the examination system, the *gurus* are remunerated in two ways, (1) by what we call subsistence allowance, and (2) by payments at the end of the year which are given at various rates determined by considerations such as attendance and the general character of the school. Of

course owing to the want of funds, the amount of these bonuses is small. At the same time it is not apparent what good would result if Rs. 10,000 were distributed among 30,000 *gurus*; each *guru* would receive about five annas only, and the money would be entirely wasted."

The Hon'ble MR. DUKE said :—

"I am afraid that in the proposal for ways and means the Hon'ble Member has come up against even a harder rock than the Veterinary Department, because I may say that in estimating superannuation charges, we do not estimate wildly or for more than is tolerably certain to be required, and I have only got to remind the Council that we could not possibly refuse to pay any pension or gratuity which may become due under the Civil Service Regulations. It is in fact a contractual obligation. If our officers retire we are obliged by rule to pay them their pensions or gratuities to which they are entitled. I do not believe that it could possibly be suggested that we can offer them less or refuse them their pensions. It is therefore impossible that we should make any reduction on this."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—

"I did not quite mean that five annas a head would be sufficient for the *gurus*, and thought that they might be given a more substantial bonus. However, as the rock of superannuation is unsurmountable, I think the *gurus* must go and along with them my Resolution."

The PRESIDENT said :—

"I take it that the Hon'ble Member desires to withdraw his Resolution."

The Resolution was then by leave of the President withdrawn.

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution :—

This Council recommends to the Lieutenant-Governor in Council—

(a) that a sum of Rs. 3,000, or such other sum as the Government think fit, be provided for strengthening the staff of the Bethune College;

(b) that a sum of Rs. 3,000, or such other sum as the Government think fit, be provided for strengthening the Brahmo Girls' School, Calcutta; and

(c) that the charges for employment of additional professors, etc., in the Agricultural College, Sabaur (page 18 of the Financial Statement, paragraph 52) be reduced by Rs. 6,000.

He said :—

"Here I stand on a firmer rock such as I hope will induce all opposition to disappear and the question of ways and means will be gallantly solved. The relief to Your Honour's Educational Budget this year is however a phenomenally 'unearned increment,' and the resultant surplus should find its way through other necessary educational channels some of which I have indicated. How important and acute the education question is becoming will be abundantly clear from the great interest that all members of this Council are taking in it and from the number of resolutions bearing on it.

"The Resolution in connection with the strengthening of the staff of the Bethune College was practically forced upon us during the current year, and it is desired to bring this matter prominently before this Council because the inspection report itself which has to pass in due course through the University will be long in coming before the Government. The Bethune College used to have teaching in Mathematics as a part of its College curriculum not long ago, and the results cannot be said to have been unsatisfactory. Curious as it may appear, sweet girl graduates seemed to take more affably to dry mathematics and scientific subjects than a mere male man is apt to give her credit for, either because of his sense of superiority or of ignorance that

is no less ridiculous. When I and my fellow-inspectors went round the cramped classes, all four practically crowded in one room divided by an arched partition, the one striking feature of demand was for the addition of a Mathematical chair, and girl after girl rose in her place when asked as to who would like to take mathematics if it was allowable. There used to be an excellent mathematical professor before and he has now been drafted on to head-master's work which he is doing equally excellently. The Inspectors and Lady Principal agreed that the same Mathematics Professor could be restored to his former place, and other and not very expensive arrangements might be made for taking his place in the school. There are other directions in which the strengthening of that college is absolutely needful. I shall not refer to the question of accommodation, for the Government realizes its need and has already got land that is awaiting a building as soon as funds are forthcoming. But if for want of suitable curriculum and suitable staff the College gets weakened in the meantime, there will not be much need for the building that the vacant land to the west of the college is awaiting.

"While the Bethune College is doing excellent work there is one other institution in the metropolis which also is doing excellent work in aid of secondary female education. I refer to the Brahmo Girls' School for which also I am asking for a small help.

"Their requirements are much larger than can be met by the Government grants which they already receive, and unless they get some more help they are wholly unable to carry on their good work. The suggestion for economy with regard to these grants affects the new Agricultural College at Sabour which is going to get strengthened its staff by, I believe, Rs. 18,000. I do not of course happen to know details of the arrangement proposed with regard to the strengthening, but I think that a fair start has been made in that college, and some more strengthening of the staff would be possible even if Rs. 6,000 of that allocation be taken out, as I suggest Such reduction is not likely to hurt the college, but will benefit two very deserving educational institutions ntended for the advancement of female education."

The Hon'ble MR. KÜCHLER said:—

"Sir, the appointment of a Professor of Mathematics which is apparently the one contemplated by the Hon'ble Member has already been pressed upon me for several years by certain well-wishers of the Bethune College. The reasons which have determined me not to recommend this particular addition to Government are the following:—First, that the relative expensiveness of the Bethune College, in that the proportion to professors to students is one to five, making it necessary to limit the number of subjects, secondly if it be granted that such a restriction is necessary, it seems to me that mathematics is one of the most suitable subjects that can be left out of the curriculum. The arrangements to which the Hon'ble Member has referred to, as emanating from the Lady Principal, cannot be founded upon his experience with regard to these matters which he must have gained as a member of the Syndicate. The Syndicate will insist if the College is affiliated in mathematics on the full time services of one Professor and the half-time services of another, and therefore I cannot understand what are the comparatively inexpensive arrangements which the Lady Principal is supposed to have suggested. Then, again, when mathematics was taught in the College, it was a most unpopular subject, and I must say that this sudden alleged demand for mathematics seems to me extremely suspicious. In fact I am almost inclined to attribute it to the contrarity of the female mind in desiring what is forbidden.

"With regard to the second proposal by the Hon'ble Member, I may point out that the Brahmo Girls' School already gets a liberal grant from Government, viz., Rs. 500 a month. I do not think under the circumstances and also considering the limited sum which is at my disposal for grants-in-aid it is possible to accept the proposal made by the Hon'ble Member."

The Hon'ble MR. CUMMING said:—

"Sir, the Hon'ble Member has proposed to reduce the allotment for the staff of the Bengal Agricultural College, Sabour, by a sum of Rs. 6,000. In making this proposal the Hon'ble Member is, I think, under the impression that new officers are to be appointed. The provision of Rs. 6,000 has not been made for new officers, but for the pay of existing officers. One of them was recently appointed and others are entitled to receive certain increments of pay after 18 months' probation. There are four such officers who have returned from training in America. It is therefore hardly possible to make the deduction proposed."

The Resolution was then put and lost.

The Hon'ble MR. DIP NARAYAN SINGH moved the following Resoution:—

This Council recommends to the Lieutenant-Governor in Council that a Committee, consisting of six non-official and four official members, be appointed to frame definite proposals for the disposal of the sum of Rs. 12 lakhs (portion of the special grant from the Government of India) permitted to be spent this year for educational purposes, subject to such conditions as the Government of India may be pleased to lay down.

He said:—

"I do not think that many words are necessary to recommend this resolution to the Council. The position is this—we have been fortunate enough to receive Rs. 12,00,000 (portion of the special grant from the Government of India), to be spent this year for educational purposes, subject to certain rules and conditions. These were not made known to us till to-day. I submit, gentlemen, that these conditions are elastic enough to allow my resolution to stand. This is the only time when resolutions can be put forward with regard to the different heads in the Budget, and it is in order that non-official members may not lose the opportunity of expressing their opinion—of submitting their views, on the question of the disposal of this large amount of money, that I have ventured to bring forward this resolution to-day. I am of opinion that the hands of Government will also be strengthened if non-official opinion and the views of the public at large are allowed some voice in the expenditure of this sum. I am not very particular as to the exact proportion of official and non-official members that should go to form the Committee. So long as I am assured, that the non-official element will be fairly largely represented on the Committee, I am not unwilling to modify my resolution for its acceptance by the Government. With these few words I beg to place my resolution before the Council."

The Hon'ble MR. KÜCHLER said:—

"With regard to the Resolution moved by the Hon'ble Mr. Dip Narayan Singh, I am authorized to state that the Government is prepared to accept the Resolution provided that the Hon'ble Member leaves the constitution of the Committee and the terms of reference to Government."

The Hon'ble MR. DIP NARAYAN SINGH said:—

"I am glad to do so with the hope that the public will be allowed to have a fairly large measure of voice in the Committee."

The PRESIDENT said:—

"I will gladly give that assurance. The Hon'ble Member has proposed six non-official and four official members. I am not prepared to accept this proportion. With the modifications proposed by the Hon'ble Mr. Küchler the Resolution is accepted by the Government."

The Resolution was put in the following form and agreed to:—

This Council recommends to the Lieutenant-Governor in Council that a committee be appointed to frame definite proposals for the disposal of the special grant of Rs. 24½ lakhs made by the Government of India for the purposes of education.

The Hon'ble Mr. Slacke introduced the following heads :—

Revenue—

XX—Medical.

Expenditure—

24. Medical.

He said:—

"On the receipt side, the revised budget, which amounts to Rs. 3,45,000 shows an improvement of Rs. 47,000 over the budget for 1910-11, which is mainly due to larger receipts from fees in the Medical College and to a special payment by the Port Commissioners for the Clayton fumigating apparatus, which was indented for by Government on their behalf. The budget for 1911-12 has been taken at Rs. 3,29,000. A further small enhancement under Medical College fees is anticipated, but the receipts from paying patients are slightly less than in the revised, and the special payment referred to from the Port Commissioners will not be repeated.

"Turning to the expenditure the Revised Estimate amounts to Rs. 23,74,000, which is Rs. 1,42,000 less than the budget. No orders were received from the Government of India as to the proposals for the improvement of the prospects of Civil Assistant Surgeons, for which a provision of Rs. 41,000 had been made. The delay is to be regretted, but the provision has been repeated in 1911-12, and it is hoped that orders will not be longer delayed. Further there were savings under salaries and under supplies and services. The budget for 1911-12 has been placed at Rs. 25,13,000 which is Rs. 16,000 less than the figure of the previous year. The most important new departure is represented by the provision of Rs. 14,400 for the special malaria enquiry. As the outcome of the Simla Malaria Conference, a Provincial Committee has been constituted for the supervision of systematic enquiries into the prevalence of this disease. This body will work in consultation with the Central Committee which the Government of India have appointed, and a special officer of the Indian Medical Service, with a subordinate staff, has been placed at its disposal. It is hoped that by continuous investigations upon the lines indicated by the Central Committee something will in time be done towards coping with this scourge. The item of Rs. 5,000 for commission to Civil Surgeons' clerks upon sales of quinine is part of the arrangement recently made to decentralise the distribution of quinine, with the object of popularising its use. District depôts under the supervision of Civil Surgeons have now been opened, and additional work has thus devolved upon their staff. The important work of the analysis of water samples has now been entrusted to the Sanitary Commissioner in place of the Chemical Examiner and the Professor of Pathology at the Medical College, and a small laboratory and two assistants have been placed at his disposal. It is proposed to revise the pay in the office of the Sanitary Commissioner and a scale of allowances, as explained recently in answer to a question of the Hon'ble Babu Deba Prasad Sarbhadhikari, has been sanctioned for the assistants to the Chemical Examiner. The pay of the warders attached to the Berhampore Lunatic Asylum has been increased in order to attract a better class of men. The sum of Rs. 13,000 has been provided as a grant to the Lewis Jubilee Sanitarium, Darjeeling, to assist in an extension of the buildings. Lastly the provision for grants-in-aid towards plague expenditure has been reduced to Rs. 35,000, in comparison with Rs. 48,500 in the budget for the current year.

"The entries as regards buildings of the Medical Department are included in the Public Works Budget. The programme for the year is not an ambitious one, but the state of the finances has precluded a larger outlay. The fourth block at the Medical College will be completed and fencing and hydrants will be erected in the compound. A residence will be constructed for the Civil Surgeon of Purulia, a station in which great difficulties exist at present in the way of housing accommodation, while the small hospital at Barrackpore for police cases is to meet a want which has long been felt. The hostel for female students at the Temple Medical School is calculated to encourage

their attendance by providing them with properly supervised accommodation which is now lacking, while the sum of Rs. 5,000 for the medical officer's quarters at the Burdwan Hospital is really a grant-in-aid towards the total expenditure of Rs. 15,000, the balance of which will be raised by the generosity of the Maharajadhiraja Bahadur to whose efforts the erection of the new hospital is largely due."

The Hon'ble Maharaja Manindra Chandra Nandi moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council that the provision under "24—Medical" for anti-malarial work be increased by two lakhs, a corresponding reduction being made in the lump provision under "45—Civil Works in charge of the Civil Department" for grants for works of sanitary improvement, and that out of this sum—

(*a*) one lakh of rupees should be reserved and earmarked for the carrying out of experiments for the suppression of malaria, on the lines of experiments made within recent times in America and in Italy and other European countries, and

(*b*) another lakh of rupees should be reserved for and applied towards the re-excavation and silt clearing, by the District Boards, of small channels for the outflow of water from villages where such channels have been silted up or entirely clogged.

He said:—

May it please Your Honour—Before I advance any ground in support of the amendments that stand against my name I must reiterate the thanks to the Government of India that have already been expressed here and elsewhere for their liberal grant towards Sanitation and Education. This grant will enable your Government to take up much desired schemes in these two directions—schemes which, when perfected, will be productive of incalculable benefit to your Province. We only hope that such grant will be continued from year to year, and increased too in future years, as your Government establishes its claims by the judicious application of such grant.

"I now proceed to lay before Your Honour, in short, my reasons for the amendments I propose. The scourge of malaria is by far the greatest calamity of the country. It has sapped the energy of the nation, brought untold miseries at the door of every section of the community, and in particular to the under-fed cultivator, the poor artisan, and the homeless beggar. It is a scourge that has now spread far and wide from its original centres; it is one which is no longer peculiar to any subdivision, district or division but which is everywhere to be found, not excepting well regulated municipal areas, not excepting even the metropolis of British India. Populous villages and cities on the banks of the Ganges, which fifty years ago were well-known health-resorts, have been depopulated; palatial buildings have been converted into masses of ruins, overgrowth with wild trees, and rank creepers; tanks, once the pride of their pious excavators, have, through inattention, caused by the depopulation of impoverished villages, been turned into hatching grounds of anophœlia and other insects that harbour malarious germs. The attempt of Government to combat this mighty giant is highly laudable; but he cannot be overpowered by a small force and his ways and manners cannot be properly studied, with the object of his subjection, except by a large and competent army of scientific men Other countries in both the old and the new worlds have entered into elaborate schemes for combating this monster, by draining off marshly lands, by killing the germ-developing insects in their breeding season and by taking other precautionary measures. Scientific experiments on an elaborate scale are also conducted in other countries for the discovery of preventives and remedies and have begun

to bear fruit. Let our resources be therefore equal to our needs and let us shew that the tax we gather from the cultivator and the artisan is partly devoted to the amelioration of the sufferings brought on them by this deadful monster.

"The latter part of my first amendment also aims at the same view. It will have direct operation in suppressing malarious fever in water-logged villages while its indirect effect in promoting irrigation and cultivation is also not to be lost sight of. It is truly said that the construction of railways has largely impeded the natural outflow of water, has clogged all minor water-channels, that the railway bridges have silted up many a navigable river, that the course of some have been diverted by reason of the main channels having been silted up and that embankments erected for protecting railways have been additional causes for the prevention of the natural outflow of water and are fruitful and ever-growing causes for the increase of malarious fevers. What was once confined to villages, what was once never heard of beyond certain districts, soon spread all over Bengal and has been committing untold ravages in spite of quinine and the facilities for better medical treatment. In spite of all attempts to confine the scourge to the low marshes of its original birth it is now found in well known health-resorts in Bihar such as Dehri-on-Sone and Arrah and has established itself in the far off cities of the Punjab."

The Hon'ble Mr. Slacke said :—

"The Hon'ble Member proposes a transfer of a budget provision of two lakhs with the object of stimulating action for the prevention of malaria. The measures which are undertaken with that end in view are of a two fold character, namely, those concerned with the distribution of quinine and those connected with schemes of drainage and sanitary improvement. The special budget provision of Rs. 20,552 on page 11 of the schedule attached to the Amended Draft Financial Statement has reference rather to the machinery for inquiry into the prevalence of malaria and the best means by which to combat it. I have just stated in introducing the medical portion of the budget what has been done to create a Provincial Malaria Committee. The necessary provision has been made for the medical officer serving under this Committee and his subordinate staff, and although it is possible that the need will be found of adding to and improving this machinery, the immediate requirements as formulated by this Committee have been met, and pending further experience of the course investigation should take, it is needless to set apart further sums for this purpose.

"As regards measures connected with the sale of quinine, the system of distribution has recently been overhauled, and district depôts have been established under Civil Surgeons which will, it is hoped, stimulate the demand. The Simla Malaria Conference deprecated the free distribution of quinine, except in the case of severe epidemics, and there is no intention of attempting this upon a general scale. Nevertheless it has been the practice since 1908 (and the results appear to justify its continuance) to depute medical subordinates for special duty during the fever season to specially malarious areas, and these men dispense the drug free, while a small experiment was tried in Purnea of giving quinine free to the less highly paid Government servants. The various Railway administrations have been urged to extend the distribution of quinine among their subordinates, although some of them already take action upon these lines. An experiment is about to be tried with the sale of quinine made up in treatments in place of doses, following the example of Eastern Bengal and Assam and the issue of quinine in tablets, as well as in the usual powder form, is a recent innovation which seems to be popular. Government is anxious to do all that it can to popularise the use of quinine, and if any well devised suggestion can be made to that end, such will gladly be considered, but there is no present need to make a further large budget provision on this account, and it will be seen from the statement in paragraph 59 of the detailed notes accompanying the revised financial statement that expenditure of this nature is at present met from the lump grant for sanitary improvements. This can

be done again if necessary, and so long as the provision remains as a lump allotment, nothing is gained by transferring a portion of it to another head.

"For the same reason, there is no object in making such a transfer in order that sanitary drainage schemes may be undertaken towards the prevention of malaria. If proposals on the lines indicated by the Hon'ble Member are formulated during the year, and accepted by Government (and in the absence of definite schemes it is useless to discuss details), it will be possible to finance them, in whatever proportion may be decided upon, upon the Budget as it stands. For instance, during 1901-11, Government has already, from the grant for sanitary improvements, assisted the Bagjola and the Bistupur Bhil drainage schemes, and proposes to help that for the Nawi-Sunthi, all of which projects were recommended by the Drainage Committee who investigated the matter solely from the point of view of the prevention of malaria.

"The wish which underlies the Resolution of the Hon'ble Member has been met in a substantial manner by the enhancement of the ordinary grant for sanitary improvements from $4\frac{1}{2}$ lakhs to $9\frac{1}{2}$, and to that extent aid can be given to any measures for the relief of malaria which are elaborated during the year and accepted as sound. In moving the Resolution, the Hon'ble Member has possibly been misled by the fact that the provision for sanitary improvements appears in the Budget for Civil Works in charge of the Civil Department, and not under Medical, but this is merely a matter of accounts, and the change he proposes (as interpreted above) is not necessary even if it were decided to give effect to his wishes to the full amount of the expenditure indicated by him. I cannot, therefore, advise the Council for the reasons I have given to adopt this resolution."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Dip Narayan Singh moved the following Resolution :—

> This Council recommends to the Lieutenant-Governor in Council that a Committee, consisting of six non-official and four official Members, be appointed to frame definite proposals for the disposal of the sum of Rs. 5 lakhs (portion of the special grant from the Government of India) permitted to be spent this year for purposes of sanitation subject to such conditions as the Government of India may be pleased to lay down.

He said:—

"This is similar to my resolution regarding education, and subject to the same modifications as proposed by the Hon'ble Mr. Küchler, I think this resolution will be acceptable to the Government."

The PRESIDENT said:—

"I am afraid that there is a difference in the situation as regards this resolution and the former one. It is probable that Government will have reasons for not accepting this resolution. If, therefore, the Hon'ble Member has anything to say on the subject, we will hear him."

The Hon'ble MAULVI SAIYID MUHAMMAD FAKR-UD-DIN said:—

"I beg to support this resolution, Sir. The resolution is so very reasonable and sensible that no argument is necessary to support it. Your Honour was perfectly right in accepting the similar resolution about education, and we hope that this resolution will also be accepted at least with similar modifications. This resolution is perfectly innocent and the views of the Committee will enlighten and enable Your Honour's Government to make the expenses under this head on a more satisfactory basis."

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSSAIN KHAN BAHADUR said :—

"I beg, Sir, also to support this resolution, and in supporting it, I wish to say a few words. The non-official members should have voice at least in the disposal of this fund. The Finance Committee was appointed for this purpose. And moreover, if the non-official members have some voice in the disposal of the fund, it will strengthen the hands of the Government. I am afraid there is a feeling that the non-official members are not consulted in matters of finance. Whatever voice they may have, it comes to nothing. I hope the Government will give due weight to that feeling, and act accordingly. With these few words, Sir, I beg to support the resolution."

The Hon'ble Mr. SAYID WASI AHMAD said :—

"I will only say one word, Sir. This resolution directly refers to the sanitation question, and if we are to have absolutely no voice when the allotments are made under this head, we shall be losing a great chance. To my mind it is fair proposal that the non-official members should sit in Committee to discuss questions affecting sanitation. I hope, Sir, that the resolution would be duly considered by all the non-official members present here, and I see no reason why it should not be accepted by the Government. When a similar resolution by the Hon'ble Mr. Dip Narayan Singh has already been accepted with certain modifications, I do not see why the Government should raise any objection to its acceptance."

The Hon'ble MR. SLACKE said :—

"This Resolution, though confined to the special grant of Rs. 5 lakhs which has been given by the Government of India in the revised estimate for works of sanitary improvement in towns, might as well have included the other special grant of Rs. 4½ lakhs which since 1908-09 has been made annually for sanitary improvements generally, since the difficulties underlying the distribution of both allotments are the same. These were briefly indicated by the Financial Secretary in connection with the Revised Financial Statement for 1910-11, and they arise from the fact that it is not the case that the development of sanitation has as yet reached a stage in this Province in which there is a long list of fully considered schemes, towards which those locally interested are willing to contribute defined amounts, and which are only waiting a contribution from Government to enable them to be taken in hand. Were this the case the advice of a Committee might well be sought as to the selection of one project in priority to another, but even then this duty would fall within the province of the Finance Committee of Council, and there would be no necessity to convene a special body for such a purpose. It is not merely the fact that intimation of the recent grant from the Government of India was received at a late date, which has prevented the opinion of the Finance Committee being obtained in this connection. The real obstacle is in the absence of such a pending list of fully matured schemes. In connection with all projects of water-supply and drainage there are three main stages. A rough scheme has to be initiated by the local authority concerned, and a decision come to as to how it will be taken up and as to the manner in which it will be financed. To take the simplest case of a municipal work, the municipality has to decide how much it can afford to spend out of its ordinary revenue; how much it can afford to raise by way of loan; how much it can expect from the local liberality of private donors, and how much it desires to ask Government to contribute. This last amount must be in reasonable proportion to the contributions from other sources; Government does not, and cannot, undertake the whole cost of such works. After these details have been settled, and the scheme has been approved by the technical advisers of Government, the details have to be worked out, with the assistance of the Sanitary Engineer, and should the estimates show a material departure from the original rough plans, the financial position may possibly have to be reconsidered. Finally the whole proposal has to receive the approval of Government and the contributions from different sources realised. In a work undertaken under the Sanitary Drainage Act there would, of course, be other complications, which would still further protract matters. However,

the general argument applies and the important point is that the Local Government is not now in a position to say what schemes will pass satisfactorily through these different stages in the course of the year. So much depends upon local difficulties, and sometimes upon local jealousies and apathy, that it cannot be foretold that a particular project will be pushed through in the course of the year. Government can only deal with the projects that come up, and it rests largely with the local authorities to ensure that they are sent up. If, therefore, a Committee was appointed as proposed, it would not be possible for them to make final recommendations. The Sanitary Engineer would state the projects upon which he is working and the different stages at which each has arrived, but it would not be expedient to attempt now to earmark the grant for particular works. This might only result in a large portion of it lapsing at the end of the year. During the current and preceding years the Local Government at the commencement of the year caused enquiry to be made as to the schemes which were in a fair stage of progress, and then took steps to urge the local authorities to submit proposals. Presumably similar action will be taken during 1911-12, but the proceedings of a Committee would scarcely help. If any Hon'ble Member knows of any scheme which he desires to see undertaken, his best course is to co-operate with the local authority concerned in securing that practicable proposals are sent up, and the larger grant at the disposal of Government during the current year will enable a larger measure of assistance to be given. But a Committee seems scarcely called for, and were there a place for it in the present procedure, the duty of submitting recommendations should more properly lie with the Finance Committee of Council.

"I trust therefore that Hon'ble Member for these reasons will recognise that this Resolution should not be adopted."

THE PRESIDENT said :—

"The plain truth is that if we appoint a Committee as the Hon'ble Member proposes, there is great danger that the grant that is given for expenditure in the ensuing year will not be spent within the year. There is not, as the Hon'ble Mr. Slacke says, a list of projects before Government which are fully matured and ready for immediate execution. I think that all that the Committee would be able to do, would be to call for projects and consider them; that would take an interminable time. I think the Hon'ble Members would do well to take the advice of the Hon'ble Mr. Slacke, and that whenever they know of any likely project being considered by the local authorities, they should do what they can to urge that project on in order that it may be submitted for the further consideration of Government at the earliest possible date."

The Hon'ble MR. DIP NARAYAN SINGH said:—

"I think, Sir, it will be very difficult for Government to make out a case that when non-official members have been allowed a voice in the disposal of a certain amount for education why a similar privilege should not be extended to them in the disposal of the same five lakhs for sanitary purposes. Non-official members ought surely to have their say in this matter also; I submit that as the detailed expenditure of this sum has not been shown in the Financial Statement, we ought to be allowed to have some voice in the disposal of this amount. The measure which I propose is a mild one. The Committee is to consist of four officials and six non-officials, who will have power to frame proposals for the disposal of this sum. I cannot really see what opposition this resolution can meet with. I am certain that all my colleagues will support it. I hope the Government will accept it also with the modifications that were made in my resolution regarding education. With these few words I beg to submit this resolution for Your Honour's consideration."

THE PRESIDENT said:—

"The difficulty is that schemes come dropping in from time to time during the year. There are some schemes which we know are practicable, others are not so. It will be very difficult to hang up all these schemes for six months

or more. I am afraid it is difficult to give effect to the wishes of the Hon'ble Member. If we had schemes in preparation, a year hence the Hon'ble Member's proposals would be practical. But this is not the case. We have already found difficulty in providing for the satisfactory expenditure of the grant of 4½ lakhs which we have had for some years. If we are going to appoint a Committee in connection with the additional grant of Rs. five lakhs there will be great practical difficulties over this."

The Hon'ble MR. DIP NARAYAN SINGH said :—

"When these schemes of different sanitary projects are ready in the course of six months, will the Government be then pleased to form a Committee for determining as to which should be selected. This, I think, will not hamper in any way the hands of Government. It will also have the advantage of giving more satisfaction to the public than the other course of allotting sums of money to carry out schemes formulated directly by the Government."

The PRESIDENT said :—

"The Hon'ble Member is well advised. We entirely appreciate the object which he had in view and we shall do what we can to give effect to it, but not in the form in which he proposes."

The Hon'ble MR. DIP NARAYAN SINGH said :—

"Having regard to what has been said by the President, I withdraw this resolution."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble RAI KISORI LAL GOSWAMI BAHADUR introduced the following heads :—

REVENUE—

X—Registration.

EXPENDITURE—

12. Registration.

He said :—

"The receipts under the head of Registration is estimated at Rs. 13,26,000, against the estimate of 1910-11 on that head, amounting to Rs. 14,87,000. On the basis of actuals of the first nine months of 1910-11, the revised estimate has been placed at Rs. 12,75,000. The receipts under Registration rises and falls in an inverse ratio to the agricultural prosperity or adversity of the Province. The comparatively good harvest of the year 1910-11 accounts for the diminution of the anticipated receipts—a circumstance which is not a matter of regret. The estimate before us has been made in the hope that the agricultural conditions of the Province will continue to be favourable, after making due allowance for the normal growth of revenue and the additional fees to be earned by the new registration offices to be opened shortly. The receipts of this Department being wholly provincial, the excess of receipts over expenditure goes to benefit the Province in matters unconnected with registration.

"The expenditure of the year has been estimated at Rs. 7,89,000, against Rs. 7,77,000, being the revised estimate for 1910-11 on the basis of actuals of the first nine months of that year.

"I invite attention to page 7 of the Revised Financial Statement from which the Hon'ble Members will see that, in pursuance of the policy to better the pay and prospects of the Ministerial officers, we have provided an additional recurring charge of Rs. 8,886 for the revision of establishments of several registration offices. A further sum of Rs. 6,000, which is also a recurring charge, has been provided, as you will find on page 4 of the schedule of new schemes, for the revision of the establishment of the office of the Inspector-General of Registration.

"We have also been able to provide Rs. 35,000 for a new District Registration office building in Khulna. There are various other projects, notably the building of registration offices in rural areas where decent houses are not available, which are demanding our earnest attention and which will be taken in hand so soon as the financial position of the Province improves.

The Hon'ble Mr. Duke introduced the following heads:—

Revenue—

XXIII—Stationery and Printing.

Expenditure—

30. Stationery and Printing.

He said:—

"The Revised Estimate of receipts shows a small improvement of Rs. 7,000 which is due to larger receipts from the sale of official publications. The Budget is taken at Rs. 1,42,000, which is Rs. 1,000 only in excess of the Revised.

"On the expenditure side the Revised shows a saving of Rs. 1,33,000, as it is anticipated that less will be spent than was originally provided on the establishment of the Secretariat Press and on stationery supplied from the central stores. The Budget for 1911-12 has been placed at Rs. 13,39,000, which is Rs. 56,000 more than the Revised, but Rs. 77,000 less than the Budget of the current year. Economies are expected under the same two heads as have just been mentioned in the case of the Revised. The only new item of importance is the proposal for the revision of the establishment in the Jail Press on the lines already adopted in the case of the Secretariat Press, which is estimated to involve an additional outlay of Rs. 9,664 per annum.

"It is hoped that work upon the press block at the new Alipore Jail will be pushed on rapidly, and provision has been made on this account in the Public Works Budget of Rs. 1 lakh in the Revised and Rs. 3 lakhs in the Estimates for 1911-12."

The Hon'ble Mr. Slacke introduced the following heads:—

Revenue—

XXIX—Irrigation: Major Works.

XXX—Minor Works and Navigation.

Expenditure—

42. Irrigation: Major Works—Working Expenses.

43. Minor Works and Navigation.

He said:—

"When introducing last year the Budget relating to irrigation works, the Hon'ble Member in charge explained to this Council the differences between protective, productive and minor works, and I will not, therefore, take up the time of this Council by recapitulating what was then said. The protective works are the Tribeni and Dhaka canals in the district of Champaran. The Dhaka canal was opened for irrigation in 1906-07. The Tribeni canal is still under construction, but will, it is hoped, be completed by June 1912. A portion will, however, be opened for irrigation from the year 1911-12, and the receipts from, and the working expenses on, the completed portion will be provincialised, the interest charges being, however, treated as Imperial. This arrangement is to remain in force till 1912-13, when the whole question will again be considered.

"The works classed as productive are the Sone, Orissa, Midnapore and Hijili tidal canals. Unfortunately, none of the works in Bengal classed as productive have realised expectations. During the past few years, the net revenue from the Sone canal has been just sufficient to cover interest charges, but the gross revenue from the Orissa, Midnapore and Hijili tidal canals has only been slightly in excess of the working expenses. The net result is that these works now impose a burden of about 8 lakhs per annum on the Provincial Revenues. This, however, is better than the state of things four years ago, when the amount was over 10 lakhs. The revenue derived from these canals is chiefly from the rates levied for the irrigation of the rice crop, that under *rabi* being small except on the Sone canal. The revenue derived from tolls for navigation has in recent years considerably decreased owing to the competition of railways. The area of rice irrigation does not now fluctuate much, and that of *rabi* depends on the autumn rainfall. The area of rice now under irrigation is nearly the maximum which can be irrigated with the supply of water available. Every endeavour has been made to teach the cultivators to be more economical in the use of water, but only slow progress in this direction can be expected. The working expenses of the canals have been reduced to a minimum. The only method therefore of increasing the receipts and thereby decreasing the burden on provincial revenue is to increase the rates levied for irrigation. These are very low on the Orissa and Midnapore canals. It will, therefore, be a matter for the consideration of Government to what extent the rates in the irrigated tracts can be increased. It must, however, be remembered that these canals constitute a valuable protection from famine and avoid the necessity of expenditure in relief works in years of drought. The area irrigated from the Sone Canal during the triennium ending 1909—11 averaged 622,000 acres yearly.

"Owing to an early good rainfall, the receipts from major works will be slightly less than the Budget estimate. The decrease is chiefly in the Sone canal. From minor works and navigation, the receipts of which are shown under Budget head XXX, the chief source of revenue is from the tolls from navigation on the Calcutta and Eastern canals. These canals, which are partly artificial channels and partly improved and conserved tidal creeks form the navigable routes for boats and inland steamers between Calcutta and Eastern Bengal. The capital expenditure debited to it up to date is about 85 lakhs. The gross revenue which averaged about 5 lakhs fell off considerably in 1909-10 owing to the damage which the cyclone of October 1909 did to boats and to a portion of the canal between Bamanghata and Khulti being closed for silt clearance. The expectation that during the current year the receipts will be better owing to the opening in June last of the new chord canal between Ultadanga and Bamanghata has not been realised, owing chiefly to the closure of the Bhangore Khal and the Chitpur lock for urgent repairs. The new canal, I have referred to, is 10 miles long and is called the Kristopur canal. It is a convenience to boats using these canals as it gives a still water reach from Chitpur to Khulti, a distance of 27 miles, thus avoiding the delay which used to occur in the tidal channel between Dhappa and Bamanghata. The Madaripur Bhil route, a channel connecting the Padda and Madhumati rivers, is now treated as a separate project. It is being deepened so as to make it navigable for inland steamers throughout the year. About two-thirds of the work of deepening the channel will be completed by this month, and it is expected that the whole length of the channel will be finished by March next. It is hoped that the net revenue will suffice to pay 4 per cent. on the capital expended. The distance by this route from Naraingunge to Khulna is 100 miles less than by the present dry weather route *via* Barisal. This channel continues to be under the control of this Government till the close of the next year when the present arrangement will be reconsidered. As regards the working expenses of major works the revised estimate shows an increase of about Rs. 1,40,000. This is due to an adjustment of total revision for establishments under Budget heads 42 and 43, to silt clearing and repairs to locks on the Hijili tidal canal and to some special repairs on the Sone and Orissa canals. For the coming year the amount provided is that required in a normal year, and should not be exceeded unless unusual damage is done by floods. The

expenditure on minor works and navigation which is shown under Budget head 43 will be less than estimated. The decrease is principally owing to agricultural repairs and establishment. The revised estimate includes a provision of Rs. 30,000 for the Bagjola drainage scheme in the 24-Parganas. This expenditure is being met from the sanitary improvement grant. This scheme was examined into and endorsed by the Drainage Committee and is one for draining a water-logged tract of about 22¼ square miles to the north of Calcutta. Owing to the fact that numerous local bodies were interested, it was decided that Government should construct the main drain at a cost of Rs. 1,28,439 leaving such local bodies to provide the necessary subsidiary channels. As no new works are under contemplation, the amount provided for expenditure during the coming year on minor works and navigation under budget head 43 is less than that of previous years. Provision is made for extending the existing and constructing new minor distributaries so as to facilitate irrigation from the Orissa canal, for constructing dispensaries and quarters that are urgently required for the revenue establishment employed on the Sone canal and for completing minor distributaries, also for carrying on the work of improvement of the Madaripur Bhil Route. For training works on the Ganges in order to improve the navigation of this river in the dry season the sum of Rs. 40,000 is again provided. Similar work was carried out in 1903-04 to 1905-06 to the benefit of the steamers and boats using this river.

"For completing the lock at Ultabagh on the Peali river, the construction of which was commenced during the current year, Rs. 50,000 have been provided. The estimated cost was Rs. 81,000. This lock will give access to boats coming from the Sunderbunds and eastern channels through the channel in the Magra Hât scheme. There is a considerable trade chiefly in paddy between the Sunderbunds and Magra Hât, but at present it is much hampered for want of through communication for boats. The toll, which will be levied on boats passing through this lock, will, it is hoped, suffice to cover the maintenance charges and interest on capital. The Magra Hât drainage scheme, the benefits of which have already been stated in this Council, will, it is expected, be completed during the coming year. The cost of deepening the outfall channels of the Khas Tehsil Khals in the Midnapore district is estimated to amount to Rs. 64,000. This expenditure will be spread over three years, and Rs. 25,000 have been allotted in the coming year. It is a work which will greatly benefit the agriculturists of the tracts concerned. For the completion of special repairs of the embankments in Midnapore, Rs. 75,000 have been provided, and Rs. 2,45,000 for improving the Bailaghye drain, also Rs. 53,000 for constructing sluices and gates in the Government embankments in Orissa. The amounts provided for the maintenance of the canals and drainage works and for the takavi and Government embankments are normal. It will be noticed that certain amounts under minor works are put down as in charge of the Civil Department. These are for the most part connected with the Embankment Act."

It being 6 o'clock, the President took the sense of the Council as to whether the meeting should be adjourned or should continue until the business on the list be finished. The Council preferring the latter course, the consideration of the business on the list was continued.

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution:—

> This Council recommends to the Lieutenant-Governor in Council—
>
> (a) that a sum of rupees two lakhs, or such other sum as the Government think fit, be provided for undertaking work in connection with the relief of the flooded Begua Hana tracts; and
>
> (b) that the provision of two lakhs of rupees* for the new Central Jail at Monghyr (page 20 of the Financial Statement) be omitted from the Budget.

* The provision in the amended Draft Financial Statement was Rs. 2 lakhs. In the Revised Financial Statement it is Rs. 370,000.

The following speech in support of this Resolution having been circulated to all Members of the Council before the meeting, it was, by order of the President under rule 34(2), taken as read:—

"In this connection I need not go over the whole of the ground that was gone over last year, for the remarks of the Hon'ble the Maharajadhiraja Bahadur of Burdwan, the Hon'ble Babu Bhupendra Nath Basu and myself, made it quite clear that something definite and expeditious was imperatively necessary for relief of the affected tracts. The Government did not dispute this position, and Your Honour was pleased to remark that there was a case of inquiry, though the specific proposition put forward in my resolution at the time was considered to be inappropriate. The resolution was withdrawn on the understanding that further inquiries would be made by the Public Works Department. Though several months passed and the season of trouble was approaching anew, the public had no idea as to what was being done or likely to be done about the matter. Shortly after the withdrawal of my resolution, the British Indian Association, which naturally takes great interest in these matters, addressed to the Government a representation, in which they pointed out as follows:—

"The loss of life of men and cattle and the damage to houses and crops, which have been caused almost annually by the floods of the Damudar river ever since portions of the public embankment on its west bank were abandoned in the fifties of the last century, have been a standing grievance of the people of a large number of villages. Their complaints and representations have been heretofore unavailing. The investigations regarding remedial measures made by Mr. Horn in 1902, and the sympathetic report submitted by him, have, the Committee understand, induced Government to devote their attention to the subject and to consider what could be done to afford relief to a large number of affected villages.

"The evil is caused by the bed of the Damudar having silted up and its channel having become too narrow to carry down the large volumes of water which flow into it during the monsoons. The volume and force of the water have gradually eaten into the land, and the flood spill, after leaving the old bed of the Damudar and finding its way through the breach at Begua, has brought into existence a river which, commencing at Begua and travelling over a distance of 30 miles, discharges itself into the Roopnarain at Pansuili.

"If this new arm of the Damudar, now known as the Begua khal, be maintained in an efficient condition, much of the damage could be averted. But the khal itself has been rapidly silting up during recent years, and the process has been accelerated and the evil accentuated by that physical law which makes it possible for the sand portion of the detritus to go on increasing till the mouth of the river is reached. It is furthermore a fact of common knowledge that the catchment-basin of the Damudar, impaired as it has been by the Railway bridge at Kola, has been rendered insufficient for receiving the surplus flood discharge of all the rivers and tributaries which fall into it.

"In these circumstances, the Committee submit that Mr. Horn's recommendations be fully given effect to, and that for that purpose the Begua breach be provided with a weir so as to help the flood waters of the Damudar to leave its new channel and seek its abandoned bed, and that the Kana nadi, which serves as an effective conduit, be connected with the Roopnarain at Baksi by cutting a small canal."

"I am not prepared to put the technical aspect of the situation as enumerated by the Association against that set forth by the advisers of the Government. The Association may be wrong with regard to the exact scope of Mr. Horn's recommendations, their effect and their practicability. As a matter of fact, I believe Mr. Horn's scheme of 1902 was discarded as impractical, as the cost of 20 lakhs was considered to be prohibitive. Whether, having regard to the immense interests at stake and the terrible sufferings of the neighbourhood, this cost ought not to have been begun to be faced and spread over a number of years, is more than open to doubt. But since the scheme was discarded its consideration may be useless speculation at present.

It is possible that the British Indian Association failed to view the technical aspects of Mr. Horn's scheme aright in its representation, but the general soundness of the lines of the scheme has not been challenged in this Council or anywhere else. Suppose the prohibitive nature of the scheme stood in its way—and I am far from admitting that 20 lakhs of rupees is anything like prohibitive when the loss of so much life and property every year is concerned—there is one other scheme less efficacious perhaps and less costly than Mr. Horn's which was not sufficiently referred to by the Hon'ble Mr. Butler last year in reference to my resolution. I refer to Mr. Inglis' scheme. He thought it would be a help if the Begua breach was closed, and paved escapes wereconstructed on the river bank above or below, over which the necessary amount of flood water could spill. The cost of this scheme was estimated at nine lakhs, and the cost of an alternative scheme for construction of a weir across the breach with a small spill weir below to relieve the pressure over the main weir at high flood was estimated at six lakhs. It is apprehended on data, the full nature and extent of which has not been made clear, that Mr. Inglis' scheme would not only be costly but possibly injurious to the districts of Hooghly and Howrah. Such a catastrophe no one would willingly solicit or tolerate. If the second alternative scheme failed, people were anxious to know whether similar objections apply to the third alternative and less costly scheme referred to above. In this state of anxious uncertainty and as the working season was fast drawing to a close, to be followed by another season of flood, I asked a question about the matter on the 18th February, when the Hon'ble Mr. Butler replied that a preliminary scheme for diverting the low floods of the Damudar had been prepared, and it was estimated that the costs would be about two lakhs with the subsequent eventual cost of one lakh and a half to two lakhs. Such a scheme we were told may be the means of decreasing the flood discharge through the Begua breach and restoring the dry-weather discharge of the Damudar to the parent channel below the breach. The work may proceed we were further told, gradually by first constructing a low-level weir across the Begua breach, forcing an increased discharge down the parent channel, helping in scouring it out and increasing its capacity gradually to raise the weir. After this process of raising goes on for some time, it is believed that a further expenditure would be necessary for excluding the low floods and decreasing the duration of the high floods in the now flooded area. It may be difficult to estimate the measure of good that will be derived from this scheme, but that is the only reasonable scheme at a moderate cost which the responsible expert advisers of Government, as a result of long and laborious research and persistent popular representation, have been able to frame, after discarding many others that have gone before. It is admitted, we believe, that the weir will be a great benefit to the people below Begua, and will ensure good water-supply throughout the dry season. This would be an incidental small mercy for which there would be room for considerable gratitude.

"There are important sanitary and agricultural aspects of the work which would give the scheme a fair hold on grants earmarked for sanitary and agricultural purposes. The scheme is the best, from some points of view, that we have been able to get up to now, and ought hardly to be delayed if the Government believes in its soundness. Even if the counterbalancing reduction that I propose in the event of this resolution being carried be not acceptable, funds may be found from other sources and the work begun. The scheme we were told by the Hon'ble Mr. Butler, in reply to my question was with the Commissioner of the Burdwan Division with a view to consider the utility of the project and to ascertain whether the parties to be benefited should meet the whole or any part of the expenditure. To facilitate the escape of the high floods into the Rupnarain river a scheme, estimated to cost Rs. 65,000, provided that no compensation is necessary, has also, we were told, been prepared for retiring the embankments on both sides of the Bakshi khal. The scheme was not laid on the table, when my question of the subject was discussed in this Council apparently for no other reason than that the question relating to the need or otherwise of compensation was being considered by the Divisional Commissioner. Whatever the need for compensation or

otherwise may be, the need for the work itself is unquestionable, and the question of compensation and of apportionment and recoupment of costs which, as we gather from the answer to the question, is the only one now outstanding, is before the Commissioner. The scheme itself, so far as its engineering features are concerned, must be taken to be complete, sound and desirable, and if so, I venture to submit and press that it ought not to be delayed. Unless provision for it be made in the Budget, it will be impossible to take up the work early in the year, and I would beg of your Honour's Government to do all that it possibly can to expedite the work, so that a further year of avoidable devastation may be spared."

The Hon'ble MR. SLACKE said :—

"SIR, While not being able to admit the correctness of several of the assertions made by the Hon'ble Mover of the Resolution, I would point out to Hon'ble Members that bearing in mind the answer which was recently given in this Council to a question which the Hon'ble Mover asked regarding this Begua Hana, viz., that the preliminary scheme was before the Commissioner of the Division for consideration as to the utility of the project and to ascertain whether the parties to be benefited should meet the whole or any part of the expenditure, the position of affairs regarding this matter has not reached the stage when it can be said what sum should be allotted by Government. When that stage is reached, Government will undoubtedly do all that they consider necessary and right to minimize the inconveniences which these floods cause to the people dwelling in the area concerned.

"In regard to that part of the resolution which proposes a reduction of two lakhs of rupees allotted for the new Central Jail at Monghyr, it may be noted that the provision for the Monghyr Jail.

"It may be noted that the provision for the Monghyr Jail has been raised to 3·7 lakhs in view of the change in the system of financing the scheme involved by the recent revision of the Provincial statement as a result of which India have declined to finance it by loan.

"As regards the necessity for the scheme it may be summed up as follows:—

(1) The jail population of the province has been steadily growing for years and has now materially exceeded the accommodation available. Since 1900 with the exception of the year 1903 the daily average population has been in excess of the total accommodation available. There have been times when it was as much as 500 in excess. The figures for ratio of population to accommodation per cent rose to 104 in 1908 (and had previously touched this figure in two other years) and to as much as to 109 in 1909. Overcrowding means preventible mortality.

(2) There is no reason to anticipate that this growth will cease, but the contrary. Transportation to the Andamans for term-convicts has been stopped and this will result in an acceleration of the process. In other words allowing for casualties Bengal central jails at the end of 10 years will from this cause alone have to find accommodation for not less than 500 additional prisoners (who would under the previous rules have been transported).

(3) Temporary relief had been found by retaining the old Presidency jail on the maidan and opening the new Presidency jail at Kalighat, as a supernumerary central jail. This, however, is a mere temporary measure. Government was pledged to surrender the old Presidency jail to the Victoria Memorial Trustees in 1912. Owing to difficulties of financing which prevented a speedy disposal of the proposal for the new central jail at Monghyr the Lieutenant-Governor has been reluctantly forced to intimate to the Trustees that they must no longer reckon on having the jail made over to them. Government, however, is extremely anxious that the delay in fulfilling its promise should be reduced to the least possible term—a sentiment which the public no doubt share. It may be added that apart from the claims of the Victoria Memorial Trustees the amenities of the capital in themselves demand the removal of the old jail from the maidan at the earliest possible moment.

"In view of the above considerations the Government of India and the Secretary of State have accepted the scheme for a new central jail at Monghyr as an urgent project, and in view of its urgency the Secretary of State has accorded his provisional sanction to the scheme subject to the final examination of the detailed plans and estimates which have been sent up by this Government. The Secretary of State is being further asked to accord sanction by wire to the acquisition of the land required for the new jail and other preliminary arrangements. In short, the matter has advanced so far that Government cannot possibly consent either to a withdrawal or to a postponement of the scheme. In order that the Government pledge to the Victoria Memorial Trustees shall be fulfilled at the earliest possible moment it will be necessary to provide year by year as large an amount as the Public Works Department can spend. This is estimated for the year 1911-12 at 3·7 lakhs of rupees and this has accordingly been provided. For these reasons I cannot therefore advise this Council to accept the Hon'ble Member's resolution.

"Allowing for a decrease under estimated profits from the Darjeeling-Himalyan Railway, the increase in the estimated revenue for the next year is mainly due to provision having been made for the payment by the Port Commissioners of the first instalment of the sale-proceeds of the Sibpur Engineering College, which will in course of time be made over to the Port Trust. The price agreed upon for the sale is Rs. 13,63,742.

"To the grant of Rs. 50,93,000 for the next year, there will be in addition a special grant for education from the Government of India. From the special grant will be met the expenditure necessary in regard to the Physics Laboratory of the Presidency College and the extension of this building to accommodate other laboratories for which no provision has been made in the budget. Towards the establishment the Government of India contribute Rs. 3,25,800 being 23 per cent. of the cost of the Imperial Works proposed to be carried out during the year by the establishment employed under this province. There is also a small contribution of Rs. 3,500 for work done for the Darjeeling Improvement Fund. Deducting these sums, the balance remaining is Rs. 9,89,700 as against Rs. 11,01,196 of the revised estimate of the current year. The decrease is mainly due to the transfer of the charges of the office of the Examiner, Public Works Accounts, from Provincial to Imperial. As compared with the budgets of the current and preceding years, there is an increase in the sum budgeted for repairs, buildings, communications. This increase is necessary, since in recent years the sum allotted for repairs has been found inadequate. After deducting the expenditure necessary in the coming year for establishment, tools and plants, repairs, etc, there remains Rs. 23,13,300 for original works. After providing Rs. 11,18,700 for works in progress the sum of Rs. 11,99,600 remains for new works not yet commenced. This has been distributed as follows:—

	Rs.
"Minor works costing less than Rs. 5,000	3,27,000
Major works	6,37,600
Reserves	2,35,000

"The amount for minor works will be placed at the disposal of Commissioners of Divisions and Heads of Department. As compared with the grants for the current year under this heading the increases have been provided for the Excise, Education and Medical Departments and the Commissioner of Police, Calcutta,—for the first in order to provide for the extension of the contract distillery system which necessitate the construction of warehouses, etc, and for the other three because bearing in mind the list of pending projects the grant of the previous year was inadequate.

"A provision of Rs 1,45,700 is made for the principal projects in connection with civil courts. Of this sum Rs 22,200 is allotted for the construction of a new Munsifi at Kendrapara, which is the only new work to be taken in hand in 1911-12. The balance represents the expenditure proposed on works started in the current year and now in progress.

"The existing Munsif's Court building at Kendrapara was constructed over 30 years ago, and was originally intended as a residence for an officer of the Public works Department. As the building was reported to be quite unfit for the purpose of a court-house, at the instance of the High Court

Government approved the construction of a new building as far back as 1907. Owing however to lack of funds the work could not be put in hand. It is only one of several projects for new Munsifis; but it has been selected by the High Court as the most urgent of all these schemes, provision has been made for it in the budget for 1911-12.

"With regard to the reserve of Rs. 2,35,000, one lakh is assigned to civil buildings, Rs. 15,000 for electric installations in public buildings in Calcutta and Rs. 25,000 including Rs. 5,000 for arboriculture to communications, for Munsifs' residences Rs. 26,000, for residences for the Local Government Rs. 25,000 and for those of Government officials Rs. 15,000, and for witness sheds Rs. 10,000."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—

"I did not quite follow the reply on the merits, and if I understand the Hon'ble Mr. Slacke aright, so far as the scheme itself is concerned, there does not seem to be very much to object to. The question now reduces itself to one of ways and means, and here, as on previous occasions, our difficulties are very great. Of course, I quite realize the necessity of providing a suitable central jail as soon as possible. But at the same time the other aspect of the question has no less an important bearing. For a long time Monghyr was badly affected by plague which was and, I believe, still is a reason for not immediately locating a big central jail there. That, however, is a matter upon which we feel hesitation in expressing any opinion, if the Government is satisfied that the jail can now be located there. The sum of 2 lakhs of rupees I ask for is to be released for the purpose of the Begua scheme. Our difficulty in making acceptable proposals for counterbalancing items is that we do not know enough of the details of the expenditure side and cannot lay our fingers on the right sums out of which our requisitions may be suitably provided for. I can assure you that it is not at all satisfactory to us to make haphazard and guesswork suggestions such as easily may be found fault with, as all our proposals have been to-day. In fact a larger provision has been made in the revised Financial Statement issued on Saturday last out of independent resources, for the jail, and if 1½ lakhs has thus been found, there ought to be a serious difficulty in providing another 2 lakhs. We do not know any better and have to make the best of the situation by way of strict compliance with the rules. We naturally fall back upon items that appear to us to be the most suitable, and we all make miscalculations which turn out to be a real and serious difficulty in the way of the acceptance of our suggestions. Even a trained financial expert would be liable to make such miscalculations and mistakes in the absence of full and detailed information with so little time and so few resources at his disposal. As matters stand the abeyance of the Monghyr jail charges appear to be the fittest way of undertaking this work with the object of saving life and property, and in spite of the explanation of the Hon'ble Mr. Slacke I feel it my duty to press my resolution to a division."

The PRESIDENT said:—

"I wish to say that Government entirely appreciates the difficulties which the non-official Members evidently experience in indicating items under which reduction of expenditure can be made. That difficulty is not in any way the fault of the Hon'ble Members. It is due to the shortness of time which under the present system is inevitable. We are going to consider in the course of the year whether it is not possible to devise some means under which Hon'ble Members will have greater facilities at their disposal for the purpose of picking out items in which reductions are possible. I do not expect that they will be successful in finding many possible reductions, because there are few reductions that are possible, but that is in the nature of things. It is not probable that many items will be found which it is possible to leave out. Does the Hon'ble Member desire to put the resolution?"

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—

"Yes, Sir."

The resolution was then put and lost.

The Hon'ble Mr. Slacke introduced the following head :—

Expenditure—

40. Subsidised Companies' Land, etc.

He said :—

"The only expenditure on railways debited to Provincial funds in 1910-11 is under the head 'Subsidised Companies Land' for land required for the Tribeni extension of the Bengal Provincial Railway. The agreement with the Railway Company provides that the Local Government shall bear the cost of any land required for this extension. The budget provision of Rs. 2,000 has been in the revised estimate raised to Rs. 4,000 to meet the cost of land now under acquisition for which an estimate amounting to Rs. 4,268 has been sanctioned. For 1911-12 Rs. 150 has been provided for the acquisition of land required for an approach road at Magra.

The Hon'ble Mr. Slacke also introduced the consideration of the following heads :—

Revenue—

XXXII.—Civil Works.

Expenditure—

45. Civil Works.

He said :—

"I beg, Sir, to introduce for the consideration of this Council the budget relating to Civil Works. I will deal first with the revised budget under the head of Revenue. Under this head there is an increase of Rs. 45,000 due to the receipt, which was not anticipated, of arrear profits from the Darjeeling-Himalayan Railways.

"Under the head of expenditure there has been a saving of Rs. 3,11,817 due to the expenditure contemplated not having been effected. These savings mostly were due to the plans of the Khulna civil court building not having been finally settled and to the sanction of the Secretary of State to the press building in the new Presidency Jail having been received very late in the year.

"Under Miscellaneous Public Improvements there has been an excess expenditure of Rs. 26,000 mostly due to the dredging of the Bhagirathi river.

The Hon'ble Maharaja Manindra Chandra Nandi moved the following Resolution :—

This Council recommends to the Lieutenant-Governor in Council that out of the reduced lump provision of Rs. 7,50,000 under "45—Civil Works in charge of the Civil Department" for grants for works of sanitary improvement, etc.,

(a) Rupees 1,00,000 be allotted to the district of Murshidabad in aid of the work of filling up marshy lands and hollow places ;

(b) Rupees 25,000 be provided for the carrying out of special sanitary improvements and the taking of precautionary measures in places of pilgrimage, with a view to the prevention of the outbreak and spread of epidemic diseases; and

(c) another Rs. 25,000 be devoted to the construction of a suitable asylum for lepers.

He said :—

"May it please your Honour,—My amendment consists of three distinct parts. The first part of the amendment has for its object the suppression of malaria and of the amelioration of the condition of poor cultivators. In the district of Murshidabad there are large tracts of low and marshy lands, probably old channels of the Bhagirathi and other rivers. These have been turned into most unhealthy tracts of land and unless measures are adopted to drain off these tracts and steps taken to raise their level, these will be—as in many cases they have been—fruitful breeding grounds of malaria-producing insects. The sum I have asked to be devoted to this purpose is most inadequate, considering the magnitude of the work. But your Honour and my colleagues will, I hope, agree with me that it is better even to make a modest advance into the enemy's territory than to wait for years and years in the hope of getting more funds and thereby letting the enemy grow into much more formidable proportions.

"The second part of this amendment does not require, I hope, much commendation from me. It is a matter in regard to which Government has always acknowledged its liability and responsibility, for which there are special enactments and in regard to which special precautionary measures are always taken in emergencies by District and Local officers But, after all, funds are not adequately put into the hands of such officers. It is certainly desirable that in places where there are yearly or periodical outbreaks of disease owing to the sudden influx of large numbers of pilgrims the sanitary arrangements should be more perfect than at present and that adequate permanent sheds for rest, suitable latrines, provision for good drinking-water, medical aid, and means for segregating the sick should be provided.

"The third part of this amendment aims at a twofold object, the safety of the public and the amelioration of the suffering of a large class of our fellow beings, I mean the lepers, whose sufferings appeal to all and who are subjected to the most pitiable neglect and often abhorrence by their fellow-brethren. The spread of leprosy is a menace to civilization and I need not labour to establish the urgent necessity of providing for adequate means towards a matter which engages the earnest attention of all civilized Governments. The danger of allowing lepers to flock in large numbers to places of pilgrimage, to handle coin, to mix with the general public, to squat on ground where pilgrims go about bare footed, and to use the water of the public tanks is untold. In Puri, for instance, the conditions for the spread of leprosy are very favourable at present. There, it is true, some philanthropic gentlemen have taken steps to house these unfortunate brethren of ours but there is no segregation of the sufferers and they are allowed to go about and mix with the general public in the vicinage of the temple of Jagannath and in the streets all around. The Collector of Puri has appealed to the public for funds to build a leper asylum and we cannot do better than to strengthen his hands by the modest grant that I have advocated.

"With these few remarks, I beg to move the resolution standing in my name."

The Hon'ble MR. SLACKE said:—

"The Hon'ble Member's proposal for earmarking portions of the sanitary grant in favour of projects which are either undefined or for which no working scheme has yet been devised cannot on account of such vagueness be accepted by Government.

"The Hon'ble Member desires to reserve a lakh for filling up marshy lands and hollow places in Murshidabad, Rs. 25,000 for special sanitary improvements at places of pilgrimage, and Rs. 25,000 for the construction of leper asylums. If well-devised projects, which can be financed from local contributions in reasonable proportion, are submitted in the course of the ensuing year dealing with any of these points, they will undoubtedly receive consideration, but if money for all or any of them were specially reserved now, it is more than likely that the greater portion of it would lapse at the end of the year for the want of a definite scheme of expenditure.

"It is true that the Drainage Committee reported that portions of the Murshidabad district were very malarious, and they mentioned various drainage schemes which seemed feasible, but the only definite project which has as yet come before Government is in connection with the Bistupur Bheel towards which assistance was given both in 1910-11 and during the current year.

"As regards places of pilgrimage their sanitary improvement rests primarily with the local committees which work under the Puri Lodging House Act. The largest pilgrim centre in the province is Puri, and that town received Rs. 75,000 in 1907-08 towards its drainage works, and Rs. 1,04,000 in 1908-09 towards its water-supply. In the absence of definite proposals it is difficult to gauge the merits of other demands.

"The policy of Government in the matter of the care of lepers, apart from the Albert Victor Leper Asylum at Gobra which it maintains, is ordinarily to give capitation grants to asylums maintained by such non-official bodies as the Mission to Lepers in India and the East. Grants are made to asylums at Purulia, Raniganj, Assansol, Muzaffarpur, Bankura and Bhagalpur, and there is a budget provision of Rs. 17,810 on this account. As regards Puri in particular an informal scheme for charitable relief to lepers was brought to the notice of Government in 1905, though no assistance from Provincial revenues was then asked for, and in 1906 three charitable-minded donors of the Balasore district founded an endowment known as the Raj Narayan Das Endowment for feeding lepers in the Puri Leper Asylum. In 1907 Kumar Rameswar Malia gave a donation of Rs. 2,000 towards the construction of a hospital at the asylum, but although the provision of a more elaborate asylum seems to have been discussed in the Division in 1907, the idea never seems to have assumed a definite shape. The asylum at Puri has never been brought under the provisions of the Act, and since 1907 there seems to have been no further correspondence on the subject. The construction of leper asylums in the mufassal has not so far been undertaken by Government, and there are considerable objections to the assumption of such a liability.'

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Rai Baikuntha Nath Sen Bahadur moved the following Resolution :—

> This Council recommends to the Lieutenant-Governor in Council that grants to District Boards, under head "45—Civil Works in charge of the Civil Department", in augmentation of their resources, be made with the condition that at least half the amount be spent for the repair and maintenance of village roads and communications, whether they be under the control and administration of such Boards or of Union Committees.

He said :—

"The agriculturists living in the villages form 75 per cent. of the population of the province. I am supported in making my statement by the census report of 1901. These agriculturists contribute 50 per cent. to the income of the District Boards in the shape of road-cess. But the village roads have not received fair attention from the District Boards. They have been neglected and proper care has not been taken of them The agriculturists, therefore, do not derive any corresponding direct benefits for the payments they make. Of course they are indirectly benefited as the main roads of communication are maintained and repaired. But it is to be expected that these agriculturists, who form such a large proportion of the population and who contribute so much to the income of the District Boards, should have direct benefit by the maintenance and repairs of their village roads and communication. Forty years have passed by since the cess has been imposed. Past experience has shown that these matters have not been only considered by the District Boards. Of course the District Boards complain of their chronic poverty. But now that the Government have been pleased to grant a certain sum to the District Boards, I want that there should be

a condition attached to the grant that the District Boards should spend at least half the amount for the maintenance and repair of village roads and communication. My object is that the money should be earmarked and the District Boards would be compelled to give effect to the condition. I hope I will not be misunderstood. I advocate the further development of the principle of Local Self-Government and my object is not to handicap these Boards. My idea is that with their money, *i.e.*, road-cesses, etc., the District Boards may have a free hand. But the same principle does not apply with the Government grants. The donor has a right to say that his money should be spent in a particular way and nobody can blame the donor for that. With regard to that grant I ask the Government to enjoin the condition of keeping the village roads in proper order. My resolution does not advocate any retrograde measure, nor does it intend in any way to diminish the powers or the choice of free action on the part of these bodies.

"There are two kinds of village roads—those under the direct control of the District Boards and those under the Union Committees. The same condition might be attached to both these kinds of village roads. With these remarks I ask the Council to accept my resolution. I hope the landlords who are Members of the Council should consider this question from their point of view. The villagers form the backbone of the province and it is but right that they should get some satisfaction for the funds they have been contributing for the last forty years."

The Hon'ble MR. FILGATE said:—

"Might I ask the Hon'ble Member whether his remarks apply only to the lower parts of Bengal or to Bihar also?"

The Hon'ble RAI BAIKUNTHA NATH SEN Bahadur said:—

"My resolution applies to the whole province."

The Hon'ble MR. FILGATE said:—

"I do not know whether village roads in Bengal have been neglected or not, but that is not the case in North Bihar. In North Bihar the District and Local Boards have carefully spent as much as they can—on these unfortunately, I have not got the figures here—but I am sure the amount must be very large indeed, which has been spent in keeping the feeder roads throughout the four districts in North Bihar in proper order."

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HOSSEIN KHAN said:—

"The same is also the case with South Bihar. I think the Hon'ble Rai Baikuntha Nath Sen Bahadur's remarks do not apply so far as Bihar is concerned."

The Hon'ble RAI KISHORI LAL GOSWAMI Bahadur said:—

"Your Honour, in 1905 the Government of India decided to augment the resources at the disposal of District and Local Boards by a grant from general revenues of an amount approximately equal to a quarter of the net road-cess receipts which form the bulk of the assets of District Boards. Accordingly close upon 9 lakhs of rupees are distributed among the different District Boards by Divisional Commissioners after considering the needs of each district. It is the intention of Government to give the Boards a wider discretion in regard to their expenditure, if it is satisfied as to the efficiency of the *personnel* of the Boards. I am sorry the proposal of my hon'ble friend tends to set back the hands of the clock of progress in the direction of Local Self-Government. He asks Government to lay down rigid rules as to the purposes to which the augmented grant should be applied. I am not prepared to say that District Boards have neglected to look after the needs of the rural areas committed to their care, and I cannot recommend the imposition of further restraints on the working of District Boards than what is already provided

in the law. Government is seriously thinking as to whether the time has come for distributing the augmented grant to District Boards only on the arithmetical calculation of a fourth of the net road-cess receipts of each district and leaving to the Boards the absolute discretion to spend the grant according to the necessities of each district? The resolution of my hon'ble friend is a disagreeable surprise to me, in that he wants Government to fix an uniform standard for all districts and impose a restraint on the discretion of the Boards. Surely what is wanted for the village roads in the district of Murshidabad or Burdwan, is not the same as in the case of Purulia or Sambalpur. If the elective system is properly worked so as to ensure the return of members to the Boards who are at first hand acquainted with the needs of the rural areas concerned, the village roads cannot possibly be neglected. The essence of Local Self-Government is that local resources are placed at the disposal of local bodies—which are mainly elected—for expenditure on local needs; and it would be an absolutely retrograde measure if Government were to say to each District Board, 'you shall spend at least half of the augmented grant for the repair or maintenance of village roads.' The total disbursements of District Boards in 1909-10 amounted to Rs. 72,80,290; of this, Rs. 30,24,448 or 41 per cent. was spent on 'Communication' (including both original works and repairs). Admittedly the greater part of this was spent on the maintenance of what are called the principal or arterial roads and the rest devoted to village roads. The former cannot be neglected as they form the most important lines of communication in the interior and the claims of the latter are naturally considered to be of secondary importance. The general control over the budget of District Boards exercised by Commissioners is, to my mind, quite sufficient and there does not exist any reasonable ground why this control should be further strengthened by earmarking in the manner suggested by the Hon'ble mover. I, therefore, cannot commend the resolution for the acceptance of Government."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said:—

"Some of my hon'ble friends from Bihar have informed Your Honour that village roads are not neglected in certain districts. The Hon'ble Member of Council (Rai Kisori Lal Goswami Bahadur), who has addressed Your Honour, has made special mention of the districts of Murshidabad and Burdwan. With regard to these two districts I may say that the village roads are not kept in proper order. In making grants the Government will be in full possession of facts and figures and if it then appears that in certain districts the village roads have not been neglected, then there need be no such conditions so far as these particular districts are concerned. But with regard to those places, where proper care has not been taken of village roads, the question arises whether my resolution in any way interferes with the principle of Local Self-Government. I do not for a moment admit that it is a retrograde measure. I have only sought to make a distinction between two funds. I have already explained that with their money the Boards should have a free hand; but with regard to the money which comes as a grant from the Government, I think certain conditions should be imposed. I hope the Government will find its way to accept my resolution."

The resolution was then put and lost.

The Hon'ble Rai Baikuntha Nath Sen Bahadur moved the following Resolution:—

> This Council recommends to the Lieutenant-Governor in Council that grants should be made to Municipalities under head "45—Civil Works in charge of the Civil Department", with a condition that at least half the amount should be spent for repair and maintenance of roads.

He said:—

"According to the existing law and the rules having the force of law the municipalities cannot arrange in an adequate and sufficient way for the repairs

and maintenance of the roads within the municipalities from their general fund. It is, therefore, absolutely necessary that for the proper upkeep of the roads the Government would be pleased to help these municipalities, and that with a condition. I need not repeat my arguments here as to why some condition should be imposed.

"As regards the second part of my resolution, there may be a counterbalancing reduction in the estimate for expenditure under the head '20—Police,' sub-head 'District Police Force,' 'Salaries' and 'Police Force.' Under that head we find that new officers are contemplated to be appointed and constables are proposed to be given an increase. The amount provided is very large, and the Government can somehow or other make some reduction under this head, and by doing that the Government will not be appreciably inconvenienced. I therefore beg to point out that this fund may be utilised to give effect to my resolution."

The Hon'ble MR. DUKE said:—

"From the financial side, Sir, I fail to see why the Hon'ble Member wishes to trench on the salaries of the district police force. His substantive proposal is the money that is already granted to municipalities should be granted with particular conditions. I was listening with some care, but I did not gather whether he really proposed to have the grant increased. I take it that he wants more money. He has been speaking all the time on the assumption that with the present grant to municipalities the condition which he wishes to press would not be possible and he therefore contemplates that the grant should be increased so as to make that condition possible. He gives no idea as to what the amount might be, but I can say with absolute certainty that it cannot be obtained by trenching on the provision for the district police force, under the subhead 'Salaries of police forces' in any direction. The Hon'ble Member has mentioned the fact that there are some new appointments. It is rather a curious circumstance that the heads under which he proposes reduction already show decrease. It is true that the decreases which they show are to a great extent due to paper transfers.

"There is provision for three additional Assistant Superintendents which I have explained at some length already, but this is part of the scheme for bringing up the cadre of the Bengal force to the standard introduced by the Police Commission, and arrangements have already been made with the Secretary of State for the recruitment of these additional Assistant Superintendents. Probably the places have already been advertised. What else he would propose to do, I do not know. Leaving the addition of these Superintendents, there is no amount that can be deducted from either of these heads without dismissing or lowering the pay of the men already in the service of Government, officers or rank and file, and I do not believe that the Hon'ble Member seriously contemplates such a course. I do not think that the new scheme, the cons-tables' rupee, to which he refers, comes within these heads, but the increment has to be paid, and I should be most loth to give it up. In the Police budget, I can only say that the degree of elasticity is this. With the utmost strain that we have been able to put upon it after two years that which ought to have been given at least three years ago,—and I do not think that this sort of elasticity which would result in so necessary a concession being hung up for another year—would be just or fair, or to the advantage of the administration."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said:—

"I will only say one word. A reduction has been made under the head Police force on account of proportionate savings in 1910-11. I think there will also be proportionate savings in 1911-12 and the money thus saved may be utilized for the purpose of my resolution."

The Hon'ble MR. SLACKE said:—

"With regard to the substantive portion of the resolution the Hon'ble Member does not recommend the expenditure of a specific sum, but asks the

Council to accept the principle that grants of unspecified amount shall be made to municipalities, with the condition that at least half the sum so given shall be spent upon the repair and maintenance of roads. The suggestion can scarcely be dealt with as a definite and practical one, and the principle only can be discussed. That principle is one which Government cannot accept. In isolated cases, for special reasons, Government has made grants-in-aid to particular municipalities for expenditure upon roads and in more frequent instances, though equally in special cases, it has given grants-in-aid towards schemes of water supply and drainage. In other directions, *e.g.*, education, medical, veterinary, etc., municipal finances receive help from Provincial revenues, but the feature common to all such grants is the existence of special reasons. Government does not attempt to give anything in the nature of a general subsidy to municipal revenues, nor is it possible that it should do so. The following principles were laid down by the Government of India in 1902 as those which should govern the grant of assistance to local objects from Provincial funds, and they are those which are at present followed:—

"(*a*) As a general rule the entire cost of local undertakings should be borne by the ratepayers who benefit thereby.

"(*b*) The assistance of Government, when required, should usually be given in the form of a loan.

"(*c*) When the cost of an undertaking is too heavy to be wholly borne by a local body, even with the assistance of a loan and the work is nevertheless so important and useful that it ought not to be postponed, a grant-in-aid from Provincial revenues might be permissible, provided that the local body was making full use of its power of raising revenue by local taxation.

"To depart from these principles would be to sacrifice the whole reason for Local Self-Government.

"Secondly, even assuming the grant of such general subsidy, as the Hon'ble Member apparently contemplates, it would be objectionable to rigidly earmark one-half of it in all cases for expenditure upon communications. To do so would be to ignore the wishes of the local representatives and to refuse to give any weight to different local conditions and requirements. The need for efficient roads may be a very common one, and the provision of good roads may be an excellent object, but it does not follow that the need is felt equally in all municipalities.

"Thirdly, the Provincial finances are quite unable to stand such a drain upon them, and it would be useless to enunciate a principle to which there is no hope of giving practical effect. The Hon'ble Member is in error if he imagines that the recent revision of the Provincial Financial Settlement has so increased the local resources as to render it possible (even were it desirable) to embark upon a general policy of municipal subsidies. I cannot therefore recommend Hon'ble Members to adopt this resolution."

The Hon'ble MR. DUKE said:—

"I beg, Sir, to be allowed to give an explanation as to the suggestion about probable savings, and that is, they are already in the budget; they amount to Rs. 2,25,000 approximately."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said:—

"After having heard the Hon'ble Mr. Slacke, I believe grants would be made to the municipalities, and I am not at all willing to have conditions enjoined on the grant. I beg to withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Dip Narayan Singh withdrew the following Resolution of which he had given notice:—

This Council recommends to the Lieutenant-Governor in Council—

(a) that the expenditure of the sum of Rs. 2,74,000 budgeted for 1911-12 under the head of "Courts of Law" (Legal Remembrancer and High Court Pleaders) be reduced by Rs. 74,000; and

(b) that a grant of Rs. 74,000 be made to the Municipality of Bhagalpur to set their water-works on a permanent basis.

The Hon'ble Mr. Slacke introduced the consideration of the following heads:—

Revenue—

XVIII—Ports and Pilotage.

Expenditure—

21. Ports and Pilotage.

He said:—

"I beg, Sir, to introduce for the consideration of Hon'ble Members those heads in the budget which relate to Ports and Pilotage.

"In the current year the revised figures show an increase of Rs. 65,000. This mostly falls under Pilotage and is due to a prosperous year. The estimate for the coming year, though higher than that of 1910-11 by Rs 37,000, is less than the revised estimate for that year, since it is anticipated that there will be a decrease in receipts under 'Registration and other fees' and under 'Surveys', as the Government of Eastern Bengal and Assam have introduced a separate examination of masters, serangs, etc., under the Inland Steam-vessels Act, 1884, and have appointed an Engineer and shipwright for the survey of inland vessels at Goalundo.

Expenditure.—The revised estimate for the current year is less than the original estimate by Rs. 27,000, owing to the discontinuance, since the opening of the Dhubri-Gauhati Railway, of the subsidy paid to some steamer companies for the conveyance of mails and to a reduction in touring charges for the *Rhotas*. The budget estimate for 1911-12 is less by Rs. 76,900 than the revised estimate for the current year, owing to the facts that in the current year Rs. 57,000 had to be spent on boilers for the *Guide* and to a smaller provision being needed in the coming year for leave allowances. There are no new schemes of an important nature individually costing about Rs 5,000 which require inclusion in the budget. Provision has been made for a revision of the office establishment of the Agent for Government Consignments, as the existing scale of pay is reported to be inadequate, having regard to the nature of the work and the increased cost of living in Calcutta."

The Hon'ble MR. DUKE introduced the consideration of the following heads:—

Revenue—

XII—Interest.

XXII—Receipts in aid of Superannuation, etc.

Expenditure—

1. Refunds and Drawbacks.

36. Reduction and avoidance of debt.

He said:—

"I have to deal, and with permission will deal, with that head No. XII on the receipt side,—Interest, and XXII—Receipts in aid of superannuation, and

on the expenditure side, 1—Refunds and drawbacks, 23—Superannuation allowances and pensions.

"These heads do not call for detailed comment since 1909-10 loans to agriculturists have continued to be repaid more quickly than was anticipated, which accounts for the steady decline in the interest received on this account both in the revised and in the budget estimate. The decrease is satisfactory, as the rapid recovery of these loans is of course the best possible proof of returning prosperity. Otherwise the fluctuations present few features of special interest."

The Hon'ble MR. DUKE also introduced the consideration of the following heads:—

Revenue—

XXV—Miscellaneous.

Expenditure—

32. Miscellaneous.

He said:—

"I have to present the miscellaneous Head of the Budget which is No. XXV on the receipt side and No. 32 on the expenditure side. On the receipt side the revised figure was Rs. 6,90,000, or Rs. 52,000 less than the original budget. The decrease was principally due to the sale of the disused Jorabagan thana having realised somewhat less than was expected, but principally to a moiety of the price having been paid in the previous year, i. e., earlier than was expected. There was also considerable falling off under "Unclaimed deposits"; but this is a very fluctuating uncertain head over which we have no control. The budget figure for 1911-12 is again Rs. 8,000 less than the revised figure for 1910-11. The figures for "Unclaimed deposits" have been raised to what is considered a fair average, but there is a great decrease in the item "Sale of lands and houses, etc.," as the only building expected to be sold during the year is the old Garden Reach thana.

"The increase in the sub-head "Miscellaneous", which is put at Rs. 21,000, is due to the fact of our having a considerable number of elephants for sale, there having recently been a very good catch in the Angul kheddas.

"Turning to the expenditure side No. 32, the revised figure for 1910-11 (Rs. 3,44,000) is Rs. 1,54,000 less than the original budget which was Rs. 4,98,000. The greater part of the decrease is, however, due to the adjustment of His Honour's allotment for petty grants, which amounts to Rs. 1,00,000, under the heads to which it was actually allotted. The same thing happens to the provision of Rs. 1,05,000 for unforeseen charges, out of the total of Rs. 1,12,000 for miscellaneous and unforeseen charges, the expenditure being eventually distributed to the proper heads. The budget of expenditure for 1911-12 amounts to Rs. 6,03,000, an increase of Rs. 1,05,000 over the budget for 1910-11. The greater part of the increase is accounted for by the expenditure of Rs. 62,500 as a subscription to a vernacular edition of a weekly paper. The same cause accounts for the provision of Rs. 31,250 in the revised estimate. Government has long been convinced of the necessity of some measure to counteract the persistent misrepresentation of its motives, not to speak of the perversion of actual facts and occurrences, in the vernacular press. The object of this subscription is to secure the circulation in the mufassal, particularly amongst minor Government servants, school-masters and others connected with the administration, of a paper which may be counted on to supply genuine news and reasonable accounts and explanation of current events and of the acts and measures of Government. The measure is experimental. The subscription can be stopped if the paper does not answer expectations. It may or may not prove to be the most satisfactory way of

accomplishing the end in view, but at any rate some step is urgently required and this is the direction which has been selected as the most promising.

"For the rest the same allotment of Rs. 1,00,000 for His Honour's petty grants and the lump reserve of Rs. 1,00,000 for unforeseen expenditure have been provided as in last year. The provision for charitable donations has been raised from Rs. 1,22,000 to Rs. 1,54,000. The Calcutta Hospital Nurses' Institution has been exposed to severe financial strain, and Government has altered the terms of its previous subsidies and agreed to contribute at the rate of Rs. 3 for every rupee raised by private subscription up to a maximum grant of Rs. 75,000 in any year. A grant of Rs. 5,500 to the Lady Minto Nursing Association has also been provided. There are no other fluctuations under this head which appear to require special explanation."

The Council was then adjourned to Saturday, the 1st April, 1911, at 10-30 A.M.

The Indian Army Act, 1911.

(Chapter I.—Preliminary.)

An Act to consolidate and amend the law relating to the government of His Majesty's Native Indian Forces.

WHEREAS it is expedient to consolidate and amend the law relating to the government of the Native officers, soldiers and other persons in His Majesty's Indian Forces; It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Short title and commencement.

1. (*1*) This Act may be called the Indian Army Act, 1911.

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, direct in this behalf.

Application of Act.

Persons subject to Act.

2. (*1*) The following persons shall be subject to this Act, namely:—

(*a*) Native officers and warrant officers;

(*b*) persons enrolled under this Act;

(*c*) persons not otherwise subject to military law, who, on active service, in camp, on the march, or at any frontier post specified by the Governor General in Council by notification in this behalf, are employed by, or are in the service of, or are followers of, or accompany any portion of, His Majesty's Forces:

Provided that if any person claims to belong to a class to which the Army Act is, and this Act is not, applicable, the burden of proving that he belongs to that class shall lie upon him. 45 Vict.,

(*2*) Every person subject to this Act under sub-section (*1*), clause (*a*) or (*b*), shall remain so subject until duly discharged or dismissed.

Special provision as to rank in certain cases.

3. (*1*) The Governor General in Council may, by notification, direct that any persons or class of persons subject to this Act under section 2, sub-section (*1*), clause (*c*), shall be so subject as Native officers, warrant officers or non-commissioned officers, and may authorize any officer to give a like direction with respect to any such person and to cancel such direction.

(*2*) All persons subject to this Act other than officers, warrant officers and non-commissioned officers shall, if they are not persons in respect of whom a notification or direction under sub-section (*1*) is in force, be deemed to be of a rank inferior to that of a non-commissioned officer.

Commanding officer of persons subject to military law under section 2, clause (c).

4. Every person subject to this Act under section 2, sub-section (*1*), clause (*c*), shall, for the purposes of this Act, be deemed to be under the commanding officer of the corps, department or detachment (if any) to which he is attached, and if he is not attached to any corps, department or detachment, under the command of any officer who may for the time being be named as his commanding officer by the officer commanding the force with which such person may for the time being be serving, or of any other prescribed officer, or, if no such officer is named or prescribed, under the command of the said officer commanding the force:

Provided that an officer commanding a force shall not place a person under the command of an officer of official rank inferior to that of such person if there is present at the place where such person is any officer of higher rank under whose command he can be placed.

Powers to apply Act to certain forces under the Government of India.

5. (*1*) The Governor General in Council may, by notification, apply all or any of the provisions of this Act to any force raised and maintained in India under the authority of the Governor General in Council.

(*2*) While any of the provisions of this Act apply to any such force, the Governor General in Council may, by notification, direct by what authority any jurisdiction, powers or duties incident to the operation of these provisions shall be exercised or performed in respect of that force.

Officers to exercise powers in case of foreign service.

6. (*1*) Whenever persons subject to this Act are serving out of India under an officer not subject to the authority of the Governor General in Council, the Governor General in Council may prescribe the officer by whom the powers which, under this Act, may be exercised by officers commanding armies, divisions and brigades, shall, as regards such persons, be exercised.

(*2*) The Governor General in Council may confer such powers either absolutely, or subject to such restrictions, reservations, exceptions and conditions as he may think fit.

Definitions.

Definitions.

7. In this Act, unless there is something repugnant in the subject or context,—

(*1*) "British officer" means a person holding a commission in His Majesty's land forces:

(*2*) "Native officer" means a person commissioned, gazetted or in pay as an officer holding a Native rank in His Majesty's Indian Forces:

(*3*) "warrant officer" means a person appointed, gazetted or in pay as a Native warrant officer in His Majesty's Indian Forces:

The Indian Army Act, 1911.

(Chapter I.—Preliminary.
Chapter II.—Enrolment and Attestation.)

(*4*) "non-commissioned officer" means a person attested under this Act holding a Native non-commissioned rank in His Majesty's Indian Forces, and includes an acting non-commissioned officer:

(*5*) "officer" means a British officer or Native officer, but does not include a warrant officer or non-commissioned officer:

(*6*) "commanding officer," when used in any provision of this Act with reference to any separate portion of His Majesty's forces or to any department, means the British officer whose duty it is under the regulations of the army, or, in the absence of any such regulation, by the custom of the service, to discharge with respect to that portion of the forces or that department the functions of commanding officer in regard to matters of the description referred to in that provision:

(*7*) "superior officer," when used in relation to a person subject to this Act, includes a warrant officer and a non-commissioned officer; and, as regards persons placed under his orders, a warrant officer or non-commissioned officer
5 Vict. subject to the Army Act:

(*8*) "army," "division" and "brigade" mean respectively an army, division or brigade which is under the command of an officer subject to the authority of the Governor General in Council:

(*9*) "corps" means any separate body of persons subject to this Act or the Army Act which is prescribed as a corps for the purposes of all or any of the provisions of this Act:

(*10*) "independent brigade" means a brigade which does not form part of a division:

(*11*) "department" includes any division or branch of a department:

(*12*) "enemy" includes all armed mutineers, armed rebels, armed rioters, pirates and any person in arms against whom it is the duty of a person subject to military law to act:

(*13*) "active service," as applied to a person subject to this Act, means the time during which such person is attached to, or forms part of, a force which is engaged in operations against an enemy, or is engaged in military operations in, or is on the line of march to, a country or place wholly or partly occupied by an enemy, or is in military occupation of any foreign country:

(*14*) "military custody" means the arrest or confinement of a person according to the usages of the service:

(*15*) "military reward" includes any gratuity or annuity for long service or good conduct, any good conduct pay, good service pay or pension, and any other military pecuniary reward:

(*16*) "court-martial" means a court-martial held under this Act:

(*17*) "criminal court" means a court of ordinary criminal justice in British India, or established elsewhere by the authority of the Governor General in Council:

(*18*) "civil offence" means an offence which, if committed in British India, would be triable by a criminal court:

(*19*) "offence" means any act or omission punishable under this Act, and includes a civil offence as hereinbefore defined:

(*20*) "notification" means a notification published in the Gazette of India:

(*21*) "prescribed" means prescribed by rules made under this Act: and

(*22*) all words and expressions used herein and defined in the Indian Penal Code and not XLV hereinbefore defined shall be deemed to have the meanings respectively attributed to them by that Code.

CHAPTER II.

ENROLMENT AND ATTESTATION.

Enrolment.

Procedure before enrolling officer.

8. Upon the appearance before the prescribed enrolling officer of any person desirous of being enrolled, the enrolling officer shall read and explain to him, or cause to be read and explained to him in his presence, the conditions of the service for which he is to be enrolled; and shall put to him the questions set forth in the prescribed form of enrolment, and shall, after having cautioned him that if he makes a false answer to any such question he will be liable to punishment under this Act, record or cause to be recorded his answer to each such question.

Enrolment.

9. If, after complying with the provisions of section 8, the enrolling officer is satisfied that the person desirous of being enrolled fully understands the questions put to him and consents to the conditions of service, and if he perceives no impediment, he shall sign the enrolment paper, and the person shall then be deemed to be enrolled.

Presumption of enrolment in certain cases.

10. Every person who has for the space of six months been in the receipt of military pay and been borne on the rolls of any corps or department (of which the last pay statement, if produced, shall be evidence) shall be deemed to have been duly enrolled, and shall not be entitled to claim his discharge on the ground of illegality or irregularity in his enrolment.

Attestation.

Persons to be attested.

11. The following persons shall be attested, namely:—

(*a*) all persons enrolled as combatants;

The Indian Army Act, 1911.

(Chapter II.—Enrolment and Attestation. Chapter III.—Dismissal and Discharge. Chapter IV.—Summary Reduction and Punishments otherwise than by order of Court-martial.)

(*b*) all other enrolled persons prescribed by the Governor General in Council.

Mode of attestation.

12. (*1*) When a person who is to be attested is reported fit for duty, or has completed the prescribed period of probation, an oath or affirmation shall be administered to him in the prescribed form by his commanding officer in front of his corps or such portion thereof or such members of his department as may be present or by any other prescribed person.

(*2*) The form of oath or affirmation prescribed under this section shall contain a promise that the person to be attested will be faithful to His Majesty, His heirs and successors, and that he will serve in His Majesty's Indian Forces and go wherever he is ordered by land or sea, and that he will obey all commands of any officer set over him, even to the peril of his life.

(*3*) The fact of an enrolled person having taken the oath or affirmation directed by this section to be taken shall be entered on his enrolment paper, and authenticated by the signature of the officer administering the oath or affirmation.

CHAPTER III.

DISMISSAL AND DISCHARGE.

Dismissal by Governor General in Council and Commander-in-Chief in India.

13. The Governor General in Council or the Commander-in-Chief in India may dismiss from the service any person subject to this Act.

Dismissal by officer commanding army, division, brigade, etc.

14. An officer commanding an army, division or brigade, or any prescribed officer, may dismiss from the service any person serving under his command other than a Native officer.

Dismissal of convicts.

15. Every person sentenced by any court-martial or by any criminal court to transportation or to rigorous imprisonment for any term exceeding three months, shall be dismissed from the service by his commanding officer:

Provided that on active service any such person may be retained to serve in the ranks, and his service therein shall be reckoned as part of his term of transportation or imprisonment.

Discharge.

16. The prescribed authority may, in conformity with any rules prescribed in this behalf, discharge from the service any person subject to this Act.

Certificate to person dismissed or discharged.

17. Every enrolled person who is dismissed or discharged from the service shall be furnished by his commanding officer with a certificate, in the English language and in the mother tongue of such person (when his mother tongue is not English), setting forth—

(*a*) the authority dismissing or discharging him;
(*b*) the cause of his dismissal or discharge;
(*c*) the full period of his service in the army.

Discharge, etc., out of India.

18. (*1*) Any person enrolled under this Act who is entitled under the conditions of his enrolment to be discharged, or whose discharge is ordered by competent authority, and who, when he is so entitled or ordered to be discharged, is serving out of India, and requests to be sent to India, shall, before being discharged, be sent to India with all convenient speed.

(*2*) Any person enrolled under this Act who is dismissed from the service and who, when he is so dismissed, is serving out of India, shall be sent to India with all convenient speed.

(*3*) If any such person has been sentenced by court-martial to any punishment, such punishment may be inflicted before he is sent to India.

CHAPTER IV.

SUMMARY REDUCTION AND PUNISHMENTS OTHERWISE THAN BY ORDER OF COURT-MARTIAL.

Reduction of non-commissioned officers.

19. (*1*) The Commander-in-Chief in India, an officer commanding an army, division or brigade, or any prescribed officer, may reduce to a lower grade or to the ranks any non-commissioned officer under his command.

(*2*) The commanding officer of an acting non-commissioned officer may order him to revert to his permanent grade as a non-commissioned officer or, if he has no permanent grade above the ranks, to the ranks.

Minor punishments.

20. (*1*) The Commander-in-Chief in India may, subject to the control of the Governor General in Council, specify the minor punishments to which persons subject to this Act shall be liable without the intervention of a court-martial, and the officer or officers by whom, and the extent to which, such minor punishments may be awarded.

(*2*) Imprisonment in military custody may be specified as such a minor punishment, provided that—

(*a*) the term of such imprisonment shall not exceed twenty-eight days; and

The Indian Army Act, 1911.

(Chapter IV.—Summary Reduction and Punishments otherwise than by order of Court-martial. Chapter V.—Offences.)

(*b*) it shall not be awarded to any person of or above the rank of non-commissioned officer, or who, when he committed the offence in respect of which it is awarded, was of or above such rank.

Collective fines.

21. Whenever any weapon or part of a weapon forming part of the equipment of a half squadron, battery, company or other similar unit is lost or stolen, the officer commanding the army, division or independent brigade to which such unit belongs may, after obtaining the report of a court of inquiry, impose a collective fine upon the Native officers, non-commissioned officers and men of such unit, or upon so many of them as, in his judgment, should be held responsible for such loss or theft.

Punishment of certain Native followers.

22. (*1*) For any offence, in breach of good order, the commanding officer of any corps or detachment on active service, in camp, on the march, or at any frontier post specified by the Governor General in Council by notification in this behalf at which troops are stationed, may punish any Native follower of such corps or detachment who is subject to this Act under section 2, sub-section (*1*), clause (*c*)—

(*a*) if such follower is not a menial servant, with imprisonment for a term which may extend to thirty days, or with fine which may extend to fifty rupees:

(*b*) if such follower is a menial servant, with imprisonment for a term which may extend to seven days, or, if on active service, with corporal punishment not exceeding twelve strokes of a rattan.

(*2*) Imprisonment awarded under this section may be carried out in a military guard, or in a jail, as ordered by the said commanding officer; and the officer in charge of any jail shall, on the delivery to him of the person of the offender, with a warrant, under the hand of the said commanding officer, detain the offender according to the exigency of the warrant or until he is discharged by due course of law.

Provost-Marshals.

Appointment.

23. For the prompt and instant repression of irregularities and offences committed in the field or on the march, provost-marshals may be appointed by the Commander-in-Chief in India or an officer commanding an army, division or independent brigade or an officer commanding the forces in the field; and the powers and duties of such provost-marshals shall be regulated according to the established custom of war and the rules of the service.

Duties and powers.

24. (*1*) The duties of a provost-marshal so appointed are to take charge of prisoners confined for offences of a general description, to preserve good order and discipline, and to prevent breaches of the same by persons belonging or attached to the army.

(*2*) The provost-marshal may punish, corporally, then and there, any person subject to this Act below the rank of non-commissioned officer who, on active service and in his view or in the view of any of his assistants, commits any breach of good order and military discipline:

Provided that such punishment shall be limited to the necessity of the case, and shall accord with the orders which the provost-marshal may from time to time receive from the officer commanding the troops, and shall be inflicted with the regulation cat:

Provided also that the orders of the said commanding officer shall in no case authorise such corporal punishment in excess of that awardable by sentence of a court-martial.

(*3*) If the offender is not on active service or if the actual commission of the offence is not witnessed by the provost-marshal or any of his assistants, but sufficient proof can be obtained of the offender's guilt, he shall report the case to the officer commanding the troops, who shall deal with the case as he may deem most conducive to the maintenance of good order and military discipline.

CHAPTER V.

OFFENCES.

Offences in respect of Military Service.

Offences punishable with death.

25. Any person subject to this Act who commits any of the following offences, that is to say,—

(*a*) shamefully abandons or delivers up any garrison, fortress, post or guard committed to his charge, or which it is his duty to defend; or

(*b*) in presence of an enemy, shamefully casts away his arms or ammunition, or intentionally uses words or any other means to induce any person subject to military law to abstain from acting against the enemy, or to discourage such person from acting against the enemy, or misbehaves in such manner as to show cowardice; or

The Indian Army Act, 1911.

(Chapter V.—Offences.)

(g) being a sentry in time of war or alarm, or over any State prisoner, treasure, magazine or dockyard, sleeps upon his post, or quits it without being regularly relieved or without leave; or

(h) in time of action, leaves his commanding officer or his post or party to go in search of plunder; or

(i) in time of war, quits his guard, picquet, party or patrol without being regularly relieved or without leave; or

(j) in time of war or during any military operation, uses criminal force to, or commits an assault on, any person bringing provisions or other necessaries to the camp or quarters of any of His Majesty's forces, or forces a safeguard, or breaks into any house or any other place for plunder, or plunders, injures or destroys any field, garden or other property of any kind;

shall, on conviction by court-martial, be punished with death, or with such less punishment as is in this Act mentioned.

Offences not punishable with death.

26. Any person subject to this Act who commits any of the following offences, that is to say,—

(a) strikes, or forces or attempts to force, any sentry; or

(b) in time of peace, intentionally occasions a false alarm in camp, garrison or cantonment; or

(c) being a sentry, or on guard, plunders or wilfully destroys or injures any property placed under his charge or undercharge of his guard; or

(d) being a sentry, in time of peace, sleeps upon his post, or quits it without being regularly relieved or without leave;

shall, on conviction by court-martial, be punished with imprisonment, or with such less punishment as is in this Act mentioned.

Mutiny and Insubordination.

Offences punishable with death.

27. Any person subject to this Act who commits any of the following offences, that is to say,—

(a) begins, excites, causes or joins in any mutiny; or

(b) being present at any mutiny, does not use his utmost endeavours to suppress the same; or

(c) knowing or having reason to believe in the existence of any mutiny, or of any intention to mutiny, or of any conspiracy against the State, does not, without delay, give information thereof to his commanding or other superior officer; or

(d) uses or attempts to use criminal force to, or commits an assault on, his superior officer, whether on or off duty, knowing or having reason to believe him to be such; or

(e) disobeys the lawful command of his superior officer;

shall, on conviction by court-martial, be punished with death, or with such less punishment as is in this Act mentioned.

Offences not punishable with death.

28. Any person subject to this Act who commits any of the following offences, that is to say,—

(a) is grossly insubordinate or insolent to his superior officer in the execution of his office; or

(b) refuses to superintend or assist in the making of any field-work or other military work of any description ordered to be made either in quarters or in the field; or

(c) impedes a provost-marshal or an assistant provost-marshal, or any officer or non-commissioned officer or other person legally exercising authority under or on behalf of a provost-marshal, or, when called on, refuses to assist, in the execution of his duty, the provost-marshal, assistant provost-marshal, or any such officer, non-commissioned officer or other person;

shall, on conviction by court-martial, be punished with imprisonment, or with such less punishment as is in this Act mentioned.

Desertion, Fraudulent Enrolment and Absence without Leave.

Desertion.

29. Any person subject to this Act who deserts or attempts to desert the service shall,

The Indian Army Act, 1911.

(*Chapter V.—Offences.*)

39. Any person subject to this Act who commits any of the following offences, that is to say,—

(*a*) being an officer or warrant officer, behaves in a manner unbecoming his position and character; or

(*b*) strikes or otherwise ill-treats any person subject to this Act being his subordinate in rank or position; or

(*c*) being in command at any post or on the march, and receiving a complaint that any one under his command has beaten or otherwise maltreated or oppressed any person, or has disturbed any fair or market, or committed any riot or trespass, fails to have due reparation made to the injured person or to report the case to the proper authority; or

(*d*) by defiling any place of worship, or otherwise, intentionally insults the religion or wounds the religious feelings of any person; or

(*e*) attempts to commit suicide and does any act towards the commission of such offence; or

(*f*) being below the rank of warrant officer, when off duty, appears, without proper authority, in or about camp or cantonments, or in or about, or when going to or returning from, any town or bázár, carrying a sword, bludgeon or other offensive weapon; or

(*g*) directly or indirectly accepts or obtains, or agrees to accept or attempts to obtain, for himself or for any other person, any gratification as a motive or reward for procuring the enrolment of any person, or leave of absence, promotion or any other advantage or indulgence for any person in the service; or

(*h*) neglects to obey any general or garrison or other orders; or

(*i*) is guilty of any act or omission which, though not specified in this Act, is prejudicial to good order and military discipline;

shall, on conviction by court-martial, be punished with imprisonment, or with such less punishment as is in this Act mentioned.

Abetment.

Abetment.

40. Every person subject to this Act who abets any offence punishable under this Act may be punished with the punishment provided in this Act for such offence.

Civil Offences.

Civil offences committed outside British India or on active service in British India.

41. Every person subject to this Act who at any place beyond British India, or when on active service in British India, commits any civil offence shall be deemed to be guilty of an offence against military law, and, if charged therewith under this section, shall, subject to the provisions of this Act, be liable to be tried for the same by court-martial, and on conviction to be punished as follows, that is to say:—

(*a*) if the offence is one which would be punishable under the law of British India with death or with transportation, he shall be liable to suffer any punishment assigned for the offence by the law of British India; and

(*b*) in other cases, he shall be liable to suffer any punishment assigned for the offence by the law of British India, or such punishment as might be awarded to him in pursuance of this Act in respect of an act prejudicial to good order and military discipline.

Certain civil offences triable by military law.

42. Every person subject to this Act who commits or attempts to commit or abets the commission of an offence punishable under Chapter VI of the Indian Penal Code, or any of the following offences against any person subject to military law, that is to say, murder, culpable homicide or any offence punishable under any of the sections 323 to 335 (both inclusive), or section 506 of the said Code, shall be deemed to be guilty of an offence against military law, and, if charged under this section with any such offence, shall, subject to the provisions of this Act, be liable to be tried by court-martial, and on conviction shall be liable to suffer any punishment assigned for the offence by the said Code. XLV

CHAPTER VI.

PUNISHMENTS.

Punishments.

43. Punishments may be inflicted in respect of offences committed by persons subject to this Act, and convicted by court-martial, according to the scale following, that is to say:—

(*a*) death;

(*b*) transportation for life or for any period not less than seven years;

The Indian Army Act, 1911.

(Chapter VI.—Punishments. Chapter VII.—Penal Deductions.)

(c) imprisonment (with or without solitary confinement) for any term not exceeding fourteen years;

(d) dismissal from the service;

(e) in the case of officers and warrant officers, suspension from rank, pay and allowances for any stated period;

(f) reduction, in the case of a warrant officer, to a lower grade or class (if any) of warrant officer, or in the case of a non-commissioned officer, to a lower grade or to the ranks;

(g) in the case of officers, warrant officers and non-commissioned officers, forfeiture of seniority of rank;

(h) forfeitures and stoppages as follows, namely:—

(i) forfeiture of service for the purpose of promotion, increased pay, pension or any other prescribed purpose;

(ii) forfeiture of any military decoration or military reward;

(iii) forfeiture, in the case of a person sentenced to dismissal from the service or whose sentence involves such dismissal, of all arrears of pay and allowances and other public money due to him at the time of such dismissal;

(iv) stoppages of pay and allowances until any proved loss or damage occasioned by the offence of which he is convicted is made good.

Lower punishments.

44. Where in respect of any offence under this Act there is specified a particular punishment or such less punishment as is in this Act mentioned, there may be awarded in respect of that offence instead of such particular punishment (but subject to the other provisions of this Act as to punishments and regard being had to the nature and degree of the offense) any one punishment lower in the above scale than the particular punishment.

Corporal punishment.

45. Where any person subject to this Act and under the rank of warrant officer—

(a) on active service is guilty of any offence; or

(b) at any time is guilty of the offence specified in clause (d) of section 31; or

(c) at any time is guilty of a civil offence which would be punishable with whipping under the law of British India, and is triable by court-martial under this Act,

it shall be lawful for a court-martial to award for that offence corporal punishment not exceeding thirty lashes.

Position of corporal punishment in scale.

46. Corporal punishment shall, for the purpose of commutation, be deemed to stand in the scale of punishments next below dismissal.

Combination of punishments.

47. A sentence of a court-martial may award, in addition to or without any one other punishment, any one or more of the punishments specified in clauses (d), (f) and (h) of section 43.

Solitary confinement.

48. Whenever any person is sentenced to rigorous imprisonment, the court may, by its sentence, order that the offender shall be kept in solitary confinement for any portion or portions of the imprisonment to which he is sentenced, not exceeding three months in the whole, according to the following scale, that is to say,—

(a) a time not exceeding one month if the term of imprisonment does not exceed six months;

(b) a time not exceeding two months if the term of imprisonment exceeds six months and does not exceed one year;

(c) a time not exceeding three months if the term of imprisonment exceeds one year.

Reduction of non-commissioned officers to ranks.

49. A non-commissioned officer sentenced by court-martial to transportation, imprisonment, corporal punishment or dismissal from the service, shall be deemed to be reduced to the ranks.

CHAPTER VII.

PENAL DEDUCTIONS.

Deductions from pay and allowances.

50. The following penal deductions may be made from the pay and allowances of a person subject to this Act, that is to say,—

(a) all pay and allowances for every day of absence either on desertion or without leave, or as a prisoner of war, and for every day of imprisonment awarded by a criminal court, a court-martial, or an officer exercising authority under section 20;

(b) all pay and allowances for every day whilst he is in custody on a charge for an offence of which he is after-

The Indian Army Act, 1911.

(*Chapter VII.—Penal Deductions. Chapter VIII.—Courts-martial.*)

wards convicted by a criminal court or court-martial, or on a charge of absence without leave for which he is afterwards awarded imprisonment by an officer exercising authority under section 20;

(*c*) all pay and allowances for every day on which he is in hospital on account of sickness certified by the proper medical officer attending on him at the hospital to have been caused by an offence under this Act committed by him;

(*d*) all pay and allowances ordered by a court-martial to be suspended or forfeited under section 43;

(*e*) any sum ordered by a court-martial to be stopped under section 43;

(*f*) any sum required to make good such compensation for any expenses caused by him, or for any loss of or damage or destruction done by him to any arms, ammunition, equipment, clothing, instruments, regimental necessaries or military decoration, or to any buildings or property, as may be awarded by his commanding officer;

(*g*) any sum required to pay a fine awarded by a criminal court, a court-martial exercising jurisdiction under section 41 or section 42, or an officer exercising authority under section 20 or section 21:

Provided that the total deductions from the pay and allowances of a person subject to this Act made under clauses (*e*) to (*g*), both inclusive, shall not (except in the case of a person sentenced to dismissal or whose sentence involves dismissal), exceed in any one month one-half of his pay and allowances for that month.

Explanation.—For the purposes of clauses (*a*) and (*b*)—

(i) absence or custody for six consecutive hours or upwards, whether wholly in one day or partly in one day and partly in another, may be reckoned as absence or custody for a day;

(ii) absence or custody for twelve consecutive hours or upwards may be reckoned as absence or custody for the whole of each day during any portion of which the person was absent or in custody; and

(iii) any absence or custody for less than a day may be reckoned as absence or custody for a day if such absence or custody prevented the absentee from fulfilling any military duty which was thereby thrown upon some other person.

Deductions from public money other than pay.

51. Any sum authorized by this Act to be deducted from the pay and allowances of any person may, without prejudice to any other mode of recovering the same, be deducted from any public money due to him other than a pension.

Remission of deductions.

52. Any deduction from pay and allowances authorized by this Act may be remitted in such manner and by such authority as may from time to time be prescribed.

CHAPTER VIII.

COURTS-MARTIAL.

Constitution and Dissolution of Courts-martial.

Courts-martial and the kinds thereof.

53. For the purposes of this Act there shall be four kinds of courts-martial, that is to say:—

(1) general courts-martial;

(2) district courts-martial;

(3) summary general courts-martial; and

(4) summary courts-martial.

Power to convene general courts-martial.

54. A general court-martial may be convened by the Commander-in-Chief in India, or by any officer empowered in this behalf by warrant of the Commander-in-Chief in India.

Power to convene district courts-martial.

55. A district court-martial may be convened by any officer having power to convene a general court-martial, or by any officer empowered in this behalf by warrant of any such officer.

Contents of warrant issued under section 54 or section 55.

56. A warrant issued under section 54 or section 55 may contain such restrictions, reservations or conditions as the officer issuing it may think fit.

Composition of general courts-martial.

57. A general court-martial shall consist of not less than seven officers unless that number, due regard being had to the public service, is not available, in which case the court may consist of not less than five officers.

Composition of district courts-martial.

58. A district court-martial shall consist of not less than three officers.

Convening order to state if larger number of officers is not available.

59. Whenever a general court-martial is ordered to be composed of the smaller number of officers specified in section 57, the order convening the court shall state that the larger

The Indian Army Act, 1911.

(Chapter VIII.—Courts-martial.)

number of officers is not, due regard being had to the public service, available, and such statement shall be conclusive evidence of the fact so stated.

Composition of general or district courts-martial.

60. The officers composing a general or district court-martial shall, at the discretion of the convening officer, but subject to the provisions of section 61, either be British or Native officers, but shall not be partly British and partly Native officers.

Claim to trial by British officers.

61. (*1*) Any person subject to this Act who is under orders for trial by general or district court-martial may claim to be tried by British officers.

(*2*) In all cases the right of making such a claim shall, before the court is convened, be explained to the person under orders for trial by the commanding officer, or some officer deputed by him in this behalf, and, when such a claim is made, the court shall be constituted accordingly.

Convening of summary general courts-martial.

62. The following authorities shall have power to convene a summary general court-martial, namely:—

(*a*) an officer empowered in this behalf by an order of the Governor General in Council or of the Commander-in-Chief in India;

(*b*) on active service, the officer commanding the forces in the field, or any officer empowered by him in this behalf;

(*c*) an officer commanding any detached portion of His Majesty's troops upon active service when, in his opinion, it is not practicable, with due regard to discipline and the exigencies of the service, that an offence should be tried by an ordinary general court-martial.

Composition of summary general courts-martial.

63. A summary general court-martial shall consist of not less than three officers.

Summary courts-martial.

64. (*1*) A summary court-martial may be held—

(*a*) by the commanding officer of any corps or department of His Majesty's Indian forces, or of any detachment of those forces;

(*b*) by the commanding officer of any British corps or detachment to which details subject to this Act are attached.

(*2*) At every summary court-martial the officer holding the trial shall alone constitute the court, but the proceeding shall be attended throughout by two other officers who shall not, as such, be sworn or affirmed.

Dissolution of courts.

65. (*1*) If a court-martial after the commencement of a trial is reduced below the smallest number of officers of which it is by this Act required to consist, it shall be dissolved:

Provided that a general court-martial shall not be dissolved under the provisions of this sub-section unless it is reduced below five officers.

(*2*) If, on account of the illness of the accused before the finding, it is impossible to continue the trial, a court-martial shall be dissolved.

(*3*) Where a court-martial is dissolved under this section, the accused may be tried again.

Jurisdiction of Courts-martial.

Prohibition of second trial.

66. When any person subject to this Act has been acquitted or convicted of an offence by a court-martial or by a criminal court, or has been summarily dealt with for an offence under section 20 or section 22, he shall not be liable to be tried again for the same offence by a court-martial or dealt with summarily in respect of it under either of the said sections.

Limitation of trials.

67. No person subject to this Act shall be tried or punished by a court-martial for any offence after the expiration of three years from the date of such offence, unless the offender, by reason of absence or of some other manifest impediment, could not be arrested or confined and brought to trial within that period; in which case he shall be liable to be tried at any time not exceeding two years after such impediment has ceased.

Place of trial.

68. Any person subject to this Act who commits any offence against it may be tried and punished for such offence in any place whatever.

Adjustment of the jurisdiction of Courts-martial and Criminal Courts.

Order in case of concurrent jurisdiction.

69. When a criminal court and a court-martial have each jurisdiction in respect of an offence, it shall be in the discretion of the prescribed military authority to decide before which court the proceedings shall be instituted, and, if that authority decides that they shall be instituted before a court-martial, to direct that the accused person shall be detained in military custody.

Power of criminal court to require delivery of offender.

70. (*1*) When a criminal court having jurisdiction is of opinion that proceedings ought to be instituted before itself in respect of any alleged offence, it may,

The Indian Army Act, 1911.

(Chapter VIII.—Courts-martial.)

by written notice, require the prescribed military authority at its option either to deliver over the offender to the nearest magistrate to be proceeded against according to law, or to postpone proceedings pending a reference to the Governor General in Council.

(2) In every such case the said authority shall either deliver over the offender in compliance with the requisition or shall forthwith refer the question as to the court before which the proceedings are to be instituted for the determination of the Governor General in Council, whose order upon such reference shall be final.

Trial by court-martial no bar to subsequent trial by criminal court.

71. (1) Notwithstanding anything contained in section 26 of the General Clauses Act, 1897, or in section 403 of the Code of Criminal Procedure, 1898, a person convicted or acquitted by a court-martial may be afterwards tried by a criminal court for the same offence or on the same facts.

(2) If a person sentenced by a court-martial in pursuance of this Act to punishment for an offence is afterwards tried by a criminal court for the same offence or on the same facts, that court shall, in awarding punishment, have regard to the military punishment he may already have undergone.

Powers of courts-martial.

Powers of general and summary general courts-martial.

72. A general or summary general court-martial shall have power to try any person subject to this Act for any offence made punishable therein, and to pass any sentence authorized by this Act.

Powers of district court-martial.

73. A district court-martial shall have power to try any person subject to this Act other than an officer for any offence made punishable therein, and to pass any sentence authorized by this Act other than a sentence of death, or transportation, or imprisonment for a term exceeding two years.

Offences triable by summary court-martial.

74. A summary court-martial may try any offence punishable under any of the provisions of this Act:

Provided that when there is no grave reason for immediate action, and reference can without detriment to discipline be made to the officer empowered to convene a district court-martial for the trial of the alleged offender, an officer holding a summary court-martial shall not try without such reference any of the following offences, namely:—

(a) any offence punishable under sections 25, 27, clauses (a), (b) or (c), 33, 41 or 42, or

(b) any offence against the officer holding the court.

Persons triable by summary court-martial.

75. A summary court-martial may try any person subject to this Act and under the command of the officer holding the court, except an officer or warrant officer.

Sentences awardable by summary court-martial.

76. (1) A summary court-martial held by the commanding officer of a corps or department may pass any sentence which can be passed under this Act, except a sentence of death or transportation, or of imprisonment for a term exceeding one year.

(2) A summary court-martial held by any other officer may pass any sentence which can be passed under this Act, except a sentence of death or transportation, or of imprisonment for a term exceeding six months.

Procedure at trials by Court-martial.

President.

77. At every general, district or summary general court-martial the senior member shall sit as president.

Judge Advocate.

78. Every general court-martial shall, and every district court-martial may, be attended by a judge advocate, who shall be either an officer belonging to the department of the Judge Advocate General in India, or, if no such officer is available, a person appointed by the convening officer.

Superintending officer.

79. A British officer of not less than four years' service, hereinafter called the superintending officer, shall be appointed to superintend the proceedings of every court-martial composed of Native officers which is not attended by a judge advocate.

Challenges.

80. (1) At all trials by general, district or summary general courts-martial, as soon as the court is assembled, the names of the president and members shall be read over to the accused, who shall thereupon be asked whether he objects to being tried by any officer sitting on the court.

(2) If the accused objects to any such officer, his objection, and also the reply thereto of the officer objected to, shall be heard and recorded, and the remaining officers of the court shall, in the absence of the challenged officer, decide on the objection.

(3) If the objection is allowed by one-half or more of the votes of the officers entitled to vote, the objection shall be allowed, and the

The Indian Army Act, 1911.

(*Chapter VIII.—Courts-martial.*)

member objected to shall retire, and his vacancy may be filled in the prescribed manner by another officer, subject to the same right of the accused to object.

(*4*) When no challenge is made, or when challenge has been made and disallowed, or the place of every officer successfully challenged has been filled by another officer to whom no objection is made or allowed, the court shall proceed with the trial.

Voting of members.

81. (*1*) Every decision of a court-martial shall be passed by an absolute majority of votes; and where there is an equality of votes, as to either finding or sentence, the decision shall be in favour of the accused.

(*2*) In matters other than a challenge or the finding or sentence, the president shall have a casting vote.

Oaths of president and members.

82. An oath or affirmation in the prescribed form shall be administered to every member of every court-martial and to the judge advocate or superintending officer before the commencement of the trial.

Oaths of witnesses.

83. Every person giving evidence at a court-martial shall be examined on oath or affirmation, and shall be duly sworn or affirmed in the prescribed form.

Summoning witnesses and production of documents.

84. (*1*) The convening officer, the president of the court, the judge advocate, or the commanding officer of the accused person, may, by summons under his hand, require the attendance before the court, at a time and place to be mentioned in the summons, of any person either to give evidence or to produce any document or other thing.

(*2*) In the case of a witness amenable to military authority, the summons shall be sent to the officer commanding the corps, department or detachment to which he belongs, and such officer shall serve it upon him accordingly.

(*3*) In the case of any other witness, the summons shall be sent to the magistrate within whose jurisdiction he may be or reside, and such magistrate shall give effect to the summons as if the witness were required in the court of such magistrate.

(*4*) When a witness is required to produce any particular document or other thing in his possession or power, the summons shall describe it with convenient certainty.

(*5*) Nothing in this section shall be deemed to
2.I affect the Indian Evidence Act, 1872, sections 123 and 124, or to apply to any letter, postcard, telegram or other document in the custody of the postal or telegraph authorities.

(*6*) If any document in such custody is, in the opinion of any district magistrate, chief presidency magistrate, high court or court of session, wanted for the purpose of any court-martial, such magistrate or court may require the postal or telegraph authorities, as the case may be, to deliver such document to such person as such magistrate or court may direct.

(*7*) If any such document is, in the opinion of any other magistrate or of any commissioner of police or district superintendent of police, wanted for any such purpose, he may require the postal or telegraph authorities, as the case may be, to cause search to be made for and to detain such document pending the orders of any such district magistrate, chief presidency magistrate or court.

Commissions.

85. (*1*) Whenever, in the course of a trial by court-martial, it appears to the court that the examination of a witness is necessary for the ends of justice, and that the attendance of such witness cannot be procured without an amount of delay, expense or inconvenience which, in the circumstances of the case, would be unreasonable, such court may address the Judge Advocate General in order that a commission to take the evidence of such witness may be issued.

(*2*) The Judge Advocate General may then, if he thinks necessary, issue a commission to any district magistrate or magistrate of the first class, within the local limits of whose jurisdiction such witness resides, to take the evidence of such witness.

(*3*) When the witness resides in the territories of any prince or chief in India in which there is an officer representing the British Indian Government, the commission may be issued to such officer.

(*4*) The magistrate or officer to whom the commission is issued, or, if he is the district magistrate, he or such magistrate of the first class as he appoints in this behalf, shall proceed to the place where the witness is or shall summon the witness before him and shall take down his evidence in the same manner, and may for this purpose exercise the same powers, as in trials of warrant-cases under the Code of
Criminal Procedure, 1898. V of

(*5*) Where the commission is issued to such officer as is mentioned in sub-section (*3*), he may delegate his powers and duties under the commission to any officer subordinate to him whose powers are not less than those of a magistrate of the first class in British India.

(*6*) When the witness resides out of India, the commission may be issued to any British consular officer, British magistrate or other British official competent to administer an oath or affirmation in the place where such witness resides.

(*7*) The prosecutor and the accused person in any case in which a commission is issued may respectively forward any interrogatories in writing which the court may think relevant to the issue, and the magistrate or officer to whom the commission is issued shall examine the witness upon such interrogatories.

The Indian Army Act, 1911.

(*Chapter VIII.—Courts-martial.*)

(*8*) The prosecutor and the accused person may appear before such magistrate or officer by pleader or, except in the case of an accused person in custody, in person, and may examine, cross-examine and re-examine (as the case may be) the said witness.

(*9*) After any commission issued under this section has been duly executed, it shall be returned, together with the deposition of the witness examined thereunder, to the Judge Advocate General.

(*10*) On receipt of a commission and deposition returned under sub-section (*9*), the Judge Advocate General shall forward the same to the court at whose instance the commission was issued or, if such court has been dissolved, to any other court convened for the trial of the accused person; and the commission, the return thereto and the deposition shall be open to the inspection of the prosecutor and the accused person, and may, subject to all just exceptions, be read in evidence in the case by either the prosecutor or the accused, and shall form part of the proceedings of the court.

(*11*) In every case in which a commission is issued under this section the trial may be adjourned for a specified time reasonably sufficient for the execution and return of the commission.

Explanation.—In this section, the expression "Judge Advocate General" means the Judge Advocate General in India, and includes a Deputy Judge Advocate General.

Conviction of one offence permissible on charge of another.

86. (*1*) A person charged before a court-martial with desertion may be found guilty of attempting to desert or of being absent without leave.

(*2*) A person charged before a court-martial with attempting to desert may be found guilty of desertion or of being absent without leave.

(*3*) A person charged before a court-martial with any of the following offences specified in section 31, that is to say, theft, dishonest misappropriation or conversion to his own use of property entrusted to him, or dishonestly receiving or retaining property in respect of which any of the aforesaid offences has been committed knowing or having reason to believe it to have been stolen or dishonestly misappropriated or converted, may be found guilty of any other of these offences with which he might have been charged.

(*4*) A person charged before a court-martial with an offence punishable under section 41 or section 42 may be found guilty of any other offence of which he might have been found guilty if the provisions of the Code of Criminal Procedure, 1898, were applicable.
1898

(*5*) A person charged before a court-martial with any other offence under this Act may, on failure of proof of an offence having been committed in circumstances involving a more severe punishment, be found guilty of the same offence as having been committed in circumstances involving a less severe punishment.

Majority requisite to sentence of death.

87. No sentence of death shall be passed by any court-martial without the concurrence of two-thirds at the least of the members of the court.

Evidence before Courts-martial.

General rule as to evidence.

88. The Indian Evidence Act, 1872, shall, subject to the provisions of this Act, apply to all proceedings before a court-martial.

Judicial notice.

89. A court-martial may take judicial notice of any matter within the general military knowledge of the members.

Presumption as to signatures.

90. In any proceeding under this Act, any application, certificate, warrant, reply or other document purporting to be signed by an officer in the civil or military service of the Government shall, on production, be presumed to have been duly signed by the person and in the character by whom and in which it purports to have been signed, until the contrary is shown.

Enrolment paper.

91. Any enrolment paper purporting to be signed by an enrolling officer shall, in proceedings under this Act, be evidence of the person enrolled having given the answers to questions which he is therein represented as having given, and of the enrolment of such person.

Reference by accused to Government officer.

92. (*1*) If at any trial for desertion, absence without leave, overstaying leave or not rejoining when warned for service, the person tried states in his defence any sufficient or reasonable excuse for his unauthorized absence, and refers in support thereof to any officer in the civil or military service of Government, or if it appears that any such officer is likely to prove or disprove the said statement in the defence, the court shall address such officer and adjourn until his reply is received.

(*2*) The written reply of any officer so referred to shall, if signed by him, be received in evidence and have the same effect as if made on oath before the court.

(*3*) If the court is dissolved before the receipt of such reply, or if the court omits to comply with the provisions of this section, the convening officer may, at his discretion, annul the proceedings and order a fresh trial by the same or another court-martial.

Evidence of previous convictions and general character.

93. (*1*) When any person subject to this Act has been convicted by a court-martial of any offence, such court-martial may inquire into, and receive and record evidence of, any previous convictions of such person, either by a court-martial or by a criminal court, and may further inquire into and record the general character of such person, and such other matters as may be prescribed.

(*2*) Evidence received under this section may be either oral, or in the shape of entries in, or certified extracts from, court-martial books or

The Indian Army Act, 1911.

(Chapter VIII.—Courts-martial. Chapter IX.—Execution of Sentences.)

other official records; and it shall not be necessary to prove the signature to such certified extracts, nor shall it be necessary to give notice before trial to the person tried that evidence as to his previous convictions or character will be received.

(3) At a summary court-martial the officer holding the trial may, if he thinks fit, record any previous convictions against the offender, his general character, and such other matters as may be prescribed, as of his own knowledge, instead of requiring them to be proved under the foregoing provisions of this section.

Confirmation and Revision of Findings and Sentences.

Finding and sentence invalid without confirmation.

94. No finding or sentence of a general or district court-martial shall be valid except so far as it may be confirmed as provided by this Act.

Power to confirm finding and sentence of general court-martial.

95. The findings and sentences of general courts-martial may be confirmed by the Commander-in-Chief in India, or by any officer empowered in this behalf by warrant of the Commander-in-Chief in India.

Power to confirm finding and sentence of district court-martial.

96. The findings and sentences of district courts-martial may be confirmed by any officer having power to convene a general court-martial, or by any officer empowered in this behalf by warrant of any such officer.

Contents of warrant issued under section 95 or section 96.

97. A warrant issued under section 95 or section 96 may contain such restrictions, reservations or conditions as the officer issuing it may think fit.

Confirmation of finding and sentence.

98. (1) The finding and sentence of a summary general court-martial shall require to be confirmed by the convening officer—

(a) in the case of the trial of an officer,

(b) in the case of an acquittal or a sentence of death or transportation or imprisonment for a term exceeding two years, and

(c) in any other case if so ordered by the said officer.

(2) Save as provided in sub-section (1), a sentence passed by a summary general court-martial shall not require to be confirmed, but may be carried out forthwith.

Power of confirming officer to mitigate, remit or commute sentences.

99. Subject to such restrictions as may be contained in any warrant issued under section 95 or section 96, a confirming officer may, when confirming the sentence of a court-martial, mitigate or remit the punishment thereby awarded, or commute that punishment for any less punishment or punishments to which the offender might have been sentenced by the court-martial.

Provided that a sentence of transportation shall not be commuted for a sentence of imprisonment for a term exceeding the term of transportation awarded by the court.

Revision of finding or sentence.

100. (1) Any finding or sentence of a court-martial which requires confirmation may be once revised by order of the confirming officer; and on such revision, the court, if so directed by him, may take additional evidence.

(2) The court, on revision, shall consist of the same officers as were present when the original decision was passed, unless any of those officers are unavoidably absent.

(3) In case of such unavoidable absence the cause thereof shall be duly certified in the proceedings, and the court shall proceed with the revision, provided that, if a general court-martial, it still consists of five officers, or if a district court-martial, of three officers.

Finding and sentence of a summary court-martial.

101. The finding and sentence of a summary court-martial shall not require to be confirmed, but may be carried out forthwith:

Provided that, if the officer holding the trial is of less than five years' service, he shall not, except on active service, carry into effect any sentence until it has received the approval of an officer commanding not less than a corps.

Transmission of proceedings of summary courts-martial.

102. The proceedings of every summary court-martial shall without delay be forwarded to the officer commanding the division or brigade within which the trial was held, or to the prescribed officer; and such officer, or the Commander-in-Chief in India, or the officer commanding the army in which the trial was held, may, for reasons based on the merits of the case, but not on any merely technical grounds, set aside the proceedings or reduce the sentence to any other sentence which the court might have passed.

Substitution of valid for invalid sentence.

103. Where a sentence passed by a court-martial which has been confirmed, or which does not require confirmation, is found for any reason to be invalid, the authority who would have had power under section 112 to commute the punishment awarded by the sentence if it had been valid may pass a valid sentence:

Provided that the punishment awarded by the sentence so passed shall not be higher in the scale of punishments than, or in excess of, the punishment awarded by the invalid sentence.

CHAPTER IX.

EXECUTION OF SENTENCES.

Form of sentence of death.

104. In awarding a sentence of death a court-martial shall, in its discretion, direct that the offender shall suffer death by being hanged by the neck until he be dead, or shall suffer death by being shot to death.

The Indian Army Act, 1911.
(Chapter IX.—Execution of Sentences.)
(Chapter X.—Pardons and Remissions. Chapter XI.—Rules.)

Imprisonment to be in military custody.

105. Whenever any person is sentenced under this Act to simple imprisonment, such sentence shall be carried out by confinement in military custody.

Commencement of sentence of transportation or imprisonment.

106. Whenever any person is sentenced under this Act to transportation or imprisonment, the term of his sentence shall, whether it has been revised or not, be reckoned to commence on the day on which the original proceedings were signed by the president or, in the case of a summary court-martial, by the court.

Execution of sentence of transportation or imprisonment.

107. Whenever any sentence of transportation or rigorous imprisonment is passed under this Act, or whenever any sentence so passed is commuted to transportation or to rigorous imprisonment, the commanding officer of the person under sentence, or such other officer as may be prescribed, shall forward a warrant in the prescribed form to the officer in charge of the civil prison in which such person is to be confined, and shall forward him to such prison with the warrant:

Provided that, in the case of a sentence of rigorous imprisonment for a period not exceeding three months, the confirming officer, or, in the case of a sentence which does not require confirmation, the court, may direct that the sentence shall be carried out by confinement in military custody.

Execution of sentence of imprisonment in special cases.

108. Whenever, in the opinion of an officer commanding an army, division or independent brigade, any sentence or portion of a sentence of imprisonment cannot, for special reasons, conveniently be carried out in accordance with the provisions of section 105 or section 107, such officer may direct that such sentence or portion of sentence shall be carried out by confinement in any civil prison or other fit place.

Communication of certain orders to civil prison officers.

109. Whenever an order is duly made under this Act setting aside or varying any sentence, order or warrant under which any person is confined in a civil prison, a warrant in accordance with such order shall be forwarded by the prescribed officer to the officer in charge of the prison in which such person is confined.

Limit of solitary confinement.

110. In executing a sentence of solitary confinement, such confinement shall in no case exceed fourteen days at a time, with intervals between the periods of solitary confinement of not less duration than such periods, and, when the imprisonment awarded exceeds three months, the solitary confinement shall not exceed seven days in any one month of the whole imprisonment awarded, with intervals between the periods of solitary confinement of not less duration than such periods.

Instrument of corporal punishment.

111. Whenever any person is sentenced under this Act by a court-martial to corporal punishment, such punishment shall be inflicted on the bare back with the regulation cat.

CHAPTER X.

PARDONS AND REMISSIONS.

Pardons and remissions.

112. When any person subject to this Act has been convicted by a court-martial of any offence,—

(*a*) the Governor General in Council, or

(*b*) when the person has been convicted of any offence other than an offence punishable under section 41, the Commander-in-Chief in India or, in the case of a sentence which he could have confirmed or which did not require confirmation, the officer commanding the army, division or independent brigade in which such person, at the time of his conviction, was serving,

may—

(*1*) pardon the person;

(*2*) mitigate or remit the punishment awarded, or commute such punishment for any less punishment or punishments to which he might have been sentenced by the court-martial;

(*3*) order the restoration to him of any service or other advantage forfeited under his sentence; or

(*4*) re-admit him to the service when he has been dismissed therefrom:

Provided that a sentence of transportation shall not be commuted for a sentence of imprisonment for a term exceeding the term of transportation awarded by the court.

CHAPTER XI.

RULES.

Power to make rules.

113. (*1*) The Governor General in Council may make rules for the purpose of carrying into effect the provisions of this Act.

(*2*) In particular, and without prejudice to the generality of the foregoing power, such rules may provide for—

(*a*) the discharge from the service of persons subject to this Act;

(*b*) the amount and incidence of fines to be imposed under section 21;

(*c*) the assembly and procedure of courts of inquiry, and the administration of oaths or affirmations by such courts;

(*d*) the convening and constituting of courts-martial;

(*e*) the adjournment, dissolution and sittings of courts-martial;

(*f*) the procedure to be observed in trials by courts-martial;

The Indian Army Act, 1911.

Chapter XI.—Rules.

(Chapter XII.—Property of Deceased Persons, Deserters and Lunatics. Chapter XIII.—Miscellaneous.)

(*g*) the confirmation and revision of the findings and sentences of courts-martial;

(*h*) the carrying into effect sentences of courts-martial;

(*i*) the forms of orders to be made under the provisions of this Act relating to courts-martial, transportation or imprisonment; and

(*j*) any matter in this Act directed to be prescribed.

(*3*) All rules made under this Act shall be published in the Gazette of India, and, on such publication, shall have effect as if enacted in this Act.

CHAPTER XII.

PROPERTY OF DECEASED PERSONS, DESERTERS AND LUNATICS.

Property of deceased persons and deserters.

114. The following rules are enacted respecting the disposal of the property of every person subject to this Act who dies or deserts:—

(*1*) The commanding officer shall secure all the moveable property that is on the spot, and cause an inventory thereof to be made, and draw any pay and allowances due to the deceased or deserter.

(*2*) In the case of a deceased person who has left in a Government savings bank (including any post office savings bank, however named) a deposit not exceeding one thousand rupees, the commanding officer may, if he thinks fit, require the secretary or other proper officer of the bank to pay the deposit to him forthwith notwithstanding anything in any departmental rules; and, after the payment thereof in accordance with such requisition, no person shall have any right in respect of the deposit except as hereinafter provided.

(*3*) In the case of a deceased person whose representative is on the spot and has given security for the payment of the regimental debts (if any) of the deceased, the commanding officer shall deliver over the property and the amount of the deposit (if any) received under clause (*2*) to that representative.

(*4*) In the case of a deceased person whose estate is not dealt with under clause (*3*), and in the case of any deserter, the commanding officer shall cause the property to be sold by public auction, and shall pay the regimental debts and other debts in camp or quarters (if any), and in the case of a deceased person the expenses of his funeral ceremonies, from the proceeds of the sale and the amount of the deposit (if any) received under clause (*2*).

(*5*) The surplus, if any, shall in the case of a deceased person be paid to his representative (if any), or in the event of no claim to such surplus being established within twelve months after the death, then the same shall be remitted to the prescribed person.

(*6*) In the case of the sale of the effects of a deserter, the amount remaining in the hands of the commanding officer shall be forthwith remitted to the prescribed person.

Meaning of desertion.

Explanation.—A person shall be deemed to be a deserter within the meaning of this section who has been convicted of desertion, or who has without authority been absent from duty for a period of sixty days and has not subsequently surrendered or been apprehended.

Disposal of certain property without production of probate, etc.

115. Property deliverable and money payable to the representative of a deceased person under section 114 may, if the total value or amount thereof does not exceed one thousand rupees, and if the prescribed person thinks fit, be delivered or paid to any person appearing to him to be entitled to receive it or to administer the estate of the deceased, without requiring the production of any probate, letters of administration, certificate or other such conclusive evidence of title; and such delivery or payment shall be a full discharge to those ordering or making the same and to the Secretary of State for India in Council from all further liability in respect of the property or money; but nothing in this section shall affect the rights of any executor or administrator or other representative, or of any creditor, of a deceased person against any person to whom such delivery or payment has been made.

Application of section 114 to lunatics.

116. The provisions of section 114 shall, so far as they can be made applicable, apply in the case of a person subject to this Act becoming insane.

CHAPTER XIII.

MISCELLANEOUS.

Military Privileges.

Complaints against officers.

117. (*1*) Any person subject to this Act who deems himself wronged by any superior or other officer, may, if not attached to a troop or company, complain to the officer under whose command or orders he is serving; and may, if attached to a troop or company, complain to the officer commanding the same.

(*2*) When the officer complained against is the officer to whom any complaint should, under sub-section (*1*), be preferred, the aggrieved person may complain to such officer's next superior officer.

(*3*) Every officer receiving any such complaint shall examine into it, and, when neces-

The Indian Army Act, 1911.

(Chapter XIII.—Miscellaneous.)

(4) Every such complaint shall be preferred through such channels as may be from time to time specified by proper authority.

118. (1) No president or member of a court-martial, no judge advocate or superintending officer, no party to any proceeding before a court-martial, or his legal practitioner or agent, and no witness acting in obedience to a summons to attend a court-martial, shall, while proceeding to, attending on or returning from a court-martial, be liable to arrest under civil or revenue process.

Privileges of persons attending courts-martial.

(2) If any such person is arrested under any such process, he may be discharged by order of the court-martial.

119. (1) No person subject to this Act shall, so long as he belongs to His Majesty's Indian forces, be liable to be arrested for debt under any process issued by, or by the authority of, any civil or revenue court or revenue-officer.

Exemption from arrest for debt.

(2) The judge of any such court may examine into any complaint made by such person or his superior officer of the arrest of such person contrary to the provisions of this section, and may, by warrant under his hand, discharge the person, and award reasonable costs to the complainant, who may recover those costs in like manner as he might have recovered costs awarded to him by a decree against the person obtaining the process.

(3) For the recovery of such costs no fee shall be payable to the court by the complainant.

120. Neither the arms, clothes, equipment, accoutrements or necessaries of any person subject to this Act, nor any animal used by him for the discharge of his duty, shall be seized, nor shall the pay and allowances of any such person or any part thereof be attached, by direction of any civil or revenue court or any revenue-officer, in satisfaction of any decree or order enforceable against him.

Property exempted from attachment.

121. Every person belonging to the Indian Reserve Forces shall, when called out for or engaged upon or returning from training or service, be entitled to all the privileges accorded by sections 119 and 120 to a person subject to this Act.

Application of the last two foregoing sections to reservists.

122. (1) On the presentation to any court by or on behalf of any person subject to this Act of a certificate, from the proper military authority, of leave of absence having been granted to or applied for by him for the purpose of prosecuting or defending any suit or other proceeding in such court, the court shall, on the application of such person, arrange, so far as may be possible, for the hearing and final disposal of such suit or other proceeding within the period of the leave so granted or applied for.

Priority of hearing by courts of cases in which native officers and soldiers are concerned.

(2) The certificate from the proper military authority shall state the first and last day of the leave or intended leave, and set forth a description of the case with respect to which the leave was granted or applied for.

(3) No fee shall be payable to the court in respect of the presentation of any such certificate, or in respect of any application by or on behalf of any such person for priority for the hearing of his case.

(4) Where the court is unable to arrange for the hearing and final disposal of the suit or other proceeding within the period of such leave or intended leave as aforesaid, it shall record its reasons for having been unable to do so, and shall cause a copy thereof to be furnished to such person on his application without any payment whatever by him in respect either of the application for such copy or of the copy itself.

(5) If in any case a question arises as to the proper military authority qualified to grant such certificate as aforesaid, such question shall be at once referred by the court to an officer commanding a corps, whose decision shall be final.

Deserters and Military Offenders.

123. (1) Whenever any person subject to this Act deserts, the commanding officer of the corps, department or detachment to which he belongs shall give written information of the desertion to such civil authorities as, in his opinion, may be able to afford assistance towards the capture of the deserter; and such authorities shall thereupon take steps for the apprehension of the said deserter in like manner as if he were a person for whose apprehension a warrant had been issued by a magistrate, and shall deliver the deserter, when apprehended, to military custody.

Capture of deserters.

(2) Any police-officer may arrest without warrant any person reasonably believed to be subject to this Act and to be travelling without authority, and shall bring him without delay before the nearest magistrate, to be dealt with according to law.

124. (1) Any person subject to this Act who is charged with an offence may be taken into military custody.

Arrest by military authorities.

(2) Any such person may be ordered into military custody by any superior officer.

(3) The charge against every person taken into military custody shall, without unnecessary delay, be investigated by the proper military authority, and, as soon as may be, either proceedings shall be taken for punishing the offence, or such person shall be discharged from custody.

The Indian Army Act, 1911.

(Chapter XIII.—Miscellaneous.)

(The Schedule.—Repeal of Enactments.)

Arrest by civil authorities.

125. Whenever any person subject to this Act, who is accused of any offence under this Act, is within the jurisdiction of any magistrate or police-officer, such magistrate or officer shall aid in the apprehension and delivery to military custody of such person upon receipt of a written application to that effect signed by his commanding officer.

Inquiry on absence of person subject to Act

126. (*1*) When any person subject to this Act has been absent without due authority from his duty for a period of sixty days, a court of inquiry shall, as soon as practicable, be assembled and, upon oath or affirmation administered in the prescribed manner, shall inquire respecting the absence of the person, and the deficiency, if any, of property of the Government entrusted to his care, or of his arms, ammunition, equipments, instruments, clothing or necessaries, and, if satisfied of the fact of such absence without due authority or other sufficient cause, the court shall declare such absence and the period thereof, and the said deficiency, if any, and the commanding officer of the corps or department to which the person belongs shall enter in the court-martial book of the corps or department a record of the declaration.

(*2*) If the person declared absent does not afterwards surrender, or is not apprehended, he shall, for the purposes of this Act, be deemed to be a deserter.

(*3*) If the person declared absent surrenders or is apprehended, the record or a copy thereof, purporting to bear the signature of the officer having the custody of the court-martial book, shall, on the trial of the person for desertion, be presumptive evidence of the facts therein recorded.

Repeal.

Repeal

127. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof:

Provided that all warrants issued and persons enrolled or attested under the provisions of any of the said enactments shall be deemed to have been respectively issued, enrolled or attested under this Act.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 16th March 1911 and is hereby promulgated for general information :—

ACT No. IX OF 1911.

An Act further to amend the Births, Deaths and Marriages Registration Act, 1886.

of 1886. WHEREAS it is expedient further to amend the Births, Deaths and Marriages Registration Act, 1886; It is hereby enacted as follows :—

Short title. **1.** This Act may be called the Births, Deaths and Marriages Registration (Amendment) Act, 1911.

Amendment of section 22 of Act VI of 1886. **2.** In section 22 of the Births, Deaths and Marriages Registration Act, 1886, the following amendments shall be made, namely :—

(*1*) To sub-section (*1*) of the said section the following proviso shall be added, namely :—

"Provided that it shall not be necessary for the person giving notice to attend before the Registrar or to sign the entry in the register if he has given such notice in writing and has furnished to the satisfaction of the Registrar such evidence of his identity as may be required by any rules made by the Local Government in this behalf."

(*2*) In sub-section (*2*) of the said section, after the word "signed" the words "or the conditions specified in the proviso to sub-section (*1*) have been complied with" shall be inserted.

Amendment of sections 26 and 28. **3.** In section 26 and in section 28 of the said Act, for the words "Governor General in Council" the words "Local Government" shall be substituted.

Substitution of new section 36. **4.** For section 36 of the said Act the following section shall be substituted, namely :—

Rules. "36. (*1*) The Local Government may make rules to carry out the purposes of this Act.

(*2*) In particular and without prejudice to the generality of the foregoing power, such rules may—

(*a*) fix the fees payable under this Act;

(*b*) prescribe the forms required for the purposes of this Act;

(*c*) prescribe the time within which, and the mode in which, persons authorized under this Act to give notice of a birth or death to a Registrar of Births and Deaths must give the notice;

(*d*) prescribe the evidence of identity to be furnished to a Registrar of Births and Deaths by persons giving notice of a birth or death in cases where personal attendance before such Registrar is dispensed with;

(*e*) prescribe the registers to be kept and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this Act, and the intervals at which they are to send to the Registrar General of Births, Deaths and Marriages true copies of the entries of births and deaths in the registers kept by them;

(*f*) prescribe the conditions and circumstances on and in which Registrars of Births and Deaths may correct entries of births and deaths in registers kept by them;

(*g*) prescribe the particulars which the descriptive list or lists to be prepared by the Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the registers or records, or portions of registers or records, to which they relate; and

(*h*) prescribe the custody in which those registers or records are to be kept.

(*3*) Every power to make rules conferred by this Act is subject to the condition of the rules being made after previous publication.

(*4*) All rules made under this Act shall be published in the local official Gazette, and on such publication shall have effect as if enacted in this Act."

Repeal of section 37. **5.** Section 37 of the said Act is hereby repealed.

Continuation of rules heretofore made by Governor General in Council. All rules heretofore made under the said Act by the Governor General in Council shall, after the commencement of this Act, be deemed to have been made by the Local Government.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on 16th March 1911 :—

No. 8 OF 1911.

A Bill to make better provision for the extension of elementary education.

WHEREAS it is expedient to make better provision for the extension of elementary education; It is hereby enacted as follows :—

Short title, commencement and extent.

1. (*1*) This Act may be called the Elementary Education Act, 1911.

(*2*) It shall come into force on [ ], but it shall not be operative except in the local areas to which it may be applied by a notification issued under section 3.

(*3*) It extends to the whole of British India.

Definition.

[Elementary Education Act (England and Wales), 1870, sec. 3.]

2. In this Act, unless there is anything repugnant in the subject or context, —

"Parent" includes the guardian and every person who is liable to maintain or has the actual custody of any child:

"Department of Public Instruction" means the Department in charge of public instruction under the Local Government of the province in which the Municipality or District Board concerned is situated:

"recognised school" means a school recognised by the Department of Public Instruction:

"elementary education" means the courses in reading, writing and arithmetic and other subjects, if any, prescribed from time to time by the Department of Public Instruction for elementary schools:

"District Board" includes a "District Local Board" and a "District Council":

"Magistrate" does not include a "village Magistrate."

Notification of compulsory education areas.

3. Every Municipality or District Board may from time to time, with the previous sanction of the Local Government, and subject to such rules as the Governor General in Council may make in this behalf, by notification declare that this Act shall apply to the whole or any specified part of the area within the local limits of its authority and the provisions of this Act shall apply to such area or part accordingly.

Duty of parent to send child to school.

[Irish Education Act, 1892, sec. 1 (*1*).]

4. In every area, to which this Act applies, it shall be the duty of the parent of every boy, not under six and not over ten years of age, residing within such area, to cause such boy to attend a recognised school for elementary education for so many days in the year and for such time on each day of attendance as may be prescribed by the Department of Public Instruction, unless there is a reasonable excuse for the non-attendance of the boy.

Non-attendance when excusable.

[Irish Education Act, 1892, sec. 1 (*8*).]

5. Any of the following circumstances is a reasonable excuse for non-attendance :—

(*a*) that there is no recognised school within a distance of one mile, measured along the nearest road, from the residence of the boy, which the boy can attend, and to which the parent has no objection, on religious grounds, to send the boy;

(b) that the child is prevented from attending school by reason of sickness, infirmity, domestic necessity, the seasonal needs of agriculture, or other sufficient cause;

(c) that the child is receiving instruction in some other satisfactory manner.

[Irish Education Act, 1892, sec. 2 (1); Elementary Education Act (England and Wales), 1876, sec. 5.]

Prohibition of child's employment.

6. No person shall take into his employment any boy who ought to be at school under this Act.

Duty of Local Body to provide sufficient school accommodation.

7. For every area to which this Act applies, the Municipality or District Board shall provide such school accommodation as the Department of Public Instruction considers necessary and sufficient.

Local Body may levy special education rate.

8. In any such area as aforesaid, the Municipality or District Board may, with the previous sanction of the Local Government, levy a special education rate, the proceeds of which shall be devoted exclusively to the provision of elementary education for the boys residing in the area.

Remission of school-fees on ground of poverty.

9. (1) No fee shall be charged in respect of the instruction of a boy required to attend school under section 4 if the monthly income of the parent does not exceed Rs. 10.

(2) In every other case, the Municipality or District Board may, on the ground of poverty, or for other sufficient reason, remit the whole or any part of the fee payable by a parent on account of his boy required to attend school under section 4.

Appointment of School Attendance Committee.

10. (1) For every area to which this Act applies, the Municipality or District Board shall appoint a school attendance committee, to be constituted in such manner as may be prescribed by bye-laws framed in that behalf.

[Irish Education Act, 1892, sec. 3 (1).]

(2) It shall be the duty of the school attendance committee, subject to bye-laws framed in that behalf, to secure the attendance of every boy within its area that ought to be at school.

[Irish Education Act, 1892, sec. 4 (1).]

Complaint against parent.

11. (1) Whenever the school attendance committee is satisfied that a boy in its area that ought to attend school does not do so, it may, after due warning, make a complaint against the parent of the boy before a magistrate.

Attendance order.

(2) The magistrate shall, if satisfied of the truth of the complaint, issue an order directing the parent to cause the boy to attend school before a certain date.

[Irish Education Act, 1892, sec. 4 (2).]

Prosecution of parent.

12. (1) If such order is not complied with and the school attendance committee does not see any satisfactory cause for the non-compliance, it may prosecute the defaulting parent before a magistrate.

Penalty for non-compliance with attendance order.

(2) The parent shall be liable, on conviction, to a fine not exceeding rupees two.

Penalty for repeated non-compliance.

13. In cases of repeated non-compliance, the parent shall, on conviction, be liable to a fine not exceeding rupees ten.

[Irish Education Act, 1892, secs. 5 and 6.]

Employer's liability.

14. (1) The school attendance committee may, after due warning, prosecute any employer who violates section 6.

(2) Unless such employer is able to satisfy the magistrate that there is no recognised school within a distance of one mile, measured along the nearest road, from the residence of the boy, or

that the time and nature of the boy's employment are such that he is not prevented from receiving elementary education at school, or

that the boy is receiving instruction in some other satisfactory manner, or

that the boy was employed under false representations as to age, residence and other conditions, or

without his knowledge and consent by an agent or workman under him for whose prosecution he is willing to afford the necessary facilities,

he shall, on conviction, be liable to a fine not exceeding rupees twenty.

Liability of employer's agent.

[Irish Education Act, 1892, sec. 6 (1).]

15. When the act of taking a boy into employment in contravention of this Act is in fact committed by an agent or workman of the employer, that agent or workman shall be liable to the same penalty, in the same manner, and subject to the same conditions as if he were the employer.

Exemption from compulsory education.

16. The Local Government may exempt particular classes or communities from the operation of this Act.

Application of Act to girls.

17. In any area in respect of which a notification has been issued under section 3, the Municipality or District Board may, with the previous sanction of the Local Government and subject to such rules as the Governor-General in Council may make in this behalf, by notification declare that the foregoing provisions relating to boys, shall, from a date to be specified in the notification, apply also in the case of girls residing within such area, and the said provisions shall apply in the case of girls accordingly.

Governor-General in Council to make rules.

18 (1) The Governor-General in Council may make rules for carrying out the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for—

(a) the fixing of the percentage of boys, or of girls that should be at school in an area before a notification in respect thereof may be issued under section 3 or section 17, as the case may be; and

(b) the prescribing of the proportions in which the cost of providing elementary education under this Act should be divided between the Municipality or District Board and the Local Government, as the case may be.

(3) The power to make rules under this section shall be subject to the condition of the rules being made after previous publication.

Power to make bye-laws.

19. A Municipality or District Board may, with the previous sanction of the Local Government, make bye-laws prescribing—

(a) the manner in which the school attendance committee should be constituted, the number of its members, their duties and their mode of transacting business,

(b) the steps which the school attendance committee may take to secure the attendance of children at school,

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the gradual introduction of the principle of compulsion into the elementary education system of the country. The experience of other countries has established beyond dispute the fact that the only effective way to ensure a wide diffusion of elementary education among the mass of the people is by a resort to compulsion in some form or other. And the time has come when a beginning at least should be made in this direction in India. The Bill is of a purely permissive character and its provisions will apply only to areas notified by Municipalities or District Boards, which will have to bear such proportion of the increased expenditure, which will be necessitated, as may be laid down by the Government of India by rule. Moreover no area can be notified without the previous sanction of the Local Government, and further it must fulfil the test which the Government of India may, by rule, lay down, as regards the percentage of children already at school within its limits. Finally the provisions are intended to apply in the first instance only to boys, though later on a Local Body may extend them to girls; and the age limits proposed are only six and ten years. It is hoped that these are sufficient safeguards against any rash or injudicious action on the part of Local Bodies. The measure is essentially a cautious one—indeed, to some, it may appear to err too much on the side of caution.

The provisions of the Bill are based largely on the Irish Education Act of 1892 and the English Education Acts of 1870 and 1876.

Clauses 1 and 2 call for no remark.

Clause 3 provides for the application of the provisions of the Bill to notified areas.

Clause 4 imposes on the parent or guardian of a boy in a notified area, between the ages of six and ten the obligation to cause him to attend a recognised elementary school in the absence of a reasonable excuse, and clause 5 lays down what circumstances may constitute a reasonable excuse.

Clause 6 prohibits the employment by employers of labour, of a boy who should be at school under the provisions of the Bill.

Clause 7 requires Municipalities and District Boards to provide sufficient school accommodation in a notified area, and clause 8 empowers them, subject to the previous sanction of the Local Governments, to levy a special education rate.

Clause 9 provides for the exemption of poor parents and guardians from the payment of school fees for their boys.

Clause 10 provides for the appointment of school attendance committees in notified areas.

Clauses 11 to 15 provide penalties and the proceedings to be taken for their enforcement in the case of parents and guardians, failing without reasonable excuse to cause their boys to attend school, as required by the Bill, and of employers and their agents or workmen, acting in contravention of the provisions of the Bill.

Clause 16 enables the Local Government to exempt particular classes or communities from the operation of the Bill.

Clause 17 provides for the extension of the provisions of the Bill to girls between the ages of six and ten.

Clauses 18 and 19 provide for the making of rules by the Government of India and of bye-laws by Local Bodies.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on 17th March 1911:—

NO. 9 OF 1911.

A Bill to Define the rights of the Mussulman subjects of His Majesty to make settlements of property by way of wakf *in favour of their families and descendants.*

WHEREAS doubts have arisen regarding the validity of *wakfs* or settlements created by persons professing the Mussulman faith in accordance with the laws and customs as permanent benefactions for themselves, their families and descendants with an ultimate reversion in favour of the general body of the poor or for other religious, pious or charitable purposes; and whereas it is expedient to remove such doubts and define the limits within which such *wakfs* may validly be created; It is hereby enacted as follows:—

Short title.

1. (*1*) This Act may be called the Mussulman Wakf Validating Act, 191 .

(*2*) It extends to the whole of British India.

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,—

(1) "will" means the legal declaration of the intentions of the testator which he desires to take effect after his death:

(2) "signed" applies to the affixing of a mark:

(3) "registered" means registered in British India under the law for the time being in force regulating the registration of documents:

(4) "Registrar" means the officer appointed by the Local Government for the purpose of registering documents:

(5) "minor" means any person who shall not have attained the age of majority under the Indian Majority Act, 1875: IX of 1875.

(6) "immoveable property" includes lands and buildings, hereditary allowances and all rights and benefits arising out of land:

(7) "moveable property" includes stocks, shares, securities and actionable claims as defined in the Transfer of Property Act, 1882, and property of every description except immoveable property: IV of 1882.

(8) "*wakf*" means the dedication or settlement by a person professing the Mussulman faith of any property, moveable or immoveable, for any purpose regarded as religious, pious or charitable by the Mussulman law, and implies a permanent relinquishment of all proprietary right therein:

(9) "wakif" means the person making such dedication or settlement:

(10) "*wakfnama*" means the instrument by which the dedication or settlement is purported to be effected:

(11) "mutwalli" means a person who is appointed for the administration of a *wakf*: and

(12) "a Hanafi Muhammadan" means a follower of the Mussulman faith who conforms to the tenets and doctrines of the Hanafi School of Mussulman law.

Power to create *wakfs*.

3. Subject to the provisions of this Act, it shall be lawful for any person professing the Mussulman faith, not being a minor or of unsound mind, to create a *wakf* for among others the following purposes :—

(*a*) for the maintenance and support, wholly or partially, of his family, his children and descendants ; and

(*b*) where the *wakif* is a Hanafi Mussulman, for his own support and maintenance during his lifetime or for the payment of his debts out of the rents and profits of the property dedicated :

Provided always that the ultimate reversion is, in such cases, expressly or impliedly reserved for the poor, or for some other religious, pious or charitable purpose of a permanent character.

Invalidity of certain *wakfs*.

4. No *wakf* intended to take effect in the lifetime of the *wakif* shall be valid unless it is constituted by a *wakfnama* in writing signed by the person purporting to create the *wakf*, and attested by two or more witnesses and registered as hereinafter provided.

Registration.

5. Every such *wakfnama* shall be presented for registration in accordance with the provisions of the law in force for the time being within four months from the date of its execution ; and if the registering officer is satisfied that the requirements of this Act with reference thereto have been duly complied with, he shall register the same, and the *wakf* shall come into operation retrospectively from the date of its execution.

Papers to be attached to *wakfnama* on registration.

6. To every *wakfnama* presented for registration as aforesaid there shall be attached—

(*a*) a schedule containing a full specification of the property or properties intended to be comprised in the *wakf*, with a statement of the value thereof to the best of the executant's knowledge and belief ;

(*b*) a schedule of any other property owned by him and the value thereof to the best of his knowledge and belief ;

(*c*) a schedule of any charge or charges by way of mortgage or otherwise created by him on the property intended to be comprised in the *wakf*, or by any person through or under whom he derives title thereto, and any decree or decrees outstanding against him or such persons in execution of which such property is liable to be sold.

When registration to be performed.

7. (1) If the Registrar is satisfied upon the aforesaid documents, which shall be verified according to law, or upon such further evidence as for the purpose hereinmentioned he may require to be produced before him, that the other charges and decrees (if any) mentioned in section 6 do not cover the entire property intended to be comprised in the *wakf* or that the other property of the *wakif* is sufficient in his opinion to satisfy those charges and decrees, he shall record a finding to that effect and forthwith register the *wakfnama*.

(2) For the purposes of the inquiry under this section it shall be lawful for the Registrar to examine the executant and witnesses on oath or affirmation, and the provisions of the Indian Registration Act, 1908, regarding the enforcing of their appearance shall be applicable to all such proceedings. XVI of 190

Refusal to register.

8. If the Registrar finds upon inquiry that the said charges or decrees, if any, exceed the value of the property intended to be dedicated, and that the *wakif* has no other property to satisfy such liabilities, he shall refuse to register the document and record his reasons therefor.

Appeal.

9. In case of such refusal an appeal shall lie from the order of the Registrar to the officer authorized by law to hear appeals from such orders if presented within thirty days from the date thereof ; and such officer may alter or reverse such order or make any other order that he considers just under the circumstances.

When *wakf* to take effect after *wakif's* death.

10. Where a *wakf* is intended to take effect after the death of the *wakif*, it shall be constituted by a will in writing signed by him and attested by two or more witnesses.

Registration of will.

11. Such will may be presented for registration either by the testator or by the person claiming to act as executor or mutwalli or beneficiary thereunder ; and the provisions of Part VIII of the Indian Registration Act, 1908, and of sections 6 and 7 of this Act shall be applicable to all proceedings for obtaining the registration of such will. XVI of 1908.

Penalties.

12. The penalties provided under the Indian Registration Act, 1908, for offences thereunder shall apply to offences committed under this Act. XVI of 1908.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to remove disability and great hardship that has been created by the recent decisions of the Privy Council in *Abul Fata Mahomed Ishak and others* v. *Russomoy Dhur Chowdhry and others*, L. R. 22 Ind. Ap. 76 and other cases. The power of a Mussalman to make a settlement for or in favour of his family, children and descendants or what is known as wakf-alal-aulad to the Mussalman Law is paralysed.

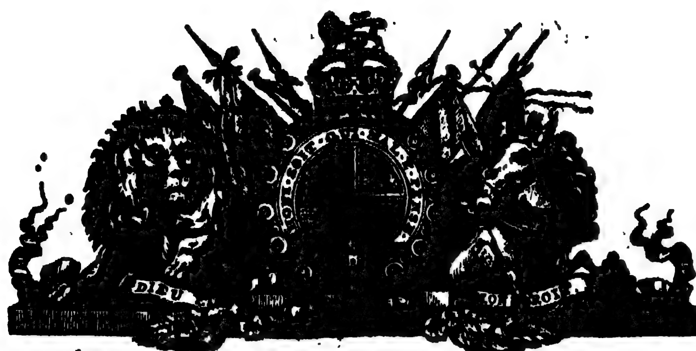
In the case above cited it was hold that under Mussalman Law a perpetual family settlement expressly made as wakf is not legal and valid merely because there is an ultimate gift to the poor and it confirmed the decision in *Ashunulla Chowdhry* v. *Amarchand Kundu*, reported in L. R. 17 Ind. Ap. 37, the principle of which was approved in a subsequent case of *Abdul Gufur* v. *Nizamudin*, L. R. 19 Ind. Ap. 170, where it was laid down that a gift is not good as wakf unless there is a substantial dedication of the property to charitable uses at some period of time or other.

The decision does not fix any limit of time, it simply says "some period of time or other". It does not define what is "substantial dedication". Thus it introduces the greatest uncertainty in the law, and is generally opposed to the true principles and correct exposition of the Mussalman jurisprudence. This Bill is intended only to reproduce the Mussalman law of wakf-alal-aulad in a codified form with certain safeguards for the authenticity of the wakfnama and for prevention of fraud upon creditors or otherwise.

It is not intended to codify or define the general Law of wakf which must be governed by the Mussalman Law. The Bill is a simple one and the important provisions are as follows :—

Clause 3—Defines the power of a person professing Mussalman faith to create wakf.

Clauses 4 and 5—Are intended to secure authenticity of wakfnama and prevent fraud upon creditors or otherwise.



Clause 10—Deals with testamentary wakf.

Clause 11—Deals with registration of wills and empowers the persons mentioned therein to have the will registered.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR FEBRUARY 1911.

Character of the season.—During the month under report light showers fell in Darjeeling and in all the districts of the Orissa, Presidency and Burdwan Divisions except Sambalpur and Bankura. The fall was below the normal everywhere except in Cuttack, where it was in excess. The usual rainfall table is appended.

II. *Progress of agricultural operations.*—Pressing of sugarcane and preparation of lands for the next season's crops continued during the month. Harvesting of oilseeds and pulses was in progress. Planting of sugarcane commenced in some districts.

III. *State of standing crops.*—The standing *rabi* crops were in good condition. The rainfall received in January and in the beginning of February proved beneficial to the wheat crop, especially in Bihar. Prospects of the crop are reported to be good, especially in Bihar and Chota Nagpur.

IV. *Prospects and probable outturn of harvest.*—Prospects of the *rabi* crops are good. The outturn of the spring oilseed crops has been good and that of wheat crop has been excellent. The outturn of the wheat and spring oilseed crops for the whole Province is estimated at 105 and 100 per cent. of the normal respectively.

V. *Damage to crops.*—There was no damage to standing crops.

VI. *Condition of agricultural stock.*—The condition of cattle was satisfactory. Cases of cattle disease were reported from Burdwan, Birbhum, Midnapore, Patna, Gaya, Muzaffarpur, Bhagalpur, Purnea, the Sonthal Parganas and from all the districts of the Orissa and Chota Nagpur Divisions except Balasore.

VII. *Failure of pasturage and fodder.*—Insufficiency of fodder was reported from parts of Midnapore and the Sonthal Parganas. The supply of water was sufficient except in parts of Midnapore.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of rice rose in twelve and fell in four districts. It varied from 11 seers a rupee in Howrah, the 24-Parganas, Calcutta and Darjeeling to 18¾ seers in Angul. The price of food-grains was generally easier than during the corresponding period of last year.

IX. *Condition of agricultural people.*—Agriculturists are in good condition. The autumn and winter harvests have been good. Prospects of the *rabi* harvest are hopeful.

GENERAL SUMMARY.—The rainfall was general all over the Province except Cooch Behar. The fall was heavy in the Burdwan, Presidency and Chota Nagpur Divisions and also in Gaya, Shahabad, Bhagalpur, Balasore, Angul and Sambalpur and light to moderate elsewhere. The recent rainfall has facilitated ploughing operations but has damaged the standing *rabi* crops in Murshidabad and Shahabad. Damage by hail is reported from Sambalpur and Palamau. Pressing of sugarcane is still in progress. Planting of sugarcane, harvesting of *rabi* crops and preparation of lands for the next season's crops continue. The price of common rice has risen in Midnapore, Jessore, Patna, Gaya, Champaran, Monghyr, Puri, Hazaribagh, Ranchi and Cooch Behar and has fallen in Burdwan, Murshidabad, Shahabad, Darbhanga and Angul. Cattle-disease is reported from Burdwan, Midnapore, Murshidabad, Gaya, Muzaffarpur, the Sonthal Parganas and from all the districts of the Orissa and Chota Nagpur Divisions except Cuttack, Balasore, Ranchi and Singhbhum. Fodder is reported to be scarce in parts of the Sonthal Parganas. The supply of water is ample throughout the Province except in parts of Burdwan.

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF FEBRUARY 1911.

In February light showers of rain were received in Darjeeling and in all the districts of South-West Bengal and Orissa, Bankura and Sambalpur excepted, where there was no rain. Chota Nagpur and districts of Bihar other than Darjeeling were rainless. Cuttack received a fall in excess of the normal, otherwise the fall was deficient. On an average South-West Bengal received 0·14 inch and Orissa 0·61 inch of rain. Bihar and Chota Nagpur were rainless.

The following table gives the Summary of the Rainfall data of each of the four Meteorological Divisions of the Province of Bengal for the month of February 1911:—

No. 1408L.R.—The 26th March 1911.—In exercise of the power conferred by sub-section (6) of section 190 of the Bengal Tenancy Act, 1885 (Act VIII of 1885), the Lieutenant-Governor in Council is pleased to direct that the following amendments be made in the rules under the said Act, as extended to the districts of Cuttack, Puri and Balasore, published under Notification No. 3474L.R., dated the 2nd September 1908, at pages 1507 to 1525, Part I, of the *Calcutta Gazette* of the 9th idem:—

Substitute the following for the existing rules bearing the same numbers:—

CHAPTER III.--LANDLORDS' IMPROVEMENTS.

Application for registration of improvements: to whom to be presented.

13. *Section 80.*—An application for the registration of landlords' improvements may be presented to the Collector of the district, or to the officer in charge of the subdivision, in which the land benefited by the improvement is situated, or to any Assistant or Deputy Collector who may be specially appointed by Government to receive such application. The application shall, as far as practicable, be in the form (Form 1) specified in Schedule I appended to these rules, and the requisite information shall be submitted, along with the application, in the form of List A, appended to the said Form 1.

13A. Alternative methods of filling up columns 12 to 16 of List A are provided. The first method is intended for cases in which only a small number of holdings are benefited, and the second for cases in which the whole village or a considerable proportion of the holdings is benefited. It will be open to the applicant, in the first instance, to select the method which appears to him more appropriate; but if he selects the second method, the revenue officer may, if he thinks fit, require List A to be filled up in the first method. If the revenue officer admits the application he will at the same time pass orders to the applicant to submit notices in Form 19 on tenants or villages concerned, in sufficient number to meet the requirements of these rules.

14. The officer receiving the application may either reject the application under section 80 (*3*) or may admit it. If the application is admitted, a local inquiry will be held. A date will be fixed for that inquiry, and the applicant or his agent will be informed of this date and of the approximate hour when the enquiry will be held. Notices in Form 19 will be sent to the tenants (if any) whose names are entered in column 12 of List A. In addition a notice in Form 19 will be served in each village concerned. In this notice will be specified the date and approximate hour when the inquiry will be held in that village, and the tenants concerned therein will be directed to attend the inquiry. The notice will be published locally by proclamation and beat of drum, and will be fixed up in the presence of not less than two persons in some conspicuous place in the village. The service of the notice must be attested by at least two residents of the village (or, in the case of a *bechappar* village, of a contiguous village), on the back of the duplicate notice. Special care must be taken to ensure that with each notice is appended a correct copy of List A or the extracts therefrom which refer to the village or tenant addressed in the notice.

The expense of sending and publishing notices under this rule and under rule 16 shall be borne by the applicant.

15. The Collector or subdivisional officer who received the application may transfer the case to the file of another officer empowered to receive such applications. If it is not so transferred, he may either make the local inquiry himself, or he may direct it to be made by an officer not below the rank of Sub-Deputy Collector. When the officer who receives the application is not the Collector or a subdivisional officer, he may in a similar manner transfer the case or direct a local inquiry, with the consent of the Collector or subdivisional officer. This local inquiry will be held on the day and time specified in the notice. Such of the parties and their witnesses as attend and may desire to give evidence shall be examined, and such inspection of the land concerned as is considered necessary shall be made. In the record of this inquiry it shall be clearly stated which of the tenants were examined; and if any offered themselves for examination and were not examined, their names and the reasons for not examining them shall be recorded. The inquiring officer must make an inquiry in each village the lands of which are affected by the improvement.

16. The officer who has received the application shall then either forthwith, or, if further inquiry is necessary, after giving notice of such further inquiry to the parties concerned, and holding such inquiry or causing it to be held by an officer not below the rank of Sub-Deputy Collector, who is empowered to receive such application, proceed to pass orders on the case.

Further inquiry, if any, and disposal of the case.

17. In passing orders he shall decide *inter alia* whether the improvement is of such a nature as to come within the meaning of section 76 of the Bengal Tenancy Act or not; whether the landlord is entitled to register it; whether it falls under sub-clause (e) of that section, and, if so, whether any enhancement of rent is being paid for the original improvement, and whether the cost of improvement and the date of completion have been correctly stated in the application.

Circumstances to be taken into consideration in disposing the case.

18. If an order refusing to register an improvement is passed by an officer lower in rank than the Collector of the district, such order shall not take effect till confirmed by the Collector.

Confirmation of order of refusal passed by officer lower in rank than Collector.

Substitute the following form for Form No. 1 in Schedule I appended to the rules :—

DECLARATION.

No. 889J.—The 28th March 1911.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the support of the Saltore siding of the Bengal-Nagpur Railway between mile 193 feet 1,885 and mile 193 feet 4,688, and whereas coal mines are situate under the said land, and whereas the Saltore Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the Deshergarh seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Saltore Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal in Council is pleased to declare, under section 5, sub-section (2), clause (*b*), of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Saltore Coal Company, Limited, in the manner and subject to the restrictions below specified, viz:—

(*a*) Galleries may be driven not less than 92 feet apart centre to centre in the direction of full dip and not less than 72 feet apart centre to centre in the direction of strike, leaving solid pillars of coal 80 feet by 60 feet for the support of the acquired land.

(*b*) These galleries shall not exceed 12 feet in width and 10 feet in height except that the main shaft levels driven from the shafts in the direction approximately of the strike of the seam, shall not exceed 13 feet in width.

(*c*) Refuge holes of the prescribed size may be made where required by any rule made under the Indian Mines Act, 1901.

(*d*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*e*) This declaration applies to the Dishergarh seam only and to the area edged with pink on the plan and the Saltore Coal Company, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land, and that in all the above cases except in compliance with the above conditions, no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L. A. M.A., No. 176, signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

E. P. CHAPMAN.

DECLARATION.

No. 893J.—The 28th March 1911.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for such portion of the Simlabahal Spur siding No. 5A, which takes off the Simlabahal siding and main line of the Bengal-Nagpur Railway and lies between mile 203, furlong 3, feet 201, and mile 203, furlong 4, feet 529, and whereas coal mines are situate under the said land, and whereas the Bhalgora Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 15 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bhalgora Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal in Council is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Bhalgora Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.:—

(a) No coal shall be extracted from the areas cross shaded in yellow on the plan.

(b) Where the distance from the surface to the top of the gallery, if driven, is from 50 feet to 150 feet, galleries shall be driven with 40 feet centres.

2. Where the distance from the surface to the top of the gallery, if driven, is 150 feet to 200 feet, galleries shall be driven with 50 feet centres.

3. Where the distance from the surface to the top of the gallery, if driven, is more than 200 feet, galleries shall be driven with 60 feet centres.

(c) No galleries shall exceed 12 feet in width by 12 feet in height, except that all main pit level galleries driven out from shafts shall not exceed 14 feet in width by 10 feet in height.

(d) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(e) These restrictions shall apply to No. 15 seam only and to the area edged with pink on the plan L A M A No. 175, and the Bhalgora Coal Company, Limited, shall give notice, under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under this area, or to work coal under any other area of acquired land.

The following Royal Proclamation is published for general information:—

BY THE KING-EMPEROR.

A ROYAL PROCLAMATION

FOR APPOINTING A DAY FOR THE CELEBRATION IN HIS MAJESTY'S INDIAN DOMINIONS OF THE SOLEMNITY OF THE CORONATION OF HIS MAJESTY.

Whereas upon the death of Our late Sovereign of happy memory King Edward, upon the sixth day of May in the Year of Our Lord one thousand nine hundred and ten, we did ascend the throne under the style and title of George the Fifth, by the Grace of God, King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Defender of the Faith, Emperor of India;

And whereas, by Our Royal Proclamations bearing date the 19th day of July and the 7th day of November in the Year of Our Lord one thousand nine hundred and ten in the First Year of Our Reign, we did publish and declare Our Royal intention, by the Favour and Blessing of Almighty God, to celebrate the Solemnity of Our Royal Coronation upon the twenty-second day of June one thousand nine hundred and eleven;

And whereas it is Our wish and desire Ourselves to make known to all Our loving Subjects within Our Indian Dominions that the said Solemnity has so been celebrated, and to call to Our Presence Our Governors, Lieutenant-Governors, and other of Our Officers, the Princes, Chiefs, and Nobles of the Native States under Our Protection, and the Representatives of all the Provinces of Our Indian Empire:

Now We do, by this Our Royal Proclamation, declare Our Royal intention to hold at Delhi on the twelfth day of December, one thousand nine hundred and eleven, an Imperial Durbar for the purpose of making known the said Solemnity of Our Coronation; and We do hereby charge and command Our right trusty and well-beloved Counsellor, Charles, Baron Hardinge of Penshurst, Our Viceroy and Governor-General of India, to take all necessary measures in that behalf.

Given at Our Court at Buckingham Palace, this twenty-second day of March, in the Year of Our Lord one thousand nine hundred and eleven, and in the first Year of Our Reign.

GOD SAVE THE KING-EMPEROR.

1. The examination is held annually at the Civil Engineering College, Sibpur, on the first Monday in June. The examination will be conducted, either at the College, or by an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project), in Bengal, Eastern Bengal and Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the *place* and *hour* of examination, with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2. The candidate should apply to an Accountant-General not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates and registration form duly filled in and must be forwarded by him, not direct to the Principal, but through the Accountant-General.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age, baptismal or of birth (not required, if the candidate is already in permanent Government employ.)

(3) Certificate that the application is in the candidate's hand-writing.

(4) Registration statement containing the following information:—

(a) Name in full.
(b) Father's name.
(c) Nationality or class, *i.e.*, European, Eurasian or Indian, of candidate; and, if Indian, caste or tribe.
(d) Date of birth.
(e) Plrace of birth.
(f) Pesent address.
(g) Examinations passed.
(h) Thumb mark of candidate, left hand, to be made in the presence of a responsible person who knows candidate.
(k) Signature and address of above-mentioned witness.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project) qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Accountant-General, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Accountant-General will then forward to the Principal for registration the names of the accepted candidates, together with their registration statements, which should be signed by the Accountant-General. The registration statements should be carefully

preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Accountant-General. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Comptroller-General, but, direct to the Accountant-General or Government Examiner of Railway Accounts in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Comptroller and Auditor-General.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by the fee of rupees ten and the Registration statement prescribed in Rule 2 (4).

SIBPUR,
The 27th March 1911.

P. BRÜHL,
Offg. Principal, Civil Engineering College.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

REFERENCE is invited to the syllabus of studies for standards III to VI published with Government Resolution No. 109-T.G., dated 20th April 1909.

2. As the course in Arithmetic prescribes the use of English figures throughout the main syllabus, intending authors of text-books were advised by public notification (*vide Calcutta Gazette* of 20th and 27th March 1910) to provide a table in the beginning of their books, giving the vernacular equivalents of the English numerals 0, 1, 2, 3, 4, 5, 6, 7, 8, 9.

3. It was explained that the provision of such a table was necessary in consideration of the possibility that the employment of English figures in the main Arithmetic syllabus, which will be applicable to all classes of schools, High, Middle and Upper Primary, might otherwise constitute a difficulty in purely vernacular schools.

4. It was at the same time pointed out that the vernacular notation should be used in the additional *Subhankari* syallabus to be taught in Middle Vernacular and Upper Primary schools.

5. It is not the intention to supersede the use of vernacular figures and symbols in Middle Vernacular and Upper Primary schools and there should be no difficulty in substituting, with the help of the table referred to above, the vernacular equivalents of the English figures employed in the Arithmetic text-books in purely vernacular schools.

6. English figures are only intended to be used in standards III to VI of Middle English and High schools, as the bulk of the pupils in these schools are understood to be preparing for classes I to IV of a High school in which English will be the medium of instruction, the object being to familiarise the pupils with the use of English figures from as early a stage as possible.

NOTIFICATION.

Elliott Prize for Scientific Research for 1911.

WITH reference to Notification No. 5058F. in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Elliott Prize for Scientific Research will be given to the author of the best original essay prepared during the year, giving the results of original research or investigation by the essayist, in Physical, Chemical, Mathematical and Natural Sciences.

2. No prize having been awarded during the last three years, the Trustees have specially sanctioned the award of four prizes for the year 1911 for essays showing original work or investigation in the aforesaid subjects.

3. Any Native of Bengal or of the districts of Dacca, Mymensingh, Backerganj, Faridpur, Rajshahi, Rangpur, Dinajpur, Jalpaiguri, Bogra, Pabna, Malda, Chittagong (including Chittagong Hill Tracts), Noakhali and Tippera (including Hill Tippera), or any Eurasian or domiciled European, residing in Bengal or the aforesaid districts, may compete for the prize.

4. The essays of competitors must be sent to the President of the Asiatic Society of Bengal, 1, Park Street, Calcutta, by the end of December 1911. The prizes will be adjudged to the best competitor or competitors and awarded publicly at the ordinary annual meeting of the Asiatic Society of Bengal in February 1912.

5. Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 2nd May 1911, corresponding to 19th of Baishak 1318 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The Cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 22nd March 1911, and is hereby promulgated for general information:—

ACT No. X OF 1911.

An Act to consolidate and amend the law relating to the prevention of public meetings likely to promote sedition or to cause a disturbance of public tranquillity.

WHEREAS it is expedient to consolidate and amend the law relating to the prevention of public meetings likely to promote sedition or to cause a disturbance of public tranquillity; It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Prevention of Seditious Meetings Act, 1911.

(*2*) It extends to the whole of British India, but shall have operation only in such Provinces or parts of Provinces as the Governor General in Council may from time to time notify in the Gazette of India.

Power of Local Government to notify proclaimed areas.

2. (*1*) The Local Government may, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, declare the whole or any part of a Province, in which this Act is for the time being in operation, to be a proclaimed area.

(*2*) A notification made under sub-section (*1*) shall not remain in force for more than six months, but nothing in this sub-section shall be deemed to prevent the Local Government, with the previous sanction of the Governor General in Council, from making any further notifications in respect of the same area from time to time as it may think fit.

Definition.

3. (*1*) In this Act, the expression "public meeting" means a meeting which is open to the public or any class or portion of the public.

(*2*) A meeting may be a public meeting notwithstanding that it is held in a private place and notwithstanding that admission thereto may have been restricted by ticket or otherwise.

Notice to be given of public meetings.

4. (*1*) No public meeting for the furtherance or discussion of any subject likely to cause disturbance or public excitement or for the exhibition or distribution of any writing or printed matter relating to any such subject shall be held in any proclaimed area—

(*a*) unless written notice of the intention to hold such meeting and of the time and place of such meeting has been given to the District Magistrate or the Commissioner of Police, as the case may be, at least three days previously; or

(*b*) unless permission to hold such meeting has been obtained in writing from the District Magistrate or the Commissioner of Police, as the case may be.

Power of Magistrate to cause report to be taken.

(*2*) The District Magistrate or any Magistrate of the first class authorized by the District Magistrate in this behalf may, by order in writing, depute one or more Police-officers,

not being below the rank of Head Constable, or other persons to attend any such meeting for the purpose of causing a report to be taken of the proceedings.

Exception.

(3) Nothing in this section shall apply to any public meeting held under any statutory or other express legal authority or to public meetings convened by a Sheriff or to any public meetings or class of public meetings exempted for that purpose by the Local Government by general or special order.

Power to prohibit public meetings.

5. The District Magistrate or the Commissioner of Police, as the case may be, may at any time, by order in writing, of which public notice shall forthwith be given, prohibit any public meeting in a proclaimed area if, in his opinion, such meeting is likely to promote sedition or disaffection or to cause a disturbance of the public tranquillity.

Penalties.

6. (1) Any person concerned in the promotion or conduct of a public meeting held in a proclaimed area contrary to the provisions of section 4 shall be punished with imprisonment for a term which may extend to six months, or with fine, or with both.

(2) Any public meeting which has been prohibited under section 5 shall be deemed to be an unlawful assembly within the meaning of Chapter VIII of the Indian Penal Code and of Chapter IX of the Code of Criminal Procedure, 1898. XLV of 18[illegible] V of 1898.

Penalty for delivery of speeches in public places.

7. Whoever, in a proclaimed area, in a public place or a place of public resort, otherwise than at a public meeting held in accordance with, or exempted from, the provisions of section 4, without the permission in writing of the Magistrate of the District or of the Commissioner of Police, as the case may be, previously obtained, delivers any lecture, address or speech on any subject likely to cause disturbance or public excitement to persons then present, may be arrested without warrant and shall be punished with imprisonment for a term which may extend to six months, or with fine, or with both.

Cognizance of offences.

8. No Court inferior to that of a Presidency Magistrate or of a Magistrate of the first class or Sub-divisional Magistrate shall try any offence against this Act.

Repeals.

9. The Prevention of Seditious Meetings Act, 1907, and the Continuing Act, 1910, are hereby repealed. VI of 190[illegible] XVII of 1[illegible]

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

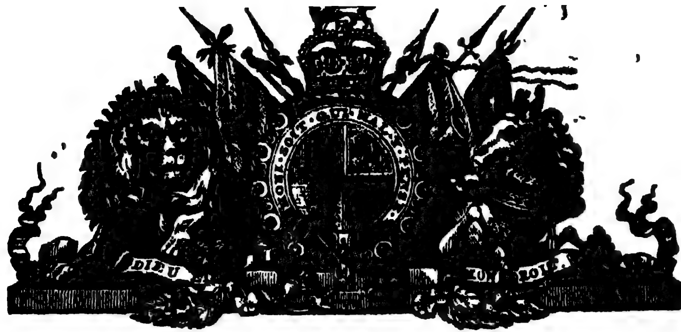
The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1911, and is hereby promulgated for general information:—

ACT NO. XI OF 1911.

An Act to amend the Indian Universities Act, 1904.

904. WHEREAS it is expedient to amend the Indian Universities Act, 1904; It is hereby enacted as follows:—

Short title.



1. This Act may be called the Indian Universities (Amendment) Act, 1911.

Amendment of section 6, Act VIII of 1904.

2. To section 6, sub-section (2), of the said Act, the following proviso shall be added, namely:—

"Provided that, in the case of the University of Allahabad, the Chancellor may direct that such number as he may specify of the ordinary Fellows referred to in clause (*a*) shall be elected by the Senate, and the remainder by registered Graduates."

J. M. MACPHERSON,
Secretary to the Government of India.
